The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received a Despatch from Her Majesty's Consul at Rotterdam, enclosing the translation of an extract from the *Staats Courant*, being a Notice to Mariners, issued by the Netherland Minister of Marine relative to a New Lighthouse, which has been erected on the West Harbour Head of Helvoetsluys.

Marine Department.

NOTICE TO MARINERS.

The Minister of Marine hereby gives notice, that on the lighthouse, situated on the West Harbour-head of Helvoetsluys, a catadioptric lighting apparatus of the 4th size has been erected, to replace the Argand Lamp light formerly exhibited there: the new light will be visible at a distance of fully two geographical miles, and will illuminate the horizon from the N.W. $\frac{1}{2}$ N., through the west and south to east, by unadjusted compass.

Vessels coming in, which by the indication of the red part of the Coast Light of Goedereede, cross the North Pampus, will by the obscuration of the Light of Helvoetsluys, in the direction of N.W. $\frac{1}{2}$ N., know that they have passed that bank (the North Pampus), about a cable's length; in most cases, however, this obscuration will have to be taken observation of eight or ten ells above the ship's deck, on account of the height of the sand hills near the Kwak.

TREASURY WARRANT.

Whereas by an Act, passed in the fourth year of the reign of Her present Majesty, intituled "An Act for the regulation of the duties of postage," power is given to the Postmaster-General to remit any of the rates of British postage for the time being, payable by law on the transmission of post letters, newspapers, or other printed papers, to such extent as the Lords of the Treasury shall from time to time direct; and power is also given to the Commissioners of Her Majesty's Treasury from time to time, by Warrant under their hands,

to alter and fix any of the rates of British or Inland postage, payable by law on the transmission by the post of Foreign or Colonial letters or newspapers, or any other printed papers, and to subject the same to rates of postage according to the weight thereof, and a scale of weight to be contained in such Warrant.

And whereas it is expedient that regulations should be made for the transmission by the post of the letters hereinafter mentioned.

Now we, the Commissioners of Her Majesty's Treasury, in exercise of the power or authority in us for such purpose vested in and by the said Act, and of all other powers enabling us in this behalf, do by this Warrant (under the hands of two of us the said Commissioners, by the authority of the statute in that case made and provided) order and direct, that on every letter not exceeding one quarter of an ounce in weight, posted in or addressed to any part of the United Kingdom, and sent from or to any commissioned Officer employed in Her Majesty's Foreign Legion, in Heligoland, transmitted by the post between any place in the United Kingdom and Heligoland, direct or viâ Hamburgh, direct or viâ Belgium, Prussia, and Hamburgh (the sea conveyance being either by packet-boat or private ship), there shall be charged and taken, in lieu of any rates of postage now payable by law on such letters, a uniform rate of three pence (which shall include any foreign postage that may be payable thereon).

And we further order and direct, that on every letter not exceeding one quarter of an ounce in weight, posted in or addressed to any part of the United Kingdom, and sent from or to any non-commissioned officer, serjeant, corporal, drummer, trumpeter, fifer, or private soldier, employed in Her Majesty's Foreign Legion, in Heligoland,

transmitted by the post between any place in the United Kingdom and Heligoland, direct or viâ Hamburgh, direct or viâ Belgium, Prussia, and Hamburgh (the sea conveyance being either by packet-boat or private ship), there shall be charged and taken, in lieu of any rates of postage now payable by law on such letters, a uniform rate of three pence (which shall include any foreign postage that may be payable thereon).

And we direct, that on every letter transmitted as is mentioned in this Warrant, exceeding a quarter of an ounce in weight, there shall be charged, taken, and paid, in lieu of any rates of postage now payable by law on such respective letters, progressive and additional rates of postage as follows ; that is to say :

On every letter exceeding a quarter of an ounce in weight, and not exceeding half an ounce in weight, two rates of postage.

On every letter exceeding half an ounce in weight and not exceeding three quarters of an ounce in weight, three rates of postage.

On every letter exceeding three quarters of an ounce in weight, and not exceeding one ounce in weight, four rates of postage.

And for every quarter of an ounce in weight above the weight of one ounce, there shall be charged and taken one additional rate of postage; and every fraction of a quarter of an ounce above the weight of one ounce shall be charged as an additional quarter of an ounce ; and each progressive and additional rate, chargeable under this clause, shall be estimated and charged at the sum which any such letter would be charged with under the provisions hereinbefore contained, if not exceeding one quarter of an ounce in weight.

And we further direct, that in respect of letters sent by any non-commissioned officers, serjeants, corporals, drummers, fifiers, or private soldiers, under the regulations of this Warrant, the following conditions shall be observed; that is to say: upon each such letter shall be superscribed the name of the writer, and his class or description in the regiment or detachment to which he shall belong; and upon every such letter there shall be written in the handwriting of, and signed by, the officer having at the time the command of the regiment or detachment to which the privileged person belongs, the name of such officer and the name of such regiment or detachment.

And we further direct, that in respect to letters received by the post under this Warrant by any commissioned officers or any non-commissioned officers or private soldiers, the following conditions shall be observed; that is to say: the postage of each such letter posted in the United Kingdom shall be prepaid, either in money or by the proper stamp or stamps being affixed thereto, at the time of the same being posted; and as to letters received by any non-commissioned officers or private soldiers, each letter shall be directed to the privileged person, specifying on the superscription thereof, the regiment or detachment to which he shall belong.

And we further direct, that if the postage of any such letter posted in the United Kingdom shall not be prepaid either in money or by stamps, when posted, the same shall not be forwarded by the post; and that if in any case any other of the conditions hereinbefore prescribed be not complied with, the letter shall be charged with the same rates of postage as if this Warrant had not been signed.

And we further direct, that nothing herein con-

tained shall be construed in anywise to annul, prejudice, or affect any of the exemptions and privileges granted by or under the said recited Act; and that all such exemptions and privileges shall remain in full force.

And we further direct, that the several terms and expressions used in this Warrant shall be construed to have the like meaning in all respects as they would have had if inserted in the said recited Act.

Provided lastly, and we hereby declare and direct, that it shall be lawful for the Commissioners for the time being of Her Majesty's Treasury, or any two of them, by Warrant under their hands, at any time hereafter, to alter or repeal any of the rates hereby altered, or the regulations hereby made, and to make and establish any new or other rates or regulations in lieu thereof, and from time to time to appoint at what time the rates that may be payable are to be paid.

TREASURY WARRANT.

Whereas by an Act, passed in the fourth year of the reign of Her present Majesty, intituled "An Act for the regulation of the duties of postage," it was enacted (amongst other things) that printed newspapers might be sent free of postage, or liable to postage according to certain regulations and rates in the said Act set forth. And it was by the said Act provided that the Postmaster-General might remit any of the rates of British postage or inland postage for the time being payable by law on the transmission of post

letters, newspapers, or other printed papers, to such extent as the Lords of the Treasury should from time to time direct. And by the said Act powers were given to the Commissioners of Her Majesty's Treasury from time to time, and at any time thereafter, by Warrant under their hands, to alter and fix any of the rates of British postage or inland postage payable by law on the transmission by the post of foreign or colonial letters or newspapers, or of any other printed papers, and to subject the same to rates of postage according to the weight thereof, and a scale of weight to be contained in such Warrant; and from time to time, by Warrant as aforesaid, to alter or repeal any of such altered rates, and make and establish any new or other rates in lieu thereof; and from time to time, by Warrant as aforesaid, to appoint at what time the rates which might be payable were to be paid, and the power thereby given to alter and fix rates of postage was extended to any increase, or reduction, or remission of postage:

And whereas by an Act passed in the eleventh year of the reign of Her present Majesty, intituled "An Act for giving further facilities for the transmission of letters by post, and for the regulating the duties of postage thereon, and for other purposes relating to the Post-office," it was, amongst other things, enacted that it should be lawful for the Postmaster-General, if he should think fit (with the consent of the Commissioners of Her Majesty's Treasury), to allow any printed words, writing, or marks, in addition to the direction to be put on any printed newspaper or other printed papers sent by the post, or on the covers thereof, and any such newspapers or other printed papers should from thenceforth be forwarded either free of postage or subject to such rates of postage as the Postmaster-General, with the con-

sent of the Commissioners of Her Majesty's Treasury, should from time to time direct.

And whereas by an Act passed in the present session of Parliament, intituled "An Act to amend the laws relating to the stamp duties on newspapers, and to provide for the transmission by post of printed periodical publications," it is amongst other things enacted, that every periodical publication therein mentioned, which should be printed within the United Kingdom, on paper stamped for denoting the rate of duty then imposed by law on newspapers should be entitled to the like privileges of transmission and retransmission by the post between places in the United Kingdom, either postage free or otherwise, on the same terms and conditions and under and subject to the like rules and regulations as newspapers duly stamped were then entitled and subject to, under any Act or Acts in force, but under and subject nevertheless to the terms and conditions in that Act contained; and further that it should be lawful for the commissioners of Her Majesty's Treasury, by Warrant under their hands, to allow any printed newspaper (British, colonial, or foreign) to be transmitted by the post between places in the United Kingdom and Her Majesty's colonies or foreign countries, or between any ports or places beyond the sea, whether through the United Kingdom or not, either free of postage or subject to such rates of postage not exceeding two pence for each newspaper, irrespective of any foreign or colonial postage as the Commissioners of the Treasury or the Postmaster-General, with their consent, should from time to time think fit; and as a condition to any British newspaper being transmitted by the post to any place out of the United Kingdom, the same should be printed on paper duly stamped with an appropriate die under

the provisions of that Act ; and the said last-mentioned Commissioners or the Postmaster-General might require such newspaper to be registered at the General Post Office in London, in such form, and with such particulars, and subject to the payment of such fees as therein mentioned, and also that it should be lawful for Her Majesty's Postmaster-General, with the consent of the Commissioners of Her Majesty's Treasury, at any time or times thereafter, to make and issue such orders, regulations, conditions, and restrictions as he should deem to be necessary or expedient for the purpose of regulating the receipt, transmission, and delivery by post of periodical publications under the provisions of that Act, or for preventing or detecting frauds or abuses in relation thereto, and for giving effect to the purposes of that Act ; and that it should also be lawful for the said Postmaster-General, with the like consent, from time to time to rescind or revoke all or any such orders, regulations, conditions, and restrictions, and to make and issue any new ones in lieu thereof. And also that all periodical publications sent by post, otherwise than in conformity with the terms, conditions, and regulations established by or under the authority of that Act, might be detained by the Postmaster-General and any officer of the Post Office, and after being opened the same should be either returned to the senders thereof, or forwarded to the places of their destination charged with the like rates of postage as if the same were letters transmitted by the post ; provided always, that it should be lawful for the Commissioners of Her Majesty's Treasury, by Warrant under their hands, to authorize Her Majesty's Postmaster-General to charge in any such case any such less rate of postage as to him shall seem fit.

And whereas it is expedient to make provision for regulating the transmission by the post of certain newspapers, periodical publications, and printed prices current in manner hereinafter mentioned.

Now we, the Commissioners of Her Majesty's Treasury, in exercise of the powers reserved to us in and by the several before-mentioned Acts, or either of them, and of all other powers, enabling us in this behalf, do, by this Warrant under the hands of two of us, the said Commissioners, by the authority of the statute in that case made and provided, order, direct, and consent that the several printed newspapers, periodical publications, and printed prices current, mentioned in the schedule to this Warrant annexed, shall and may be transmitted by the post between any part of the several places mentioned and set forth in the said schedule to this Warrant annexed, in conformity with and under and subject to the several orders, regulations, conditions, and restrictions hereinafter mentioned and contained (and as respects certain of the said places in the said schedules mentioned, such transmission may also be by the routes and by the means respectively mentioned against such places in such schedule), either free or that the rates of postage for the transmission thereof shall and may be those which are mentioned and set forth against the said places respectively in the said schedule, according as the word, free, or the said rate of postage shall be mentioned or set forth against the said places respectively in the said schedule.

1. Every such newspaper, periodical publication, and printed price current shall be sent without a cover, or in a cover open at the sides.

2. There shall be no word or communication printed on any such newspaper, periodical publication, or price current, after the publication thereof, or upon any cover thereof, nor any writing or marks upon any such newspaper, periodical publication, or price current, or upon any cover thereof, other than and except the name and address of the person to whom the same is sent, and as to any such newspaper or periodical publication, or the cover thereof, except the name or title of such newspaper or periodical publication, and the name and address of the publisher, newsvender, or agent by whom the same is sent.
3. There shall be no paper or thing enclosed in or with any such newspaper, periodical, publication, or price current.
4. Every such newspaper or periodical publication shall be put into the Post Office at such hours in the day and under all such regulations as the Postmaster-General may appoint, including therein the payment of postage on such as are liable to postage when put into the Post Office, if the Postmaster-General shall so require.

And we do further order, direct, and consent that every British newspaper which shall be hereafter sent by the post to places out of the United Kingdom shall be posted in the United Kingdom within fifteen days next after the day on which the same shall be published, the day of publication to be determined by the date of such publication.

And we do further order, direct, and consent that Her Majesty's Postmaster-General shall and may charge all or any newspapers, periodical publications, and prices current sent by post otherwise than in conformity with the terms, conditions, and

regulations established by or under the authority of the said Act last hereinbefore mentioned or of this present Warrant with such rates or rate of postage not exceeding in amount such rates or rate as would be chargeable upon the same as letters or a letter, as to him shall seem fit.

And we do further order and direct that the term "by the post," used in this Warrant, or in the schedule hereunto annexed, shall include the conveyance by any British, foreign, or colonial packet-boat and also by private ship; and that the term "East Indies," used in this Warrant or in the schedule hereto annexed, shall be construed to mean any port or place in Asia within the limits of the Charter of the East India Company; and that the several other terms and expressions used in this Warrant or in the schedule hereto annexed shall be construed to have the like meaning in all respects as they would have had if inserted in either of the said Acts hereinbefore in this present Warrant mentioned and recited.

And we do further order and direct that the Commissioners for the time being of Her Majesty's Treasury may, by Warrant under their hands duly made, at any time hereafter alter, repeal, or revoke any of the rates of postage hereby fixed or any of the orders, regulations, conditions, and restrictions hereby made, and may make and establish any new or other rates, orders, regulations, conditions, and restrictions in lieu thereof, and from time to time appoint at what time the rates which may be payable are to be paid.

FROM THE
 SUPPLEMENT
 TO THE
LONDON GAZETTE of JULY 3,
 1855.

War Department, July 4, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to His Lordship by the late Field-Marshal the Lord Raglan, G.C.B.

Before Sevastopol,
June 23, 1855.

MY LORD,

I informed your Lordship in my despatch of the 19th instant, that I would make a more special report upon the movements of the 3rd Division, as soon as I should receive the reports of Lieutenant-General Sir R. England, and the Major-Generals commanding brigades under him.

The 1st Brigade, under Major-General Barnard proceeded down the Woronzow-road, and was placed in position on the right of the ravine ready to co-operate with the columns of attack on the right; whilst the 2nd Brigade, under Major-General Eyre, moved down the ravine which separates the left of the English from the right of the French advanced works, for the purpose of attacking the enemy's ambuscades, and making a demonstration on the head of the dockyard creek.

This service was performed with the utmost gallantry, and notwithstanding that they were exposed to a most galling fire, the troops main-

tained themselves in the position they had taken up during the day, and in the evening withdrew unmolested, leaving a post at the cemetery, which had been one of the objects of the attack in the morning. The action having from circumstances become a most serious one, I beg, as the most satisfactory way of making your Lordship acquainted with the particulars, to lay a copy of the Major-General's letter before your Lordship, and to solicit your attention to the officers whose services he particularly notices, and at the same time to his own distinguished conduct.

Your Lordship will see with concern that the loss sustained by this brigade is very considerable, and that Major-General Eyre is himself wounded ; but I have every reason to hope that the injury he has received is not very severe, and will not incapacitate him from the discharge of his duty with the same energy and devotion as he has already applied himself to its performance during the protracted operations before Sevastopol.

Lieutenant-General Sir G. Brown, to whose able assistance I referred in my former despatch, has specially brought to my notice the distinguished conduct of Colonel Yea, who was unfortunately killed, and pays a just tribute to the great merits of this deeply lamented officer ; of Lieutenant-Colonel Lysons, of the 23rd ; Lieutenant-Colonel Johnstone, of the 33rd ; and Captain Gwilt, of the 34th, all of whom are wounded ; of Major-General Codrington, who commanded the Light Division ; of Captain Blackett, of the Rifle Brigade, who has lost a leg ; and of Captain Forman, of the Rifle Brigade, who fell upon the occasion ; and Major-General Codrington mentions the admirable conduct of Captain Turner, of the 7th Foot ; Major Macdonell, of the Rifle Brigade ; Lieutenant Knox, of the Rifle Brigade,

who is wounded; and Lieutenant Donovan, of the 33rd.

Lieutenant-General Sir R. England speaks highly of Colonel Cobbe, of the 4th Regiment, who commanded in the trenches of the left attack, and is severely wounded; and Lieutenant-General Bentinck eulogizes the conduct of Colonel Lord West, of the 21st Foot, who assumed the command of the left column after the death of Major-General Sir J. Campbell; of Lieutenant-Colonel Warre, who succeeded to the command of the 57th Regiment, on the death of Colonel Shadforth; of Lieutenant-Colonel Cole, commanding 17th Regiment; and of Captains Croker (who was killed) Gordon, McKinstry, and O'Connor, and Lieutenant Thompson, of the 17th Regiment; and Lieutenant Shadwell Clerke, of the 21st Regiment, and Colour-Serjeant Colcliffé and Serjeant Pratt; of the 17th; and Captain the Honourable J. Stuart, and Lieutenants Boileau (who is severely wounded) and Saunders, of the Rifle Brigade.

Major-General H. Jones reports most favourably of the services of the following officers of Engineers: Lieutenant-Colonel Gordon, Lieutenant-Colonel Chapman, Lieutenant-Colonel Tylden, Lieutenant Donnelly, Lieutenant Fisher, and he deeply laments the loss of Captain Jesse, Lieutenant Graves, and Lieutenant Murray, who fell upon the occasion.

I must express my obligations to Lieutenant-General Sir R. England, Lieutenant-General Pennefather, Lieutenant-General Bentinck, and Major-General Codrington, for the able manner in which they conducted their duties; and I avail myself of the present opportunity to inform your Lordship, that Lieutenant-General Pennefather, who was then labouring under illness, is now in so bad a state of health as to be under the necessity

of withdrawing from the army. I shall deeply regret his departure, entertaining the highest opinion of him, and knowing his devotion to Her Majesty's service.

I must not omit to mention the following officers of the Royal Navy, who particularly distinguished themselves on the 18th: Captain Peel, who commanded the whole of the sailors employed, and is severely wounded; Messrs. Wood (severely wounded) and Daniel, who have been through the whole siege; Lieutenants Urmston and Dalyell, who are both severely wounded; and Mr. Parsons, Mate, who is wounded; Lieutenants Cave and Kidd, both wounded, the latter mortally; and Mr. Kennedy, Mate.

I enclose the returns of casualties from the 18th to the 21st.

I have, &c.,
RAGLAN.

The Lord Panmure, &c. &c. &c.

Enclosure 1.

Camp before Sevastopol,
June 19, 1855.

SIR,

I have the honour to report, for the information of Lieutenant-General Sir Richard England, K.C.B., commanding the division, that, agreeably to his instructions, I moved off yesterday morning between one and two o'clock A.M., with my brigade, consisting of the 9th, 18th, 28th, 38th, and 44th Regiments—total strength about 2,000 bayonets, and proceeded down the ravine on our left, by the French Picquet-house, for the purpose of attacking the enemy's ambuscades, and of making a demonstration on that side.

In attacking the first of these ambuscades we were anticipated by the French, who cleverly took

them on their left flank as we advanced in front, and made several prisoners. Beyond this the French had no instructions to co-operate with us; I, therefore, immediately pushed on an advanced guard under Major Fielden, 44th Regiment, composed of marksmen from each regiment, supporting it on the right by the 44th and 38th Regiments, and on the left by the 18th Regiment, keeping at first the 9th and 28th Regiments in reserve.

The enemy, whose strength I could not estimate, occupied a strong position; their right rested on a Mamelon, their left on a Cemetery. These points were occupied by marksmen.

The intervening ground was intersected and the road barriaded with stone walls, which our men were obliged to pull down, under fire, before they could advance.

In rear of this position, towards the fortress, the enemy occupied several houses, and there were bodies of the enemy seen in rear, as reserves, but of what strength I could not say. This position, under the fire of the guns of the fortress, was strong, and we could not expect to carry it and retain it without sustaining a considerable loss, and which, I regret to state, we have experienced both in officers and men; but it is gratifying to feel that they all most nobly performed their duty on this occasion. The 18th Regiment pushed on, and occupied some houses immediately under the Garden-wall Battery.

The 44th occupied some houses on the right, from whence they kept up a fire on the enemy's embrasures. Lieutenant-Colonel Lowth moved on with his regiment (the 38th), and after taking possession of some houses in front, endeavoured to turn the flank of a battery which annoyed us in front. These parties were afterwards from time

to time reinforced or relieved by the 9th Regiment, the 28th Regiment being drawn up in line in rear to support the whole.

Having driven the enemy from these points, I continued to occupy them, with the view to ulterior movements, in the event of the attack on the right being successful, and until it was decided what portion of the ground should be retained for siege operations.

I cannot sufficiently express my sense of the conduct of the officers, non-commissioned officers, and men, on this occasion. They attacked the enemy in the first instance, with the utmost gallantry, holding their ground until late in the evening, although exposed all day to a concentrated fire from the guns of the fortress, in addition to which I believe the enemy brought up some field-guns, and kept continually firing shells. The losses occasioned were considerable, the total being 31 officers, 44 serjeants, and 487 rank and file, killed or wounded.

At about five o'clock in the evening, after giving orders for the removal of the wounded to the rear, the gradual withdrawal of the parties from the front—the ground being too far in advance to be permanently occupied for siege operations,—I gave over the command of the brigade to Lieutenant-Colonel Adams, 28th Regiment, having received a wound in the head in the early part of the day, which prevented me latterly from attending properly to my duties. The enemy did not attempt to molest the troops on retiring. The conduct of all was so exemplary during this trying day, that I can scarcely with justice particularize individuals. I beg, however, to thank the officers commanding corps for the assistance they afforded me, viz., Lieutenant-Colonel Borton, commanding 9th Regiment; Lieute-

nant-Colonel Edwards, commanding the 18th Royal Irish; Lieutenant-Colonel Adams, commanding the 28th Regiment; Colonel the Honorable A. Spencer, commanding the 44th Regiment, who was wounded; and to Lieutenant-Colonel, Staveley, who succeeded to the command of the regiment on Colonel Speneer being obliged to quit the field; Lieutenant-Colonel Lowth, commanding 38th Regiment, who was also wounded; and to Lieutenant-Colonel Sparks, who succeeded him in the command of the regiment; and Major Fielden, 44th, commanding the advanced guard.

I received also the utmost assistance from my Brigade-Major Captain Faussett, 44th Regiment, and also on this, as on many other occasions from my Aide-de-Camp Captain Robertson, 4th Regiment. I was also indebted to Brevet-Major Stuart Wortley, Deputy Assistant Quartermaster-General, who kindly volunteered to act on my Staff.

I beg also to report the judicious arrangements of the Medical Department on this occasion, and especially to thank Assistant-Surgeon John Gibbons, 44th Regiment, and Assistant-Surgeon Jeeves, 38th Regiment, for their zealous and humane exertions in the field, while exposed to a most galling fire.

I have, &c..
 (Signed) WM. EYRE,
 Major-General.

FROM THE
SUPPLEMENT

TO THE
LONDON GAZETTE of JULY 9,
1855.

War-Department, July 9, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to His Lordship by the late Field-Marshal the Lord Raglan, G.C.B.

Before Sevastopol,

MY LORD, *June 26, 1855.*

I have the honour to transmit to your Lordship the accompanying letter, dated this day, from the Inspector-General of Hospitals.

Your Lordship will observe with pain that this report exhibits a considerable increase of both admissions and deaths, arising chiefly, however, from the accidents of war, resulting from the assault of the Redan and the attack of the Cemetery on the 18th instant, on both which occasions the troops were exposed to a heavy fire of grape-shot.

It will be satisfactory to your Lordship to find that the arrangements both for the accommodation and treatment of the sick and wounded were such as can rarely be expected under such circumstances, and no exertions have been spared to render their situation as comfortable as possible.

I regret to say that cholera and bowel complaints have been somewhat on the increase; but

neither the admissions nor the deaths have been so marked as to attract special attention. I have however, with much sorrow, to report the very sudden death, from cholera, of Captain Charles Bowles, 10th Hussars, an officer of great merit, who had served in India with distinction, and is much regretted in the regiment.

Amongst the killed I lament to announce the loss of Lieutenant and Adjutant H. Marsh, 33rd Regiment, who was killed in the trenches on the 24th inst. This young officer had served throughout the campaign, and was distinguished for his gallantry and devotion to the service; and his conduct on a former occasion I had the honour to bring under your Lordship's notice.

I beg to enclose the lists of casualties on the 18th ult., and of those that have since arisen up to the 24th inst., inclusive.

I have, &c.,

RAGLAN.

The Lord Panmure, &c. &c. &c.

Enclosure 1.

Head Quarters, Camp before Sevastopol,
MY LORD, *June 26, 1855.*

The Weekly Return of Sick and Wounded, I regret to say, exhibits a considerable increase of both admissions and deaths, arising chiefly from the accidents of war, occasioned by the assault of the 18th instant on the Redan Battery and the works in the Doekyard Creek. Many of the injuries received were occasioned by grape-shot, fired at short range, and were of a very serious nature. The loss consequently, has been heavy; but I have much satisfaction in being able to assure your Lordship that prompt aid was afforded to all, and the action having taken place within a short

distance of our fixed hospital establishment, accommodation was provided for them at once. This is an advantage rarely attainable on active service in the field, so that the wounded were placed under as favourable circumstances as could be expected; the amount of mortality, therefore, amongst them is mainly attributable to the severity of their wounds, and not to any want of either surgical aid or hospital accommodation, as both were at hand. There was no occasion either to remove the more seriously wounded when once they were brought in; and the cases selected to be sent down to the surgical hospital at Balaklava were of a nature not likely to be injured by the journey, and I am happy to say they are nearly all progressing in a most satisfactory manner. Indeed they have done so well, I regret our accommodation at the Castle, Balaklava, is not more extensive, but, unfortunately, the ground will not admit of its being enlarged.

The hospital now in course of erection on the high bold promontory near the Monastery of St. George, will soon be ready for the reception of patients; and so far as position is concerned, I think they will be placed under as favourable circumstances as can possibly be obtained. The situation is high and dry, overlooking the sea, and subjected to no malarious influence that I can discover; and whatever the result may be on trial, the site is admitted by all who have seen it to be unexceptionable.

Cholera and bowel complaints still prevail, and have been on the increase within the last two or three days, but neither the admissions nor the deaths have been so marked as to attract special attention, though numerous enough to create uneasiness.

Taking the whole force, the admissions to

strength during the week have been in the ratio of 10·52 per cent., which is very high, but the deaths to strength are in the ratio of 0·68 per cent., which is more moderate; but it must be borne in mind that 1,659 of the admissions during the week were from wounds alone.

The Sardinian contingent has suffered much more than the British troops have done since the epidemic first made its appearance at the end of April. Great attention is paid to the cleanliness of the different camps, and on the first appearance of cholera the attention of medical officers was drawn by me in a circular memorandum, dated 30th April, to the great importance of detecting and arresting the premonitory diarrhœa which generally precedes the more formidable stage of the disease.

I have, &c.

JOHN HALL,

Inspector-General of Hospitals.

FROM THE
LONDON GAZETTE of JULY 10,
 1855.

Admiralty, July 10, 1855.

DESPATCHES, of which the following are copies or extraets, have been received at this Office, from Rear-Admiral the Honourable R. S. Dundas, Commander-in-Chief of Her Majesty's ships and vessels on the Baltic Station.

Duke of Wellington, at anchor off Tolboukin Lighthouse, July 2, 1855.

“The Arrogant arrived here, from the neighbourhood of Biorko, on the 28th ultimo, and returns to-day to the same station. I have directed Captain Yelverton to extend his examination of the coast as far westward as Lovisa; and I beg leave to direct their Lordships' attention to a report herewith transmitted, which I have this day received from Captain Vansittart, of the *Magicienne*, through whose activity and zeal, with the aid of the Ruby gun-boat, a large number of vessels, laden with granite blocks, have been successfully destroyed in Werolax Bay.”

Her Majesty's Ship Magicienne,
 SIR, *Off Nerva Beacon, July 1, 1855.*

I have the honour to report that, in obedience to orders received from Captain Yelverton, I left the anchorage of Biorko on the 28th of last month,

with Her Majesty's ship *Magicienne* under my command, and Ruby gun-boat, in search of a number of vessels said to be freighted by the Russian Government to carry blocks of granite, and in the neighbourhood of the Island of Lukar.

Having arrived off the Island of Kyskykyla the same evening, early on the 29th I proceeded in Her Majesty's gun-boat Ruby, and boats of Her Majesty's ship *Magicienne*, under the First Lieutenant H. B. King, to the very end of the bay, looking well in about the Island of Lukar, and in boats ascending some little distance up the River of Kyskykyla, finding only four vessels, which, being both new and empty, I left unhurt.

The following morning, the 30th, I proceeded with Her Majesty's ship *Magicienne* and Ruby gun-boat, to the next large Bay of Werolax, where, anchoring Her Majesty's ship *Magicienne* at the entrance, I proceeded to the very end of Werolax Bay, a distance of about nine miles, where I found a large granite quarry, with near two hundred men at work, who at our approach made off.

Anchoring the Ruby, so as to command the whole place with the boats, I had the various vessels at anchor, consisting of thirty large galiots, boarded.

Twenty-nine being laden with granite blocks, I had them destroyed by fire.

With the exception of three or four rifle shots being fired upon us, which were quickly returned by rockets and rifles, we met with no resistance.

The head of Werolax Bay was evidently the rendezvous for the granite vessels, as, with the exception of one, all their sails were unbent, colours and papers secured, and most of their vessels were slung and buoyed, so as to be ready

for seuttling if discovered, which many had eom-
meneed doing on the present oecasion.

I have, &c.,
(Signed) NICHOLAS VANSITTART,
Captain.

Rear-Admiral the Hon. R. S. Dundas, C.B.

Her Majesty's Ship Arrogant,
SIR, *off Biorka, June 25, 1855.*

I have the honour to aequaint you with my
proceedings since the 18th instant.

On the 20th I anehored at Rotsinshalm, and
took immediate steps for blowing up the fort,
which was aecomplished on the following day.

On the afternoon of the 20th I made a careful
reconnoissance of Kotka, in the Ruby, and dis-
covered at the baek of the island, where I had not
been before, large government buildings, with
barracks fit to contain about 5000 men, stables,
storehouses, and hospital, all of which I destroyed.
The buildings had evidently been very recently
occupied. I met no troops except a few Cossacks,
who retired on our approach.

I have, &c.
(Signed) H. R. YELVERTON,
Captain.

Whereas an Act of Parliament was passed in the fourth year of the reign of Her present Majesty, intituled "An Act for the regulation of the duties of postage."

And whereas another Act of Parliament was passed in the eleventh year of the reign of Her present Majesty, intituled "An Act for giving "further facilities for the transmission of letters "by post, and for the regulating the duties of "postage thereon, and for other purposes relating "to the Post-office."

And whereas the Commissioners of Her Majesty's Treasury, in exercise of the powers reserved to them in and by the said two before-mentioned Acts, and of all other powers enabling them in that behalf, did, by a certain Warrant in writing (under the hands of two of them, the said Commissioners, by the authority of the statute in that case made and provided), bearing date the 22nd day of February, 1855, order and direct that all packets consisting of books, publications, or works of literature or art, whether British, colonial, or foreign, and all packets consisting of printed votes and proceedings of the Imperial Parliament or the Colonial Legislatures, might be transmitted by the post between any part of the United Kingdom and any part of the several places mentioned and set forth in the Schedule B, to the said Warrant annexed; and that all such respective packets should be so transmitted in conformity with, and under and subject to, the several regulations, orders, directions, and conditions thereafter mentioned and contained; and that the single rate of postage for the transmission thereof should be that which was mentioned and set forth against the said places respectively in the said Schedule B; and that all such respective packets so transmitted should be subject to the several progressive and additional rates of postage thereafter mentioned.

And whereas it is expedient to extend the provisions of the said recited Warrant of the 22nd

day of February, 1855, except as hereinafter mentioned, to packets of a like kind to be transmitted by the post between any part of the United Kingdom and any part of the colony of Western Australia.

Now we, the Commissioners of Her Majesty's Treasury, in exercise of the powers reserved to us in and by the said two hereinbefore recited Acts of Parliament, or either of them, and of all other powers enabling us in this behalf, do, by this Warrant, under the hands of two of us, the said Commissioners, by the authority of the statute in that case made and provided, order and direct that all packets consisting of books, publications, or works of literature or art, whether British, colonial, or foreign, and all packets consisting of printed votes and proceedings of the Imperial Parliament, or any of the Colonial Legislatures, may be transmitted by the post between any part of the United Kingdom and any part of the colony of Western Australia, and that on every such packet so transmitted under the provisions of this Warrant as aforesaid, if not exceeding half a pound in weight, there shall be charged, taken, and paid for the transmission thereof as aforesaid, the uniform single rate of postage of sixpence, and that on every such packet exceeding half a pound in weight there shall be charged, taken and paid such progressive and additional rates of postage as are directed to be charged, taken, and paid on, and in respect of, the several packets mentioned and contained in, and authorized to be transmitted by the post, under the provisions of the said recited Warrant of the 22nd day of February, 1855.

And we do further order and direct that all such respective packets to be transmitted by the post under the provisions of this present Warrant, shall

be so transmitted in conformity with and under and subject to the several regulations, orders, directions, and conditions contained in the said recited Warrant of the 22nd day of February, 1855, with respect to the several packets therein mentioned (except such as relate exclusively to packets posted in the United Kingdom, addressed to the East Indies or New South Wales, or posted in the East Indies or New South Wales, addressed to the United Kingdom) and that all such respective packets so to be transmitted under the provisions of this present Warrant shall be subject as well to the several progressive and additional rates of postage aforesaid, as also to the said several regulations, orders, directions, and conditions (except as aforesaid) respectively mentioned, expressed and contained in and by the said hereinbefore recited Warrant of the 22nd day of February, 1855, in like manner in all respects and as fully and effectually to all intents and purposes as if the said several progressive and additional rates of postage and the said several regulations, orders, directions, and conditions (except such only as relate exclusively to packets posted in the United Kingdom, addressed to the East Indies or New South Wales, or posted in the East Indies or New South Wales, addressed to the United Kingdom), respectively mentioned and contained in the said hereinbefore recited Warrant of the 22nd day of February, 1855, were contained, inserted, expressed, and repeated in this present Warrant, and as if the said colony of Western Australia, with a single rate of postage of six pence, set forth against such place, had been and was mentioned and contained and included in the said Schedule B, annexed to the said hereinbefore recited Warrant of the 22nd day of February, 1855.

And we do further order and direct, that it shall be lawful for the Commissioners for the time being of Her Majesty's Treasury, by Warrant duly made at any time hereafter, to alter, repeal, or revoke, any of the rates of postage hereby fixed, or any of the regulations hereby made, and to make and establish any new or other rates or regulations in lieu thereof, and from time to time to appoint at what time the rates that may be payable are to be paid.

And we do further order and direct, that so far as regards any such packets posted in the United Kingdom, addressed to Western Australia, this Warrant shall come into operation on the 1st day of September next; and that so far as regards any such packets posted in Western Australia addressed to the United Kingdom, this Warrant shall come into operation on the 1st day of November next.

FROM THE
SUPPLEMENT

TO THE
LONDON GAZETTE of JULY 10,
1855.

War-Department, July 11, 1855.

LORD PANMURE has received a Despatch of which the following is a copy, addressed to his Lordship by Field-Marshal the late Lord Raglan, G.C.B. ; and has also this day received two Despatches and their Enclosures, addressed to his Lordship by Lieutenant-General Simpson, Commanding Her Majesty's Forces in the East, of which copies are also subjoined.

Before Sevastopol,
June 25, 1855.

MY LORD,

I am much concerned to have to announce to you the death of Major-General Estcourt, Adjutant-General of this army, which took place yesterday morning at nine o'clock, after an illness of little more than three days ; he died of cholera, and I deeply lament the loss of so estimable a man, and of an officer so anxious to perform his duty.

I beg strongly to recommend that Lieutenant-Colonel the Honourable W. L. Pakenham may be placed at the head of the Adjutant-General's department. He has done the duty of Deputy-Adjutant-General since the army was formed ; he is an excellent man of business, and well acquainted with the service in all its branches, and

his appointment would not alone be agreeable to me, but would be equally so to General Simpson, who entertains a very high idea of his qualifications, and reposes every confidence in him.

I have reported the death of General Estcourt to the General Commanding in Chief, and have mentioned to his Lordship my recommendation of Lieutenant-Colonel the Honourable W. L. Pakenham.

I have, &c.,
RAGLAN.

The Lord Panmure, &c. &c. &c.

Before Sevastopol,
June 30, 1855.

MY LORD,

It is with the deepest regret that I announce to your Lordship the death of Field-Marshal Lord Raglan, G.C.B., which melancholy event took place a little before nine o'clock on the evening of Thursday last, the 28th instant: his Lordship expired without any suffering in the midst of the officers composing his personal staff.

I have further to report that being the next senior officer present, I have assumed the command of this army, until instructions shall arrive from England.

I have, &c.,
JAMES SIMPSON,
Lieutenant-General Commanding.

The Lord Panmure, &c. &c. &c.

Before Sevastopol,
June 30, 1855.

MY LORD,

In this, my first military despatch, I am not aware that there is anything new or of consequence to report to your Lordship.

As regards the progress of the siege, there is no

great operation yet determined upon, but we are employed in repairing and improving our works, to be in readiness to co-operate with the French, when their approaches towards the Malakof shall be completed.

The nominal returns of casualties from the 25th to 28th instant are enclosed.

I am truly sorry to announce that Lieutenant-General Sir George Brown departed for England this morning on medical certificate.

The 13th Light Infantry has arrived, and disembarked at Balaklava this morning.

They will remain there for the present to assist in the duties of the place.

I have, &c.,

JAMES SIMPSON,

Lieutenant-General Commanding.

The Lord Panmure, &c. &c. &c.

FROM THE
LONDON GAZETTE of JULY 13,

St. James's Palace, July 13, 1855.

THE Queen has been pleased to appoint Miss Emily Cathcart, second surviving daughter of the

late Lieutenant-General Sir George Cathcart, K.C.B., to be one of the Maids of Honour in Ordinary to Her Majesty, in the room of the Honourable Matilda Paget, resigned.

Foreign-Office, July 12, 1855.

The Queen has been pleased to approve of Mr. Gaillard de Ferry as Consul-General in London for the Emperor of the French.

Crown Office, July 12, 1855.

MEMBER returned to serve in the present

Edward Holland, of Dumbleton, in the county of Gloucester, Esquire, in the room of Charles Lennox Grenville Berkeley, Esquire, who has accepted the office of Steward of Her Majesty's Chiltern Hundreds.

*Board of Trade, Whitehall,
July 10, 1855.*

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from Her Majesty's Consul at Bilbao, forwarding the enclosed Notification, issued by the Spanish Board of Health, affecting masters of British vessels which arrive in Port Santander.

(Copy.)

(Translation.)

It is enacted by the Sanitary Law that every vessel which arrives at a port of the Peninsula

from a foreign port, not having a Bill of Health, incurs a fine of 1100 reals of Vellon, and a fine of 200 Reals when the Bill of Health is not countersigned by the Spanish Consul resident at the port of departure of the vessel.

And as it has been observed at this port that in many recent instances British vessels have contravened these regulations, and as I am desirous to guard against further abuses, and that in the strict fulfilment of the law, the observance of which is confided to me, no further questions may arise on the plea of ignorance—which in sound principles would not exempt the infractor from responsibility,—I have deemed it expedient to address you, in order that you may take such steps as you may consider proper to make the above known to the British mercantile community; and further, that it is to be borne in mind, that in such cases where there may be no Spanish Consul or Agent residing at the port of the vessel's departure, the magistrate of the place by whom the Bill of Health is granted must certify that fact.

I request you will acknowledge the receipt of this communication.

May God preserve, &c.

Santander, June 21st, 1855.

(Signed) FELIZ DE AGUIRE.

The British Vice-Consul at this Town.

Art. 3rd.—During the time said vessels remain in port they will be subject to the regulations of the maritime custom-house.

Art. 4th.—The owners, captains, consignees, or agents of this kind of vessels are permitted to deposit in the port of Acapulco the oil, whalebone, ivory, and all other articles pertaining to their business, without payment of any duty, provided the same are not sold, in which case they will pay a duty of ten per cent. (10 per cent.) on the survey made of the said articles by the administrator of the custom-house, the surveyor, and two of the principal merchants of the port.

Art. 5th.—No impediment shall be placed in the way of these vessels to their obtaining provisions, water, or anything that may be necessary for repairs.

(Copy.)

(Translation.)

The Board of Health of this kingdom having observed that, notwithstanding the repeated instructions to the contrary, Consuls continue to issue bills of health, leaving the number of passengers in each ship in blank, thereby provoking more rigorous sanitary measures than otherwise would be required, and causing to crews, passengers, merchants, and others, unnecessary embarrassments, hereby make known that, according to the sanitary regulations now in force, all passengers, crew, and cargo of every vessel without a bill of health, stating in full the number of such passengers and crew, will be subject to quarantine, and to the corresponding sanitary precautions. And in order that this may be known to those interested, and that they may claim from the Portuguese Consulates the exact

form in making out the necessary documents, this present notice is published.

W. L. PAKENHAM, Lieut.-Colonel,
Acting Adjutant-General.*Admiralty, July 16, 1855.*

Despatches, of which the following are copies or extracts, have been this day received from Rear-Admiral the Honourable R. S. Dundas, Commander-in-Chief of Her Majesty's ships and vessels in the Baltic.

*Duke of Wellington,
Tolboukin Lighthouse, July 7, 1855.*

"The Magicienne returned this morning from Lovisa, and I annex a report which I have re-

ceived from Captain Yelverton, of Her Majesty's ship *Arrogant*, who has been again successful in destroying a well constructed fort at Svartholm, in the entrance of the Bay of Lovisa, but their Lordships will observe with regret, that, notwithstanding the humane desire of that officer, the town of Lovisa was unfortunately destroyed by fire, which occurred accidentally, on the night following the visit of Her Majesty's ships. Captain Vansittart informs me that the authorities of the town have themselves admitted and explained the accidental origin of the fire."

*Her Majesty's Ship Arrogant,
off Hogland, July 8, 1855.*

SIR,

I have the honour to inform you, that I reached Lovisa on the afternoon of the 4th instant, and anchored the vessels close to Fort Svartholm.

The enemy must have had intelligence of our movements and quitted the fort on our approach, for they had been at work but a few hours before unroofing the barracks and taking away stores. The guns and ammunition had been previously removed.

Svartholm was in good condition, and a work of great strength, entirely commanding the approaches to Lovisa; it has had important additions of late years, can mount 122 guns, and had accommodation in casemated barracks for about 1000 men, with governor's house and garden, and excellent officers' quarters. I made immediate arrangements for blowing up the fort and completely destroying the barracks; these have since been fully carried out.

On the 5th, I made a reconnoissance of the town of Lovisa, in the *Ruby*, accompanied by the boats of the *Arrogant* and *Magicienne*. A strong

detachment of Cossacks made their appearance at one time, but they were dispersed by the fire from the boats, the rockets particularly throwing them into great confusion. On landing at Lovisa, I sent for the authorities and explained the object of my visit; some demur was caused by our not having a flag of truce. I told them they had no right to such a guarantee, as the respect due to it had been so grossly violated at Hangö. I then proceeded to the barraeks and Government stores within the town, which I destroyed, but did not set fire to them, as by so doing the whole town must have been burnt.

This precaution was not destined to save Lovisa, for during the night an accidental fire occurred in a portion of the town where we had not been, and before morning the whole place was reduced to ashes.

I have, &c.,

(Signed) H. R. YELVERTON,
Captain.

*Rear-Admiral the Hon R. S. Dundas,
Commander-in-Chief.*

Extract of a letter from Rear-Admiral Honourable R. S. Dundas, to the Secretary of the Admiralty, dated—

*Duke of Wellington,
Tolboukin Lighthouse, July 7, 1855.*

I cannot conclude this letter without calling the particular attention of their Lordships to the active exertions of Captain Storey, of Her Majesty's ship Harrier, which led a few days later to the destruction of a large amount of shipping, discovered afterwards in another anchorage near Nystad, as detailed in the enclosure to Captain Warden's report of the 2nd instant.

*Harrier, off Little Wahas,
June 24, 1855.*

SIR,

I have the honour to inform you that the boats of this ship destroyed 47 ships belonging to the enemy, varying from 700 tons to 200 tons, on the nights of the 23rd and 24th instant.

On the first night the ships destroyed were one mile from the town of Nystad, and about three miles from the ship, and we were enabled to bring one barque, the *Victoria*, of about 450 tons, off with us.

On the following morning the steam was got up and we proceeded to sea to anchor the prize off Enskov Lighthouse.

At 5 P.M., however, we steamed towards the land, and anchored at about 7.30 P.M., and at 8 P.M. the boats were again despatched.

During the night and following day we discovered 42 ships, the whole of which we either burned or scuttled.

I have the greatest pleasure in being able to state that these proceedings were so successfully carried out without any casualty.

Owing to the distance we got away from the ship (10 or 11 miles) and the blowing weather, accompanied with rain, that came on during the morning, we were prevented from bringing any vessel out with us.

We did not get back to the ship until after 6 P.M. this afternoon, the men having been on their oars twenty-two hours.

I think, Sir, I am only doing common justice to the men when I state how pleased I was to see the zeal and perseverance with which they worked for so many hours, neither can I omit stating my belief that this arose in a great measure from the good example of the officers, especially the senior Lieutenant, Mr. Annesley, from whom I have ever received the most active assistance.

1855.

6 D

Having then, in two following nights and one day, destroyed the whole of the Nystad shipping (probably upwards of 20,000 tons) I trust these proceedings will meet with your approval.

I have, &c.,

(Signed) HENRY STOREY,
Commander.

*Captain Warden, Senior Officer,
Her Majesty's Ship Ajax.*

FROM THE
SUPPLEMENT
TO THE

LONDON GAZETTE of JULY 17,
1855.

War-Department, July 18, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to His Lordship by

Lieutenant-General Simpson, Commanding Her Majesty's Forces in the East.

Before Sevastopol,

MY LORD,

July 7, 1855.

I have the honour to acquaint your Lordship that the remains of our late lamented Commander-in-Chief, Field-Marshal Lord Raglan, were removed from Head-Quarters to Kazatch Bay, on Tuesday the 3rd instant, and placed on board Her Majesty's ship "Caradoc," which departed for England that same evening.

Nothing could be more imposing than the whole line of this melancholy procession. The day was fine, and the appearance of the Allied troops splendid; as many as could be spared from duty in the trenches, and with safety to their camp, were collected, and the procession moved from the door of this house exactly at four o'clock p.m., in the following order :

In the court-yard of the house was stationed a guard of honour of one hundred men of the Grenadier Guards, with their drums and regimental colours; fifty men, with one field officer, one captain, and one subaltern from the Royal Sappers and Miners and from each regiment, lined the road from the British to the French Head-quarters, a distance of about a mile; a squadron of cavalry was stationed on the right of the line, two batteries of artillery and a squadron of cavalry on the left of it; the infantry were commanded by Major-General Eyre, C.B.

The road from the French Head-quarters to Kazatch Bay was lined throughout the whole way by the infantry of the French Imperial Guard and of the 1st Corps; bands were stationed at intervals and played as the procession passed, and field batteries (French) at intervals, on the high

grounds right and left of the road, fired minute guns.

The procession to escort the body was as follows :

Two squadrons British Cavalry (12th Lancers).

Two squadrons Piedmontese Light Cavalry.

Four squadrons French Chasseurs d'Afrique (1st and 4th Regiments).

Four squadrons French Cuirassiers (2nd and 9th Regiments).

Two troops French Horse Artillery.

Major Brandling's troop Horse Artillery.

The coffin, covered with a black pall, fringed with white silk, and the Union Jack, and surmounted by the late Field-Marshal's cocked hat and sword, and a garland of "Immortels," placed there by General Pelissier, was carried on a platform, fixed upon a 9-pounder gun, drawn by horses of Captain Thomas's troop Royal Horse Artillery.

At the wheels of the gun-carriage rode General Pelissier, Commander-in-Chief of the French Army, His Highness Omer Pacha, Commander-in-Chief of the Ottoman Army, General Della Marmora, Commander-in-Chief of the Sardinian Army, and Lieutenant-General Simpson, Commander-in-Chief of the English Army.

Charger of the late Field-Marshal, led by two mounted orderlies.

Relations and Personal Staff of the late Field-Marshal.

Generals and other Officers of the French, Sardinian, and Turkish Armies,—a large number of whom attended.

British Commissioners to Foreign Armies.

British General Officers and their Staffs.

Staff of Head-quarters.

One Officer of each regiment of Cavalry and

Infantry, Royal Sappers and Miners, and Land Transport Corps ; two from the Naval Brigade, Royal Marines, Medical and Commissariat Staff ; and three from the Royal Artillery.

Personal escorts of the Allied Commanders-in-Chief.

The personal escort of the late Field-Marshal (Captain Chetwode's troop of the 8th Hussars).

A field battery of the Royal Artillery.

Two squadrons of British Cavalry (4th Dragoon Guards).

Detachment of Mounted Staff Corps.

The escort was under the command of Lieutenant-Colonel Dupuis, Royal Horse Artillery.

Two field batteries of the Royal Artillery, stationed on the hill opposite the house, fired a salute of nineteen guns, when the procession moved off.

The united bands of the 3rd, 9th, and 62nd Regiments, stationed in the vineyard that surrounds the house, played the Dead March.

The band of the Sardinian Grenadiers was stationed half way to the French Head-quarters, and the band of the 10th Hussars on the left of the line.

The approach to the wharf at Kazatch Bay was lined by detachments of the Royal Marines and sailors.

The body was received on the wharf by Admiral Bruat, and Rear-Admiral Stewart, C.B., and a large number of officers of the combined fleets. The launch of the British flag ship, towed by man-of-war boats, conveyed the coffin to the "Caradoc," the boats of the combined fleets forming an escort ; and the troop and battery of the Royal Artillery included in the escort, formed upon the rising ground above the bay, and fired a salute of nineteen guns as the coffin left the shore.

Everything was well conducted, and no accident occurred.

Thus terminated the last honours that could be paid by his troops to their beloved Commander. His loss to us here is inexpressible ; and will, I am sure, be equally felt by his country at home. The sympathy of our Allies is universal and sincere. His name and memory are all that remain to animate us in the difficulties and dangers to which we may be called.

I have, &c.,

JAMES SIMPSON,

Lieutenant-General Commanding.

The Lord Panmure, &c. &c. &c.

Despatches, of which the following are copies, have been received at the Admiralty from Rear-Admiral Sir Edmund Lyons, Bart., G.C.B., Commander-in-Chief of Her Majesty's Ships and Vessels in the Black Sea.

*Royal Albert, off Sevastopol,
July 10, 1855.*

SIR,

Their Lordships will have great pleasure in learning that Commander Osborn, of the *Vesuvius*, mentions in favourable terms a letter he had received from Lieutenant W. N. W. Hewett, the Commander of the *Beagle*, reporting the destruction of the floating bridge in the Straits of Genitchi.

2. I have now the honour to enclose a copy of that letter, and to draw their Lordships' attention to the excellent arrangements made by Lieutenant Hewett, as well as to the gallant and able way in which his orders were executed by Mr. Martin Tracey, Midshipman, of the *Vesuvius*, Mr. John Hayles, Acting Gunner of the *Beagle* and the boats' crews, one of whom, Joseph Trewavas,

Ordinary Seaman, lent from the *Agamemnon*, was wounded, and is particularly mentioned as having cut the hawsers.

I am, &c.

Beagle, off the town of Genitchesk,

SIR,

4th July, 1855.

I have the honour to inform you that on my arrival off this place I immediately proceeded to minutely examine the communication between the town and Arabat Spit. and, on so doing, found it to be by means of a ferry of two large flats and hawsers, which I determined to destroy if possible.

Accordingly on the forenoon of yesterday I despatched my gig, under Mr. John Hayles, Acting Gunner of this ship, and paddle-box boat, under Mr. Martin Tracey, Midshipman, of the *Vesuvius*.

I have much pleasure in reporting that they succeeded entirely in destroying it by cutting the hawsers and casting the boats adrift, which was done under a very heavy of musketry, at about 80 yards, the troops completely lining the beach, and the adjacent houses being filled with riflemen.

Great credit is due to Mr. Hayles for his activity and zeal in destroying the same, and to Mr. Martin Tracey for the effectual fire he kept up in covering his retreat, the firing from the ship and paddle-box boat at the same time causing great confusion and loss amongst the enemy as they retired from their exposed position.

Mr. Hayles speaks in the highest terms of the boat's crew, especially of Joseph Trewavas, Ordi-

nary Seamen, lent from the Agamemnon, who cut the hawsers.

I enclose a list of casualties, which, I am happy to say, is very small, although the gig and paddle-box boat were riddled with musket balls.

I have, &c.,
(Signed) W. N. W. HEWETT,
Lieutenant Commanding.

1855. 6 H

Admiral the Honourable R. S. Dundas, Commander-in-Chief of Her Majesty's ships and vessels in the Baltic.

*Duke of Wellington,
at Nargen, July 17, 1855.*

SIR,

I transmit herewith, to be laid before my Lords Commissioners of the Admiralty, a report of proceedings during the past week from Captain Yelverton, who rejoined me yesterday at this anchorage in Her Majesty's ship *Arrogant*, and who, with the *Magicienne* and *Ruby* gunboats in company, visited the south coast of the Gulf of Finland, and attacked some military posts of the enemy at Kounda Bay and in the River Portsoiki.

Returning afterwards to his former station in the Bay of Viborg, he proceeded with boats towards the town, and engaged with a superior force of the enemy defended by batteries.

I request you will express to their Lordships my approbation of the conduct of this enterprising officer upon all occasions ; and I would beg to recommend to their favourable notice the conduct of Captain Vansittart, of the *Magicienne*, and of Lieutenant Haggard, of the *Arrogant*, and Lieutenant Dowell, of the Royal Marine Artillery, and the excellent behaviour of all the officers and men.

Captain Yelverton has spoken favourably also of the conduct of Mr. Hale, Mate, in command of the *Ruby*.

I regret much to have to report the loss of Mr. Story, Midshipman, of the *Arrogant*, with nine others wounded in the boats of the two ships, of whom one is since dead.

I have, &c.

(Signed) R. S. DUNDAS.

Enclosure in Admiral Dundas's Letter.

Her Majesty's ship Arrogant,
off Viborg, July 14, 1855.

SIR,

I have the honour to acquaint you with my proceedings during the week.

The Magicienne rejoined me on Wednesday, and I proceeded direct to Kounda Bay, on the South Coast, where I had reason to think that troops were concentrated. It turned out to be a large Cossack encampment, on a most commanding position, from whence I dislodged them, with shells and rockets from the Ruby and ship's boats. Some opposition was made to our landing, and shots fired from behind hedges, &c. ; but I succeeded in examining the place, which I did not injure, as it only contained private property.

The following morning I anchored at the mouth of the River Portsoiki, and landing on its right bank, destroyed a Cossack barrack and stables, driving the soldiers into the country. I then came on here.

Having anchored the ships as close as I could to the Island of Stralsund, I proceeded in the Ruby, accompanied by Captain Vansittart, of the Magicienne, and Captain Lowder, R.M., of this ship, the latter officer having under his command a strong detachment of marines ; we towed with us the boats of this ship, under the command of Lieutenants Haggard and Woolcombe, and those of the Magicienne, under the command of Lieutenants King and Loady.

Having opened the bay, called Trangsund, we saw a Russian man-of-war steamer with two large gun-boats in tow, not far off ; this most novel and unexpected sight of a Russian man-of-war for once clear of a stone wall, and to all appearance inclined to give us a fair and honest fight, created

the greatest enthusiasm amongst the men and officers.

I directed Mr. Hale, commanding the Ruby, to open fire on her at once, but she very soon retired out of range, having, I think, received some damage. We had now reached the entrance of the sound ; Viborg was in sight, and a fair prospect of attacking three large gun-boats, lying with another steamer under an island, about one mile off. We were here brought up by a barrier, impeding the passage of the gun-boat and launches.

At this moment, a masked battery on the left bank, not more than 350 yards off, opened on us a heavy fire of musketry, round, and grape ; this was instantly returned and kept in check by a rapid and well directed fire from the Ruby and all the boats. The enemy's steamer and gun-boats then came from under the island and also opened fire on us.

As it was impossible to get the Ruby through the barrier, I returned towards Stralsund, the enemy's riflemen following us along the banks, but driven from their positions as fast as they took them by the fire from the Ruby and boats.

An explosion took place in one of the Arrogant's cutters, which swamped the boat ; the men were saved, but I regret to say that Mr. Story, the midshipman in command of her, was killed.

In endeavouring to save the crew, the boat drifted close to the battery, and would have fallen into the hands of the enemy, had not Lieutenant Haggard, of this ship, and Lieutenant Dowell, R.M.A., of the Magiciene, in the Ruby's gig, with a volunteer crew, towed her out under a very heavy fire.

I cannot sufficiently praise the conduct of all the officers and men who were engaged in this affair, where their cool and determined courage

enabled them to handle most severely, and keep in check for upwards of one hour, the enemy far superior in number, with the advantage of local knowledge and a good position.

I beg to enclose a list of the casualties, and also a list of the officers in the boat.

I have, &c.,

Her Majesty having been pleased to appoint the Right Honourable Sir William Molesworth, Bart., to be one of Her Majesty's Principal Secretaries of State, he was this day, by Her Majesty's command, sworn one of Her Majesty's Principal Secretaries of State accordingly.

Her Majesty in Council was this day pleased, on a representation of the Right Honourable the Lords of the Committee of Council on Education, to appoint the Reverend Frederick Temple, M.A.,

to be one of Her Majesty's Inspectors of Schools, in the room of the Reverend Canon Moseley, resigned.

By the QUEEN.

A PROCLAMATION.

VICTORIA, R.

Whereas by Our Royal Proclamation, dated the twenty-ninth day of March, one thousand eight hundred and fifty-four, after referring to Our Order in Council, bearing date on the said twenty-ninth day of March, one thousand eight hundred and fifty-four, whereby We ordered that general reprisals be granted against the ships, goods, and subjects of the Emperor of all the Russias, his subjects, or others inhabiting within any of his countries, territories, or dominions (save and except any vessel to which Our licence had been or might be granted, or which had been directed to be released from the embargo and had not since arrived at any foreign port), so that Our fleets and ships should and might lawfully seize all ships, vessels, and goods belonging to the Emperor of all the Russias, or his subjects, or others inhabiting within any of his countries, territories, or dominions, and bring the same to judgment in any of the Courts of Admiralty within Our Dominions, duly authorized and required to take cognizance thereof, We did order and direct that the net produce of all such prizes taken by any of our ships or vessels of war (save and except when they should be acting on any conjunct expedition with Our army, in which case We reserved to ourselves the division and distribution of all prize and booty taken, and also save and except as thereafter mentioned), should

be for the entire benefit and encouragement of Our flag officers, eaptains, commanders, and other commissioned officers in Our pay, and of all subordinate warrant, petty, and non-commissioned officers, and of the seamen, marines, and soldiers, on board Our said ships and vessels at the time of the capture, after the same should have been to us finally adjudged lawful prize. And whereas We think fit that officers and crews of any of Our ships and vessels of war, who shall be placed or sent in charge of any ship or vessel which shall be hereafter captured or detained by any of Our ships or vessels of war, shall share in prizes made during their absence by the ship or vessel on the books of which they may then be borne ; We do therefore hereby order and direct, that all officers and crews of any of Our ships and vessels of war who shall be placed or sent in charge of any ship or vessel which shall be hereafter captured or detained by any of Our ships or vessels of war, shall share in the prizes captured during their absence, by the ship or vessel of war on the books of which they may be borne at the time of such prizes being captured, in all respects as if they had been actually on board such ship or vessel at the time of such prizes being captured by her.

Given at Our Court, at Osborne-House, Isle of Wight, this twenty-first day of July, in the year of our Lord one thousand eight hundred and fifty-five, and in the nineteenth year of Our reign.

GOD save the QUEEN.

FROM THE
SUPPLEMENT

TO THE

LONDON GAZETTE of JULY 24,
1855.

War-Department, July 26, 1855.

LORD PANMURE has this day received two Despatches and their Enclosures, of which the following are copies, addressed to His Lordship by Lieutenant-General Simpson, Commanding Her Majesty's Forces in the East.

Before Sevastopol,

MY LORD,

July 14, 1855.

I announced to your Lordship, by telegraph, on the 11th, the death of Lieutenant-Colonel Vico, of the French Army, which melancholy event took place on the afternoon of the 10th instant.

It is impossible for me to find words to express my regret at this sad visitation.

Lieutenant-Colonel Vico joined the English Army as joint Commissioner the later end of May, 1854, and had, up to the time of his death, never been absent from his duty for a single day. At Varna, where the cholera raged, and carried off hundreds—at the landing of the Allied Armies at Old Fort—at the Bulganc, where his colleague, Lieutenant-Colonel de Lagondie, was taken prisoner, and from which time he had the sole charge of the communications between the French and English Head Quarters—at the

glorious battle at Alma—at that of Balaklava—at the stern and bloody fight of Inkerman—in fact, at every place, and on every occasion, where he thought his services could be of use—was Lieutenant-Colonel Vico to be found.

I know that the late Field-Marshal Lord Raglan held him in the highest estimation, and placed the most implicit confidence in him; and although my acquaintance had, comparatively speaking, been but a short one, it had been long enough for me to appreciate the many excellent qualities with which he was endowed.

A pious Christian, a brave and gallant soldier, a single hearted upright man, a kind and generous one, who thought no personal sacrifice too great for the public good, he has gone from us, beloved and regretted by every Englishman who had the advantage of knowing him and enjoying his friendship.

I have, &c.,
JAMES SIMPSON,
Lieutenant-General Commanding.

The Lord Panmure, &c. &c. &c.

Before Sevastopol,
July 14, 1855.

MY LORD,

I have the honour to transmit the numerical and nominal return of casualties in this army, from the 9th to the 12th instant.

Captain Maunsell, of the 39th Regiment, who was killed in the trenches on the 10th instant, was a most gallant and meritorious officer, and his loss is much regretted.

I enclose also the return of casualties in the Naval Brigade on the 10th instant, the day we opened fire upon the Redan, considering which

circumstance your Lordship will rejoice to find that the list is not heavier ; the two men who are returned as killed, and wounded dangerously, respectively, received their injuries by the accidental bursting of the guns they were serving.

The weather, which had been oppressively hot since the date of my last despatch, has since changed to a far cooler and more agreeable temperature.

The health of the army continues good, and their confidence and cheerfulness is unabated.

There has been no change in the disposition of the Allied troops since my last Despatch.

I have, &c.,

JAMES SIMPSON,

Lieutenant-General Commanding.

The Lord Panmure, &c. &c. &c.

FROM THE
SUPPLEMENT

TO THE
LONDON GAZETTE of JULY 27,
1855.

War-Department, July 30, 1855.

LORD PANMURE has this day received two Despatches and their Enclosures, of which the following are copies, addressed to His Lordship by Lieutenant-General Simpson, Commanding Her Majesty's Forces in the East.

Before Sevastopol,

MY LORD, *July 17, 1855.*

I have the honour to submit for your Lordship's information the accompanying letters from Lieutenant-Colonel Campbell, 90th Regiment; the one referring to his personal services, and the other to those of a party of the 55th Regiment on the occasion of the capture of the Quarries in front of the Redan, on the night of the 7th ultimo.

With regard to Lieutenant-Colonel Campbell's own services I think it right to inform your Lordship that I find, upon enquiry, that the charge of holding the Quarries on the night in question, and of repelling the repeated attacks of the enemy was confided to that officer after he had led the assault, and was in fact a separate and detached command from that of Colonel Shirley, who acted as General of the day in the trenches of the right attack; the despatch of the late Field-Marshal

Lord Raglan has already shewn how admirably that duty was performed by the brave men who were under the immediate direction of Lieutenant-Colonel Campbell.

The Lieutenant-Colonel's letter, recording the good conduct of the party of the 55th Regiment, speaks for itself.

I have, &c.,

JAMES SIMPSON,

Lieutenant-General Commanding.

The Lord Panmure, &c. &c. &c.

Enclosure 1.

*Camp, Light Division,
July 13, 1855.*

SIR,

The despatch of the late lamented Field-Marshal Lord Raglan, of 9th June, mentions that I commanded the storming party on the Quarries on the evening of the 7th June. May I beg most respectfully that you will bring it to the notice of Lieutenant-General Simpson, Commanding the Forces, that I not only had the honour of commanding the storming party, but that having been twice wounded in the assault, I retained the sole and undivided command in the Quarries, not only of the original attacking force and supports, but of all reinforcements, during the whole night, until relieved at 7 A.M. on the 8th. The despatches must have explained already that the enemy made several desperate efforts, during the night, to regain the works, and that on three occasions overpowering numbers succeeded in re-entering, but were, on all occasions, driven back at the point of the bayonet. The entire night was, indeed, one continued struggle for this position, the fatigue and anxiety of which I have never recovered from. When Lord Raglan's despatch

was completed, I have reason to suppose his Lordship had not received the details, as my own report to Colonel Shirley, General of the trenches, was unavoidably delayed in consequence of my wounds, and not being able to write. In justice to myself, conscious of having performed an important duty to the best of my ability, and successfully, I now respectfully submit this statement to the Commander of the Forces, with the hope that he may be pleased to have my services on this occasion mentioned and particularized. At present, several officers have equal praise in the despatch who were not in the Quarries at all.

I have, &c.

ROB. CAMPBELL, Lieutenant-Colonel,
Commanding 90th Light Infantry.

*Lieutenant-Colonel Brownrigg,
Military Secretary, &c. &c. &c.
Head Quarters.*

Enclosure 2.

SIR, *Camp, July 10.*

I have the honour of forwarding the enclosed letter for the consideration of the Lieutenant-General Commanding the Forces; but I beg to remark, that in my report of the occurrences on the night of the 7th of June, I took care to mention the services of the 55th Regiment, which appear to have been overlooked in the late Field-Marshal's despatch.

I have, &c.,

H. SHIRLEY, Colonel, 88th Foot,
Commanding in the trenches on
the night of 7th June.

*The Military Secretary,
Head Quarters.*

Enclosure 3.

*Before Sevastopol,**July 8, 1855.*

SIR,

I beg to draw your attention to the inadvertent omission in Lord Raglan's despatch of the 9th June, of any mention of the 55th Regiment as sharing in the attack and defence of the Quarries, during the night of the 7th June. I did not mention the regiment in my report, as they were not given over to me as part of the attacking party; but the officer commanding the party informs me that they, being originally told off as a working party, were directed by the Engineer (Captain Browne) to throw down their tools, and that they were moved by you as a support to Egerton's Rifle-pit, whence they moved to support the attacking party, and did good service in clearing the Russian trenches, and in the defence throughout the night, as their severe list of killed and wounded attests (53 out of 160); many of the former not being found until the flag of truce, when their bodies were found in the trenches they had gained.

The officer in command of the party, Captain, now Major, Cure, reports that the gallant conduct of Lieutenant Stone, who was killed at the head of his men, charging the Russians in their trench with the bayonet, and of Captain Elton, who, with a small body of men, formed a covering party on the right to those who were reversing the trench, is particularly deserving of mention, as is that also of Lieutenants Scott and Williams, who were most active in performing their duties.

Hoping that the Commander of the Forces

may deem this statement sufficiently satisfactory to enable him to move in the subject.

I have, &c.,

ROB. CAMPBELL, Lieutenant-Colonel, 90th Regiment, Commanding Assault.

*To Colonel Shirley, Commanding
2nd Brigade, Light Division.*

*Before Sevastopol,
July 17, 1855.*

MY LORD,

I have the honour to transmit herewith the Nominal and Numerical Return of Casualties in this army, from the 13th to the 15th instant; also the Weekly Report of the Inspector-General of Hospitals, which will be most gratifying to your Lordship, as shewing a steady decrease in the number of cases of spasmodic cholera.

I have but little to report to your Lordship: our siege operations are steadily progressing.

Last night, about eleven o'clock, a sortie was made by the enemy on the right of the French works, in front of the Mamelon; the cannonade and fire of musquetry was exceedingly heavy, but I have not as yet been made acquainted with any particulars of the attack.

I regret to have to announce to your Lordship the death of Captain Rowland A. Fraser, of the 42nd Highlanders, a very talented young officer, who was killed in the trenches of the right attack, last night, by the splinter of a shell.

I have, &c.,

JAMES SIMPSON,
Lieutenant-General Commanding.

The Lord Panmure, &c., &c.

Enclosure 1.—Extract.

Head Quarters Camp before Sevastopol,

In transmitting the weekly state of sick, I have much satisfaction in being able to report to you a continued improvement in the health of the army.

There has been an increase of fever cases this week, but a marked decrease in both the frequency and severity of bowel affections.

I have, &c.,

JOHN HALL,

Inspector-General of Hospitals.

FROM THE
LONDON GAZETTE of JULY 31,
1855.

Admiralty, July 30, 1855.

A DESPATCH, of which the following is an extract, has been received at the Admiralty from Rear-Admiral the Honourable R. S. Dundas, Commander-in-Chief of Her Majesty's Ships and Vessels in the Baltic.

Extract of a Letter from Rear-Admiral Honourable R. S. Dundas to the Secretary of the Admiralty, dated Duke of Wellington at Nargen, 23rd July, 1855.

I have the satisfaction of transmitting a copy of a report which I have received from Captain Yelverton, detailing the circumstances under which, with the Cossack, Magicienne, and Ruby in company, he has again availed himself of an opportunity to attack, with good effect, a position occupied by troops of the enemy, assembled in considerable force, for the defence of Fredericks-ham; and I have much pleasure in submitting to their Lordships this additional proof of the zeal and gallantry of the officers and men under his orders, and of their good conduct, especially of Mr. H. G. Hale, Mate, and the crew of the Ruby gun-boat.

I have, &c.,

Enclosure in Admiral Dundas's Letter.

SIR, *Her Majesty's ship, Arrogant,
off the Crops Islands, July 22, 1855.*

I have the honour to inform you that, on leaving the Fleet, I proceeded off the Island of Hogland, where I was joined by the Cossack, Magicienne, and Ruby gun-boat.

Information having reached me that the enemy had sent 3000 troops to Fredericksham, and were making every possible exertion to put the place in a state of defence, I lost no time in getting there.

I arrived on the afternoon of the 20th, and would have attacked them that evening, but that the Ruby got on shore in examining the intricate channel leading to the town, and it was too late to take the ships in by the time she was off.

Early the following morning I succeeded in getting the ships up to the town, and at 9.40 we opened fire. After an engagement of one hour, the enemy ceased fire, and abandoned their guns, some of which were dismounted.

If I judge by the number of men we saw then carrying away on stretchers, they must have suffered severely.

I am happy to say the injury on our side has been trifling, though our hull bears evidence of the precision with which they fired, but generally speaking their shot fell short.

I regret to say that one man belonging to the Ruby was dangerously wounded by a round shot.

I must not allow this opportunity to pass without mentioning Mr. Hale, Mate, Commanding the Ruby gun-boat, who, together with his gallant crew, deserve the highest praise for the way in which they worked and fought their long gun, so close to this, that I had an opportunity of observing the precision of their fire.

One portion of a suburb caught fire and was destroyed, but I am happy to say the town remained uninjured, owing to the strict observance of an order I gave to fire on the fort only.

I beg to enclose a list of casualties.

FROM THE
 SUPPLEMENT
 TO THE
LONDON GAZETTE of JULY 31,
 1855.

War-Department, August 1, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by Lieutenant-General Simpson, Commanding Her Majesty's Forces in the East.

Before Sevastopol,
July 21, 1855.

MY LORD,

I have great pleasure to inform your Lordship that the health of the Army has greatly improved; cholera has nearly disappeared, and although more sickness has appeared amongst the officers, it is not of that character to cause uneasiness.

With reference to the exterior army, the Russians hold their strong position on the Mackenzie Heights, extending by Aitodor to Albat, with advanced posts by Chouli, Ogenbash, and the strong range of heights overhanging Urkusta and the valley of Baidar. It is reported they have

also a force of artillery and infantry at Alupka. The French have pushed forward the whole of their cavalry into the Valley of Baidar, resting upon the Sardinians, upon the left bank of the Souhai River, and communicating with the French upon the Tchernaya, whilst the high ridge protecting Balaklava is guarded by the Turkish Army.

I purpose sending four squadrons of light cavalry into the Valley of Baidar to-morrow, to protect and afford convoys to the Commissariat for the purpose of bringing in forage and supplies for the use of the army.

Major-General Markham, arrived on the 19th instant, and, agreeable to the instructions conveyed in your Lordship's telegraphic message, I have appointed him to the command of the 2nd Division.

FROM THE
SUPPLEMENT
TO THE
LONDON GAZETTE of AUGUST 3,
1855.

War-Department, August 6, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Simpson, Commanding Her Majesty's Forces in the East.

Before Sevastopol,
July 24, 1855.

MY LORD,

I have the honour to enclose the weekly return from Dr. Hall of the state of the sick. Your Lordship will read with satisfaction the improved condition of the health of the Army. I had entertained fears, from the very great heat of the last few days, that cholera would have assumed a more virulent form, but such has fortunately not been the case.

I have nothing to relate of importance respecting the siege. On the night of the 22nd the enemy opened a very heavy fire of musketry from the parapets of the Malakoff and adjacent works, but they did not attempt an attack. They opened a similar fire in the course of the night on the left of the French. I have every reason to believe

that they were apprehensive of an attack on the part of our Allies, and for this reason opened the fire above described, which did no damage to either the works or soldiers.

The troops in the Baidar Valley have not altered their positions from the date of the last time I had the honour to address you.

I return a list of the casualties to the 22nd instant.

I have, &c.,

JAMES SIMPSON,

Lieutenant-General Commanding.

The Lord Panmure, &c. &c. &c.

Enclosure 1.—Extract.

Before Sevastopol,

July 24, 1855.

SIR,
In transmitting the enclosed weekly state of sick to the 21st instant, I have much pleasure in being able to inform you that the health of the Army has continued to improve. There has been a trifling decrease in the number of admissions into hospital, and a considerable diminution in the mortality.

The number of casualties admitted from the trenches during the present week has been greater than it was last; but the deaths have been fewer, which shows that the generality of wounds received must have been of a less serious character.

I have, &c.,

J. HALL,

Inspector-General of Hospitals.

*To Lieutenant-General Simpson,
Commanding-in-Chief.*

FROM THE
LONDON GAZETTE of AUGUST 7,
 1855.

Admiralty, August 6, 1855.

A DESPATCH, of which the enclosed is a copy, has this day been received from Rear-Admiral the Honourable R. S. Dundas, C.B., the Commander-in-Chief of Her Majesty's Ships and Vessels in the Baltic.

Duke of Wellington,
at Nargen, July 30, 1855.

SIR,

I beg you will be pleased to acquaint the Lords Commissioners of the Admiralty, that having received, on the 24th instant, from Captain Yelverton, of Her Majesty's ship *Arrogant*, information which appeared to render it desirable that he should again examine the south-western shores of the Island of Kotka, I took immediate measures to strengthen the squadron under his orders by the addition of four gun-boats, to be detached from off Cronstadt by Rear-Admiral Baynes, together with the further addition of four mortar-vessels from hence, which he had hoped to be able to employ.

I have much satisfaction in transmitting for their Lordships' information the enclosed report of proceedings of Captain Yelverton, who, with the squadron under his orders, has again succeeded in completing the destruction of buildings and military stores to a considerable extent on the

Island of Kotka; and I beg once more to express my entire approbation of the manner in which he has executed the service entrusted to him, and of the conduct of the officers and men employed on the occasion.

I am happy in having this opportunity to recommend to the favourable notice of their Lordships the conduct of Mr. George Giles, Master of the *Arrogant*, and Mr. Macfarlane, the Master of the *Magicienne*, who have now been constantly employed in those ships on the various services which I have recently had occasion to report.

I have, &c.

(Signed) R. S. DUNDAS,

Rear-Admiral and Commander-in-Chief.

The Secretary of the Admiralty.

Enclosure in Admiral Dundas's Letter.

*Her Majesty's ship Arrogant,
off the Mouth of the Kymene,
July 28, 1855.*

SIR,

I have the honour to inform you that very early on the morning of the 26th I was joined, off the Island of Hogland, by the *Cossack* and *Magicienne*, bringing with them the mortar vessels *Prompt*, *Pickle*, *Rocket*, and *Blazer*. I stood immediately to the northward, leaving the *Ruby* to bring on the gun-boats, which were not then in sight. They joined at noon, and at 2 P.M. we all anchored off Fort Rotsensholm.

As the safety of our expedition rested chiefly on our investing and holding the entire possession of the fortified Island of Kotka, I determined upon taking it at once. Accordingly I anchored the mortar vessels out of range, and leaving two gun-boats to look after them, I proceeded with the

rest of the vessels to the westward of Kotka, for the purpose of destroying the bridge, so as to cut off the retreat of the garrison, and prevent their receiving reinforcements from the mainland. Captain Vansittart of the *Magicienne*, with his accustomed zeal and activity, threaded his way at once through the shoals, and destroyed the bridge. As soon as all the vessels had anchored, so as to command the great military road leading from the fort of Hogfors Holm, and also the channel dividing the island from the main, I landed all the Marines under command of Captain S. N. Lowder, R.M., with Lieutenant Geo. D. Dowell, R.M.A., and Lieutenants H. C. Mydge and P. R. Holmes, R.M., who took possession without being opposed, as the garrison (no doubt apprised of our coming by the telegraphs along the coast) had very recently evacuated, leaving behind them a large amount of military stores, which have since been burnt.

I beg to enclose a list of all the Crown property destroyed by Captain Lowder, including barracks, magazines, ordnance stores, storehouses, stables, guard-houses, and other Government buildings, with an immense amount of timber intended for building and other military purposes.

The following morning I weighed, leaving Captain Fanshawe with the *Cossack* in charge of this most important point, which required the utmost care and attention, as the enemy on several occasions threw out reconnoitring parties, as if inclined to attempt the recovery of the island.

I feel it due to Mr. George Giles, Master of this ship, and Mr. Geo. A. Macfarlane, Master of the *Magicienne*, to mention the zeal and attention with which they have sounded and buoyed, night and day, the intricate channels of this coast, enabling me (without the assistance of pilots) to

get into many places, where our presence was least expected.

I have, &c.,
(Signed) H. R. YELVERTON,
Captain.

P.S. Owing to a change of wind to the eastward, I regret to say that the village unfortunately caught fire from some Government buildings, and I fear much injury was done to it.

It is, however, a source of congratulation to be able to add that the fine church on the island sustained no damage whatever, owing to the precautions that were immediately taken to save it.

H. R. YELVERTON,
Captain.

*Rear-Admiral the Hon. R. S. Dundas, C.B.,
Commander-in-Chief.*

War-Department, August 8, 1855.

LORD PANMURE has this day received a Despatch and its enclosures, of which the following are copies, addressed to his Lordship by General Simpson, Commanding Her Majesty's Forces in the East.

Before Sevastopol,
July 28, 1855.

MY LORD,

Since my Despatch of the 24th instant, I have nothing of importance to relate to you. We continue to strengthen and improve our advanced works, which are now so close to the enemy's defences, that I regret to say our casualties are necessarily considerable.

The enemy exhibit great activity in adding to and improving their defences, and the conveyance of large military stores from the north to the south side is increasing.

I beg to transmit the lists of casualties to the 26th instant, and the confidential fortnight reports of the Generals of Division and Brigade.

The cholera has nearly ceased in the ranks of the Army.

I have, &c.,

JAMES SIMPSON,

Lieutenant-General Commanding.

The Lord Panmure, &c. &c. &c.

FROM THE
SUPPLEMENT
TO THE
LONDON GAZETTE of AUGUST 10,
1855.

War-Department, August 13, 1855.

LORD PANMURE has this day received a
Despatch and its Enclosures, of which the follow-
ing are copies, addressed to his Lordship by
General Simpson, Commanding Her Majesty's
Forces in the East.

Before Sevastopol,

MY LORD,

July 31, 1855.

I beg to enclose the list of casualties to the 29th instant, which I regret to say are very heavy.

The proximity of our works to those of the enemy, together with the lightness of the night, and rocky nature of the ground, making it impossible to obtain rapid cover, materially contributes to such a result; notwithstanding which disadvantages our engineers continue steadily, though slowly, to advance in the direction of the Great Redan.

An agreeable change has taken place the last few days in the temperature of the weather; heavy showers of rain have occasionally fallen.

Several reconnaissances have been made from the valley of Baidar towards Ozenbash, Aitodor, and through the Phoros Pass towards Alupka, the enemy nowhere appearing in any force; but the narrowness of the mountain roads, with the exception of the Woronzow, makes it unnecessary for them to alter their concentrated position on the heights of Mackenzie and plateau of the Belbek.

The health of the troops continues very satisfactory.

I have, &c.,

JAMES SIMPSON,

Lieutenant-General Commanding.

The Lord Panmure, &c. &c. &c.

FROM THE
LONDON GAZETTE of AUGUST 14,
 1855.

Admiralty, August 13, 1855.

DESPATCHES, of which the following are copies, have been received from Rear-Admiral Sir Edmund Lyons, Bart., G.C.B., Commander-in-Chief of Her Majesty's Ships and Vessels in the Mediterranean and Black Sea.

No. 613.

Royal Albert, off Sevastopol,
July 30, 1855.

SIR,
 In continuation of the proceedings of the steam squadron in the Sea of Azof, under the orders of Commander Sherard Osborn, of the *Vesuvius*, I beg leave to enclose, for the information of the Lords Commissioners of the Admiralty, copies of two letters from that officer, together with the several enclosures reporting the steps taken to deprive the enemy of the new harvest, and to cripple his resources of all kinds, since the proceedings which were communicated in my letter of the 7th instant (No. 538).

During the time the squadron was detained from stress of weather, under Berutch Spit, near Ghenitch, the vessels were, at every break of the weather, employed in destroying extensive fishing establishments which supplied the army in the Crimea with fish, as well as guard-houses, barracks, stores of forage, and provisions on the Isthmus of Arabat, and the pontoon or only means of communication between Arabat Spit and the Crimea, at the entrance of the Kara-su River was

burnt by Commander Rowley Lambert of the *Curlew*. The attack and destruction of Fort Petrovskoi, on the 16th instant, by the combined English and French squadrons named in Commander Osborn's letter, appears to have been accomplished with the usual skill and success which has attended the operations in the sea of Azof; and their Lordships will observe that particular mention is made of Lieutenant Hubert Campion, Senior Lieutenant of the *Vesuvius*, who commanded the landing party, and rendered great service. I would particularly beg leave to call their Lordships' attention to the high-minded conduct of Captain De Cintré, of His Imperial Majesty's steamer *Milan*, who, on seeing that the bulk of the squadron was under the orders of Commander Osborn, to whom he was senior, waived his right to plan the attack, and placed his ship, as well as the *Mouette*, in the positions pointed out by Commander Osborn.

In the meantime Lieutenant Hewett, in the *Beagle*, destroyed an extensive collection of fish stores and two large granaries full of corn in the neighbourhood of Berdiansk.

After destroying Fort Petrovskoi, the squadron proceeded to Glofira, where some extensive corn and fish stores were destroyed by vessels under the orders of Commander Rowley Lambert, of the *Curlew*, and a similar service was performed at the Crooked Spit, in the Gulf of Azof, by vessels under the orders of Commander F. A. B. Graufurd, of the *Swallow*. In the meantime Commander Osborn, reconnoitred various parts of the coast as far as Taganrog.

The reports of Commander Osborn are so comprehensive that I will only remark that the admirable manner in which he has carried out the instructions "to clear the sea board of all fish

stores, all fisheries and mills on a scale beyond the wants of the neighbouring population, and, indeed of all things destined to contribute to the maintenance of the enemy's army in the Crimea," fully corroborates the opinion I have before expressed, that he is an officer possessing a rare combination of high qualities, and I beg to recommend him to their Lordships' most favourable consideration.

I am, &c.,

(Signed) EDMUND LYONS,
Rear-Admiral and Commander-in-Chief.

The Secretary of the Admiralty,
&c. &c. &c.

Her Majesty's ship Vesuvius,

SIR, *Gulf of Azof, July 17, 1855.*

Heavy gales and much sea obliged the squadron in this sea to take shelter under Berutch Spit for several days. Coaling, provisioning, and completing stores was, however, proceeded with, and at every break in the weather the vessels were actively employed destroying some extensive fisheries upon Berutch Spit, as well as guard-houses, barracks, and stores of forage and provisions, to within an easy gun shot of Arabat Fort. The only pontoon or means of communication between Arabat Spit and the Crimea, at the entrance of the Kara-su River, has been burnt by Commander Rowley Lambert, H.M.S. Curlew, and we have now entire possession of the spit. A lull in the weather enabled me to put to sea upon the 13th July, for a sweep round the Sea of Azof; the Ardent, Weser, and Clinker being left under the orders of Lieutenant Horton to harass Genitch and Arabat, as well to cut off all communication along the spit.

Delayed by the weather, we did not reach Ber-

diansk until the 15th July; a heavy sea was running, but anxious to lose no time, the senior officer of the French Squadron (Captain De Cintré, of the Milan) and myself determined to go at once and endeavour to burn the forage and corn stacks upon the landward side of the hills overlooking the town.

No inhabitants were to be seen, but the occasional glimpse of soldiers showed that a landing was expected, and that they were prepared for a street fight. I hoisted a flag of truce in order, if possible, to get the women and children removed from the town, but as that met with no reply, and the surf rendered landing extremely hazardous, I hauled it down, and the squadron commenced to fire over the town at the forage and corn stacked behind it, and I soon had the satisfaction of seeing a fire break out exactly where it was wanted. The town was not touched except by an occasional shell. The wheat and forage being fired it became necessary to move into deeper water for the night, and from our distant anchorage the fires were seen burning throughout the night.

On the 16th July the Allied squadron proceeded to Fort Petrovskoi, between Berdiansk and Mariampol. As I approached the place there were evident symptoms of an increase to the fortifications since the Vesuvius silenced its fire three weeks ago. A redan, covering the curtain which faces the sea, shewed seven new embrasures, and much new earth led me to expect some masked works.

Captain De Cintré, commanding the French steamer Milan, although my senior, in the most handsome manner surrendered the right of planning the attack, and keeping alone in view the good of the allied cause, gallantly took up the position I wished him to do, followed by Captain De L'Allemand, in the Mouette.

At 9.30 A.M., all arrangements being made, the squadron, named in the margin*, took up their positions. The light draught gun-boats taking up stations east and west of the fort, and enfilading the works in front and rear; whilst the heavier vessels formed a semicircle round the front. The heavy nature of our ordnance crushed all attempts at resistance, and soon forced not only the garrison to retire from the trenches, but also kept at a respectable distance the reserve force, consisting of three strong battalions of infantry, and two squadrons of cavalry.

We then commenced to fire with easeases, and although partially successful, I was obliged to send the light boats of the squadron to complete the destruction of the fort and batteries; a duty I entrusted to Lieutenant Hubert Campion, of the *Vesuvius*, assisted by the officers in the annexed list.

In a short time I had the satisfaction of seeing all the cantonment, gun platforms, public buildings, corn and forage stores on fire, and the embrasures of the earthworks seriously injured; and although the enemy from an earthwork to the rear opened a sharp fire upon our men, Lieutenant Campion completed this service in the most able and perfect manner, without the loss of one man.

Lieutenant Campion reports that the fort was fully as formidable a one as it appeared from the ships; the platforms were laid ready, but the guns either had not yet arrived or had been with-

drawn by the enemy. Leaving the Swallow, Commander Crauford, to check any attempt of enemy to re-occupy the fort and extinguish the fire until the destruction was complete, the rest of the squadron proceeded to destroy great quantities of forage and some most extensive fisheries, situated upon the White House Spit, and about the mouth of the River Berda. By dark the work was done, and thirty fisheries, numbers of heavy launches, and great store of salted fish, nets, and gear, as well as much forage, had fallen into our hands in spite of considerable numbers of Cossack horse.

Nothing could exceed the zeal and energy displayed by every officer and man throughout the day; and the skilful manner in which the various officers in command of Her Majesty's vessels took up their positions in the morning, the beautiful accuracy of the fire, and the care with which the squadron was handled in shallow water, deserve to be called to your favourable notice. The able and cheerful co-operation of the French throughout the day was beyond all praise.

*Her Majesty's ship Vesuvius,
Gulf of Azof, July 21, 1855.*

SIR,
The day I closed my last report to you, the Beagle, Lieutenant Hewett, was detached to Berdiansk.

Lieutenant Hewett rejoined me yesterday, and reports that one of the Russian sunken vessels was blown up. Lieutenant Hewett, the same evening,

landed under cover of his vessel's guns, and destroyed an extensive collection of fish stores, and two large granaries full of corn.

On the 17th July, in consequence of information received of extensive depôts of corn and forage existing at a town called Glofira, upon the Asiatic coast, near Gheisk, I proceeded there with the squadron, accompanied by the French steamers Milan and Mouette. The Vesuvius and Swallow were obliged to anchor some distance off shore. I therefore sent Commander Rowley Lambert (Her Majesty's ship Curlew), with the gun-boats named in the margin* to reconnoitre in force, and if an opportunity occurred, to destroy any stores of provisions or of forage, he was to do so. Commander Lambert found Glofira and its neighbourhood swarming with cavalry; the town an open straggling agricultural village, and no appearance of corn or forage in it; he therefore very properly confined his operations to destroying, upon Glofira Spit, some very extensive corn and fish stores, but spared the town. The skill with which this service was executed in the face of large bodies of cavalry, reflects no small credit upon Commander Lambert; and he speaks most highly of the able assistance rendered him by the French officers and men under Captains De Cintré and L'Allemand.

From Glofira I next proceeded to the Crooked Spit, in the Gulf of Azof, the French squadron parting company to harass the enemy in the neighbourhood of Kamisheva and Obitotchna.

The squadron reached Crooked Spit the same day (July 18); and I immediately ordered Commander Frederick Craufurd, in the Swal-

low, supported by the gun-boats Grinder, Boxer, and Cracker, and the boats of Her Majesty's ships Vesuvius, Curlew, and Fancy, under Lieutenants Grylls, Rowley, and Sullivan, to proceed and clear the spit of the cavalry and Cossacks of the enemy, and then land and destroy the great fishing establishments situated upon it. Commander Crauford executed this service with great vigour, and his report I have the honour to enclose. The extraordinary quantity of nets and stores of fish, and the scale of the works destroyed fully confirm the statements made by the work people that their occupation consisted in supplying food to the army in the Crimea, everything going to Simpheropol by the great northern road along the steppe. Whilst this service was being executed I reconnoitred the mouth of the river Mious, fifteen miles west of Taganrog, in Her Majesty's ship Jasper, Lieutenant J. S. Hudson. The shallow nature of the coast would not allow us to approach within a mile and three quarters of what in the chart is marked as Fort Temenos. The fortification was an earthwork of some extent and ditched but not pierced for guns. It was evidently of an old date, and as I could see no one within it, I again returned to the same place, accompanied by the boats of Her Majesty's ships Vesuvius and Curlew, and Her Majesty's gun-vessels, Cracker, Boxer, and Jasper.

Cavalry in large bodies, armed for the most part with carbines or rifles, were evidently much harassed by riding upon supposed points of attack; and when we got to Fort Temenos, and the usual Cossack picquet had been driven off, I and Commander Lambert proceeded at once with the light boats into the river. When there, and immediately under Fort Temenos, which stands upon a steep escarpé of eighty feet, we found ourselves looked

down upon by a large body of both horse and foot lining the ditch and parapet of the work. Landing on the opposite bank, at good rifle-shot distance, one boat's crew, under Lieutenant Rowley, was sent to destroy a collection of launches and a fishery, whilst a careful and steady fire of Minie rifles, kept the Russians from advancing upon us. Assuring ourselves of the non-existence of any object worth hazarding so small a force any farther, we returned to the vessels, passing within pistol shot of the Russian ambuscade. The cool steadiness of the officers and men in the gigs, together with the wonderful precision of the fire from the covering vessels, distant as they were, doubtless kept the enemy in check, and prevented serious consequences. To Commander Lambert, Lieutenants Grylls and Rowley, and Mr. Tabuteau (Matc), who were in the gigs, as well as to Lieutenants Marryatt, Townshend, and Hudson, who commanded the gun-vessels, my best thanks are due.

The gig of the Grinder, under Lieutenant Hamilton, had a narrow escape upon the same day from a similar ambuscade, at a place called Kirpe, 10 miles east of Marianpol, the very proper humanity of Lieutenant Hamilton in not firing into an open defenceless town as it appeared to him, having nigh entailed the loss of a boat's crew when he attempted to land and destroy a corn store. A heavy fire of musketry at half pistol shot providentially injured no one, and Lieutenant Hamilton appears to have most skilfully escaped.

The 19th July, I reconnoitered Taganrog in the Jasper gun-boat. A new battery was being constructed upon the heights near the hospital, but although two shots were thrown into it, it did not reply.

Every part of the town showed signs of the

injuries it had received when we visited it under the late Captain Edmund Lyons, of the *Miranda*. The long series of Government stores burnt by the Allied Flotilla had not been repaired, and the only sign of any communication being now held by water, with the Don, was one large barge upon the beach.

To put a stop, however, to all traffic of this nature, and to harass the enemy in this neighbourhood, I have ordered Commander Craufurd to remain in the Gulf of Azof, with two gun-vessels under his orders.

That the squadron has not been idle, I trust this report will show ; and without entering more into details than I have done, I can assure you, Sir, that from Ghenitch to Taganrog, and thence round to Kamiskeva, we have kept the coast in a state of constant alarm, and their troops incessantly moving. The good service done by the gun-boats in this way has been very great.

The total amount of provisions, corn, fisheries, forage, and boats, destroyed, has been something enormous.

Nothing can exceed the zeal and activity of the officers, or good conduct of the men, constituting this squadron ; and constant work does not, I am happy to say, appear as yet to impair their health.

I have, &c.,

(Signed) SHERARD OSBORN,
Commander and Senior Officer.

*Rear-Admiral Sir Edmund
Lyons, Bart., G.C.B.,
&c. &c, &c.*

*Her Majesty's ship Swallow,
off Crooked Spit, Sea of Azof,
July 15, 1855.*

SIR,

In compliance with your orders, I proceeded in Her Majesty's steam gun-boat Grinder, with Cracker and Boxer, and boats of the squadron to reconnoitre the Crooked Spit.

Having cleared the spit of some mounted troops who occupied it, I ordered a detachment of boats, with their respective officers, to land and destroy the immense fishing establishments and nets found upon the point of it. The country seemed swarming with cavalry, but by the able management of the officers in command of the gun-boats, and by their good fire, they were effectually driven off the spit some distance inland.

Having reconnoitred as far into the land as we could see from the mast head of the Grinder, all the boats were ordered to land and set fire to very large and extensive government stores upon the upper part of the spit, including large fishing establishments, an enormous quantity of nets, haystacks, and several large houses used as government stores. I learnt from a Russian fisherman that the fish caught on this spot and cured here was immediately forwarded to Simpheropol, for the use of the Crimean army ; and I conclude that a very severe blow has been inflicted upon the enemy by the amount of property which was destroyed, including spars, timber, fish, nets, and boats ; apparently the most extensive fishing establishment in the Sea of Azof ; and I am happy to say without a casualty. My thanks are due to Lieutenants Hamilton, of Grinder, and Townshend, of Boxer, as also to Lieutenants Rowley, of Curlew ; Grylls, of Fancy ; Sullivan, of Vesuvius ; Mr. Aldrich, Master of Swallow ; Mr. Deare, Gunner

of Curlew ; and Mr. Windsor, Gunner of Swallow ; who all and each by their zeal and activity rendered great service in destroying so large an accumulation of stores and houses in so short a space of time.

I have, &c.,
 (Signed) FRED. A. B. CRAUFURD,
 Commander.

FROM THE
SUPPLEMENT

TO THE

LONDON GAZETTE of AUGUST 14,
1855.

War-Department, August 16, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Simpson, Commanding Her Majesty's Forces in the East.

Before Sevastopol,

August 4, 1855.

MY LORD,

I have the honour to acquaint your Lordship that on the night of the 2nd instant, between ten and eleven o'clock, the enemy made a sortie in considerable force by the Woronzoff-road. The strength of the enemy is computed to be about 2000. Their object was to destroy a heavy iron chevaux de frize, made across the Woronzoff-road, between our right and left attacks, and being further supported by heavy columns in rear, to take advantage of such circumstances as might present themselves.

They came on with loud cheers and bugling, and were received with great gallantry by our advanced picquet, under the command of Lieutenant R. E. Carr, of the 39th Regiment, who withdrew his men, firing at the same time upon the enemy, to the main body, under the command of Captain Leckie, 39th Regiment.

A heavy and well-directed fire was opened upon the enemy by the party under Captain Leckie on the Woronzoff-road, as also by the guards of the trenches on the right of the fourth parallel, under the command of Captain Boyle, of the 89th Regiment, and Captain Turner, of the 1st Royals, which, in about ten minutes, caused the enemy to retire from an attack which, if it had not been so well met, might have been a serious affair.

The enemy left four men killed, and some wounded were carried away. We had only one man slightly wounded in this affair.

I have the honour to transmit the returns of casualties from the 30th July to the 2nd August.

I have the satisfaction of informing your Lordship of the return to this Army of Captain Montagu, of the Royal Engineers, from being a prisoner of war. He expresses himself highly grateful for the kindness with which he was treated by the Russians during his captivity.

It is with great regret that I have to communicate to your Lordship that Lieutenant-General Sir R. England, G.C.B., has been compelled, upon the recommendation of a Medical Board, to return to England. Sir R. England is the last of the General Officers who left the United Kingdom in command of a Division; he has remained at his post throughout the trying heats of Bulgaria, and the severities and hardships of the winter's campaign in the Crimea; and great credit is due to this officer for the constancy and untiring zeal he has exhibited in carrying out arduous and difficult duties on all occasions.

I have, &c.,

JAMES SIMPSON,

Lieutenant-General Commanding.

The Lord Panmure, &c., &c., &c.

FROM THE
LONDON GAZETTE of AUGUST 17,
 1855.

The Speech of the Lords Commissioners to both Houses of Parliament, on Tuesday, August 14, 1855.

My Lords and Gentlemen,

WE are commanded by Her Majesty to release you from further attendance in Parliament, and at the same time to express the warm acknowledgments of Her Majesty for the zeal and assiduity with which you have applied yourselves to the discharge of your public duties during a long and laborious session.

Her Majesty has seen with great satisfaction, that while you have occupied yourselves in providing means for the vigorous prosecution of the War, you have given your attention to many measures of great public utility. Her Majesty is convinced that you will share Her satisfaction at finding that the progress of events has tended to cement more firmly that union which has so happily been established between Her Government and that of Her Ally the Emperor of the French; and Her Majesty trusts that an alliance, founded on a sense of the general interests of Europe, and consolidated by good faith, will long survive the events which have given rise to it, and will contribute to the permanent well-being and prosperity of the two great nations whom it has linked in the bonds of honourable friendship.

The accession of the King of Sardinia to the

treaty between Her Majesty, the Emperor of the French, and the Sultan, has given additional importance and strength to that alliance, and the efficient force which His Sardinian Majesty has sent to the seat of war to co-operate with the Allied Armies will not fail to maintain the high reputation by which the Army of Sardinia has ever been distinguished.

Her Majesty has commanded us to thank you for having enabled Her to avail Herself, as far as has been found to be required, of those patriotic offers of extended service which she has received from the Militia of the United Kingdom, and for the means of reinforcing Her brave Army in the Crimea by an enlistment of volunteers from abroad.

Her Majesty acknowledges with satisfaction the measure which you have adopted for giving effect to the Convention by which, in conjunction with Her Ally the Emperor of the French, she has made arrangements for assisting the Sultan to provide the means which are necessary to enable Him to maintain in efficiency the Turkish Army which has so gallantly withstood the assaults of its enemies.

Her Majesty, in giving Her assent to the Bill which you presented to Her for the local Management of the Metropolis, trusts that the arrangements provided by that measure will lead to many improvements conducive to the convenience and health of this great city. The abolition of the duty on newspapers will tend to diffuse useful information among the poorer classes of Her Majesty's subjects. The principle of limited liability which you have judiciously applied to joint stock associations will afford additional facilities for the employment of capital, and the improvements which you have made in the laws which regulate friendly societies will encourage habits of industry

and thrift among the labouring classes of the community.

Her Majesty trusts that the measures to which She has given Her assent for improving the constitutions of New South Wales, Victoria, and Tasmania, and for bestowing on the important and flourishing colonies of Australia extended powers of self-government, will assist the development of their great natural resources, and will promote the contentment and happiness of their inhabitants. *

Her Majesty commands us to say that She has been deeply gratified by the zeal for the success of Her Majesty's arms, and by the sympathy for Her soldiers and sailors, manifested throughout Her Indian and Colonial Empire; and Her Majesty acknowledges with great satisfaction the generous contributions which Her subjects in India, and the Legislatures and inhabitants of the colonies, have sent for the relief of the sufferers by the casualties of war.

Gentlemen of the House of Commons,

Her Majesty commands us to convey to you Her cordial thanks for the readiness and zeal with which you have provided the necessary supplies for carrying on the war in which Her Majesty is engaged.

Her Majesty laments the burthens and sacrifices which it has become necessary to impose upon Her faithful people, but she acknowledges the wisdom with which you have alleviated the weight of those burthens by the mixed arrangements which you have made for providing those supplies.

My Lords and Gentlemen,

Her Majesty has commanded us to say, that she has seen with sincere regret that the endeavour

which, in conjunction with Her Ally the Emperor of the French, she made at the recent conferences at Vienna to bring the war to a conclusion on conditions consistent with the honour of the Allies and with the future security of Europe, have proved ineffectual. But, those endeavours having failed, no other course is left to Her Majesty but to prosecute the war with all possible vigour ; and Her Majesty, relying upon the support of Her Parliament, upon the manly spirit and patriotism of Her people, upon the never failing courage of Her Army and Her Navy, whose patience under suffering and whose power of endurance Her Majesty has witnessed with admiration, upon the steadfast fidelity of Her Allies, and above all upon the justice of Her cause, humbly puts Her trust in the Almighty Disposer of Events for such an issue of the great contest in which she is engaged as may secure to Europe the blessings of a firm and lasting peace.

On your return to your several counties you will have duties to perform little less important than those which belong to your attendance in Parliament. Her Majesty trusts that your powerful influence will be exerted for the welfare and happiness of Her people, the promotion of which is the object of Her Majesty's constant care and the anxious desire of Her heart.

Then a Commission for proroguing the Parliament was read, after which the Lord Chancellor said,

My Lords and Gentlemen,

By virtue of Her Majesty's Commission, under the Great Seal, to us and other Lords directed, and now read, we do, in Her Majesty's name and in obedience to Her commands, prorogue this

Parliament to Tuesday the twenty-third day of October next, to be then here holden; and this Parliament is accordingly prorogued to Tuesday the twenty-third day of October next.

W. L. PAKENHAM,
Adjutant-General.

Admiralty, August 18, 1855.

Despatches, of which the following are copies, have been received from Rear-Admiral Sir Edmund Lyons, Bart., G.C.B., Commander-in-Chief of Her Majesty's Ships and Vessels in the Mediterranean and Black Sea.

No. 633. *Royal Albert, off Sevastopol,*
SIR, *August 4, 1855.*

In continuation of the proceedings of the squadron in the Sea of Azof since those which were reported in my letter of the 30th ultimo, No. 613, I have the honour to enclose, for the information of the Lords Commissioners of the Admiralty, a copy of a letter from Commander Sherard Osborn, of the *Vesuvius*, the senior officer in that sea, reporting to me the steps he had taken to harass the enemy as much as possible, and to punish him at Berdiansk for having fired at some of our people, although the town had been previously spared on the plea of its being defenceless.

Commander Osborn does not fail to point out and to do justice to the merits of the officers, by whom he has been so ably seconded, and he particularly mentions Commander Rowley Lambert, of the Curlew, the officer next in seniority to himself, who has on all occasions been conspicuous for his activity and gallantry.

Commander Osborn has also on several occasions borne the highest testimony to the merits of those gallant officers, Lieutenant William Horton, commanding the Ardent, and Lieutenant John E. Commerell, commanding the Weser.

I am, &c.

(Signed) EDMUND LYONS,

Rear-Admiral and Commander-in-Chief.

To the Secretary of the Admiralty,

&c.

&c.

&c.

Her Majesty's ship Vesuvius,

SIR,

Arabit Spit, July 25, 1855.

Since my last letter I have fully succeeded in destroying, by means of submarine explosions, the four Russian steamers sunk in Berdiansk Bay, and as the enemy had, from the houses of the western suburb of Berdiansk, twice fired upon our people, whilst peaceably and unguardedly employed, I considered it right that such a dishonourable course, from a town which had been spared under plea of being defenceless, should be severely punished, and the more so as Berdiansk had been treated with unusual leniency upon the occasion of our former visits.

I therefore, on the 22nd of July, caused to be destroyed the western suburb, which had screened their riflemen, and succeeded in discovering and setting fire to no less than ten large granaries,

filled with wheat, each averaging about two hundred tons in capacity, and several flour mills, which have been employed, night and day, grinding for the use of the Russians.

The church and major portion of the town I spared, although nearly every house we searched contained grain in large quantities, and the whole place might be considered little else than a general granary.

The dangerous service of landing in so large a town, with bodies of Cossacks threatening, was entrusted to Commander Rowley Lambert, Lieutenant Hubert Campion (senior of his ship), Lieutenant Hewett, Her Majesty's steam-vessel *Beagle*, and Lieutenant Marryat, Her Majesty's steam-vessel *Craeker*, and the skill with which it was executed reflects the highest credit upon their zeal and judgment.

The operations were admirably covered by the gun-boats under Lieutenants Grylls, Commerell, and Townsend, and Her Majesty's ships *Vesuvius* and *Curlew*; the latter under charge of her zealous First Lieutenant, C. J. Rowley.

On the 24th July I rejoined Lieutenant Horton, Her Majesty's steam-vessel *Ardent*. He, I found, had not been idle; and, with the assistance of the *Clinker*, Lieutenant Smithett, and *Wrangler*, Lieutenant Burgoyne, very much damage had been done to the enemy from Gheniteh to Obi-totchna Spit, in the destruction of forage, fish, stores and launches.

I have, &c.,

(Signed) SHERARD OSBORN,
Commander and Senior Officer.

*Rear-Admiral Sir Edmund
Lyons, Bart., G.C.B.,
Commander-in-Chief.*

With reference to the above despatches, the undermentioned Officers have this day been promoted :—

To be Captain.

Commander Sherard Osborn.

To be Commander.

Lieutenant William Horton.

Duke of Wellington,

SIR,

before Sweaborg, August 13, 1855.

I have the honour to report, for the information of the Lords Commissioners of the Admiralty, that, after my arrival here on the 6th instant, with the squadron under my orders, I was joined the same evening by Rear-Admiral Pénaud, in the *Tourville*, and on the following day by the remainder of the French squadron, including, in addition to the ships of the line, five mortar-vessels and five gun-boats, with store ships and steam-vessels.

On the 7th instant, the *Amphion* arrived from Nargen, completing the British squadron, to the ships and vessels named in the margin,* and the

* Duke of Wellington (bearing my flag), Exmouth (bearing the flag of Rear-Admiral Sir Michael Seymour), *Euryalus*, *Arrogant*, *Pembroke*, *Cornwallis*, *Cossack*, *Merlin*, *Vulture*, *Hastings*, *Edinburgh*, *Amphion*, *Magicienne*,

intention of Rear-Admiral Pénaud and myself being to commence operations against the Fortress and Arsenal of Sweaborg, no time was lost in making the necessary preparations.

My former reports will have informed their Lordships, that during the past year, and in the course of the last five months, the enemy has been actively employed in strengthening the defences of the place and completing the sea defences, by erecting batteries on every advantageous position and commanding every practical approach to the harbour in this intricate navigation.

It has therefore formed no part of my plan to attempt a general attack by the ships on the defences ; and the operations contemplated by the Rear-Admiral and myself were limited to such destruction of the fortress and arsenal as could be accomplished by means of mortars.

The intricate nature of the ground, from rocks a-wash and reefs under water, rendered it difficult to select positions for the mortar vessels at proper range. In completing the arrangements for this purpose, I have derived the greatest advantage from the abilities of Captain Sullivan, of Her Majesty's ship *Merlin*, and the positions ultimately chosen were in a curved line on either side of the Islet of Oterhall, with space in the centre reserved for the mortar vessels of the French squadron, as concerted with Rear-Admiral Pénaud.

The extremes of the line were limited, with

Dragon, Belleisle, Cruizer. Geyser, Locust, Lightning, Eolus, Princess Alice, Volcano (arrived on the 10th).

Gun-Boats.—Starling, Lake, Thistle, Redwing, Magpie, Badger, Pelter, Snap, Dapper, Weazel, Stork, Pincher, Gleaner, Biter, Skylark, Snapper.

Mortar-Vessels.—Rocket, Surly, Pickle, Blazer, Mastiff, Manly, Drake, Porpoise, Prompt, Sinbad, Carron, Redbreast, Beacon, Grappler, Havock, Growler.

reference to the extent of the range and the distance from the heavily armed batteries of Bak-Holman to the eastward, and of Stora Rantan to the westward of Sweaborg ; and a most effective addition to the force of the Allied squadrons consisted in a battery of 4 lighter mortars established by Admiral Pénaud on an islet in advance of Oterhall.

To carry these arrangements into effect I directed Captain Ramsay, of Her Majesty's ship *Euryalus*, with Captain Glasse, of the *Vulture*, Captain Vansittart, of the *Magicienne*, and Captain Stewart, of the *Dragon*, to anchor to the southward of Oterhall, and the mortar vessels, under the charge of Lieutenant the Hon. Augustus C. Hobart, of the *Duke of Wellington*, being distributed to the care of those officers, the whole were anchored on the evening of the 7th instant in position, in readiness to warp into action, and hawsers for that purpose were laid out before daylight. Much assistance of towing was rendered by the officers in the gun boats, and great praise is due to all concerned for their active exertions.

In the course of the same night Rear-Admiral Pénaud had commenced the establishment of his battery with sand bags, on the rocks within Oterhall, but the active arrangements could not be completed before the morning of the 9th instant.

During the whole of the previous day the royal standard of Russia was flying upon the citadel of Gustafsvard, but was not afterwards observed.

The success of our operations being dependent entirely on the state of the weather and the rapidity with which shells could be thrown, no time was lost in trying the ranges of the mortars which proved to be accurate, and general firing commenced soon after 7 o'clock. The direction of this service

was confided to Captain T. M. Wemyss, of the Royal Marine Artillery, assisted by Captain Lawrence and Captain Sehomberg, and every exertion was used by these officers to press the fire of the mortars to the fullest extent which could be deemed proper.

The gun-boats, having been previously armed with additional guns of heavy calibre, removed temporarily from ships of the line, and the Stork and Snapper gun-boats, being armed with Lancaster guns, I availed myself of the experience of Captain Hewlett to direct the fire of the two latter vessels to the greatest advantage, and his attention was specially directed to a three-decked ship of the line moored to block the passage between Gustafsvard and Bak Holmen.

Commander Preedy, of the ship bearing my flag, was directed to take the Starling and four other gun-boats under his orders, and to manœuvre and attack the batteries in front of the mortar-vessels towards the west extremity of the line.

The remainder were distributed in a similar manner to stations assigned to them, with orders to engage the batteries and protect the mortar-vessels under the general direction of Captain Ramsay, assisted by Captains Glasse, Vansittart, and Stewart.

On the evening of the 8th instant, I had despatched Captain Key in Her Majesty's ship *Amphion*, to proceed off Stora Miölö, and to place himself under the orders of Captain Wellesley, of Her Majesty's ship *Cornwallis*; and I instructed the latter officer to employ the *Hastings* and the *Amphion*, and to take advantage of any proper opportunity to engage the enemy at the east end of the Island of Sandhamn.

Captain Yelverton, in Her Majesty's ship *Arrogant*, was detached to the westward with

the Cossack and Cruiser under his orders, and was directed to occupy the attention of troops which were observed to be posted on the Island of Drumsio, and to watch the movements of small vessels which had been noticed occasionally in creeks in that direction.

Early in the day I observed that the detached squadrons in both directions had opened fire upon the enemy, and the action was general upon all points. A rapid fire of shot and shells was kept up from the fortress for the first few hours upon the gun-boats, and the range of the heavy batteries extended completely beyond the mortar-vessels; but the continued motion of the gun-boats, and the able manner in which they were conducted by the officers who commanded them, enabled them to return the fire with great spirit, and almost with impunity throughout the day.

About ten o'clock in the forenoon fires began first to be observed in the different buildings, and a heavy explosion took place on the Island of Vargon, which was followed by a second about an hour afterwards; a third, and far more important explosion, occurred about noon on the Island of Gustafsvard, inflicting much damage upon the defences of the enemy, and tending greatly to slacken the fire from the guns in that direction.

The advantage of the rapidity with which the fire from the mortars had been directed, was apparent in the continued fresh conflagrations, which spread extensively on the Island of Vargon,

The intricate nature of the reefs on which the gun-boats had occasionally grounded, compelled me also to recall them before sunset, and the fire of the enemy was slack. The boats of the fleet were then ordered to be assembled with rockets before dark, and under the direction of Captain Caldwell, in command of the ship bearing my

flag, they maintained a continuous fire for upwards of three hours, which was attended with considerable success, causing fresh fires, and adding much to the general conflagration.

At daylight on the morning of the 10th instant, the positions of several of the mortar-vessels had been advanced within easier range, and the gun-boats were again directed to engage.

The three-decked ship, which had been moored by the enemy to block and defend the channel between Gustafsvard and Bak Holmen, had been withdrawn during the night to a more secure position, but the fire from the batteries was increased, and the engagement was renewed with activity on both sides; fires continued to burn without intermission within the fortress, and about noon a column of smoke, heavier and darker than any which had yet been observed, and succeeded by bright flames, gave signs that the shells had reached combustible materials in the direction of the arsenal, the exact situation was at first concealed from our view, but the flames continuing to spread, it was soon evident that they extended beyond the Island of Vargon, and that many buildings on the Island of Svarto were already in progress of destruction.

By the judicious management of the officers of artillery, a steady fire was kept up during the whole of the following night.

The rocket-boats in the evening were again assembled, when the gun-boats were recalled, and proceeded successively in separate divisions. The first, under the direction of Captain Seymour, of the Pembroke, made excellent practice, at a distance of about 2000 yards from the fortress; the second, under the direction of Captain Caldwell, at a later period of the night, succeeded also in adding to the fires already burning; but

the glare of the flames exposing the boats to the view of the enemy, they maintained their ground, under a smart fire of bursting shells, with steady gallantry.

Considering the extent of injury which had now been inflicted upon the enemy, and reflecting that few buildings of importance remained to be destroyed on the Island of Vargon, and that those still standing upon Svarto were at the extreme extent of our range, and in positions where no shells had yet reached them, I was of opinion that no proportionate advantage was to be gained by continuing the fire during another day.

I accordingly despatched Captain Seymour, of Her Majesty's ship *Pembroke*, to communicate with Rear-Admiral Pénaud, and with the cordiality and ready concord which I have invariably experienced from that officer, arrangements were immediately concerted, and orders given to cease firing after daylight. Little fire, except at the rocket boats, had been returned by the enemy during the night, and it ceased almost entirely on his side before daylight, although the sea defences in general were little injured.

It remains for me to transmit now for their Lordships' information the enclosed reports of the proceedings of Captain Wellesley, of Her Majesty's ship *Cornwallis*, with the detached squadron to the eastward, on the 9th instant ; and I beg you will inform their Lordships that the troops on Drumsio having offered no resistance to the ships under the orders of Captain Yelverton, he returned to his former anchorage the same evening.

Enclosed are the lists of casualties which have occurred in the execution of the service which I have had the honour to detail ; and I am thankful to say that they have been fewer than could possibly have been expected under the fire to which those

who were engaged were repeatedly exposed. Some of the most severe injuries are those which unfortunately occurred from explosions of the rockets in the boats of the *Hastings* and *Vulture*.

Their Lordships will observe that I abstain entirely from reports on the proceedings of the squadron under the command of Rear-Admiral Pénaud, which will, no doubt, be fully and ably explained to his own Government; but I may be permitted to acknowledge my deep sense of the valuable co-operation they have afforded, and to express my admiration of the gallant conduct of those under his orders, and my warmest thanks for the cordial support which I have received.

I have much satisfaction in reporting in the most favourable manner on the conduct of the officers, seamen, and marines under my command; and I transmit, for their Lordship's information, the lists of the officers and others who were employed on the various detached services which occurred during the operations.

My best thanks are due to Rear-Admiral Sir Michael Seymour, who has at all times afforded me the most ready assistance.

From Commodore the Honourable Frederick Pelham, Captain of the Fleet, I have received the most valuable support, and the energy and ability with which he has performed the important duties of his station have tended greatly to further the execution of the service, and demand my warmest thanks.

I am much indebted to Captain Ramsay, of Her Majesty's ship *Euryalus*, for his active and useful exertions, as well as to Captain Glasse, of the *Vulture*, and Captain Vansittart, of the *Magicienne*, and to none more than to Captain Stewart, of Her Majesty's ship *Dragon*, whose

zeal and ready resource attracted my particular attention.

The services allotted to Captain Wellesley, as well as those assigned to Captains Seymour, Hewlett, and Caldwell, were executed to my entire satisfaction ; and my best thanks are due for the assistance rendered by Captain Hall, of Her Majesty's ship Exmouth, on several occasions.

Late on the evening of the 10th instant, Her Majesty's ship Merlin, under the command of Captain Sullivan, struck upon an unknown rock on ground, which he had himself repeatedly examined while conducting me along the line of the mortar-vessels.

No blame whatever can attach to this officer on the occasion, and I gladly avail myself of the opportunity which is thus afforded me of calling the especial attention of their Lordships to the unwearied activity of this valuable officer. It is to the singular ability and zeal with which his arduous duties have been performed that much of the success of the operations of the fleet may be attributed ; and I trust that I may be permitted on this occasion to recommend to the especial notice of their Lordships the services of Lieutenant R. B. Creyke, of that ship, whose conduct has been most favourably reported.

My especially thanks are due to the officers and men of the Royal Marine Artillery for the manner in which their important duties have been performed. The cool and steady courage with which they continued to conduct the duties of their stations deserves the highest praise ; and I have much pleasure in calling their Lordships' attention to the services of Captain Wemyss, as well as to those of Captains Lawrence and Schomberg, of that distinguished corps.

Great praise is also due to the officers and crews of the mortar-vessels on the occasion.

The admirable manner in which the officers in charge of gun-boats maintained their stations under fire, and the general activity of the crews of those vessels upon all occasions is deserving of the favourable notice of their Lordships; but in referring to the enclosed list of the Officers employed, I am unwilling to particularize any, when all have been highly deserving of their Lordship's favour; and the gallant conduct of the crews has been conspicuous.

I have, &c.

Rear-Admiral and Commander-in-Chief.

The Secretary of the Admiralty.

Her Majesty's ship Cornwallis,

SIR, *off Stora Miolo, August 9, 1855.*

I have the honour to acquaint you that, in compliance with your memorandum of the 8th instant, on observing the mortar-vessels open fire this morning, I immediately weighed in Her Majesty's ship under my command, in company with the Hastings and Amphion, and proceeded to attack the forts at the south-east end of Sandhamn.

Our attack was more particularly directed against the battery on the south-eastern entrance, and another on Storholm; but, on arriving within long range, a general fire was opened from the whole of the batteries on the south side of Sandhamn.

A very brisk and extremely well-directed fire was kept up from the ships, which did considerable damage to one of the batteries on Sandhamn, and one or two of the guns were silenced for a

short period, but no permanent effect was produced.

At 10.50, therefore, considering that the object contemplated in your memorandum had been attained, I made signal to discontinue the engagement, and anchored the ships in the positions they left this morning.

I deem it my duty to represent to you the effective co-operation I received from Captains Caffin and Key, as well as the steadiness and activity of the officers and crews of the ships engaged.

I beg to enclose a list of casualties.

I have, &c.,

Her Majesty's ship Cornwallis,
 Sir, *off Stora Miolo, August 10, 1855.*

I have the honour to inform you, that in further prosecution of your orders of the 8th instant, I despatched last night, after dark, under the direction of Lieutenant Tattnell, senior of the Cornwallis, the barges and pinnaces of this ship, Hastings, and Amphion, each armed with rockets, to endeavour with them, if possible, to set fire to a frigate moored head and stern in Kung's Sound.

Moored as she was down under the land with only her lower masts in she was quite invisible, but the boats maintained a very well directed fire in her direction, which, although not effecting the object of setting her on fire, drew the attention of the enemy, whose batteries, as well as the frigate, opened fire on the boats, without, I am happy to say, any casualty to them.

I regret, however, to add that in the pinnace of the Hastings two men were wounded, one severely, by the rocket bursting in the tube.

I beg to enclose a list of the officers employed on this occasion, and to express to you how much pleased I was with the manner in which Lieutenant Tattnell carried out my orders, and of the

zeal and activity of the other officers and men employed.

I have, &c.,

 Captain.

List of Casualties occasioned by the premature explosion of a Rocket in the Pinnacle of Her Majesty's ship Hastings, on the night of the 9th August, 1855 (whilst endeavouring to burn the Russian Frigate, lying between Kungs Holman and Sandhamn), during the Rocket attack on Sweaborg.

Joseph Hopkinson, A.B., severely wounded.

James Bowles, Ord., slightly wounded.

I can only account for this accident by the rocket being a damaged one; perhaps the composition was cracked, or had loosened from its case, which caused it to explode like a common detonating tube, bursting the shell at the same time, and shattering the rocket-tube to pieces.

AT the Court at *Osborne, House, Isle of Wight,*
 the 13th day of *August, 1855.*

The QUEEN's Most Excellent Majesty in Council was pleased to approve the representation made (as set forth in this Gazette) by Her Majesty's Commissioners for Building New Churches,

For dividing the parish of Tardebigge, in the county and diocese of Worcester, into two distinct and separate parishes, to be respectively named "the parish of Tardebigge" and "the parish of Redditch," and that the recommendations of the said Commissioners, with respect to certain payments payable by every vicar or incumbent of the parish church of the said parish of Tardebigge, upon his induction to such church, be carried into effect.

*Board of Trade, Whitehall,
August 20, 1855.*

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from Her Majesty's Plenipotentiary in China (a copy of which is subjoined) relative to certain inaccuracies which have been found to exist in the official charts of the Gulf of Siam.

(Copy.)

Her Majesty's ship Rattler,

MY LORD,

Off Singapore, May 5, 1855.

I beg leave to solicit that your Lordship will kindly call the attention of the Lords of the Admiralty to the following errors which we have detected in the official charts of the Gulf of Siam; and to suggest, in anticipation of the probable extension of trade in these regions, that a thorough survey of the gulf should be made. Many inaccuracies have to be corrected besides those I shall now point out.

In our charts the Island of Pulo Paujang is placed about 18 miles too far to the westward. Its real position is, north latitude $9^{\circ} 18'$, longitude $103^{\circ} 36'$.

Cape Liant stands 25 miles too far to the east, and six miles too far to the south. Its true position is latitude $12^{\circ} 34'$, longitude $101^{\circ} 11'$.

The anchorage in Meinam Bar, in four fathoms, is 52 miles too far to the eastward; it really being latitude $13^{\circ} 24' 50''$, longitude $100^{\circ} 36' 30''$. Some of these errors were pointed out by Mr. Crawford, in the account of his mission to Siam in the year 1822.

The situation of Bangkok and its neighbourhood is given erroneously, as a necessary consequence of the errors I have noticed.

I have, &c.,

(Signed) JOHN BOWRING.

FROM THE
SUPPLEMENT

LONDON GAZETTE of AUGUST 21,
1855.

War-Department, August 23, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Simpson.

Before Sevastopol,
MY LORD, *August 11, 1855.*

I had the honour to acquaint you that during the past week the Army has been unceasingly employed in strengthening and improving the advanced works, which are now so close to the enemy, that it is with the greatest difficulty any

approach can be made. By the casualty return which I enclose, your Lordship will regret to see a large number, though the proportion of wounded over the killed is considerable.

Brevet-Major Macgowan, of the 93rd, is supposed to have fallen a prisoner into the hands of the enemy. I have caused a letter to be addressed to the Governor of the place, to ascertain his fate, but up to this time I have received no answer.

The health of the Army is, on the whole, good, although the cholera still continues to take daily several victims.

I have, &c.,

JAMES SIMPSON,

General Commanding.

FROM THE

LONDON GAZETTE of AUGUST 24,
1855.

Whitehall, August 24, 1855.

THE Right Honourable Sir George Grey, Bart., has received the following Despatch from the Earl of Clarendon, K.G., dated St. Cloud, the 22nd of August, 1855.

SIR,

St. Cloud, August 22, 1855.

The Queen, Prince Albert, the Prince of Wales, and the Princess Royal, arrived on the 18th instant, in the "Victoria and Albert" yacht, at Boulogne, where Her Majesty was received by the Emperor of the French, amidst the salutes of the Army of Boulogne, posted on the heights, and the acclamations of a vast concourse of people assembled for the occasion.

At Amiens, where the Queen stopped for a short time, and along the whole line of railway, Her Majesty was received with every demonstration of respect and kind feeling.

At Paris, from the Station to St. Cloud, these feelings were manifested in the strongest manner; and I can convey no better idea of the reception of Her Majesty by the people of Paris, than by stating, that the enthusiasm was quite as great as that which greeted the Emperor and Empress on their arrival in London.

The same cordial welcome has been given to the Queen at the various places where Her Majesty has since appeared in public; and Her Majesty is profoundly sensible of the spontaneous and universal kindness which has been displayed towards Her by the people of France.

It is impossible to doubt that the Queen's visit will still more closely cement the Alliance which now so happily subsists between the Sovereigns and the people of England and France.

I am happy to inform you that the Queen, Prince Albert, the Prince of Wales, and the Princess Royal, are in perfect health.

I have, &c.,

CLARENDON.

Right Hon. Sir George Grey, G.C.B.

&c.

At the Court at *Osborne House, Isle of Wight*,
the 13th day of *August*, 1855,

The QUEEN's Most Excellent Majesty in Council was pleased to approve and ratify the schemes duly prepared (as set forth in this Gazette) by the Ecclesiastical Commissioners for England—

For effecting an exchange of the patronage of the Rectory of Riseholme, in the county of Lincoln, belonging to the Master and Scholars of Balliol College, in the University of Oxford, for a portion of the patronage of the Rectory of Saint Mary, Bedford in the county of Bedford, belonging to the See of Lincoln.

For authorizing the sale of certain property situate in the parish of Llandaff, in the county of Glamorgan, and now vested in the said Commissioners.

For authorizing the sale of certain property situate in the parishes of Walton, Peakirk, Paston, Saint John the Baptist, Peterborough, Newborough, and Marholm, and now vested in the said Commissioners.

Board of Trade, Whitehall,
August 23, 1855.

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from Her Majesty's Chargé d'Affaires, at Lima, enclosing copy of a Decree from the Provisional President of Peru declaring the Port of Iquique a Port of Entry with reference to the export of saltpetre.

*Board of Trade, Whitehall,
August 23, 1855.*

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from Her Majesty's Acting-Consul at Mobile, transmitting the enclosed extract from a City Ordinance establishing a strict quarantine, from the 1st of July until the 1st of November, on such vessels arriving in the Bay of Mobile as are therein specified.

EXTRACT from an Ordinance to establish a Quarantine, and to prevent the introduction of contagious, infectious, or malignant diseases into the city of Mobile.

Section 1.—*Be it ordained by the Mayor, Aldermen, and Common Council of the city of Mobile,* that for the protection of the city of Mobile a strict system of quarantine shall be enforced against all vessels, boats, and watercraft arriving in the Bay of Mobile from any port where yellow, malignant, or other pestilential or infectious fever is prevailing, or against any and all vessels, boats, or other watercraft having any person or persons on board suffering from any such disease. That the provisions of this ordinance shall be enforced from the 1st day of July until the 1st day of November, unless ordered otherwise by the Mayor, acting under the advice of the Board of Health of the city of Mobile.

Section 3.—*Be it further ordained,* That it shall be the duty of the quarantine physician to attend at the quarantine station to board all vessels, boats, or other watercraft entering the Bay or Harbour of Mobile, and fully to examine into the condition of the vessel and cargo, and into the

health of all persons, officers, crew, and passengers, on board; he shall examine as many of such persons on board, under oath, to obtain such facts as he may deem essential or necessary; he shall have power to detain all vessels coming from an infected port, or having cases of yellow fever or other malignant disease aboard, their cargo, crew, officers, or passengers, for any length of time that he may deem necessary and expedient; he shall direct such steps as may be necessary to purify any vessel, to discharge a cargo or portion thereof, and to remove any person or persons, from any vessel, that may be sick of any malignant or infectious fever or disease, to the quarantine hospital, and it shall be his duty to give his professional services to such persons. It shall be his duty to sign all permits for vessels, boats, or persons to pass the quarantine, and to sign all discharges for vessels, boats, or persons leaving the quarantine, and no vessel, boat, or person shall be permitted to leave the quarantine station without first having obtained a permit thus duly signed.

And any person or persons, passenger, crew, or officer of any vessel, who may violate any of the quarantine regulations, he or they, the owner, captain, together with the vessels or boat to which he or they may belong, or be a passenger, shall be subject to a fine and penalty of not less than fifty dollars for each and every offence, to be applied to the use of the city of Mobile.

Section 5.—*Be it further ordained*, That all persons who may receive medical treatment at the quarantine hospital, shall pay, for the use of the city, five dollars per day for each and every day of such treatment; and in all cases where the party so treated shall be unable to pay the fee, then the captain, owner, or consignee of the

vessel to which he may belong, or on board of which he may have been a passenger, shall be liable for the same.

In all instances where it may be judged necessary to remove a cargo or a portion thereof, or to purify and cleanse a vessel, or to destroy bedding or clothing, it shall be done under the supervision of the quarantine physician, and at the expense of the captain, owner, or consignee of the vessel.

Section 8.—*Be it further ordained*, That the Mayor and Board of Health, whenever, in their judgment, the public health may require it, may order any vessel at the wharves of the city, or in their vicinity, to the quarantine station; and may require all persons, articles, or goods, introduced into the city from such vessel, to be seized, returned on board, or removed to the quarantine station. In case the master, owner, or consignee of the vessel cannot be found, or shall refuse, or shall neglect to obey the order of removal, the Mayor and Board of Health shall have power to cause such removal at the expense of such master, owner, or consignee. The provisions of this ordinance shall apply also to vessels lying at anchor in the Bay of Mobile, and not performing quarantine.

Quarantine Rules and Regulations for the Port of Mobile.

1.—The quarantine station shall be the anchorage immediately in the vicinity of the present Bethel-ship, in the Bay of Mobile. Its limits shall be more specifically pointed out by the quarantine physician.

2.—The quarantine physician shall, in every instance, fix the length of time that a vessel shall remain at quarantine, as also the time that all

persons aboard such vessels shall be liable to quarantine.

3.—It shall be the duty of all pilots, or other persons bringing a vessel into the Bay of Mobile, to hoist a flag at half-mast at the fore, which flag shall continue to be so hoisted at half-mast at the fore, until the vessel has been visited by the quarantine physician.

4.—No person shall leave a vessel at quarantine ; and no person shall visit a vessel at quarantine without a written permit so to do, signed by the quarantine physician.

5.—The quarantine physician shall make a monthly report, on the 1st of every month, to the city authorities, of the number and class of vessels performing quarantine,—of the number of patients treated at the quarantine hospital,—of the amount of fees collected,—and all other such information connected with the station as may be necessary or interesting.

6.—All vessels undergoing quarantine shall keep a flag at half-mast at the main during the day, and a lantern in the same position at night.

7.—Any violation of any of these rules and regulations shall be punishable by a fine of 100 dollars, recoverable as provided in the ordinance.

FROM THE
 SUPPLEMENT
 TO THE
LONDON GAZETTE of AUGUST 24,
 1855.

War-Department, August 27, 1855.

LORD PANMURE has this day received a Despatch and its enclosures, of which the following are copies, addressed to his Lordship by General Simpson.

Before Sevastopol,
August 14, 1855.

MR LORD,

During the last few days considerable activity has been exhibited in the movements of the enemy, both in the town and on the north side; and from the information we have received from the country, as well as the examination of deserters I have reason to believe that the Russians may attempt to force us to raise the siege by a vigorous attack from without. Every precaution is taken on the part of the Allies, and the ground occupied by the Sardinians above the village of Tchorgouna, and in its front, has been made very strong through the energy and skill of General La Marmora, who is unceasing in his precaution, and shews the utmost disposition to co-operate in the most agreeable manner with the Allies.

The fire has, if anything, been rather less during the day, since my last despatch. At times, however, the enemy open heavily for a short period,

causing many casualties; and amongst them I regret to have to announce that of Brevet-Major Hugh Drummond, Scots Fusilier Guards, who was killed yesterday afternoon by a fragment of a shell. His loss is deeply felt by all who knew him, and Her Majesty has lost the services of a most promising officer.

The firing on our side has been directed in a great measure against the large barracks, dock-yard buildings, and the town, all of which shew visible signs of the admirable practice of the Royal Artillery.

I further beg to enclose the returns of casualties to the 12th instant.

I have to apologize to your Lordship for having omitted to inform you before that I had despatched the steamer *Indiana*, on the 8th instant, to Corfu, for the purpose of conveying the 82nd Regiment from that island to the Crimea.

Drafts for the Light Division and 71st Regiment to the number of 800 men, the remainder of the Carabineers, and one squadron of the 1st Dragoon Guards, have arrived.

I have, &c.,

JAMES SIMPSON,

Lieutenant-General Commanding.

The Lord Panmure, &c., &c., &c.

TREASURY WARRANT.

Whereas by an Act, passed in the fourth year of the reign of Her present Majesty, intituled “An Act for the regulation of the duties of “postage,” power is given to the Postmaster-General to remit any of the rates of British postage for the time being, payable by law, on the transmission of post letters, newspapers, or other printed papers, to such extent as the Lords of the Treasury shall from time to time direct; and power is also given to the Commissioners of Her Majesty’s Treasury from time to time, by Warrant, under their hands, to alter and fix any of the rates of British or inland postage, payable by law, on the transmission by the post of foreign or colonial letters or newspapers, or any other printed papers, and to subject the same to rates of postage according to the weight thereof, and a scale of weight to be contained in such Warrant.

And whereas, by six several Warrants of the Commissioners of Her Majesty’s Treasury, bearing date respectively the 17th day of May, 1854, the 16th day of October, 1854, the 9th day of January, 1855, the 29th day of March, 1855, the 19th day of May, 1855, and the 29th day of June, 1855, certain reduced rates of postage were authorized to be charged and taken for and in respect of the several letters therein respectively mentioned, posted in or addressed to any part of the United

Kingdom, and sent from or to the several persons therein respectively mentioned, being persons employed in the several military, naval, or transport services under Her Majesty, respectively mentioned in the said several Warrants, and transmitted by the post between any place in the United Kingdom and the several places therein respectively mentioned, such places being respectively Turkey or the Black Sea, or any port or place in Turkey or the Black Sea, the kingdom of Greece, or any port or place in Greece, the Baltic Sea, or the adjacent waters, or any port or place in the Baltic or the adjacent waters, the White Sea, or the adjacent waters, or any port or place in the White Sea, or the adjacent waters, and Heligoland, such letters being sent and conveyed by the several routes in the said Warrants also respectively mentioned.

And whereas it is expedient that such reduced rates of postage should be extended to all such letters mentioned in the said six several Warrants, and addressed to or sent by or from the said several persons therein respectively mentioned, if sent between any of the British colonies through the United Kingdom and the said places in the said Warrants respectively mentioned, in addition to the rates of postage chargeable by law for the conveyance of such letters between the United Kingdom and the said colonies respectively in the manner hereinafter mentioned.

Now we, the Commissioners of Her Majesty's Treasury, in exercise of the power or authority in us for such purpose vested in and by the said recited Act, and of all other powers enabling us in this behalf, do by this Warrant, under the hands of two of us the said Commissioners by the authority of the statute in that case made and provided, order, direct, and declare, as follows :

1. That all letters addressed to or sent by or from the said several persons mentioned in the said six several Warrants hereinbefore recited respectively, and authorized to be sent by the post according to the regulations therein contained, shall and may be sent and transmitted by the post, between any of the British Colonies through the United Kingdom, and the said several places in the said six several Warrants respectively mentioned and enumerated, and conveyed by the several routes therein respectively specified, charged and chargeable with the same rates of postage according to the weight and scales of weight thereof respectively, and under and subject to the same conditions, regulations and restrictions in all respects as are contained and mentioned in, and by the said six several Warrants respectively, according to the respective places to or from which the same shall be so addressed, for and in respect of the conveyance thereof, between the United Kingdom, and the said several places respectively; and also charged and chargeable in addition thereto, with such rates of postage according to the weight and scales of weight of such letters respectively, as are by law chargeable and payable for the transmission thereof by the post, between the United Kingdom and such British Colonies respectively, for and in respect of the conveyance thereof between the United Kingdom and the said British Colonies respectively, through the United Kingdom; and that the rates of postage hereby imposed shall be charged and taken in lieu of any rates of postage now payable by law on letters transmitted by the post between the British Colonies and the several persons mentioned in the said recited Warrants.

2. That the several terms and expressions used in this Warrant shall be construed to have the like

meaning in all respects as they would have had if inserted in the said recited Act.

3. That it shall be lawful for the Commissioners for the time being of Her Majesty's Treasury, by Warrant under their hands duly made and signed, at any time hereafter, to alter or repeal any of the rates hereby altered or the regulations hereby made, and to make and establish any new or other rates or regulations in lieu thereof, and from time to time to appoint at what time the rates that may be payable are to be paid.

1855.

Whitehall, August 28, 1855.

THE Right Honourable Sir George Grey, Bart., has received the following Despatch from the Earl of Clarendon, K.G., dated Boulogne, the 27th of August, 1855.

SIR, *Boulogne, August 27, 1855.*

I have the honour to inform you that the Queen, Prince Albert, the Prince of Wales, and the Princess Royal, quitted Paris this morning accompanied by the Emperor. Their Majesties proceeded in State from the Tuileries to the railway station. The streets and boulevards were lined with troops. The concourse of people assembled was as great as, and the reception of the Queen was even more enthusiastic than, when Her Majesty entered Paris.

The Queen is profoundly sensible of the kindness with which she has been received by the Emperor and Empress, and of those manifestations of respect and cordiality on the part of the French Nation with which she has everywhere been greeted.

On personal and political grounds the visit to Paris has afforded the highest gratification to Her Majesty.

The magnificent Army of Boulogne has just been reviewed by the Queen. Her Majesty will embark to-night at eleven o'clock. The Emperor will accompany Her Majesty out to sea, and return here in his own yacht.

I have, &c.,
(Signed) CLARENDON.

Right Hon. Sir George Grey, Bart.,
 &c. &c. &c.

FROM THE
SECOND SUPPLEMENT
TO THE
LONDON GAZETTE of AUGUST 28,
1855.

War-Department, August 29, 1855.

LORD PANMURE has this day received two Despatches and their Enclosures, of which the following are copies, addressed to his Lordship by General Simpson.

Before Sevastopol,

MY LORD, *August 18, 1855.*

In my despatch of the 14th instant, I informed your Lordship that I had reason to believe that the Russians would attempt, by a vigorous attack, to force us to raise the siege.

This they endeavoured to do on the morning of the 16th, but the result was most glorious to those

of the Allied troops who had the good fortune to be engaged.

The action commenced before daylight, by a heavy column of Russians, under the command of General Liprandi, and composed of the 6th and 17th Divisions, with the 4th and 7th Divisions in reserve, attacking the advanced posts of the Sardinians.

The ground occupied by them is on commanding hills on the right of the position, on the left bank of the Souhaia river, where it forms its junction with the Tchernaya, with two advanced posts on the opposite side. These were held with very determined gallantry for a considerable time, but being separated from their supports by the river, and not having the protection of artillery, they were compelled to leave the most advanced one.

About the same time, the 5th and 12th Divisions, to which was added a portion of the 17th, advanced against the bridge of Tractir, held by one battalion of French infantry of the line, who were for a short time obliged to yield and fall back upon the main supports; with these, however, they quickly retook the bridge at the point of the bayonet.

Again the Russians attacked with persevering courage, and were enabled to follow up their advantage by gaining the heights which rise precipitously on each side of the road; their success was but momentary—they were driven back across the river, leaving the ground covered with dead and wounded.

The Russian General, in no way daunted by the failure of his two attempts, ordered a second column, of equal force to the first, to attack; they advanced with such impetuosity, covered by the fire of their numerous artillery, that a third time

the bridge was covered, and the heights above it crowned, but they were again repulsed and retired in great confusion into the plain, followed by the bayonets of our gallant Allies.

The General Officer who commanded the Russian column, and who is supposed to be General Read, was killed, and in his possession was found the orders for the battle, signed by Prince Gortchakoff, who commanded in person.

From these it would appear that it was a most determined attempt to force us to raise the siege. Had they succeeded, Balaklava was to have been attacked by one portion of their army, whilst the heights on which we now are, were to have been stormed with the other; at the same time a vigorous sortie was to have been made from the town on the French works, on our extreme left, from the Quarantine, and another on the works on our extreme right on Mount Sapoune.

The action which I have endeavoured to describe is most glorious to the arms of the French and Sardinian troops. To meet the force of the Russians, the former had but 12,000 infantry, and 4 batteries of artillery engaged; the latter had 10,000 men in position, 4,500 actually engaged, and 24 pieces of cannon.

The Russian force consisted of from 50,000 to 60,000 men, with 160 pieces of artillery, and cavalry to the amount of 6,000.

This disparity of numbers will readily explain to your Lordship the difficulty that would have been experienced, had an attempt been made to follow up the advantage by a pursuit. The Russian retreat, moreover, was protected by the fire from the heavy guns in position on the Mackenzie heights.

The loss sustained by the Russians is estimated at between 5,000 and 6,000 men, including 600

prisoners, whilst on the part of the Allies it does not amount to more than 1,000 men.

This brilliant affair has caused the greatest delight amongst the ranks of the allied army ; and while it adds fresh lustre to the gallant achievements of the French arms, it is with the utmost pleasure that I have to record the intrepid conduct and gallant bearing of the Sardinian troops, under General Della Marmora, who have for the first time met, conquered, and shed their blood against our common enemy, who is now disturbing the peace of Europe.

Captain Mowbray's battery of 32-pounder howitzers was placed in advance with the Sardinian troops, and did most excellent service in preventing the advance of the enemy's artillery.

Our cavalry, under Lieutenant-General Sir J. Scarlett, K.C.B., was placed in the plain of Balaklava, prepared to take advantage of any circumstance that might present itself, but the opportunity did not arise for calling upon their services.

I regret that I am unable to give a more detailed account of the part performed by the Sardinians, as up to this time I have not received General Della Marmora's report.

I have, &c.,

JAMES SIMPSON,

General Commanding.

The Lord Panmure, &c. &c. &c.

Before Sevastopol,

August 18, 1855.

MY LORD,

General Pelissier having announced to me, that the batteries against the Malakoff and adjacent works were prepared to open fire, arrangements were made that a steady fire should be com-

menced yesterday morning against those works and the Redan.

This continued throughout the day, and the effect produced was as much as was anticipated. The Russian fire, which at first answered briskly, became by the evening feeble. In the afternoon a shell from one of our mortar batteries ignited and caused the explosion of a great number of shells in one of the enemy's batteries, doing apparently much damage.

I regret to have to report the deaths of Captain Oldfield, of the Royal Artillery, and Commander Hammet, of the Royal Navy, amongst the number of casualties caused by the fire of yesterday. Major C. S. Henry, of the Royal Artillery, received a severe wound, and has had his right arm amputated ; he is, I am rejoiced to add, doing well.

I enclose the list of casualties.

I have, &c.,

JAMES SIMPSON,

General Commanding.

The Lord Panmure, &c. &c. &c.

FROM THE
SUPPLEMENT

TO THE

LONDON GAZETTE of AUGUST 31,
1855.

War-Department, September 3, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Simpson.

Before Sevastopol,

MY LORD,

August 21, 1855.

In my despatch of the 18th instant, I was unable to give as detailed an account of the part taken by the Sardinian troops, in the battle of the Tchernaya, as I could have wished. I have since received General La Marmora's report, of which I have now the honour to send you a copy.

The killed and wounded of the Russian army exceed, if anything, the number I originally stated. An armistice was granted, to enable the enemy to bury the dead, and vast quantities were carried away.

The fire from the batteries of the Allies has been very effective, and the result attained has been sufficient to enable the works against the place to progress satisfactorily.

I beg to enclose the list of casualties to the 19th instant.

Major McGowan, 93rd Highlanders, who was reported by me as missing, in my despatch of the 11th August, I have since ascertained was attacked whilst posting his sentries in advance of the trenches, wounded severely, and made prisoner.

I have, &c.,

JAMES SIMPSON,

General Commanding,

The Lord Panmure, &c., &c.

Enclosure 1.—Translation.

SARDINIAN ARMY.—*Head Quarters of the Expeditionary Forces in the East, Kadikoi, August 17, 1855.*

SIR,

The interest which you are so kind as to evince in everything relating to the Sardinian Expeditionary Army makes it imperative upon me to inform your Excellency of the share taken by the troops under my command in the engagement on the Tchernaya yesterday.

Upon receiving the report of Colonel Dessaint, attached to the French head-quarters, which you were good enough to communicate to me on the evening of the day before yesterday, and by which we were led to expect very shortly an attack on the line of the Tchernaya, I at once gave orders that my troops should be under arms yesterday morning at an earlier hour than usual.

At break of day our outposts stationed on the Mamelon which commands Tchorgoun were enveloped in a well-sustained fire of artillery, which proceeded from three batteries posted opposite to

the breastworks by which our outposts were covered, and on the two Mamelons further to the right, which form the two banks of the Souliou. They were at the same time vigorously charged by three Russian columns, which came on with fixed bayonets, and attacked our breastworks in front and rear. The men composing these columns carried ladders with them to scale the parapets. The preconcerted signal of alarm was immediately given; and the troops took up the positions which had been assigned to them in anticipation of this attack.

I begged his Excellency Hosman Pasha to bring up the Turkish troops which were stationed furthest off; and I ordered the 4th battalion of Riflemen (Bersaglieri) to the support of our outposts, which only consisted of three companies, in order that these latter might be enabled to hold their ground as long as possible, and thus give us time to complete our arrangements.

Attacked in the rear by the enemy's artillery, and charged by three columns of infantry, the outposts, after an hour's firing, fell back, the reinforcements I had sent to them greatly facilitating their retreat.

At the same time I made every effort to silence the enemy's guns. In this endeavour I was assisted by the Turkish field-pieces from Alsou, and by the English battery, with which you were good enough to reinforce us. Several of the enemy's ammunition waggons exploded between seven and eight o'clock.

In the meantime the Russians had stationed fresh batteries near the centre of their position, and had opened a most effective fire of artillery on the tête-de-pont at Tractir, and on the French positions on our left. A column of infantry, under

cover of this fire, attacked the Mamelon, which formed the extreme right of General D'Herbillon's division. This first column had crossed the Tchernaya, and surmounted the steep ascent of the Mamelon, in spite of the fire of the tirailleurs, when it was vigorously attacked by the French troops in support, and hurled back, broken and disordered, into the Tchernaya.

As I considered, from the subsequent dispositions of the enemy's forces, that he only intended to make a demonstration of artillery before our position, while he concentrated his infantry chiefly on the extreme right of the Third Division (Faucher's), on which point a second column was now advancing, I ordered a portion of my 5th Brigade, under the command of General Mallard, to march to the support of the right wing of the French, and I posted two of our batteries in a position from whence they could maintain an oblique fire upon the Russians. At the same time I requested the English cavalry to move down into the plain to be in readiness to charge. I had given similar orders to my own cavalry.

When the soldiers of my 5th Brigade arrived at the Mamelon they found that the enemy's attack had been already repulsed; but the fire of the two batteries of the 2nd Division (Troths) appeared to do great execution on the 2nd Russian column, which, checked in front by the French troops, and harassed in the rear by the fire of our batteries and the musquetry of our battalions, fell back in the greatest disorder. I then ordered some of our battalions to advance under cover of the Riflemen (Bersaglieri), but I was requested to countermand this movement.

The enemy repulsed at all points commenced his retreat. One column, which appeared to me

to consist of a division, retreated by the valley of the Soulion. Another division, the one which had attacked our outposts and the French right in the morning, fell back upon the zig-zag Mamelon; while a third division followed the road which leads to Mackenzie's Farm.

I took advantage of this state of things to re-occupy with my troops the zigzag Mamelon; in which design I succeeded perfectly, in spite of the imposing force which the enemy still retained on that point. In the meantime, three battalions of Turkish troops advanced into the Valley of Tchorgoun, to replace the battalion of Cialdini's brigade, which was occupying the heights of Karlooka.

Later in the day, I crossed the Tchernaya with four squadrons, and marching in a parallel line with the zigzag Mamelon, came upon the old Russian redoubt, whence I could easily discern, at a little distance before us, a very fine array of regular cavalry, supported by horse artillery. It was distributed in twelve separate bodies, and must have been composed of at least fifty squadrons. This cavalry did not fall back on Mackenzie's-road till the whole of the infantry and artillery had effected their retreat.

The losses sustained by our troops, a portion only of whom was engaged, was very inconsiderable. They amount to about two hundred men placed hors de combat; and I impute the fact of our not having lost more men mainly to the works with which we fortified our position, and to the batteries of heavy guns which you were so obliging as to lend us for their defence. It is, however, my painful duty to announce to your Excellency that Count Montevécchio, the General commanding the Fourth Brigade, is mortally wounded; a ball passed through his chest.

1855.

FROM THE

LONDON GAZETTE of SEPTEMBER 4,
 1855.

Foreign Office, August 12, 1855.

THE Queen has been graciously pleased to appoint Spenser St. John, Esq., now Acting Consul-General, to be Her Majesty's Consul-General in the Island of Borneo.

Foreign Office, September 1, 1855.

The Queen has been pleased to approve of Senhor Manoel Joaquin Soares, as Consul at Sydney, in Australia, for the King of Portugal.

The Queen has also been pleased to approve of Mr. Henry Chapman as Consul at Montreal for the King of Prussia.

Whitehall, September 4, 1855.

The Right Honourable Sir George Grey, Bart., one of Her Majesty's Principal Secretaries

of State, has appointed the undermentioned Gentlemen to set out the Wards and apportion the number of Vestrymen, under an Act passed in the last session of Parliament, for the better local management of the Metropolis :

Alexander Pulling, Esq., Barrister-at-Law ;
 Arthur John Wood, Esq., Barrister-at-Law ;
 George Baugh Allen, Esq. ; and
 William Durrant Cooper, Esq.

Whitehall, September 4, 1855.

The Queen has been pleased to give and grant unto Thomas Henry Sutton Sotheron, of Estcourt, in the county of Gloucester, Esquire, one of the Knights of the Shire for the northern division of the county of Wilts, Her royal licence and authority that he and his issue may henceforth resume his paternal surname of Estcourt in addition to and after that of Sotheron, and bear and use the arms of Estcourt quarterly in the first quarter with those of Sotheron ; such arms being first duly exemplified according to the laws of arms and recorded in the Herald's Office, otherwise the said royal licence and permission to be void and of none effect :

And also to command that the said royal concession and declaration be recorded in Her Majesty's College of Arms.

Whitehall, September 4, 1855.

The Queen, taking into Her royal consideration that, on the twenty-fourth day of July last it was resolved, by the Lords Spiritual and Temporal, in Parliament assembled, that Sir James Carnegie, of Southesk, Kinnaird, and Pittarrow, Baronet,

had made out his claim and was entitled to the dignity of Earl of Southesk, and whereas, according to the ordinary rules of honour, the brothers and sister of the said Sir James Carnegie, now Earl of Southesk, cannot enjoy that place and precedence which would have been due to them had their late father, Sir James Carnegie, of Southesk, Baronet, survived to have received the grace of the Crown, by being relieved from the effects of a certain attainder, and been declared entitled to the Earldom of Southesk, to which he preferred his claim in the year 1847, Her Majesty has been graciously pleased to ordain and declare that John Carnegie, Esquire, Charles Carnegie, Esquire, and Charlotte Carnegie, Spinster, shall henceforth have, hold, and enjoy the same title, place, pre-eminence, and precedence as if their late father, Sir James Carnegie, had survived to have received the grace of the Crown, and been declared entitled to the Earldom of Southesk.

And also to command that the said royal concession and declaration be registered in Her Majesty's College of Arms.

Whitehall, September 4, 1855.

The Queen, taking into Her royal consideration that, upon the decease of John, Viscount and Baron Ponsonby of Imokilly, Knight Grand Cross of the Most Honourable Order of the Bath, which happened in the month of February last, that the dignity of Viscount Ponsonby became extinct, but the dignity of Baron Ponsonby of Imokilly devolved upon William, now Baron Ponsonby of Imokilly, as only son and heir of his father Sir William Ponsonby, Knight Commander of the Most Honourable Military Order of the Bath, who fell in the battle of Waterloo, and who, whilst

living, was the second son of William Brabazon Ponsonby, first Baron Ponsonby of Imokilly, and next brother to the said John Viscount and Baron Ponsonby, and that, according to the ordinary rules of honour, the sisters of the said William, Baron Ponsonby of Imokilly, cannot enjoy that place and precedence which would have been due to them in case their late father, the said Sir William Ponsonby, had survived his brother, the said John, Viscount and Baron Ponsonby, and had thereby succeeded to the title and dignity of Baron Ponsonby of Imokilly; Her Majesty has been graciously pleased to ordain and declare that Annie Louisa, wife of William Tighe Hamilton, Esq., and Charlotte Georgiana, wife of Charles Talbot, Esq., a Captain in the Royal Navy, shall henceforth have, hold, and enjoy the same title, place, pre-eminence, and precedence as if their late father, Sir William Ponsonby, had survived his brother, the said John, Viscount and Baron Ponsonby, and had succeeded to the title and dignity of Baron Ponsonby of Imokilly:

And also to command that the said royal concession and declaration be registered in Her Majesty's College of Arms.

Whitehall, August 21, 1855.

The Queen has been pleased to grant unto Thomas William Booker, of the Leys, in the parish of Ganarew, in the county of Hereford, and of Velindra House, in the parish of Whitchurch, in the county of Glamorgan, Esquire, one of the Representatives in Parliament for the said county of Hereford, in the Commission of the Peace for the counties of Hereford, Glamorgan, and Monmouth, and Deputy Lieutenant for the said counties of Hereford and Glamorgan, Her royal licence and

authority that he may henceforth take the surname of Blakemore, in addition to and after that of Booker, and use and bear the arms of Blakemore quarterly, in the first quarter, with those of Booker, pursuant to the wish and desire contained in a codicil to the last will and testament of his late maternal uncle, Richard Blakemore, of the Leys aforesaid, Esquire, sometime one of the Representatives in Parliament for the city of Wells, deceased; such arms being first duly exemplified according to the laws of arms, and recorded in the Herald's Office, otherwise the said royal licence and permission to be void and of none effect:

And also to command that the said royal concession and declaration be registered in Her Majesty's College of Arms.

SUPPLEMENT
TO THE
LONDON GAZETTE of SEPTEMBER, 4,
1855.

Admiralty, September 4, 1855.

DESPATCHES, of which the following are copies, have been received at the Admiralty from Rear-Admiral the Honourable R. S. Dundas, Commander-in-Chief of Her Majesty's Ships and Vessels in the Baltic.

No. 431.

Duke of Wellington,
in Nargen, August 27, 1855.

SIR, I have the honour to transmit, for the information of the Lords Commissioners of the Admiralty, a letter from Captain Warden, of Her Majesty's ship *Ajax*, enclosing a report, detailing the proceedings of Captain Henry C. Otter, in Her Majesty's ship *Firefly*, before Brandon, the sea-port of Wasa, in the Gulf of Bothnia, which are highly creditable to that officer, and to the officers and crew under his command; and I beg leave to recommend to the favourable notice of their Lordships the gallant conduct of Lieutenants Edward Burstal and John Ward, as well as that of Mr. John A. Bull, Second Master, and Mr. James W. Salter, the Gunner, on the occasion.

I have, &c.,

(Signed) R. S. DUNDAS, Rear-Admiral
and Commander-in-Chief.

The Secretary of the Admiralty,

No. 34.

Ajax, in Fogle Fiord,

SIR,

August 22, 1855.

I have the honour to lay before you the accompanying report of Captain Otter, of the *Firefly*, of his proceedings between the 27th July, and 11th instant, at Brandon, in the neighbourhood of Wasa, whilst temporarily occupying that part of the station, together with a list of vessels taken, and property and vessels otherwise destroyed; and I desire to draw your favourable notice to this report, as it bears witness to the zeal and energy of Captain Otter in the performance of this service.

I have, &c.,

(Signed)

FRED. WARDEN.

*Her Majesty's Ship Firefly,*SIR, *Korsoren Beacon, August 11, 1855.*

I beg to acquaint you that after leaving Fogle Fiord on the 27th ultimo, I communicated with Her Majesty's ship *Harrier*, and His Imperial Majesty's corvette *D'Assas*, on their stations, and on the evening of the 31st, despatched Her Majesty's ship *Driver* to you from Noorskar Light. At 10 A.M. on 1st August, I anchored Her Majesty's ship *Firefly* half a mile outside of Korsoren Beacon, and with the two paddle-box boats and the gig, accompanied by Lieutenant Ward and Mr. Bull, pushed on to the south-east; on our way we got information of a large barque at anchor to the eastward of Wasklöt, and also that there was a military force in the neighbourhood.

On arriving within two miles from Brandon, a telegraph was observed on a small island in

Korsham Fiord, signaling with three large balls, and on pulling in towards it, two men in a boat pushed off from the land with a flag of truce; fortunately I did not fire, for the flag was so large I mistook it for the boat's mainsail, and concluded they were trying to escape.

This very improper opportunity of using a flag of truce could not be recognised, and I ordered the telegraph to be cut down, but released the men and their boat.

No time was now to be lost as the signal had been answered from the main; I therefore pushed on with all expedition, and on rounding the E. point of Wasklöt observed the object of our search in the mud, which with little difficulty was got off, and towed out of range of any guns that could be brought to bear. The prize proved to be the *Vides* of 300 tons, with from 200 to 300 casks of tar on board.

At midnight two Russian deserters came on board, and stated the troops have moved off to Wasa, on seeing the boats approaching, thinking an attack was contemplated on that place.

At 8:30 A.M., 2nd August, I returned to the *Firefly*, and immediately got under weigh for Korsoran Fiord, but the navigation was so difficult that it was not until 5:30 P.M., I came alongside the prize. At 8:30 P.M. I weighed and proceeded towards Brandon, the seaport of Wasa, and a great ship-building place; it had immense magazines on an island, separated by a very narrow deep water channel from the town, with a custom-house and barracks.

At midnight anchored within 400 yards of the town, and sprung the broadside to enfilade the channel and protect the boats, which were sent under Lieutenant Ward to examine the magazines. Some of them were opened, and found to be

empty; others contained coal, tar, resin, salt, spars, anchors, and cables, boats, salt fish, hawsers, and numerous piles of 3-inch deals, but no sails or rigging, as we were led to expect. On a few of the principal inhabitants joining us on the island, they were told that the sails of the barque must be given up, and they immediately sent to Wasa to Mr. Wolf, a wealthy merchant and ship owner, but he refused. I therefore determined to burn the magazines; but as the wind was blowing directly on the town, I agreed to wait a reasonable time until a change took place, and gave the inhabitants notice that they were at liberty to remove anything from the island that belonged to them, except ship's stores; for this forbearance they expressed themselves very grateful.

Towards the afternoon, Lieutenant Burstal brought in a schooner, and reported having discovered two fine barques and two brigs, in a creek a mile and a half distant.

As the wind was still on the shore, and the destruction of the town inevitable had the magazines been fired, I directed the schooner to be hauled close into the island, and a working party to put some casks of tar and deals into her. Everything had the appearance of security; ladies were walking about the beach, parties of pleasure sailing round the ship, and the people employed taking their property from the island.

At 8 P.M. I landed to communicate with the First Lieutenant, and had just visited the sentry placed on a building platform, when a heavy fire of musketry, from different parts of the town, was opened upon the working party and the ship, and was immediately replied to by the latter, with shot and shell, which appears to have done great execution.

The deck of the schooner was so enfiladed, that

it was impossible to get on board for the arms, and had it been practicable to do so, not a man could be seen from her to fire at. Providentially all escaped on board uninjured, and Mr. Bull having returned in the paddle-box boats, with a fine barque in tow, a fire from the four guns and rifles was kept up, so hot, that in about an hour and a half the fusillade from the shore nearly ceased.

At midnight I moved the ship into a better position for sinking the schooner, and the bows being nearly driven in by the shot, I proceeded to the destruction of the barque and two brigs, before the enemy could rescue them; this was successfully performed with the assistance of the Second Master, Mr. Bull, and Mr. Salter, Gunner.

It was ascertained afterwards, from two different sources, that the enemy had 25 killed and from 4 to 18 wounded; the injury appears to have been inflicted chiefly by the first three shots, whilst the troops were drawn up abreast of the ship.

On our side I am thankful to report that no more serious casualties occurred than a man and a boy being struck with spent balls.

During the 6th and 7th the weather was so wet and boisterous that it was impossible to act against the enemy, but I ascertained during the night, that reinforcements had arrived to the amount of 200 or 300 sharpshooters and cossacks, with several guns.

On the morning of the 8th, the weather being moderate, I took up a position 1500 yards from the magazine, and the same distance from a battery of four guns, and opened fire upon the latter, which not being returned I commenced firing red-hot shot at the magazines.

At 2.30 P.M. smoke began to issue from the houses, and Lieutenant Ward, having volunteered

to try and cut out the schooner, pushed in with paddle-box boat, and with great gallantry drove the soldiers three times out of the woods, but ultimately was obliged to retire before an overwhelming force secreted in the Custom-house; the boat was struck in many places, but I am thankful to say not a man hurt.

At 8 P.M., the principal magazines being all in a blaze and their destruction inevitable, I closed the battery to 1000 yards, but still receiving no return (though both guns and soldiers could be seen), and the ammunition nearly expended, I was backing out, when suddenly several heavy guns, from an elevated position masked by trees opened fire, chiefly with shells, and at the same time the whole force of Riflemen,—and the power of these weapons may be imagined, when I mention that a ball cut through a spar on the bridge two inches thick at a distance of 1,500 yards.

It is with the greatest pleasure I have to speak of the coolness of the officers and men at this trying juncture; the narrowness of the channel and shoalness of the water (at the most $2\frac{3}{4}$ fathoms), rendered it injudicious to attempt turning the *Firefly* round, and she was slowly backed astern, $1\frac{1}{4}$ miles, before she was out of range, an evolution which, from the lightness of the wind, was not performed under 40 minutes.

I cannot conclude without mentioning how much I am indebted to the First Lieutenant, Mr. Edw. Burstal, who so materially assisted in inflicting this serious blow on the enemy's property.

I have, &c.,

(Signed)

HENRY C. OTTER,

Captain.

FROM THE
SECOND SUPPLEMENT
TO THE
LONDON GAZETTE of SEPTEMBER 4,
1855.

War-Department, September 5, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the fol-

lowing are copies, addressed to his Lordship by General Simpson.

Before Sevastopol,

MY LORD,

August 25, 1855.

Having been engaged since daylight in a careful observation of the position in front of Balaklava, I am unable to address your Lordship at any length this day.

The enemy have been concentrating troops at the Mackenzie, Tasova, and Karales, their left extending as far as the village of Makoul, and are supposed to have received considerable reinforcements, which probably consist of two divisions of Grenadiers, which have been conveyed in carts from Bakshiserai and Simpheropol.

The bridge across the Great Harbour is nearly completed, and large bodies of men are employed in erecting earthworks on the north side of the harbour. Intrenchments have been thrown up on the Sievernaya Hill, extending from the sea coast to the site of the first lighthouse, facing the north.

From various sources, we learn that the Russians on the right bank of the Tchernaya are held in perfect readiness for an offensive movement.

Our siege operations progress steadily, with I regret to say heavy casualties on our side, as your Lordship will see by the accompanying lists.

I have, &c.,

JAMES SIMPSON,

General Commanding.

The Lord Panmure, &c., &c., &c.

FROM THE
SUPPLEMENT

TO THE
LONDON GAZETTE of SEPTEMBER 7,
1855.

War-Department, September 10, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Simpson.

Before Sevastopol,

August 28, 1855.

MY LORD,

Since the attempt of the enemy to force the passage of the Tchernaya, on the 16th instant, no movement of aggression has taken place ; but all the accounts I have received tend to shew a disposition on their part to renew the attack. I have considered it necessary to send the Highland Division, composed of the 42nd, 71st, 79th, and 93rd Regiments, under the command of Lieutenant-General Sir C. Campbell, to reinforce our extreme right, and they are now encamped on the slopes of the heights overhanging the village of Kamara.

I have likewise placed 50 guns and the cavalry in reserve, to act on the first appearance of the enemy.

The 56th Regiment has arrived, and I have attached it to the 1st Division.

The siege operations are progressing favourably ; but, owing to the brightness of the nights, a large amount of work cannot be executed.

The raft bridge from the north side to the south shore has been completed, and is actually in use by the enemy ; and a considerable increase of troops, with a good deal of movement, is observable in the town.

The installation of the Knights of the Bath took place yesterday at my head-quarters, and was conducted with great dignity and solemnity by Viscount Stratford de Redcliffe.

The effect was most imposing, attended as the ceremony was by the Naval and Military Commanders-in-Chief of the Allied Forces ; and after the delivery by Her Majesty's Ambassador of a peculiarly eloquent discourse upon the character and history of the Most Honourable Order, the several Knights were respectively invested with the insignia of their Class.

I transmit the weekly report of the principal Medical Officer, which shows a decided improvement in the health of the army, and the list of casualties to the 26th instant.

I have, &c.,

JAMES SIMPSON,

General Commanding.

The Lord Panmure, &c. &c. &c.

FROM THE

*LONDON GAZETTE of SEPTEMBER 11,
1855.*

Admiralty, September 10, 1855.

DESPATCHES, of which the following are copies, have been received from Rear-Admiral Bruce, Commander-in-Chief of Her Majesty's Ships and Vessels on the Pacific Station:

No. 44. *President, at Petropaulovski,*
SIR, *June 15, 1855.*

I have to report, for the information of the Lords Commissioners of the Admiralty, that arriving off this port, on the 30th May, I found the place completely evacuated; not a ship, gun, or person to be seen; nothing but empty embrasures and deserted houses.

2. I entered the inner harbour on the following day in the *Barracouta*, accompanied by Captain Penanros, of the French frigate *Alceste*, when we found three Americans (the only residents left), from whom we learned that the Russian ships named in the margin* were cut through the ice, and took their departure, on the 17th (5th) April, with all the guns and munitions of war, and all the soldiers and government employés, 800 in number; but of their destination we could obtain no clue.

3. I reached the rendezvous, lat. 50° N., long. 160° E., in my flag-ship, on the 14th May, and the *Dido* and *Pique* arrived the same day; the *Encounter* and *Barracouta* had been there since the 14th April. Great credit is due to Captain O'Callaghan and Commander Stirling for the zealous exertion by which they effected this object; and their Lordships will remark the promptitude with which they were despatched by Rear-Admiral Sir James Stirling.

4. The French frigate *Alceste* and the *Brisk* were in the vicinity of the rendezvous at the same time; but the prevalence of thick fogs and adverse weather prevented my seeing the Bay of *Acootska* before the 20th ult., when six of the ships being together, I trusted to the prompt appearance of the seventh, and accordingly proceeded to the port, in tow of the *Barracouta*, followed by the *Alceste*, in tow of the *Brisk*. The *Dido*, *Pique*, and *Encounter* arrived the same evening.

5. Commander Stirling, of Her Majesty's steam-sloop *Barracouta*, while separated from the squadron, having, during a break in the fog,

* *Aurora*, 44; *Dwina*, 20; *Olivutza*, 20. Transports: *Baikal*, *Irtisch*.

looked into the anchorage to see if it was there, took, with much judgment, that opportunity of reconnoitring the harbour ; and I was informed by him of the ships being no longer in it.

6. The *Amphitrite*, from Honolulu, having met me on the 11th instant, while I was in the act of following the Russian ships into the Sea of Ochotsk, and given me such information as to convince me that a combined English and French force was already there, instead of proceeding I despatched Her Majesty's ships *Pique* and *Barra-couta* on the 13th, and *Amphitrite* on the 14th, to reinforce the squadron of Sir James Stirling at the mouth of the Amour. The *Encounter* sailed on the 12th for Sir James Stirling's rendezvous at Aaksdadi, in the Strait of Maksmai, to inform his Excellency of the movements of the other ships, in case he should not have left there. The *Amphitrite* will rejoin my flag off Sitka, so soon as Captain Frederick finds her services are not required in the Sea of Ochotsk.

8. Resuming the subject of Petropaulovski, I would observe that the enemy must have worked in an indefatigable manner after the departure of the allied squadron last year, as we found 9 batteries for 54 guns had been constructed with much skill and labour, by means of fascines strongly bound together, 25 feet thick, staked and filled in with earth, and some of them ditched round, with covered ways leading from one to the other, and trees planted in the rear. Every possible preparation had been made to receive us prior to the orders arriving from St. Petersburg to evacuate the place.

9. I caused the batteries to be destroyed, but, having met with no opposition on approaching Petropaulovski, I considered it a point of honour to respect the town.

10. I found hidden in the Rakovia Harbour a fine Russian whaler, of 400 tons, called the Aian, built at Abo in 1853. She would have sailed from here three weeks since for Aian, with the family of the Governor of the place, and among other articles of cargo, an engine for a small steamer said to be there, but the opportune arrival of some of the squadron off the port prevented her leaving. As I found her deserted, and her sails, boat, and anchors are not to be found, she will be destroyed.

11. I am disappointed in not having succeeded in opening a communication with the inhabitants, who have fled from the town; for I hoped to obtain the release of the two English prisoners they have among them; I learn, however, from the Americans that they are very well treated.

12. In conclusion, I desire to add that although it has necessarily been a great disappointment to the squadron under my command to find upon arrival at this place, more than 2,000 miles outside their station, that the enemy had escaped, and the batteries were deserted, yet their Lordships will not fail to observe that not the less credit is due for the great zeal and anxiety that has been shown by each of the ships in pushing onward, in the hope of being in time to take part in the anticipated operations at this port.

13. The best understanding subsisted between Captain Penanros, of the *Alceste*, and me, and I cannot say too much in favour of the zeal and activity he displayed to meet every wish of mine, and to keep the appointed rendezvous; the same continues with respect to Rear-Admiral Fourichon.

I am, &c.,

H. W. BRUCE,

Rear-Admiral and Commander-in-Chief.

The Secretary of the Admiralty.

No. 54.

SIR,

*President, off Sitka,**July 17, 1855.*

I request you will inform the Lords Commissioners of the Admiralty, that before leaving Petropaulovski, I succeeded in opening a communication with Captain Martinhoff, the temporary Governor of that place, who had retired into the interior, having for its object the release of two prisoners taken last year, as reported in my general letter of the 15th ultimo, No. 44.

Having forwarded a safe conduct to Captain Martinhoff, through the kind offices of an American resident in Petropaulovski, that officer sent 150 versts inland for them, and on their arrival, on the 25th ultimo, delivered them up to Captain Houston, of Her Majesty's ship Trincomalee, and three Russians that had been detained on board the French brig Obligado since last year, were given in exchange.

The two men proved to be William Garland, ordinary seaman, of Her Majesty's ship Pique, and Pierre Langois, of the French frigate Forte. The latter will be handed over to the Forte on my arrival at San Francisco, and the former will, at his own request, be appointed to the Brisk, his proper ship having sailed for the China Station. Both appear to have been treated with much kindness during the time they have been in the hands of the enemy.

I have, &c.,

H. W. BRUCE.

The Secretary of the Admiralty.

FROM THE
SUPPLEMENT
TO THE
LONDON GAZETTE of SEPTEMBER 11,
1855.

War-Department, September 12, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Simpson.

Before Sevastopol,
September 1, 1855.

MY LORD,

The siege operations during the past week have progressed slowly, the brightness of the nights rendering the work to be performed a task of great difficulty. The head of the sap is now about 150 yards from the salient of the Redan, and the enemy interrupt the work by every means in their power.

On the night of the 28th, a 13-inch shell fell into a magazine on the left face of the Mamelon, which exploded, causing some few casualties, but in no way interrupting the continuance of the fire.

On the night of the 30th ultimo, the Russian pickets made a rush at our advanced trench, upset a few gabions, and unfortunately killed Lieutenant Preston, of the 97th Regiment. In this affair, Captain Pechell, of the 77th Regiment, who commanded the advanced party, and Lieutenant-Colonel Bunbury, of the 23rd Regiment, who

commanded the supports, behaved with great gallantry.

Great activity prevails on the part of the garrison in making use of the new raft bridge across the harbour, and stores of all kinds are daily transported to the north side.

Large working parties are employed in throwing up works on the north side, but as yet they are in too unfinished a state to judge of their exact nature.

From the information we continue to receive, it appears that the enemy is concentrating his force between the Mackenzie Heights and Fort Constantine ; and although several minor changes of position have been made, no movement of importance has occurred to indicate a positive intention to attack.

All our accounts confirm the reports of the great losses of the enemy daily in Sevastopol, and that some discontent prevails in their ranks.

I have the honour to enclose the lists of casualties.

I have, &c.,

JAMES SIMPSON,

General Commanding.

The Lord Panmure, &c. &c. &c.

FROM THE

LONDON GAZETTE of SEPTEMBER 14,
1855.

LORD PANMURE has addressed the following Telegraphic Despatch to General Simpson.

War-Department, September 12, 1855.

The Queen has received with deep emotion the welcome intelligence of the fall of Sebastopol.

Penetrated with profound gratitude to the Almighty, who has vouchsafed this triumph to the Allied Army, Her Majesty has commanded me to express to yourself, and, through you, to the Army, the pride with which she regards this fresh instance of their heroism.

The Queen congratulates her troops on the triumphant issue of this protracted siege, and thanks them for the cheerfulness and fortitude with which they have encountered its toils, and the valour which has led to its termination.

The Queen deeply laments that this success is not without its alloy in the heavy losses which have been sustained; and, while she rejoices in the

victory, Her Majesty deeply sympathises with the noble sufferers in their country's cause.

You will be pleased to congratulate General Pelissier, in Her Majesty's name, upon the brilliant result of the assault on the Malakoff, which proves the irresistible force as well as indomitable courage of our brave Allies.

PANMURE.

Whitehall, September 14, 1855.

Whereas by an Act of Parliament, passed in

George the Third, chapter 159, intituled "An
Act for the better regulation of the several ports,
harbours, roadsteads, sounds, channels, bays, and
navigable rivers in the United Kingdom, and of His
Majesty's docks, dockyards, arsenals, wharfs, moor-
ings, and stores therein, and for repealing several
Acts passed for that purpose," it is enacted (among
other things) that no person or persons shall take
any ballast or shingle from the shores or banks,
or any portion of the shores or banks, of any port,
harbour, or haven of this kingdom, from which the
Commissioners for executing the office of Lord
High Admiral of the United Kingdom for the
time being shall find it necessary for the protec-
tion of such port, harbour, or haven, or the works

of their Secretary, and published in the London Gazette, shall prohibit the taking or removing of such shingle or ballast upon pain of forfeiting for every such offence the sum of Ten Pounds.

And whereas we, as Commissioners for executing the Office of Lord High Admiral of the United Kingdom, have found it necessary for the protection of the Harbour of Harwich, in the county of Essex, to prohibit the taking or removing of any ballast or shingle from the shores or banks or any portion of the shores or banks of the said harbour, between high and low water mark on that part of the foreshore, extending from the breakwater at Beacon Cliff, for one mile to southward. And we do therefore hereby order, that no person or persons shall take or remove any ballast or shingle from such shores or banks, or any portion of such shores or banks of the said harbour before described.

FROM THE
SUPPLEMENT

TO THE
LONDON GAZETTE of SEPTEMBER 18,
1855.

War-Department, September 19, 1855.

LORD PANMURE has this day received a
Despatch, of which the following are extracts,
and the subjoined returns of casualties from the
31st ultimo to the 2nd instant, addressed to his
Lordship by General Simpson.

*Extract of a Despatch from General Simpson to
Lord Panmure, dated before Sevastopol,
September 4, 1855.*

“From the heavy fire maintained by the enemy
on the head of our sap, the progress made has
been slow, and accompanied, as must be expected,
by several casualties amongst the sappers and
working parties; and it is with great regret that
I have to report the death, last night, of Captain
Pechell, 77th Regiment, whose conduct I had

occasion to bring before your Lordship's notice in my despatch of the 1st instant.

"Within the last few days a second bridge has been commenced from the north shore to Karabelnaia, the object being evidently to expedite the removal of stores from the dockyard.

"The continued reports we receive induce General Pelissier and myself to believe that the enemy still meditate an attack in force on our positions on the Tchernaya, to meet which the troops are kept in a continued state of readiness.

"The 82nd Regiment have arrived from Corfu, and have disembarked this day. I intend them to relieve the 13th Regiment at Balaklava, which has joined the 1st Division under Lord Rokeby.

"The health of the troops is excellent.

"I enclose the list of casualties."

FROM THE
SECOND SUPPLEMENT

TO THE
LONDON GAZETTE of SEPTEMBER 18,
1855.

War-Department, September 21, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Simpson.

Before Sevastopol,
September 8, 1855.

MY LORD,

At daylight on the 5th instant, the batteries of the Allied Armies opened a steady and continuous fire against the enemy's works.

During the night one of the vessels, supposed to be a frigate, stationed on the north side of the harbour, was set on fire by, it is believed, a shell from a French battery in their right attack. The firing, during the 6th, 7th, and up to the present moment, has continued uninterrupted, and but feebly responded to by the Russians.

Another frigate was discovered yesterday afternoon to be on fire, and has been entirely destroyed.

From the length of time it continued burning, it is supposed to have contained stores.

About eleven o'clock last night a heavy explosion took place, but I have not as yet been

able to ascertain in which part of the enemy's works.

I beg to enclose the list of casualties to the 6th instant.

I have, &c.,

JAMES SIMPSON,

General Commanding.

The Lord Panmure, &c., &c., &c.

FROM THE

*LONDON GAZETTE EXTRAORDINARY
of SEPTEMBER 22, 1855.*

War-Department, September 22, 1855.

MAJOR the Honourable Leicester Curzon
arrived this morning with a Despatch from

General Simpson to Lord Panmure, of which the following is a copy.

Before Sevastopol,

MY LORD,

September 9, 1855.

I had the honour to apprise your Lordship in my Despatch of the 4th instant. that the Engineer and Artillery Officers of the Allied Armies had laid before General Pelissier and myself a report recommending that the assault should be given on the 8th instant, after a heavy fire had been kept up for three days.

This arrangement I agreed to, and I have to congratulate your Lordship on the glorious results of the attack of yesterday, which has ended in the possession of the town, dockyards, and public buildings, and destruction of the last ships of the Russian Fleet in the Black Sea. Three steamers alone remain, and the speedy capture or sinking of these must speedily follow.

It was arranged that at twelve o'clock in the day the French columns of assault were to leave their trenches, and take possession of the Malakoff and adjacent works. After their success had been assured, and they were fairly established, the Redan was to be assaulted by the English; the Bastion, Central, and Quarantine Forts, on the left, were simultaneously to be attacked by the French.

At the hour appointed our Allies quitted their trenches, entered and carried the apparently impregnable defences of the Malakoff with that impetuous valour which characterizes the French attack; and, having once obtained possession, they were never dislodged.

The Tricolour planted on the parapet was the signal for our troops to advance

The arrangements for the attack I entrusted to Lieutenant-General Sir William Codrington, who

carried out the details in concert with Lieutenant-General Markham.

I determined that the second and light divisions should have the honour of the assault, from the circumstance of their having defended the batteries and approaches against the Redan for so many months, and from the intimate knowledge they possessed of the ground.

The fire of our artillery having made as much of a breach as possible in the salient of the Redan, I decided that the columns of assault should be directed against that part, as being less exposed to the heavy flanking fire by which this work is protected.

It was arranged between Sir W. Codrington and Lieutenant-General Markham that the assaulting column of 1000 men should be formed by equal numbers of these two divisions, the column of the light division to lead, that of the 2nd to follow. They left the trenches at the preconcerted signal, and moved across the ground preceded by a covering party of 200 men, and a ladder party of 320. On arriving at the crest of the ditch, and the ladders placed, the men immediately stormed the parapet of the Redan, and penetrated into the salient angle. A most determined and bloody contest was here maintained for nearly an hour, and, although supported to the utmost, and the greatest bravery displayed, it was found impossible to maintain the position.

Your lordship will perceive, by the long and sad list of casualties, with what gallantry and self-devotion the officers so nobly placed themselves at the head of their men during this sanguinary conflict.

I feel myself unable to express in adequate terms the sense I entertain of the conduct and gallantry exhibited by the troops, though their

devotion was not rewarded by the success which they so well merited, but to no one are my thanks more justly due than to Colonel Windham, who gallantly headed his column of attack, and was fortunate in entering, and remaining with the troops, during the contest.

The trenches were, subsequently to this attack, so crowded with troops that I was unable to organize a second assault, which I intended to make with the Highlanders under Lieutenant-General Sir Colin Campbell, who had hitherto formed the reserve, to be supported by the third division under Major-General Sir William Eyre. I, therefore, sent for these officers, and arranged with them to renew the attack the following morning.

The Highland Brigade occupied the advanced trenches during the night. About eleven o'clock the enemy commenced exploding their magazines, and Sir Colin Campbell having ordered a small party to advance cautiously to examine the Redan, found the work abandoned ; he did not, however, deem it necessary to occupy it until daylight.

The evacuation of the town by the enemy was made manifest during the night. Great fires appeared in every part, accompanied by large explosions, under the cover of which the enemy succeeded in withdrawing their troops to the north side by means of the raft-bridge recently constructed, and which they afterwards disconnected and conveyed to the other side.

Their men-of-war were all sunk during the night.

The boisterous weather rendered it altogether impossible for the Admirals to fulfil their intention of bringing the broadsides of the Allied Fleets to bear upon the Quarantine Batteries ; but an excellent effect was produced by the animated and

well-directed fire of their mortar-vessels, those of Her Majesty being under the direction of Captain Wilcox of the *Odin*, and Captain Digby, of the Royal Marine Artillery.

It now becomes my pleasing duty, my Lord, to place on record the high sense I entertain of the conduct of this Army since I have had the honour to command it. The hardships and privations endured by many of the Regiments during a long winter campaign are too well known for me to comment upon. They were borne both by officers and men with a patience and uncomplaining endurance worthy of the highest praise, and which gained them the deserved applause and sympathy of their country.

The Naval Brigade, under the command of Captain the Honourable Henry Keppel, aided by Captain Moorsom, and many gallant officers and seamen who have served the guns from the commencement of the siege, merit my warmest thanks.

The prompt, hearty, and efficacious co-operation of Her Majesty's Navy, commanded by Rear-Admiral Sir Edmund Lyons, and ably seconded by Sir Houston Stewart, has contributed most materially to the success of our undertaking ; and here, perhaps, I may be permitted to say that, if it had pleased God that the successful result of this memorable siege should have been reported by my ever to be lamented predecessor in this command, I am sure that it would have been one of his most pleasing duties to express the deep sense which I know he entertained of the invaluable assistance and counsel he received on all occasions from Sir Edmund Lyons. When at times affairs looked gloomy and success doubtful, he was at hand to cheer and encourage ; and every assistance that could tend to advance the operations

was given with the hearty good will which characterizes the British sailor.

Nothing has contributed more to the present undertaking than the cordial co-operation which has so happily existed from the first between the two services.

I cannot sufficiently express my approbation of the conduct of the Royal Engineers under Lieutenant-General Sir Harry Jones, who has conducted the siege operations from the beginning of this year. For some time past he has been suffering on a bed of sickness, but the eventful hour of the assault would not permit him to remain absent; he was conveyed on a litter into the trenches to witness the completion of his arduous undertakings.

My warmest thanks are due to the officers and soldiers of the Royal Artillery under the command of Major-General Sir R. Dacres, who, during the arduous operations of this protracted siege, have so mainly contributed to its ultimate success.

I must beg further to record my thanks for the cordial co-operation and assistance I have received in carrying out the details of the service from the Chief of the Staff, the Adjutant and Quartermaster-Generals, and General Staff, as well as Generals commanding Divisions and Brigades of this Army.

I must reserve to myself, for the subject of a future despatch, bringing before your Lordship the particular mention of officers of the various branches of this Army, whom I shall beg to recommend to your favourable notice.

I entrust this despatch to the care of Brevet-Major the Honourable Leicester Curzon, who has been Assistant Military Secretary to my noble predecessor and myself since the commencement of this war, and who will be able to give your

Lordship more minute details than the limits of a despatch will allow.

I have, &c.,

JAMES SIMPSON,

General Commanding.

The Lord Panmure, &c. &c. &c.

FROM THE SUPPLEMENT

TO THE
LONDON GAZETTE EXTRAORDINARY
of SEPTEMBER 22, 1855.

Admiralty September 22, 1855.

DESPATCHES, of which the following are copies, have been received from Rear-Admiral Sir Edmund Lyons, Bart., G.C.B., Commander-in-Chief of Her Majesty's Ships and Vessels in the Mediterranean and Black Sea.

No. 753.

Royal Albert, off Sevastopol,

SIR,

September 10, 1855.

Of the operations on shore, which have produced the successful result of the singular and memorable siege of Sevastopol, Her Majesty's Government will be informed by General Simpson; but it is my duty to report to the Lords Commissioners of the Admiralty what has taken place afloat and on the seaboard under my own observation.

It had been arranged by Generals Simpson and Pelissier, Admiral Bruat and myself, that precisely at noon on the 8th instant the Allied Fleets should open fire upon the Quarantine Batteries that enfiladed the approach of the assaulting columns; but unfortunately the weather, which had been fine for some days, changed on the morning of the attack, and a north-west gale and heavy sea rendered it impossible for any vessels to act upon batteries situated on the lee shore of this exposed roadstead. It will, however, appear by the enclosed reports from Captain Wilcox, of the *Odin*, and Captain Digby, of the Royal Marine Artillery (whom, as well as the junior officers mentioned by them, I beg leave particularly to recommend to the favourable consideration of their Lordships), that the mortar vessels attached to the fleets kept up a very effective fire from their position in the Bay of Strelitzka.

As the day closed, things in the harbour seemed to be in the same state as they were in the morning, but, during the night, several heavy explosions were heard, and at dawn we observed that the fortifications on the south side were in flames, and that the 6 remaining ships-of-the-line had been sunk at their moorings, leaving afloat no more of the late Russian Black Sea Fleet than two dismasted corvettes and 9 steamers, most of which are very small.

Soon afterwards the enemy were seen retreating across the newly constructed bridge, until the south side of the harbour, on which the naval and military arsenals, the public buildings, and the town of Sevastopol are situated, appeared to be completely evacuated, and then the southern portion of the bridge was hauled over to the north shore.

It is now my pleasing duty to render justice to the admirable conduct of all whom I have had the honour and happiness to command during the last nine months of this arduous struggle, and whose duties I shared in before; for although, with the exception of the Naval Brigade in the camp, whose gallant bearing from the beginning under the command of Sir Stephen Lushington, has been beyond all praise, and never more so than during the last two bombardments under the command of the Honourable Captain Keppel, it has not fallen to the lot of the Navy, on this occasion to perform distinguished deeds of arms such as those of their gallant brethren in the Army; still, whilst straining every nerve, night and day, under very trying circumstances, to supply the means for carrying on the siege, in the glory of which they could not share, the generous cheer of encouragement, unalloyed by envy, has always been heartily given in the day of triumph; nor have sympathy and assistance ever been wanting in the hour of distress and suffering; the same sentiments have pervaded all ranks—captains, officers, seamen and marines, all agreeing with each other in following, as I believe I have said once before, the excellent example set them by my able second in command and coadjutor Rear-Admiral Houston Stewart.

Perhaps in closing this letter I may be permitted to indulge in the expression of the gratification I

feel in reflecting that under all the circumstances to which it relates, my gallant colleague Vice-Admiral Bruat and I have gone heart and hand together, and that the most perfect understanding and hearty co-operation in the great cause of humanity in which we are all engaged, have invariably prevailed throughout both fleets.

I am, &c.,

To the Secretary of the Admiralty.

Strelitzka Bay,

SIR, *September 8, 1855.*

I have the honour to report that, in pursuance of the orders which I received from you this morning, I opened fire from the mortar vessels, at 8.30 A.M. upon the Quarantine Battery, and a general and more rapid fire, from noon until 7 P.M., upon the Quarantine Battery and Fort Alexander. The two outward vessels were much exposed to the swell which set into the bay, rendering a large object desirable, and I therefore directed their fire between Artillery Bay and the Bastion de Quarantine, where I had been informed that Russian reserves were placed.

The force of the wind and heavy swell which prevailed were singularly unfavourable to accuracy, and the general satisfactory nature of the firing was due to the ability exercised by the officers of Royal Marine Artillery who conducted it; and I beg to submit to your notice the names of First Lieutenant Starr, First Lieutenant Hewett, First Lieutenant Brookes, First Lieutenant Festing, and First Lieutenant Pitman, the officers employed.

The non-commissioned officers and gunners also performed their duties in a most satisfactory manner; and I may especially mention the services of Colour-Serjeant Horner, who, in the absence of an officer, undertook the firing of the Firm, mortar vessel.

Owing to the state of the weather, and the smallness of the means at their disposal, the officers in command had to overcome great difficulties in maintaining the position of their vessels; and I beg to be allowed to express my high opinion of the services of Messrs. Leet, Creagh, and Pearson, Brent, Hart, and Vaughan (Mates), who so ably performed these duties, and greatly contributed to the success of the firing.

I have, &c.,

(Signed) G. DIGBY,

Captain Royal Marine Artillery.

Her Majesty's Ship Odin, off Sevastopol,

SIR,

September 8, 1855.

I have the honour to acquaint you that, acting in pursuance of your directions, and in conjunction with Captain Bachm, commanding four French mortar-vessels, you did me the honour of placing under my command, till 7 P.M., against the Quarantine Fort and outworks, as well as upon Fort Alexander and the upper bastions (where, near to the latter place, a large number of the enemy's reserve were posted), keeping their fire so completely under that only a few shot and shell were returned, and but few fired into the French battery and advanced works before us. A small number of carcasses were also successfully thrown

into the town and upper bastion, which produced a conflagration of some extent.

To Captain Digby, Royal Marine Artillery, and the artillery officer in each vessel, I must attribute the successful practice, and I am glad of the opportunity of bringing to your notice the indefatigable and zealous conduct of Mr. H. K. Leet, Mate, in charge of the Firm, who, from being the senior officer of the mortar vessels has always ably carried out my instructions; and I am happy to bear testimony to the praiseworthy conduct of Messrs. J. B. Creagh, T. L. Pearson, H. W. Brent, A. F. Hart, and Henry Vaughan, Mates, in charge of the other mortar vessels.

I have also great pleasure in stating that no casualty occurred, and that neither the mortars or vessels were at all damaged by the heavy firing.

I have, &c.,

(Signed)

J. A. WILLCOX,

Captain.

PROCEEDINGS OF NAVAL BRIGADE.

No. 754.

Royal Albert, off Sevastopol,

SIR,

September 10, 1855.

I beg leave to enclose, for the information of the Lords Commissioners of the Admiralty, copy of a Letter from Captain the Honourable Henry Keppel, reporting the proceedings of the Naval Brigade under his command, on the 7th and 8th instant, and enclosing a list of casualties.

I am, &c.,

Rear-Admiral and Commander-in-Chief.

The Secretary of the Admiralty,

REPORTING PROCEEDINGS.

Royal Naval Brigade,

No. 16.

before Sevastopol,

SIR,

September 9, 1855.

I have the honour to inform you that, in pursuance of instructions, a vigorous fire was opened from the batteries at six o'clock on the morning of the 7th, and was maintained throughout the day; the fire was recommenced yesterday morning with increased vigour, preparatory to an assault to be made by our Allies on the Malakoff, and subsequently by ourselves on the Redan.

2. At noon the French were observed to start *en masse* from their trenches and possess themselves in gallant style of the Malakoff Battery, on which the tricolor flag was hoisted and the imperial eagles planted within ten minutes of their quitting their trenches.

3. The French flag was no sooner displayed on the Malakoff than our storming party issued from their trenches and assailed the salient angle of the Redan, but the enemy were by that time prepared to meet them, and as the supporting party advanced, a heavy fire of grape and canister was opened on them, in spite of a brisk fire kept up from our batteries on all parts of the Redan not assailed, as well as on the flanking batteries.

4. After maintaining the footing they had gained for some time, our troops were obliged to retire, the killed and wounded left on the ground sufficiently testifying how gallantly they had fought.

5. The fire from our batteries was kept up until dark, and at about eleven o'clock the enemy evacuated the Redan after having fired a train that exploded the magazines.

6. This morning's light showed how successful

and complete had been the victory gained by the Allied Forces.

7. The enemy had evacuated all their positions on the south side of the harbour; the town, Fort Nicolai, Fort Paul, and dockyard were in flames, and their line of battle ships had been sunk in the positions they were last seen in when at anchor.

8. The conduct of the officers and men of the brigade under my command has been such as to continue to merit the high opinion you have been pleased to express of them.

9. I have the honour to enclose a list of casualties for the 7th and 8th.

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, through the Secretary of State for Foreign Affairs, a copy of a despatch from Her

Majesty's Acting Consul at Lisbon, enclosing a Decree, recently published in the Kingdom of Portugal, which imposes a fine of 400 mil rees upon any Master or Commander of a British ship who may admit passengers or emigrants on board his ship, without passports from the competent authority, or who, on receiving the visit or clearance, shall omit to present the list of passengers on board such ship.

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received a Despatch from Her Majesty's Consul at Rotterdam, enclosing a Notice to Mariners, issued by the Netherlands Minister of Marine, respecting a new Floating Beacon at the so-called Steep Point of the Ooster Sandbank, a translation of which is subjoined.

Marine Department.

NOTICE TO MARINERS.

The Minister of Marine hereby gives notice, that at fully three cable lengths to the north-west of the so-called *Steep point of the Ooster* (Sandbank), a large anchor-buoy shaped Beacon has been placed, the top of which is painted white, and the remainder with black and white vertical stripes; on the top of the Beacon is a triangle painted with similar stripes.

The above Beacon is situated in the following landmarks and bearings:—

The church of Haamstede on the east slope of the long white sand-hill, a little to the west of the level.

The steeple of Goedereede on the most westerly summit of the sand-hill, to the east of the five boulders of the westhoofd (Westhead).

In these bearings :—

The tower of the revolving light on Schonwen S. $\frac{3}{4}$ W.

The Lighthouse on the north coast of Schonwen S.E. by E. slightly East.

The steeple of Goedereede E.S.E. $\frac{1}{2}$ E., by unadjusted compass, in 8 fathoms or 150 palms' depth, at ordinary low water.

This Beacon is distinctly visible at a distance of a German mile from the deck of a pilot boat, the eye being 4 ells above the surface of the water, and by the black and white stripes can likewise be easily distinguished at a considerable distance from the similar shaped beacons which are placed on the Banjaard, but which are painted entirely white.

The placing of the last-mentioned Beacons was publicly announced by notice of the 19th August, 1854.

TREASURY WARRANT.

Whereas by an Act, passed in the eighteenth year of the reign of Her present Majesty, intituled "An Act to amend the laws relating to the stamp duties on newspapers, and to provide for the transmission by post of printed periodical publications," it was enacted, amongst other things, that it should be lawful for the Commissioners of Her Majesty's Treasury, by Warrant under their hands, to allow any printed newspaper (British, colonial, or foreign) to be transmitted by the post between places in the United Kingdom and Her Majesty's colonies, or foreign countries, either free of postage, or subject to such rates of postage, not exceeding two pence, for each newspaper, as the Commissioners of the Treasury, or the Postmaster-General, with their consent, should from time to time think fit.

And whereas by a certain Warrant of the Commissioners of Her Majesty's Treasury, bearing 1855.

date the 30th day of June, 1855, it was ordered and directed that the several printed newspapers and publications therein mentioned might be transmitted by the post between any part of the several places mentioned in the schedule thereto annexed, either free or at the rates of postage in the now reciting Warrant expressed and contained.

And whereas it is expedient that the newspapers hereinafter mentioned should be transmitted by the post, free of postage.

Now we, the Commissioners of Her Majesty's Treasury, in exercise of the power reserved to us in and by the said recited Act, and of all other powers enabling us in this behalf, do, by this Warrant, under the hands of two of us the said Commissioners, by the authority of the statute in that case made and provided, order, direct, and consent that British newspapers shall and may be transmitted by the post from any place in the United Kingdom to Prussia, Hamburgh, Bremen, Lubeck, or Oldenburgh (the sea conveyance between the United Kingdom and such countries being direct by private ship) free of postage, any thing in the said recited Warrant of the 30th day of June, 1855, contained to the contrary thereof notwithstanding.

And we do further order and direct, that the British newspapers hereinbefore mentioned shall be transmitted by the post under this Warrant in conformity with and under and subject to the several orders, regulations, conditions, and restrictions under which British newspapers, posted in the United Kingdom, are now or may hereafter be transmitted by the post to places beyond the seas.

And we further order and direct, that the Commissioners for the time being of Her Majesty's Treasury may, by Warrant under their hands

duly made, at any time hereafter, alter or revoke any of the orders, regulations, conditions, and restrictions hereby made, and may make and establish any new or other regulations, conditions, and restrictions in lieu thereof.

TREASURY WARRANT.

Whereas by an Act, passed in the fourth year of the reign of Her present Majesty, intituled "An Act for the regulation of the duties of "postage," it is enacted that it shall be lawful for the Commissioners of Her Majesty's Treasury from time to time, and at any time after the passing of that Act, by Warrant under their hands, to alter and fix any of the rates of British postage or inland postage, payable by law on the transmission by the post of foreign or colonial letters or newspapers, or of any other printed papers, and to subject the same to rates of postage according to the weight thereof, and a scale of weight to be contained in such Warrant.

Now we, the Commissioners of Her Majesty's Treasury, in exercise of the powers vested in us in and by the said recited Act, and of all other powers enabling us in this behalf, do by this Warrant (under the hands of two of us the said Commissioners by the authority of the statute in that case made and provided) order and direct that on every letter not exceeding half an ounce in weight transmitted by the post direct by British packet-boat between any ports in the British colonies, or between any ports in the British colonies and any foreign port (not in any

such cases passing through the United Kingdom) there shall be charged and taken (in lieu of the rates heretofore chargeable for the sea conveyance of such letters) a packet postage of four pence.

And we direct that on every letter, transmitted as is mentioned in this Warrant, exceeding half an ounce in weight there shall be charged, taken, and paid progressive and additional rates of postage as follows (that is to say):

On every such letter exceeding half an ounce in weight, and not exceeding one ounce in weight, two rates of postage.

On every such letter exceeding one ounce and not exceeding two ounces in weight, four rates of postage.

On every such letter exceeding two ounces and not exceeding three ounces in weight, six rates of postage.

On every such letter exceeding three ounces and not exceeding four ounces in weight, eight rates of postage.

And for every ounce in weight, above the weight of four ounces, there shall be charged and taken two additional rates of postage, and every fraction of an ounce above the weight of four ounces shall be charged as one additional ounce, and each progressive and additional rate chargeable under this clause shall be estimated and charged at the sum which any such letter would be charged with under this Warrant, if not exceeding half an ounce in weight.

And we further direct, that the rates of postage chargeable on such letters as aforesaid, for the sea conveyance thereof, shall be charged in addition to any inland colonial rates that may be payable thereon.

And we further direct, that nothing in this

Warrant contained shall in anywise alter, prejudice, or affect the exemptions and privileges granted by the said recited Act passed in the fourth year of the reign of Her present Majesty, nor in anywise prejudice or affect the privilege which officers, seamen, and soldiers employed in Her Majesty's service, and seamen and soldiers employed in the service of the East India Company, now by law enjoy of sending and receiving letters by the post, subject to the regulations and restrictions in respect of the same.

And we further direct that the term "by the post," used in this Warrant, shall include the conveyance through Egypt.

And we further direct, that this Warrant shall come into operation on the first day of January, 1856.

And we hereby declare and direct, that it shall be lawful for the commissioners, for the time being, of Her Majesty's Treasury, or any two of them, by Warrant, under their hands at any time hereafter, to alter or repeal any of the rates hereby altered, or the regulations hereby made, and to make and establish any new or other rates or regulations in lieu thereof, and from time to time to appoint at what time the rates that may be payable are to be paid.

FROM THE
SUPPLEMENT
TO THE
LONDON GAZETTE of SEPTEMBER 25,
1855.

War-Department, September 26, 1855.

LORD PANMURE has this day received two Despatches and their Enclosures, of which the following are copies, addressed to his Lordship by General Simpson.

My LORD, *Before Sevastopol,*
September 11, 1855.

I have but little to add to the despatch I had the honour to send you yesterday by Major Curzon.

Every effort is being made to take possession of the vast quantity of warlike stores left by the enemy in the town. I am unable, at present, to give your Lordship any details.

I transmit the medical report of Dr. Hall.

I rejoice to see by it that many of the wounds are not of so serious a nature as those received on the 18th June.

I enclose the list of casualties, which, I regret to say, are not complete.

I have, &c.,

JAMES SIMPSON,
General Commanding.

The Lord Panmure, &c. &c. &c.

Camp before Sevastopol,
September 9, 1855.

SIR,

I have the honour to enclose a return of casualties in the attack on the Redan yesterday ; and I have much satisfaction in being able to state that nearly the whole of the wounded were brought in, in the course of the afternoon and early part of the night, accommodated in either their own regimental hospitals, or in the general hospital in camp, and their injuries promptly and properly attended to by the medical officers. Those men who fell wounded too near to the enemy's works to admit of their removal were brought in early this morning, as well as such wounded Russians as had been left in the Redan by their countrymen.

The list of casualties, though numerous, is not of so serious a character as that of the 18th June, and I hope many of the wounded will soon be restored to the ranks.

The ambulance conveyance, under Captain Pigott's orders, was efficiently conducted, and I have much pleasure in bearing testimony to the care and steady conduct of the drivers in the execution of their duty.

Of the skill and attention of the medical officers, both staff and regimental, as well as of those gentlemen who had volunteered their services from the Civil Hospitals at Smyrna and Renkeoi, and from the General Hospital at Scutari, I cannot speak too highly ; and I beg to bring under your notice Dr. Alexander, Deputy Inspector-General of Hospitals ; Dr. A. Gordon, Staff-Surgeon, First Class ; and Dr. Monat, Staff Surgeon, First Class ; for their able professional aid and zealous exertions in providing for the wants of the wounded, the two former in the Light and 2nd

Divisions, and the latter in the General Hospital in camp.

I have, &c.,

J. HALL,

Inspector-General of Hospitals.

General Simpson, Commanding-in-Chief.

Admiralty, September 26, 1855.

A Despatch, of which the following is a copy, has been received from Rear-Admiral Sir Edmund Lyons, Bart., G.C.B., Commander-in-Chief of Her Majesty's Ships and Vessels in the Mediterranean and Black Sea.

No. 771.

Royal Albert, off Sevastopol,

SIR,

September 15, 1855.

The Lords Commissioners of the Admiralty will have been already informed by my letters from Kertch of last June, and by my recent telegraphic messages from hence, that the Russians had annihilated their fleet in this part of the world, leaving the Allies undisputed masters of the Sea of Azof, as well as of the Black Sea; that they had blown up and abandoned their last holds on the coast of Circassia, and that after a gallant defence against an unparalleled siege they had been defeated and obliged to evacuate the south side of the Harbour of Sevastopol, on which are situated the naval and military arsenals, the public buildings, and the town.

2. I have now to request you to acquaint their Lordships that the enemy has not succeeded in his endeavours to destroy all the forts on the south side. Fort Paul, it is true, is literally blown to atoms, and Fort Alexander is very much damaged, but the Quarantine Fort has not suffered considerably by the explosion of the magazine, the sea face remaining perfect, and most of the guns being fit for use, few of these being even spiked. At Fort Nicholas the preparations for blowing it up had not been completed, and though the flames have made some havoc in the interior, the stone work appears to be uninjured, and the earth works on the sea-defences remain in a perfect state.

3. The five docks and the adjacent basins are magnificent, and together with the steam machinery for filling them from the Tchernaya and for pumping them out, are in excellent order; and the resources of all kinds still remaining after the enormous expenditure during the siege, showed very plainly the importance the enemy attached to having a large depôt at the threshold of the Bosphorus.

4. The bottom of the splendid harbour is now encumbered with more than 50 sunken vessels, including 18 sail of the line and several frigates and steamers, whose menacing attitude but a short time ago materially contributed to bring on the war in which we are now engaged.

(Signed) EDMUND LYONS.

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, through the Secretary of State for Foreign Affairs, a copy of a note from the Prussian Chargé d'Affaires at this Court, enclosing a Notice to Mariners issued by the Royal Regency at Stralsund respecting an alteration in the lighthouse on the island called "Griefswalder Oie," a translation of which is subjoined.

(Translation.)

Stralsund, 13th August, 1855.

NOTICE TO MARINERS.

Concerning the alterations made in the Lighthouse upon the Island Griefswalder Oie.

Instead of the present lighthouse upon the Island Griefswalder Oie, situated in the Baltic, between Swinemünde and the Island Rügen, under $54^{\circ} 14' 45''$ north latitude, and $13^{\circ} 55' 27''$ east longitude, of Greenwich, a new lighthouse will come into operation on the 1st October, 1855, and will continue to burn throughout the whole year, every day from sunset to sunrise.

The new lighthouse, which rises upon the north-eastern point of the island, about 150 feet Rhenish above the level of the sea, is provided with a revolving horizontal light, and will be visible in clear weather from the decks of ordinary vessels at a distance of from 4 to $4\frac{1}{2}$ German miles.

To distinguish this light from the fixed ones at Orcona and Swinemünd it will be formed into a revolving light (blick-feuer); but as there are already revolving lights (blick-feuern) at Darsfort and Gerschieft, the Griefswalder will be so

arranged that it will change colour every $\frac{3}{4}$ of a minute from natural white to dark red, and lastly again to dark. The masonry of the tower is of plain bricks, and will serve also during the day as a landmark.

War-Department, October 2, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Simpson.

MY LORD, *Sevastopol,*
September 18, 1855.

I have much satisfaction in laying before your Lordship the accompanying copy of a letter I have

received from Marshal Pelissier, bearing testimony to the services of Major-General Rose and Lieutenant-Colonel the Honourable St. George Foley, who are attached to the Head-Quarters of the French Army, and I beg to recommend these Officers most favourably to your Lordship's notice.

I avail myself of this opportunity to bring before you the name of Lieutenant-Colonel d'Etat-Major de Susleau, who succeeded the late Lieutenant-Colonel Vigo at my Head-Quarters.

He is unremitting in his attention, and performs all the duties I have required of him with a zeal, intelligence, and cheerfulness that merit my warmest thanks.

I have, &c.,

JAMES SIMPSON,

General Commanding.

The Lord Panmure, &c., &c., &c.

Enclosure 1.

Quartier-Général,

le 14 Septembre, 1855.

MONSIEUR LE GÉNÉRAL EN CHEF,

J'ai pensé qu'au moment où Sébastopol venait de tomber sous les coups des Armées Alliées, il était de mon devoir de signaler à mon Gouvernement les excellents services que n'ont cessé de rendre les Officiers Anglais qui sont attachés à mon Quartier-Général, comme Commissaires de S. M. la Reine.

La lettre, dont la copie est ci-jointe, vous permettra d'apprécier dans quels termes j'ai cru devoir faire cette démarche qui, je l'espère, atteindra le but que je me propose, si vous voulez bien surtout, joindre vos efforts aux miens, pour faire obtenir

à ces deux Officiers, les récompenses dont ils sont dignes à tous égards.

Veuillez agréer, &c.

*S.E. Le Général en Chef de
l'Armée Anglaise.*

Enclosure 2.

*Au Quartier Général,
le 12 Septembre, 1855.*

MONSIEUR LE MARÉCHAL,

J'ai déjà eu l'occasion ainsi que mes prédécesseurs de recourir à votre bienveillante intervention pour faire ressortir auprès du Gouvernement Britannique, les services incessants et fort utiles que n'ont cessé de rendre depuis le commencement de cette guerre, MM. le Major-Général Hugh Rose et le Lieutenant-Colonel S. Georges Foley, tous deux Commissaires de S. M. la Reine auprès du Quartier Général Français.

Dans les journées des 7 et 18 Juin, du 16 Août, et notamment, le 8 Septembre, ces deux Officiers se sont multipliés pour maintenir en communication verbale et constante les deux Armées ; et dans ce but, ils ont eu souvent à remplir les missions les plus périlleuses.

Je n'ai pas besoin de dire ici comment ils se sont acquittés de ces devoirs militaires, ce serait superflu.

La prise de Sébastopol est une circonstance trop heureux, pour que je ne vous prie pas de nouveau, de faire parvenir au Gouvernement Anglais, l'expression de mon estime envers ces deux Officiers, et de mon désir de les voir obtenir l'un et l'autre, les récompenses qu'ils ont si dignement méritées.

Je serais donc très-heureux, Monsieur le Maréchal, que vous voulussiez bien donner à cette nouvelle démarche de ma part, la suite que vous croirez la plus utile aux intérêts de ces deux Officiers.

Veillez agréer, &c.,

A Despatch, of which the following is a copy, has been received from Rear-Admiral Sir Edmund Lyons, Bart., G.C.B., Commander-in-Chief of Her Majesty's Ships and Vessels in the Mediterranean and Black Sea.

EMBARKATION OF NAVAL BRIGADE.

*Royal Albert, off Sevastopol,
September 18, 1855.*

SIR,

I have the honour to enclose for the information of the Lords Commissioners of the Admiralty, a printed copy of a General Order which has been issued to the Army on the re-embarkation of the Royal Naval Brigade.

I am, &c.,

ED. LYONS,

Rear-Admiral and Commander-in-Chief.

The Secretary of the Admiralty.

GENERAL ORDER.

*Head Quarters, Sevastopol,
September 17, 1855.*

No. 1. The Service for which the Naval Brigade was attached to this Army having been completed

by the fall of Sevastopol, the Force has been ordered to rejoin the Fleet.

The Commander of the Forces heartily thanks the Officers, Petty Officers, and Seamen, for the very efficient services they have rendered in the batteries, and on all occasions when their aid against the enemy was required ; and he has to notice the patience and courage with which, side by side with the Soldiers of this Army, they have endured the dangers and hardships of nearly a year's duty in the trenches.

General Simpson cordially acknowledges the obligations he is under to Rear-Admiral Sir Stephen Lushington, K.C.B., who so ably commanded the Brigade, from its formation until his removal by promotion to a higher rank, and to Captain Honourable H. Keppel, R.N., who succeeded him, and retained the command until the conclusion of this ever-memorable siege.

By order,
(Signed) H. W. BARNARD,
Chief of the Staff.

At the Court at *Balmoral*, the 24th day of
September, 1855,

PRESENT,

The QUEEN's Most Excellent Majesty in Council.

Whereas by an Act, passed in the session of Parliament held in the sixth and seventh years of the reign of His late Majesty King William the Fourth, intituled "An Act for rendering "more easy the taking the poll at county elections," it is enacted that it shall be lawful for His Majesty, by and with the advice of His Privy Council, from time to time, on petition from the justices of any county, riding, parts, or division

in England or Wales, in quarter sessions assembled, representing that the number of polling places for such county, riding, parts, or division is insufficient, and praying that the place or places mentioned in the said petition may be a polling place or polling places for the county, riding, parts, or division, of the county within which such place or places is or are situate, to declare that any place or places mentioned in the said petition shall be a polling place or polling places for that county, riding, parts, or division, and that the justices of the peace for such county, riding, parts, or division, in quarter sessions, or some special sessions assembled, as mentioned in the Act passed in the third year of the reign of His said late Majesty, intituled “An Act to settle
 “and determine the divisions of counties and the
 “limits of cities and boroughs in England and
 “Wales, in so far as respects the election of
 “Members to serve in Parliament,” shall conformably to the said last-mentioned Act, divide such county, riding, parts, or division into convenient polling districts, and assign one of such districts to each polling place :

And whereas by another Act, passed in the session of Parliament, held in the sixteenth and seventeenth years of Her Majesty's reign, intituled “An Act to limit the time for proceeding to election in counties and boroughs in England and

 “other purposes ;” it is enacted, that it shall be lawful for Her Majesty, by and with the advice of Her Privy Council, from time to time, hereafter, on petition from the justices in quarter sessions assembled of any county, riding, parts, or division of any county, other than any county of a city, or of a town in England and Wales, repre-

senting that it would be expedient that any polling place or places mentioned in the said petition should cease to be such, and that any other place or places mentioned in the said petition should be substituted in lieu thereof, and praying that such alteration and substitution might be made to declare that the said alteration and substitution shall be made in respect of all or any of the places mentioned in the said petition; and the said declaration shall be certified under the hand of one of the clerks in ordinary of Her Majesty's Privy Council, and when so certified shall be published in the London Gazette, and shall then be of the same force and effect as if the same had been expressly made by authority of Parliament;

And whereas the justices of the peace for the county of Stafford, in general quarter sessions assembled, on the second day of July last, have presented a petition to Her Majesty in Council representing that the number of polling places for the northern division of the said county, is insufficient, and that it is expedient that the town or place of Lane End, one of the existing polling places for the said northern division, should cease to be such, and praying that the said town or place of Lane End may cease to be a polling place for the said northern division, and that in lieu thereof the several parishes, townships, or places of Alrewas, Ashley, Audley, Biddulph, Longnor, and Waterhouse, in the parish of Waterfall, all situate within the said northern division, may be polling places for the said northern division;

Now, therefore, Her Majesty having taken the said petition into consideration, doth, by and with the advice of Her Privy Council, declare, order, and direct, and it is hereby declared, ordered, and directed that the town or place of Lane End shall cease to be a polling place for the northern

division of the county of Stafford, and that in lieu thereof, the parishes, townships, or places of Alrewas, Ashley, Audley, Biddulph, Longnor, and Waterhouse, in the parish of Waterfall, shall be polling places for the said northern division of the county of Stafford; and further, that the justices of the peace for the said county, in quarter sessions, or some special sessions assembled, as mentioned in the said Act, of the third year of His said late Majesty, shall, conformably to the said Act, divide the said northern division into convenient polling districts, and assign one of such districts to each polling place.

The period of burning, the same as the other lights in the kingdom, viz.: From the 21st September to the 20th March, half an hour after sunset until sunrise; and from the 15th July to the 20th September, one hour after sunset until sunrise. Its north latitude $58^{\circ} 59\frac{1}{2}'$, longitude east of Greenwich $10^{\circ} 4\frac{1}{2}'$, and it is visible at a distance of 2 Norwegian or 8 English miles.

From east it shines from W.N.W. to S.W. to W., in which light circumference by sailing in the south of the channel you are clear on the north of the "Fladen" reefs inside Svinoërskaten. On the other hand, the Rouoers Reefs, as well as the coast, and shoals and reefs

lying off the same, on the north side of the channel, lie at an angle with the light, consequently cannot serve as a guide either for the north side of the channel, or so far east as the Rouoerne.

FROM THE
SECOND SUPPLEMENT
TO THE

LONDON GAZETTE of OCTOBER 5,
1855.

War-Department, October 8, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Simpson.

Sevastopol,

MY LORD, *September 25, 1855.*

I have the honour to transmit the report of the principal Medical Officer for this week, as well as for the week ending 18th September, which, by mistake, I omitted to send before.

Your Lordship will read with satisfaction that the health of the Army is all that can be desired, and the marked improvement since the arduous night duties have ceased is very apparent.

The troops continue to be employed in the construction of the roads, and in making preparations for the winter, which are greatly facilitated by the fineness of the weather.

The enemy have commenced firing into the town, and the troops stationed there for the purpose of performing fatigue duties have been in consequence withdrawn. Large quantities of timber and building material are daily taken from the houses by our troops.

I have, &c.,

JAMES SIMPSON,

General Commanding.

The Lord Panmure, &c. &c. &c.

Enclosure 1.

Head Quarters, Sevastopol,

SIR,

September 18, 1855.

I have the honour to transmit the weekly state of sick to the 15th instant, and have much satisfaction in being able to state that the health of the army continues to improve. During the period embraced by this return the admissions from wounds, owing to the assault of the Redan battery, have been numerous, and the number of deaths, I am sorry to say, is very considerable; but the cases that remain are for the most part doing well, and a large portion of them are of a slight nature, and many of the men will soon be restored to the ranks.

Cholera continues to decrease, and may now be said to have almost disappeared, and during the present week there has been diminution of every other form of disease, as will be seen by the following abstract, in which it will be observed that gunshot accidents alone are in excess over the previous week.

	This Week.		Previous Week.	
	Admitted.	Died.	Admitted.	Died.
Fevers .	349	15	396	20
Diarrhœa .	498	4	561	7
Cholera .	21	11	25	20
Dysentery .	139	7	169	4
Wounds .	1965	150	702	56
Other diseases	628	7	481	5
	<hr/> 3500	<hr/> 194	<hr/> 2334	<hr/> 112

The admissions to strength this week have been 7·22 per cent.; last week they were 4·91 per cent.

The deaths to strength this week have been 0·40 per cent.; last week they were 0·23 per cent.

The sick to well this week is 12·0 per cent.; last week it was 10·96 per cent.

I have, &c.,

J. HALL,

Inspector-General of Hospitals.

General Simpson, Commanding-in-Chief.

Enclosure 2.

Head Quarters, Sevastopol,

SIR, *September 25, 1855.*

In transmitting the weekly state of sick to the 22nd instant, I have much satisfaction in stating that the sanitary condition of the Army is satisfactory, and were the casualties of war deducted from the list, it would be very favourable indeed. As it is, the admissions to strength during the present week have only been 2·98 per cent., and some of these were transfers from regimental to general hospitals.

The deaths to strength have been 0·20 per cent.; and the sick to well is 10·02 per cent. Last week

these proportions were, 7·22, 0·40, and 12·00 per cent., respectively. Deducting the casualties of war, the proportion of sick to well this week would be, 6·26 per cent., and that of deaths to strength, 0·05 per cent.

The following abstract shows the near approximation of disease and death between this and the preceding week :

	This Week.		Previous Week.	
	Admitted.	Died.	Admitted.	Died.
Fevers .	356	15	349	15
Diarrhœa .	446	4	498	4
Cholera .	7	3	21	11
Dysentery .	146	5	139	7
Wounds .	84*	76	1,965	150
Other diseases	528	3	528	7
	<hr/>	<hr/>	<hr/>	<hr/>
Total	1,567	106	3,500	194

The only head under which there is a remarkable and decided decrease in the admissions is wounds, and 2 out of the 84 of these were transfers to the General Hospitals at Balaklava. The number of deaths from wounds is, I regret to say, considerable, but a great many men were shot through the upper part of the chest in the assault on the Redan, and wounds of that nature are always serious; but a large proportion of the wounds were slight, as is evinced by the discharges this and the preceding week, amounting to about 1,000 men, deducting those transferred to General Hospital.

Cholera has nearly disappeared, and there has been no increase in the other forms of bowel complaints, and the health of all the divisions is reported by the different Superintending Medical Officers to be highly satisfactory. In the 3rd

* Two of this number were transfers to General Hospital.

Division no death occurred during the week, and in the 4th only one, from an injury to the skull. During the week we have had strong equinoctial gales, with heavy rain, which has reduced the temperature considerably, and rendered the weather delightful.

The men are employed on fatigue duties in making roads and preparing for their own comforts during the winter; but the night duty is light. Their rations are good and abundant, and everything is favourable to health.

I have, &c.,

J. HALL,

Inspector-General of Hospitals.

General Simpson, Commanding-in-Chief.

TREASURY WARRANT.

Whereas by an Act, passed in the fourth year of the reign of Her present Majesty, intituled "An Act for the regulation of the duties of postage," certain scales of weight and rates of postage were fixed, and made chargeable and payable, upon, for, or in respect of, letters, newspapers, Parliamentary proceedings, and printed papers, transmitted and forwarded by the post, and various regulations were made for facilitating the transmission of such letters and papers by the post; and by the same Act powers were given to the Commissioners of Her Majesty's Treasury, from time to time, by Warrant under their hands, to alter and fix any of the rates of postage therein mentioned.

And whereas further powers were given to the Commissioners of Her Majesty's Treasury, by an Act passed in the eleventh year of the reign of Her present Majesty, intituled "An Act for giving further facilities for the transmission of letters by post, and for the regulating the duties of postage thereon, and for other purposes relating to the Post-office."

And whereas by six several Warrants of the Commissioners of Her Majesty's Treasury, bearing date respectively the 17th day of May, 1854, the 16th day of October, 1854, the 9th day of January, 1855, the 29th day of March, 1855, the 19th day of May, 1855, and the 29th day of June, 1855, certain regulations, orders, and directions were made and given, whereby the several persons in the said six several Warrants respectively mentioned and described, being persons employed in the several military, naval, or transport services, under Her Majesty, respectively mentioned in the said several Warrants, were authorised to send and

receive letters transmitted by the post between any place in the United Kingdom and the several places therein respectively mentioned, such places being respectively Turkey, or the Black Sea, or any port or place in Turkey or the Black Sea, the Kingdom of Greece, or any port or place in Greece, the Baltic Sea, or the adjacent waters or any port or place in the Baltic or the adjacent waters, the White Sea, or the adjacent waters or any port or place in the White Sea, or the adjacent waters and Heligoland, by the means and routes therein respectively mentioned and set forth, at certain reduced rates of postage therein specified.

And whereas it is expedient that regulations should be made whereby the said several persons in the said six several Warrants mentioned and described, being persons employed in the military, naval, or transport services under Her Majesty, respectively mentioned in the said several Warrants, should be authorised to receive packets consisting of books, publications, or works of literature or art, and packets consisting of printed votes and proceedings of the Imperial Parliament transmitted by the post and sent and addressed to the said several persons, respectively, from any place in the United Kingdom to the said several places in the said six several Warrants respectively mentioned, by the means and routes and at the rates of postage hereinafter respectively mentioned, and under and subject to the several regulations, orders and directions, conditions and restrictions hereinafter contained.

Now we, the Commissioners of Her Majesty's Treasury, in exercise of the power or authority in us for such purpose vested in and by the said two before recited Acts, or either of them, and of all other powers enabling us in this behalf, do by this Warrant (under the hands of two of us the said

Commissioners, by the authority of the statute in that case made and provided), order, direct, and declare as follows :

1. That all packets consisting of books, publications, or works of literature or art, and all packets consisting of printed votes and proceedings of the Imperial Parliament, posted at any place within the United Kingdom and sent and addressed to any person employed in the several military, naval, or transport services under Her Majesty in the several places in the said six several Warrants hereinbefore recited, respectively mentioned and specified, or any of them ; that is to say : in Turkey or the Black Sea, or any port or place in Turkey or the Black Sea, in the Kingdom of Greece and any port or place in Greece, in the Baltic Sea or the adjacent waters, and any port or place in the Baltic Sea or the adjacent waters, in the White Sea or the adjacent waters, or any port or place in the White Sea or the adjacent waters, and in Heligoland, may be transmitted by the post from any place in the United Kingdom, to the said several persons at the said several places respectively, subject to the several rates of postage and regulations following ; that is to say :

On every such packet, if not exceeding four ounces in weight, there shall be charged and taken one uniform rate of postage of one penny.

And on every such packet, if exceeding four ounces and not exceeding eight ounces in weight, there shall be charged and taken one uniform rate of postage of two pence.

And on every such packet, if exceeding eight ounces and not exceeding one pound in weight, there shall be charged and taken one uniform rate of postage of four pence.

And on every such packet, if exceeding one

pound, and not exceeding one pound and one half of another pound in weight, there shall be charged and taken one uniform rate of postage of six pence.

And on every such packet, if exceeding one pound and one half of another pound, and not exceeding two pounds in weight, there shall be charged and taken one uniform rate of postage of eight pence.

And for every additional half a pound in weight of any such packet, above the weight of two pounds, there shall be charged and taken an additional rate of postage of two pence.

And every fractional part of every such additional half a pound in weight, shall be charged as one half of a pound in weight.

No such packet, which in length, or width, or depth shall exceed the dimensions of two feet, shall be forwarded by the post under the provisions aforesaid.

2. That the terms "Books, Publications, or Works of Literature or Art," in this present Warrant used, shall, for the purposes of this Warrant, mean and include all books, whether printed, written, or plain, publications, or compilations, whether in print or in manuscript, almanacks, prints, maps, whether on paper, or canvass, or cloth, and whether printed or written, and any description of paper, parchment, or vellum, whether printed, written upon, or plain, together with any binding, mounting, or covering of, or upon, or belonging to any book, or publication, or work, or any portion thereof, or, of or belonging to any paper, parchment, or vellum, and any cases or rollers of prints or maps, book markers (whether of paper or otherwise), pencils, pens, or other articles usually appertaining to any such book, publication, or work, paper, parchment, or vellum,

or necessary for its safe transmission except where any such packet shall be transmitted by the post upon or in respect of which a less rate of postage than a minimum rate of four pence shall be paid ; and in all cases where any such packets shall be transmitted by the post upon or in respect of which a less rate of postage than a minimum rate of four pence shall be paid, every such packet shall consist of and comprise all such before mentioned books, publications, or compilations, almanacks, prints, maps, paper, parchment, or vellum only, as shall be printed or contain printed matter only (whether bound or unbound), and shall not comprise, extend to, or include any packet consisting of or containing any writing (except the address), nor any cases or rollers of prints, or maps, or book markers, pencils, pens, or other articles ; and that every such packet shall be sent open at the ends or sides, and either without a cover, or in a cover or envelope open at the ends or sides ; and that there shall be no letter, either closed or open, nor any communication in the nature of a letter, nor any enclosure sealed or otherwise closed against inspection, nor any other enclosure not authorized by this Warrant, sent in or with any such packet, nor shall there be any letter, or any communication in the nature of a letter, written or printed in or upon any such packet or on the cover or envelope thereof, nor (unless a minimum rate of postage of four pence shall be paid upon or in respect of any such packet) any writing whatever written in or upon any such packet, or upon the cover or envelope thereof except the address.

3. That upon every packet transmitted by the post, under the authority of this Warrant, the postage thereof shall be paid at the time of the same being posted in the United Kingdom, not in

money, but by being duly stamped with the proper postage stamp or stamps affixed thereto, which stamp or stamps shall in every case be affixed or appear on the outside of every such packet near the address or direction, and shall be of the value or amount of the postage duty payable thereon under or by virtue of this Warrant, unless any such packet be sent from any department or office in or connected with the Public Service of Her Majesty, which shall keep a postage account with the General Post Office in London, in which case the same shall be forwarded post paid, and the postage thereof shall be charged in such postage account.

4. That in order to prevent any obstacles to the due and regular transmission of letters by the post, it shall be lawful for any officer of the Post-office to delay the transmission of any packet posted or forwarded by the post under the provisions of this Warrant, either for the space of twenty-four hours after the time at which the same ought to be despatched in due course of the post, or (at his option), until the despatch of the mail next after that by which the same ought in due course of the post to be forwarded by him.

5. That nothing hereinbefore contained shall be construed to interfere with or affect the transmission by the post of printed newspapers or other printed publications which are allowed to pass by the post under the newspaper privilege.

6. That if any packet sent, or tendered or delivered in order to be sent, by the post under the provisions of this Warrant, shall in length or breadth or width exceed the dimensions of two feet, or if any packet, or the cover or envelope of any packet, sent or tendered or delivered, in order to be sent by the post, under the provisions of this Warrant, shall not be open at the ends or sides, or if there shall be any letter or any communica-

tion in the nature of a letter contained in any such packet, or if there shall be any letter or communication in the nature of a letter written or printed on any such cover or envelope, or if it shall contain any writing whatever (such writing not being a letter or any communication in the nature of a letter), either inclosed in or written upon any such packet, or upon the cover or envelope thereof (except the address), and a rate of postage less than a minimum rate of four pence shall have been paid upon or in respect of any such packet, every such respective packet shall and may be detained and opened, and shall be returned or given up to the sender thereof, and every such packet, on being so returned or given up, shall be chargeable with the like amount of postage to which it would have been liable as a letter if the postage had been paid when posted, and such postage shall be paid on the packet being so returned or given up.

7. That if any packet sent, or tendered or delivered in order to be sent, by the post under the provisions of this Warrant (any such packet sent from any department or office in or connected with the public service of Her Majesty, which shall keep a postage account with the General Post-office in London, and the postage thereof being charged in such account, only excepted), shall be posted, having thereon or affixed thereto a stamp or stamps, the value of which shall be less in amount than the rate of postage to which such packet would be liable under and by virtue of the several regulations, orders, directions, and conditions hereinbefore contained, every such last-mentioned packet shall and may be detained and opened, and shall be returned or given up to the sender thereof; and every such packet, on being so returned or given up, shall be charged with the amount of the difference between the value of such stamp or stamps so being thereon or affixed thereto

and the postage to which such packet would be liable as aforesaid, together with a further and additional rate of four pence; and if any such packet shall be posted without having thereon or affixed thereto any postage stamp, every such last-mentioned packet shall and may be detained and opened, and shall be returned or given up to the sender thereof, and every such packet, on being so returned or given up, shall be charged with the like amount of postage to which it would have been liable as a letter if the postage had been paid when posted.

8. That the term "by the post," used in this Warrant, shall mean, include, and be confined to, the conveyance by packet-boats, by ships of war, or by transports, direct or viâ Malta; and that the several other terms and expressions used in this Warrant shall be construed to have the like meaning in all respects as they would have had if inserted in the said Act passed in the fourth year of the reign of Her present Majesty.

9. That nothing herein contained shall be construed to extend to any packets sent through France, or any other foreign country, to which a transit rate of postage would be payable thereon.

10. That the Commissioners for the time being of Her Majesty's Treasury may, by Warrant duly made at any time hereafter, alter, repeal, or revoke any of the rates of postage hereby fixed or altered, or any of the regulations hereby made, and make and establish any new or other rates or regulations in lieu thereof, and from time to time appoint at what time the rates that are to be payable shall be paid.

11. That this Warrant shall come into operation on the fifteenth day of October instant.

Whitehall, Treasury Chambers, the second day of October, 1855.

FROM THE
SUPPLEMENT
TO THE
LONDON GAZETTE of OCTOBER 9,
1855.

War-Department, October 11, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Simpson.

Sevastopol,

MY LORD,

September 29, 1855.

Since my last despatch the troops have been employed, to the number of 9,500 men, daily, in making the road from Balaklava to the camp; and as, after a few hours of rain the whole distance is converted into a mass of deep mud, the work that has to be performed, from this reason as well as the great distance that the stones have to be transported, render it one of great labour and difficulty.

Large fatigue parties are daily employed in the town, dismantling and conveying timber and other materials from the ruins of the buildings, and I hope, by this means, to get a considerable portion of the troops under cover previous to the commencement of the bad weather.

The enemy have been firing from the batteries on the north side at the working parties in the town, and, although causing some little annoyance,

they have not prevented the work being carried on, and, I am happy to add, that one man killed and one wounded are the only casualties occasioned by their fire.

I regret to have to report to your Lordship that owing to the explosion of a Russian magazine on the 27th instant one Officer and 19 men were wounded. I ordered an investigation to be made, and, from the report I have received, the origin was from the explosion of a hidden fougass, a number of which have been dug up in various parts of the town and batteries.

The invention of this machine is peculiarly Russian.

I have received a letter from Lieutenant-Colonel Ready, 71st Regiment, commanding Her Majesty's troops at Yenikale, reporting the proceedings of a trifling affair, in which a detachment of the 10th Hussars, in company with the Chasseurs d'Afrique, were engaged on the 21st instant with the Cossacks.

Colonel D'Osmont, commanding the French troops, at Kertch, received information that the Cossacks were collecting and driving away all the arabas from the neighbourhood, and, as he determined to endeavour to prevent this, he invited the assistance of the English cavalry to co-operate with the Chasseurs d'Afrique. For this service, Lieutenant-Colonel Ready ordered two troops commanded by Captains the Hon. F. FitzClarence and Clarke, of the 10th Hussars.

The Cossacks were supposed to have assembled their arabas at two villages, named Koss-Serai Min and Seit Ali, equidistant from Kertch: about 15 miles, and from one another, $6\frac{1}{2}$. Captain FitzClarence's troop was ordered to the first village, and Captain Clarke's to the latter. At each of these villages they were to join a troop

of the Chasseurs d'Afrique who had preceded them. On arriving at Koss-Serai Min, Captain FitzClarence found both troops of the French Dragoons, and immediately sent off an order to Captain Clarke to join him that night; the letter was unfortunately not delivered until the following morning. In complying with this order, Captain Clarke, whose troop consisted only of 34 men, fell in with a body of about 50 Cossacks, which he immediately charged and pursued, but as they were soon reinforced by upwards of 300, he was forced to retire upon the village, with a loss of his serjeant-major, farrier, and 13 men taken prisoners.

Captain FitzClarence's troop, with the Chasseurs, the whole under the command of the Officer commanding the French troops, having seen a large body of the enemy, skirmished with them at some distance, and moved in the direction of the village of Serai Min; where, after having joined Captain Clarke's troop, the whole force commenced their march upon Kertch.

At about the distance of half a mile from the village they were attacked by a large body of Cossacks, who were, however, beaten back by repeated charges. The loss of the 10th Hussars consisted of—

2 Privates, supposed to have been killed.

1 Wounded

1 Troop Serjeant-Major, 1 Farrier, 13 Men,
15 Horses, missing.

From information that has since been received, the Cossacks were supported, within a quarter of an hour's march, by eight squadrons of Hussars and eight guns.

Colonel Ready informs me that nothing could exceed the coolness and courage of the troops in

the presence of such overwhelming numbers of the enemy, who were only kept at bay by their steady movements.

I have the honour to enclose the lists of casualties.

The health of the Army, I am rejoiced to say, is excellent.

I have, &c.,

JAMES SIMPSON,

General Commanding.

FROM THE
SUPPLEMENT
TO THE
LONDON GAZETTE of OCTOBER 16,
1855.

War-Department, October 18, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Simpson.

Sevastopol,

MY LORD,

October 6, 1855.

Marshal Pelissier having signified to me his wish that the cavalry force under General d'Allonville, at Eupatoria, should be reinforced by some English Cavalry, I at once acceded to his request, and have ordered the brigade of light cavalry, under Brigadier-General Lord George Paget, composed of the Carbineers, 4th and 13th Light Dragoons, and 12th Lancers, and one troop of the Royal Horse Artillery, under Captain Thomas, to be sent for this service.

I am in hopes that transport will be found to convey them early next week.

I have the honour to transmit to your Lordship the copy of a report I have received from Lieutenant-Colonel Ready, with the details of an expedition undertaken against a fort and buildings on the island of Taman. The object was entirely carried out, and the troops have been enabled to supply themselves with a large amount of firewood and building materials.

Since I last had the honour of addressing you, I have seen Lieutenant-General Vivian, and I am happy to inform your Lordship that he quite approves of the decision I had formed of uniting the Contingent at Kertch. Some few thousand men have already arrived there, and every exertion is being made to ensure them their supplies of food and fuel for the winter.

The corps of General de Salles have, during the past week, pushed forward their advanced posts to the high ground on the left bank of the Belbek, overlooking Foti Sala.

Their supports occupy a ridge from this place, stretching towards the south to Markul.

The main position of the army is on high, bold ground, extending from Aitoda to Markul, with the reserves posted between the village of Urkusta and the bridge of Tinli.

The corps is further to be reinforced with the view next week of making a strong reconnaissance of the ground from Foti Sala towards Wyenbash, on the left bank of the Katcha.

I have omitted to report that Lieutenant-General Markham has been compelled, by illness, to return to England for a few months. He sailed on the 29th ultimo.

I beg leave to enclose the lists of casualties.

I have, &c.,

JAMES SIMPSON,

General Commanding.

The Lord Panmure, &c. &c. &c.

Enclosure 1.

Yenikale,

SIR, *September 27, 1855.*

I have the honour to acquaint you, for the information of his Excellency General Simpson,

that three companies of the 71st Regiment, under the command of Major Hunter, 71st Regiment, embarked at Kertch on Monday last, the 24th instant, on board Her Majesty's ship Minna, at an early hour in the morning, and proceeded, in company with Her Majesty's gunboats Lynx, Snake, Arrow, and Harpy, together with about nine (9) French gunboats, conveying six companies of French infantry, to the opposite coast, and arrived about eleven o'clock A.M., opposite Taman, the line of gunboats extending a short distance to the eastward of Phanagoria.

The landing commenced shortly afterwards, to the eastward of Phanagoria, covered by the fire from the gunboats. There was no resistance offered, and the place had been evidently but lately evacuated. A few mounted Cossacks and infantry were the only people we had seen up to the time of landing, and who were driven from Phanagoria and Taman by the well-directed fire from the gun-boats.

When the disembarkation was completed (which was effected without accident) the force moved upon Phanagoria, and took quiet possession of the fort and buildings, and established itself there. A few stores were found still in the place, but with the exception of an hydraulic press and some medicines), of no particular value, consisting principally of hospital bedding, and some clothing, and accoutrements. There were, however, upwards of sixty-two pieces of artillery (9 and 12-pounders apparently) and four mortars, all rendered unserviceable.

As the force entered Phanagoria a strong party of Cossacks appeared on the hill-side about $1\frac{1}{2}$ or 2 miles from the town, increased from time to time until their force appeared to amount to about 600. The gun-boats Lynx, Arrow, and Snake

immediately opened a fire upon them as did also some of the French boats. The practice from these boats was most admirable, and the Cossacks immediately withdrew beyond the crest of the hills, leaving only a few videttes on the neighbouring ridges.

Early on the following morning, the men were employed in collecting wood for fuel and hutting; the night having passed quietly, with one exception, the enemy having taken advantage of the darkness to approach our lines, and opened fire upon our sentries, our troops were instantly on the alert, and the Cossacks retired. One man, an English sailor, serving at a field-piece in the works, was slightly wounded in the heel.

The quantity of wood for fuel, and for hutting, is something considerable, but the exact amount can scarcely be arrived at yet, but I hope to have the whole embarked by Saturday.

I have, &c.,

(Signed) C. READY,

Lieutenant-Colonel Commanding
71st Light Infantry.

Board of Trade, Whitehall,
October 25, 1855.

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, a Despatch from Her Majesty's Consul at Santo Domingo, reporting the damage which the Lighthouse at the Bastion of San José suffered during a hurricane, in consequence of which the lighting thereof has been discontinued, and vessels released from the payment of light dues until further notice.

Board of Trade, Whitehall,
October 25, 1855.

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from Her Majesty's Minister at Stockholm, enclosing copy of a translation of a proclamation of the Swedish Board of Admiralty, announcing the discovery of a shoal in the Baltic, off the coast of the Island of Oland; a copy of which is herewith subjoined.

(Copy.)

(Translation.)

The Royal Swedish Admiralty Board hereby report, for the information of Mariners, that a shoal has been discovered, the shallowest point of which is 16 feet deep N. 13 deg. 45 m. E. (cor-

rected compass) $7\frac{1}{3}$ latitudinal minutes' distance from the Northern Lighthouse of Oland.

The bottom of the shoal consists of stone, in level strata, with abrupt edges. The shallowest part (16 feet), about 100 ells (a Swedish ell is about two English feet) long, forms the northern edge of the Shoal, from which it stretches itself S. 20 deg. for 4 cable lengths about 3, 4, and 5 fathoms' depth, after which the depth increases with a series of regular shelves, but on the N.N.E., N.W., and S.W. sides the depth increases abruptly, and the bottom can hardly be found on those sides.

From the above shoal Oland Northern Lighthouse lies S. $26\frac{1}{2}$ deg. W. Jungfruns Western Point, S. 53 deg. W. Hunö Böte, N. 62 deg. W. upon the compass.

LONDON GAZETTE of OCTOBER 26,

Foreign-Office, October 26, 1855.

THE Earl of Clarendon has received a Despatch from Brigadier-General Williams, Her Majesty's Commissioner with the Turkish Army in Asia, of which the following is a copy :—

Kars,

MY LORD,

September 29, 1855.

I have the honour to inform your Lordship that General Muravieff, with the bulk of his army, at day-dawn this morning, attacked our intrenched position on the heights above Kars, and on the opposite side of the river. The battle lasted, without a moment's intermission, for nearly seven hours, when the enemy was driven off in the greatest disorder, with the loss of 2,500 dead, and nearly double that number of wounded, who were, for the most part, carried off by the retreating enemy. Upwards of 4,000 muskets were left on the field.

Your Lordship can, without a description on my part, imagine the determination of the assailants, and the undaunted courage of the troops who defended the position for so many hours.

The Mushir will, doubtlessly, at a future moment, bring before his Government the con-

duct of those officers who have distinguished themselves on this day, a day so glorious for the Turkish arms.

On my part, I have great gratification in acquainting your Lordship with the gallant conduct of Lieutenant-Colonel Lake, Major Teesdale, and Captain Thompson, who rendered the most important service in defending the redoubts of Veli Pasha Tabia, Tahmasb Tabia, and Arap Tabia. I beg to recommend these Officers to your Lordship's protection.

I also beg to name my Secretary, Mr. Churchill, an Attaché of Her Majesty's Mission in Persia. He directed the fire of a battery throughout the action, and caused the enemy great loss.

I also beg to draw your Lordship's attention to the gallant bearing of Messrs. Zohrab and Rennisson, who, as interpreters to Lieutenant-Colonel Lake and Major Teesdale, rendered very effective service. Dr. Sandwith has been most active and efficient in the management of the ambulances and in the hospital arrangements.

We are now employed in the burial of the dead, and I will have the honour by the next messenger of detailing the movements of this eventful day.

Our loss was about 700 killed and wounded.

I have, &c.,

(Signed) W. F. WILLIAMS.

FROM THE
LONDON GAZETTE of OCTOBER 30,
 1855.

Windsor Castle, October 24, 1855.

THIS day the Right Honourable the Lord Mayor, the Aldermen, Town Clerk, Mr. Sheriff Kennedy, the Common Council, and Officers of the city of London, waited upon Her Majesty with the following Address, which was read by Henry Alworth Merewether, the Town Clerk; which Her Majesty was graciously pleased to receive upon the Throne :

To the QUEEN's Most Excellent Majesty.

Most Gracious Sovereign,

We, your Majesty's loyal and dutiful subjects, the Lord Mayor, Aldermen, and Commons of the city of London, in Common Council assembled, desire humbly to approach your Majesty, to offer our earnest and sincere congratulations upon the successes which it has pleased Divine Providence to grant to the fleets and armies of your Majesty, and of your Majesty's illustrious Allies, during the conduct of the present war.

We feel most grateful to the Almighty Disposer of Events, that, under peculiarly trying and difficult circumstances, your Majesty's fleets and armies have been endowed with such enduring patience and such heroic courage as to uphold the honour and sustain the reputation of our beloved country, and to chastise and humble the arrogant pretensions of the Emperor of Russia, who seeks to controul the destinies of Europe, to impede the

progress of civilization, and to diminish the independence of nations.

We rejoice in the firm and stedfast alliance which your Majesty has made with your illustrious Ally, the Emperor of the French, and in the valour of those brave men sent by him to the Crimea, who, side by side with your Majesty's subjects, have so nobly withstood the advance of the enemy, and, amidst unexampled difficulties and privations, have advanced from one conquest to another, until the proud fleet of the enemy has been destroyed, and his stronghold has fallen before the victorious arms of your Majesty and of your Majesty's illustrious Allies.

Engaged as your Majesty is in conducting a just and necessary war, we pledge ourselves to maintain your Majesty in its vigorous prosecution until, by the valour of those engaged in it, it shall be brought to an end, and, by the wisdom of your Majesty's Council, a lasting and honourable peace shall be concluded.

Deign, therefore, most gracious Sovereign, to accept our dutiful and hearty congratulations on the successes which have continued to crown your Majesty's armies and fleets, and those of your Allies. We offer up our humble prayer that your Majesty's life may long be spared to guide us in war, to govern us in peace, and to reign over a people distinguished for its love of freedom, its enterprising commerce, its ardent pursuit of science, and its possession of a pure Christianity, giving it an unexampled power, which we know your Majesty will only wield to advance whatever is good and great amongst your subjects, and to further the liberty, the happiness, and the prosperity of nations.

Signed by order of the Court.

Henry Alworth Merewether.

To which Address Her Majesty was pleased to return the following most gracious answer :

“I have received with great satisfaction your loyal and dutiful address.

“I rejoice to know that while you share my conviction of the justice and necessity of the war in which we are engaged, you also fully participate in my admiration for the enduring patience and heroic courage of my brave soldiers and sailors, and of those of my Allies, and in my thankfulness to the Almighty Disposer of Events for the successes which have attended the distinguished gallantry and devotion of the combined forces in the Crimea.

“I sincerely thank you for your assurance of a determination, in which I am confident the great body of my people concur, to support me in the vigorous prosecution of the war until, by the blessing of God on our own efforts, and on those of our brave Allies, it can be concluded by a lasting and honourable peace.”

[They were all received very graciously, and had the honour of kissing Her Majesty's hand.]

NOTICE TO MARINERS.

The Lords of the Committee of Privy Council for Trade have received through Her Majesty's Consul-General at Algiers, a Notification issued by the Acting-Prefect of Algiers, to the effect that a light which has been placed on the extremity of the quay at the Port of Cherchell, which extends beyond the small island of Joinville to the east, was lighted up for the first time on the 15th instant. The light as seen from the sea is brilliant and cannot be confounded with the lights of the town, which are much more distant. This light will for the future enable vessels to avoid the large rock which shuts in the entry to the port of Cherchell to the east, and to follow a better passage in entering the basin.

The port of Cherchell is situated about 50 miles to the westward of Algiers.

FROM THE

SUPPLEMENT

TO THE

LONDON GAZETTE of OCTOBER 30,
1855.

War-Department, November 1, 1855.

LORD PANMURE has this day received a
Despatch and its enclosures, of which the following
are copies, addressed to his Lordship by General
Sir James Simpson, G.C.B.

Sevastopol,

MY LORD, October 20, 1855.

I am happy to be able to congratulate your
Lordship on the successful termination of the
expedition to Kinbourn. I transmit a copy of
the report of Brigadier-General the Honourable
A. Spencer. This contains all the information I
have received on the operations, with the ex-

ception that, in a private note, Sir E. Lyons mentions that the enemy have exploded the three forts at Ochakoff, commanding the northern entrance into the Dnieper.

In consequence of the continued fineness of the weather, great progress has been made in the construction of the road and railway. The divisions have all got some weeks' supply of rations in their camp; and I entertain no anxiety of there being a scarcity of anything during the approaching winter.

I informed your Lordship, in my despatch of the 13th instant, that the Highland Division, under Lieutenant-General Sir Colin Campbell, were to proceed to Eupatoria, and co-operate with the French; but upon the receipt of your telegraphic despatch of the 13th instant, apprizing me that the Russians had resolved to hazard a battle, and attack the Allies, I did, not consider myself justified in weakening the force under my command by so many men, and I therefore countermanded the movement.

I have the honour to enclose the weekly reports of Colonel McMurdo and Dr. Hall.

I have, &c.,

(Signed) JAMES SIMPSON,
General Commanding.

The Lord Panmure, &c. &c. &c.

Enclosure 1.

Camp before Kinbourn,

SIR,

October 17, 1855.

In reporting, for the information of the General Commanding the Forces, the fall of the garrison of the fortress of Kinbourn, this day, I have the honour to state, that the force under my command

as per state inclosed,* effected their landing on Monday, the 15th, unopposed.

Owing to a heavy surf, and which continued all day yesterday, the landing has been accomplished, with some little difficulty. The troops, however, were all got on shore on the first day, and have since been employed in entrenching our position. There are rumours of a force of the enemy collecting at Kherson, about 40 miles from here, but our immediate neighbourhood appears to be clear.

The advanced line of the position, flanked on both sides by the sea, is held by the force under my command, and is about a mile in extent.

I have, &c.,

(Signed) , AUGUSTUS SPENCER,
Brigadier-General Commanding English
Land Force.

WEEKLY REPORT.—No. 16.

The arrivals during the week have been limited to railway horses. 19 landed from Her Majesty's ship Assistance, and 79 from the steam transport Arabia.

Each vessel lost a horse on their passage ; but on the whole they have arrived in fair condition.

* 1st Brigade, 4th Division ; Royal Marines, 1,200 men, rank and file ; Royal Engineers, Artillery, and detachment of Cavalry.

I have had them put under cover ; and hope, with care, to have them in working order in the course of a week.

The work of ballasting is progressing favourably, and as many waggons and teams are supplied for this service as are required without much prejudice to the ordinary demands.

The precautions taken by Mr. Beatty are likely to be effectual in securing the line for the winter ; and I only regret that the state of this able engineer's health will compel him to relinquish his work for a while. He will leave it in able hands, however. Mr. Campbell has served with Mr. Beatty from the beginning, and is now actively engaged in carrying out his plans upon the line.

Nothing but the application of science could enable the British Army to exist in its present position.

The little harbour of Balaklava which I can liken to nothing than the eye of a needle, through which the camel *must* pass, is now embraced on either side by the railway—its branches leading from the various wharves and storehouses, to depôts, outside the town, where room (though not sufficient) is afforded to the transport to load up. Waggons and their teams are thus allotted for the special service of drawing supplies of fuel, hay and corn to these depôts independent of the trains which proceed to the front. The narrow ways of the little town are thus relieved in a great measure from the interminable crush of animals and carriages throughout the day, which effectually impeded one another, and caused the death of many.

The road is another important work, the progress of which I watch with the greatest interest. I am an old road maker myself, and believe the line to be good.

But the most important work of all will, in my opinion, be the floating factory.

This is a measure worthy of England ; for her base is on the waters, and she has now floated Woolwich to her army in the Crimea.

I have minutely inspected this vessel and her fittings (and moreover drawn largely from her stores), and have been struck with admiration at her capacities.

I have had the fashion of the boxes of wheels taken and I hope to have them cast in large numbers.

Iron axles can be welded and turned, engines fitted, and timbers sawn ; in short, I have no longer to look 3,000 miles for the source of vitality, I hope now to be enabled to make provision for the Spring ; for the transport is so situated that the material parts of all the carriages must become worn out by the incessant traffic to which it will necessarily be exposed throughout the entire winter.

I reckon that every waggon, with its horse, harness, and driver, must travel on an average of 14 miles daily, over indifferent roads, and that this wear and tear must extend over a period of six months ; at the end of which time, when the army, refreshed, will call upon this corps to take it into the field, neither waggons nor harness will be in a serviceable state. It is absolutely necessary therefore, that strong reserves of wheels, axles, shafts, poles, and harness of every kind should be ready ; and although I see that the floating factory can do much it will be necessary for the arsenals at home to help, especially with harness, which should be very strong, and serviceable.

I think it would be worth while to ascertain, by comparison, the relative quality and prices of the

English and Sardinian mule waggon harness. It may be found that the advantage, as to cost, is on the Sardinian side, and that the stout white leather of which it is composed is more durable than that furnished to this corps.

The general organization of this corps proceeds satisfactorily. I was glad of an opportunity lately, when a division of the army was under orders for Eupatoria to try the efficiency of the corps. Two divisions of transport, composed of 3,000 animals with their proportion of waggons, carts, ambulances and artificers were ready for embarkation in a very short time, and appeared very efficient and complete.

The scope of the intended operations of the force being afterwards limited to three or four days the amount of transport was proportionally reduced to nearly one half.

The bulk of the transport of an army is entirely regulated by the radius of intended operations—It is solely a question of supply. Thus, for these three days, which were intended to be the scope of the operations at Eupatoria, the Commissary-General made a requisition on this department for 1,500 pack animals and 20 carts. The requirements of the other branches of the force were trifling compared to this demand, and it will enable his Lordship to form some idea of what the requirements of the whole army will be, when it takes the field in a country devoid of resources.

I will here venture to express an opinion, as it bears materially upon the subject of transport ; it is, that our soldiers should habitually move with three days' provisions on their person, whether it be in war or peace, the weight should never be diminished.

The Roman soldiers used to be clad in heavier

armour during peace, than they wore on a campaign, so that war with its burdens and toils should sit lightly upon them. The French soldiers in the present campaign carry four days' provisions, besides their tents ; and if the British soldier should do the same, 1,500 animals to every 6,000 men that take the field, would be saved to the transport of the army.

I make these observations with profound respect to the opinions of my superiors, and in the spirit and intention of these reports, viz., to do all that lays in my power to make the British army moveable and efficient.

To return to the corps. The arrival of the young English drivers is a timely resource, as the natives had begun to desert in great numbers, notwithstanding the precautions I have taken to prevent them, in communication with the police and Admiral Freemantle.

I have obtained labourers from Constantinople, to aid in building stables, and I hope that the most valuable of the animals will soon be under cover.

I have adapted the constructions entirely to the nature of the ground on which the several camps are pitched which being principally rocky, I find the simplest mode to be that of excavating a couple of feet, and running a centre wall with a roof on either side. The earth thrown out by the excavation being mixed with manure, forms every day a higher bank outside, so as to increase the protection and warmth of the stables.

Stone is abundant, and I am making use of the materials of the packing cases, in which the bat saddles are sent out, for planking.

Enclosure 3.

Head Quarters, Camp, Sevastopol,
October 16, 1855.

SIR,

The health of the army, as you will notice by the accompanying weekly state of sick, continues satisfactory. There has been a slight increase of cholera in the 2nd and 3rd Divisions during the week, chiefly amongst the newly-arrived men. Catarrhal complaints have also been more numerous. Large fatigue parties are employed daily in making and repairing roads; but the night duty is light, and the men's rations and dress are both good. It has been proposed to give a ration of peas once a week to the men with their salt pork, which will be an agreeable variety and conducive to health. Huts are arriving daily, and I hope, before the wet stormy weather of winter sets in, a large part of the army will be under proper cover.

The Highland Division at Kamara is remarkably healthy, so are the Artillery and 3rd Division.

Taking the whole army, the admissions to strength have only been 3·04 per cent.; the deaths to strength, 0·10 per cent.; and the proportion of sick to well, 8·09 per cent.; including wounded; exclusive of wounded, 5·30 per cent.

Last week the proportions were, admissions to strength, 2·84 per cent.; deaths to strength, 0·09

per cent. ; sick to well, 8·00 per cent. ; sick to well, exclusive of wounded, 5·16 per cent.

The following table shows the admissions and deaths under the leading heads of disease :—

Admiralty, November 1, 1855.

Despatches, of which the following are copies, have been received from Rear-Admiral Sir Edmund Lyons, Bart., G.C.B., Commander-in-Chief of Her Majesty's Ships and Vessels in the Mediterranean and Black Sea.

No. 859.

Royal Albert, off Kimburn,

SIR,

October 18, 1855.

My letter of the 6th instant, No. 834, will have informed the Lords Commissioners of the Admiralty, that an allied naval and military expedition was to leave the anchorage of Sevastopol, on the following day, for the purpose of taking and occupying the three Russian forts on Kimburn Spit, at the entrance of Dnieper Bay; and the telegraphic message, which I forwarded to Varna last night, will soon communicate to their Lordships the success which has attended this enterprize.

It is now my duty to give a more detailed account of the proceedings of the expedition.

I have therefore the honour to state, that we arrived at a rendezvous off Odessa, on the 8th instant, but owing to strong south-west winds, which would have prevented the troops from landing, it was not until the morning of the 14th instant, that the expedition was enabled to reach the anchorage off Kimburn.

During the night the English steam gun-vessels, *Fancy*, *Boxer*, *Cracker*, and *Clinker*, and four French gun-vessels, forced the entrance into Dnieper Bay, under a heavy but ineffectual fire from the Spit Fort, and on the following morning the British troops, under the orders of Brigadier-General Honourable A. A. Spencer, together with the French troops, under the command of General Bazaine, were landed about three miles to the

southward of the principal fort, and thus, by these nearly simultaneous operations, the retreat of the garrisons and the arrival of reinforcements were effectually cut off.

In the evening the English and French mortar vessels tried their ranges against the main fort with excellent effect.

The wind having again veered round to the southward, with a great deal of swell, nothing could be done on the 16th; but in the forenoon of the 17th, a fine northerly breeze, with smooth water, enabled the French floating batteries, mortar vessels, and gun-boats, and the *Odin* and the mortar vessels, and gun-boats named in the margin,* to take up positions off Fort Kimburn; and the fire was so effective, that before noon the buildings in the interior of the fort were in flames, and the eastern face had suffered very considerably.

At noon, the *Royal Albert*, *Algiers*, *Agamemnon*, and *Princess Royal*, accompanied by Admiral Bruat's four ships of the line, approached Fort Kimburn in a line abreast, which the shape of the coast rendered necessary, and the precision with which they took up their position in the closest order, with jib-booms run in and only two feet of water under their keels, was really admirable. At the same moment the squadrons under the orders of Rear-Admiral Sir Houston Stewart and Pallion pushed through the passage between Ochakoff and the Spit of Kimburn, and took the forts in reverse, whilst the *St. Jean d'Acre*, *Curaçoa*, *Tribune*, and *Sphinx*, undertook the centre battery, and the *Hannibal*, *Dauntless*, and *Terrible* that on the point of the spit.

* Mortar vessels—*Raven*, *Magnet*, *Camel*, *Hardy*, *Flamer*, *Firm*. Gun vessels—*Lynx*, *Arrow*, *Viper*, *Snake*, *Wrangler*, *Beagle*.

The enemy soon ceased to reply to our overwhelming fire, and, though he made no sign of surrender, Admiral Bruat and I felt that a garrison which had bravely defended itself against so superior a force deserved every consideration, and we therefore made the signal to cease firing, hoisted a flag of truce, and sent on shore a summons, which was accepted by the Governor, Major-General Kokonovitch, and the garrison, consisting of 1,400 men, marched out with the honours of war, laid down their arms on the glacis, and, having surrendered themselves as prisoners of war, they will be embarked in Her Majesty's ship *Vulcan* to-morrow.

The casualties in the allied fleets are very few, amounting in Her Majesty's ships to only two wounded. The loss of the enemy in killed and wounded is, I fear, very severe.

In the three forts, which have suffered considerably by our fire, we found eighty-one guns and mortars mounted, and an ample supply of ammunition.

This morning the enemy has blown up the forts on Ochakof Point, which mounted twenty-two guns, and we learnt from a Polish deserter, who escaped in a boat from them during the night, that the Commandant apprehended an attack from our mortar vessels, which would not only have destroyed the forts, but also the neighbouring dwellings.

I have abstained from entering into the particulars of the proceedings of the squadron under the orders of Rear-Admiral Sir H. Stewart, as he has so ably described them in the letter which I have the honour to enclose, from which their Lordships will perceive that I have received from him on this occasion, as, indeed, I have on all others since I have had the good fortune to have

him as second in command, that valuable assistance which might be expected from an officer of his distinguished and acknowledged merits ; and I beg leave to add my testimony to his in praise of all the officers, and especially Lieutenant Marryat and Mr. Brooker, whom he recommends to their Lordships' favourable consideration.

To particularize the merit of the officers under my command, where all have behaved admirably, would be a difficult task indeed ; but I beg leave to mention that the same officers of the Navy and the Royal Marine Artillery, who were in the mortar vessels at the fall of Sevastopol, are in them now, and that on this occasion, as before, they have been under the direction of Captain Willcox of the *Odin*, and Captain Digby of the Royal Marine Artillery. Nor can I refrain from stating what I believe to be the feeling of the whole fleet, that on this expedition, as on that to Kertch, the talents and indefatigable exertions of that very valuable officer, Captain Spratt, of the *Spitfire*, and of those under his command, entitle them to our warmest thanks, and deserve to be particularly mentioned.

I need hardly say that my distinguished colleague, Admiral Bruat, and I have seen with infinite satisfaction our respective squadrons acting together as one fleet.

I have, &c.,

(Signed) EDMUND LYONS,
Rear-Admiral and Commander-in-Chief.

The Secretary of the Admiralty.

*Valorous, in Dnieper Bay,
October 18, 1855.*

SIR,

I have the honour to inform you, that, in pursuance of your orders, I hoisted my flag in Her

Majesty's steam frigate *Valorous*, on the afternoon of the 14th instant, immediately after the arrival of the allied fleets off Kimburn Spit, and proceeded, under the able guidance of Captain Spratt, of the *Spitfire*, to take up positions at the entrance of Dnieper Bay, where, with the division of Steam vessels, placed under my orders (as per margin),* and in company with those under the orders of my colleague, Rear-Admiral Odet Pellion, we remained in readiness to force an entrance into the Dnieper for the purpose directed by you, of preventing, as far as possible, any reinforcements being thrown into the forts on Kimburn Spit, as well as to cut off the retreat of the garrison, should either be attempted.

At 9 P.M. I instructed Lieutenant Joseph H. Marryat, of the *Cracker*, to take on board Mr. Edward W. Brooker, additional Master of the *Spitfire*, and endeavour with him to determine the course of the intricate channel through which we were to pass, and to lay down buoys along the south side of it; the French having undertaken to perform the same service on the north side.

I likewise directed Mr. Thomas Potter, Master of the *Furious* (lent to do duty in the *Valorous*), to proceed with two boats of the *Tribune*, and, protected by the *Cracker*, to search for the spit on the north bank, and on his return endeavour to place a buoy on the edge of the shoal off Kimburn Spit, that the entrance of the channel might be assured.

As soon as the preconcerted signal was given, indicating that this operation was effected, I despatched the *Fancy*, *Boxer*, and *Clinker*, into Dnieper Bay, with orders to anchor in such positions as would best protect the right flank of our

* *Valorous*, *Gladiator*, *Fancy*, *Cracker*, *Grinder*, *Boxer*, *Clinker*.

troops, upon the disembarkation taking place, and to make that their chief care, as long as there was any possibility of the enemy threatening them.

During the night, Rear-Admiral Odet Pellion also sent in the French gunboats for the same purpose.

At daylight on the following morning I had the satisfaction of observing all the gunboats, French and English, anchored safely to the north-east of Kimburn Fort, and without any of them having sustained damage, although the enemy had fired both shot and shell and musketry at them during their passage in. Thus the chief part of the object you had most anxiously in view was accomplished.

While still in considerable doubt as to the extent to which the channel for the larger ships was buoyed, at ten A.M. Lieutenant Marryat and Mr. Brooker came to inform me that the work entrusted to them had been completed, and that the latter Officer was ready to pilot the ships in. The zealous desire evinced by these Officers to furnish me personally with their report on the difficult navigation of the Dnieper deserves my warmest thanks, and the gallant manner in which Lieutenant Marryat brought the Cracker out for that purpose, under a very heavy fire from the whole of the forts and batteries, elicited the admiration of all who witnessed the proceeding.

We were now fully prepared to advance, and in obedience to your directions, awaited the signal for general attack.

The whole of the proceedings of yesterday must be already fully known to you; but it is right that I should state briefly the share taken in them by the division you did me the honour to place under my orders, which consisted of the ships and

vessels as already stated, reinforced by those named below.

It being necessary to advance in single line, it was arranged that the ships should do so in the following order.

Valorous—Captain C. H. M. Buckle, C.B., bearing my flag.

Furious—Captain William Loring, C.B.

Asmodée (French), bearing the flag of Rear-Admiral Odet Pellion.

Cacique (French).

Sidon—Captain George Goldsmith.

Leopard—Captain George Giffard, C.B.

Sané (French).

Gladiator—Captain C. F. Hillyar.

Firebrand—Captain E. A. Inglefield.

Stromboli—Commander Cowper Coles.

Spiteful—Commander F. A. Shortt.

At noon, the signal being made from your flagship to weigh, we proceeded through the channel, each ship engaging the spit batteries and Kimburn Fort as they came within range.

To Lieutenant Marryat, of the Cracker is due the merit of preceeding and piloting us through, which he did with great judgment.

Had the enemy continued his defence of the Spit batteries, the Sidon, Leopard, Sané, and Gladiator were directed, in that case, to remain in front of them until their fire was completely silenced; but as they were subdued by the accurate and well sustained fire which was poured upon them by the ships which you had placed to the westward of the spit, and by those of our own squadron on passing to the eastward, this became unnecessary; the whole division, therefore, continued its course through the channel, and anchored well inside Fort Nicolaev and Ochakof Point.

During this time the four gunboats, Fancy, Grinder, Boxer, and Clinker, did good service by placing themselves in such position as to throw a flanking fire on the middle battery and Kimburn Fort at the time our division passed within short range.

Immediately on anchoring, I transferred my flag to the Cracker, and followed by the other gun-boats, proceeded close off the east front of Kimburn Fort, to be ready to act as circumstances required, should the enemy's fire, which at that moment had entirely ceased, be renewed ; however, the necessity for further action did not arise.

As the service entrusted to me was carried out under your own observation, I feel it to be unnecessary to do more than to record my grateful sense of the very satisfactory manner in which the whole of the ships under my orders took up their appointed stations, and of the manner in which all employed performed their duty.

I think myself fortunate in having for my temporary flagship so efficient and well ordered a man-of-war as the Valorous, and I feel much indebted to Captain Buckle and his zealous First Lieutenant Joseph Edye, for their unremitting attention and assistance.

I am delighted to add, that in concerting with our gallant Allies the arrangements necessary for carrying into effect the present successful operations, I have received the cordial support and concurrence of my excellent colleague, Rear-Admiral Odet Pellion.

The anxiety which you yourself ever feel to do full justice to merit and exertion must be my excuse for presuming to request your most favourable notice of Lieutenant Marryat and Mr. Brooker. They have had anxious, difficult, and dangerous

work to perform, and they have each of them executed it admirably.

SIR,

I transmit, to be laid before the Lords Commissioners of the Admiralty, copy of a letter from Captain Robert Hall, of the *Miranda*, Senior Officer in the Straits of Kertch, detailing the proceedings of an Anglo-French Naval and Military expedition to Taman and Fanagoria, on the 24th ultimo, for the purpose of depriving the enemy of his means of sheltering troops in the ensuing winter, and in order to procure materials for housing our troops at Cape St. Paul's and Yenikalé.

I also enclose, for their Lordships' informations copy of a letter from Captain Osborn, of the *Vesuvius*, detailing the proceedings of an Anglo-French attack on Temriouk, which by previous arrangement was made simultaneously with that on Taman and Fanagoria.

Both expeditions were conducted in a most satisfactory manner, and were accomplished with the loss of only one man wounded. Three of the 71st Regiment and three of the (French) Infantry of the marine were taken prisoners, in consequence of their own imprudence.

*Her Majesty's ship Miranda, off
St. Paul's, October 3, 1855.*

SIR,
I have the honour to report, that according to your directions of the 25th August, I put myself in communication with Captain Bonet, of His Imperial Majesty's Ship Pomone, commanding the French naval station here, relative to an expedition to destroy the Russian establishments at Fanagoria and Taman ; and also arranged with Captain Osborn, that a simultaneous attack should be made on Temriouk by the Azof Squadron.

On the 24th ultimo, at daylight, the military part of the expedition, under command of Major Hunter (71st), embarked, consisting of 300 of the 71st Highland Light Infantry, carried by the Sulina and 600 French, of the Infantry of the Marine, placed on board six gunboats of that nation ; and at 8.30, the flotilla, as per margin,* proceeded.

Arriving at Taman at noon, swarms of cavalry were seen near it and Fanagoria, and a strong body marched into the powerful earthwork at the latter place.

The gunboats appointed to cover the landing, as per margin,† immediately opened fire, and in a short time forced the enemy to retire, leaving the troops to land without opposition at the spot previously agreed upon, about a mile east of Fanagoria.

By 4 P.M., we were completely established in the fort, in which the field-piece of this ship, and four light mountain howitzers from the Pomone were placed in position, A large body of Cavalry numbering at least 600, continuing drawn up in

† Lynx, Arrow, Snake, and two French gun-boats.

front of Fanagoria, were dispersed by some Lancaster shells beautifully thrown from the Lynx and Arrow.

During the night a small body of the enemy fired upon our sentries and wounded a seaman of the Miranda.

The buildings within the earthwork were found to be much more extensive than was anticipated, consisting of a large hospital, some storehouses, and two very large powder magazines, in perfect order but quite empty, composing, with the houses of the employés, a very considerable establishment; sixty-six guns, chiefly of 6, 9, and 12-pounders, and four cohorn mortars were lying disabled with the work.

The storehouses were all empty except one, which contained some hospital necessities, and the dispensary, which contained some medicines which have been preserved for the use of the squadron.

Taman was found to be completely deserted, and the houses quite empty. A large magazine of flour and another of corn were fired by the Russians before they retired, and 11 iron guns, 30 and 36-pounders, which were found buried at Taman, and were said to have been a present from the Empress Catherine, have been destroyed by us. Considerable bodies of the enemy's cavalry hovered about during the time of our being occupied in taking down and removing the material of the building, but did not approach within gunshot.

I regret to have to report that they succeeded in cutting off three stragglers of the 71st, and three of infantry of marine.

I have much pleasure in bearing testimony to the zeal and activity of the Officers and men of the squadron, especially of Lieutenant Aynesley, commanding the Lynx, who, during my absence, su-

perintended the duties of the squadron afloat, and of Lieutenant Fitzroy, of the *Miranda*, who had the direction of the disembarkation, &c., of the troops, as well as the shipment of the wood, &c., for removal to Yenikalé. Nothing could exceed the good feeling and cordiality existing between the Officers and men of our Allies and our own.

On the morning of the 3rd every building at Fanagoria and Taman which could shelter an enemy having been destroyed, and large quantities of the material removed to Yenikalé and St. Paul's the troops re-embarked, and returned to their quarters at Kertch and St. Paul's.

*Her Majesty's ship Vesuvius, Sea of Azof,
No. 35. September 26, 1855.*
SIR,

I have the honour to report that, in pursuance of arrangements made with Captain Hall, Her Majesty's ship *Miranda*, I proceeded, on the 23rd September, with the vessels named in the
1855. 8 X

margin*, to harass and keep in check the enemy's troops at Temriouk, whilst the allied squadron at Kertch attacked Fanagoria and Taman.

On the 24th, September, at daybreak we arrived off Temriouk Lake, and were there joined by the French steamers Milan, Caton, and Fulton.

We failed in reaching the town with our boats, the lake proving too shoal for even those of the lightest description ; up to noon however we kept a large body of horse, foot and artillery in the town, the latter opening a sharp but harmless fire at us to prevent the destruction of a fine brig which was secreted just inside the lake's entrance. Weighing from thence, the squadron, accompanied by that of our gallant Allies, under Capitaine de Frégate De Cintré, proceeded to cut off the communication between Temriouk and Taman by the narrow belt of land lying north of the lakes. In this we perfectly succeeded ; for at 1 P.M. a heavy column of troops, with nine field-guns, were discovered on the march, proceeding towards Taman. Opening fire on them at 2,500 yards, we stopped their march ; and after suffering severely, as it appeared to us, they retreated upon Temriouk, the Wrangler with her Lancaster guns keeping up an effective fire upon them to an extraordinary distance. Some of the enemy's riflemen, who with much gallantry fruitlessly endeavoured to keep the beach, and save a quantity of forage, must have lost a number of men by the admirable shell practice of the French squadron. Whilst this was doing, I detached the Ardent, Beagle, and Cracker, to watch another favourable part of the neck of land. Lieutenant Campion was fortunate enough to discover that

* Vesuvius, Curlew, Ardent, Wrangler, Beagle, Fancy, Grinder, Cracker.

the road lay over a fine wooden bridge, which spanned a channel connecting the Sea of Azof with Lower Temriouk Lake.

The bridge was 180 feet long and 30 feet wide, composed of strong wooden piles, and sleepers at each end and four pontoons in the centre, the whole well planked over and apparently much used. It was evidently the route of communication between Temriouk and Taman, except by the very circuitous round of the extensive lakes. The burning of this bridge effectually stopped the garrison of Temriouk, who could not be under 2,000 men and some 10 or 12 guns, arriving in time to resist the landing at Taman.

I therefore weighed, as the weather was threatening, and have since driven in and destroyed the Cossack posts which had been established in this neighbourhood, and to watch our garrison at Enikale.

Two French flags (tricolors) were found by Lieutenant Strode at one of these posts, the Russians having left them, as well as some of their arms, in making a hasty retreat. I am unable to say under what circumstances they could have got into the enemy's possession.

Throughout these operations I have received the greatest assistance from Commander Rowley Lambert, of Her Majesty's ship Curlew, and the zealous exertions of the officers and men in the squadron generally.

The Recruit has been left to watch the straits of Ghenitch, and Lieutenant Day, her commander, alone, on the nights of the 18th and 21st September, passed the enemy's picquets there, and waded up to their gun-vessels and guards in the channel. His reconnaissance confirms my opinion of their perfect readiness to resist an attack in that direction. I am sorry to say the exposure and

excessive labour has caused Lieutenant Day to be laid up with a severe attack of illness.

The two Russian fishermen taken at the mouth of the Don, having quite recovered from the effects of their wounds, I caused Commander Rowley Lambert to proceed with them on the 23rd instant to Arabat Fort, under a flag of truce, for the purpose of offering to land them there if General Wrangel wished. The offer was accepted and the prisoners landed.

The squadron is now proceeding to Ghenitch to complete ammunition from the Durham, and I am in hopes that fine weather, which may be shortly expected by general account, will enable us to do more service in the coming month than that of the present one.

I have, &c.,
(Signed) SHERARD OSBORN,
Captain and Senior Officer.

FROM THE
LONDON GAZETTE of NOVEMBER 2,
1855.

War-Department, November 2, 1855.

LORD PANMURE has received from the Field-Marshal Commanding-in-Chief, the Report and its Enclosure, of which the following are

copies, addressed by Major-General Dacres, commanding the Royal Artillery in the Crimea, to General Simpson.

Camp before Sevastopol,

SIR, *14th September, 1855.*

With the successful close of the siege of Sevastopol, it becomes my duty to bring before you the share borne by the Royal Artillery in operations protracted to an unparalleled extent amidst extreme difficulty and hardship.

Notwithstanding the great and frequent obstacles to maintaining a constant supply of ammunition in the batteries, with roads almost impassable, for weeks together, and with a very precarious and insufficient transport, there has been no instance in which the Commander-in-Chief has required the Artillery to act where they have been found unprepared, and at the close of each bombardment they have always possessed the means of continuing the fire.

The officers and men of the Siege Train have shown unfailing zeal and cheerfulness in their arduous duties of arming the batteries, frequently under circumstances of great difficulty, and of directing and serving the guns. The ruined state of the enemy's works, and the silencing of their guns, have frequently testified to the excellence of our artillery practice of which the number of dismounted ordnance found in the captured works opposed to us affords another convincing proof. Our fire has on several occasions rendered important assistance to our Allies, which their chiefs have always warmly acknowledged. The state of the parapet of the Redan, which presents throughout one battered and ruined slope, from the interior crest to the foot of the counterscarp, is a remarkable instance of the

effect of a well-directed fire against strong earth-works.

I have had frequently to lament the loss of valuable officers, among whom I wish to particularise the late Captain Oldfield, who was most zealous and indefatigable in his services in the left attack.

The great duration of the siege operations, and the number of officers who have come under my notice, forbid me to specify all whom I could wish ; and besides the names of some who had served a considerable period before Lieutenant-Colonel St. George took command of the siege train, I will only add to the enclosed report from that officer, that while some who have served through the entire period have necessarily executed their duties under circumstances of unusual hardship, all have shown the greatest zeal and ardour. The arrival of reinforcements from time to time up to the last day's fire, of course causes great disparity in the amount of service rendered by different officers and companies, and the earlier period involved much greater toil and endurance than the last few months. These circumstances I have carefully distinguished in a detailed report to the Adjutant-General of Artillery, but I wish to particularize the following officers who have served with great assiduity throughout the siege : Captains Hope, Lukin, W. J. Bolton, and Owen ; Lieutenants Ruck-Kcene, Alderson, and Tillard.

From Lieutenant-Colonel St. George, commanding the siege, and his Brigade-Major, I have received the greatest assistance in carrying out the operations of the siege.

The duties of the Artillery Staff have of course been constant, arduous, and important. From Lieutenant-Colonel Adye, Assistant-Adjutant-General, I have received every assistance that zeal

and energy could offer. Captain Field came out with the army in 1854, but from ill-health he was obliged to leave it, and joined me in January, 1855, since when he has performed the duties of Deputy Assistant Quartermaster-General, which have been very onerous, assisted by Majors Fortescue and Gage, very much to my satisfaction.

To my personal Staff, Majors Hamley and Gordon, I am much indebted for the assistance they have rendered me at all times by their activity and professional knowledge.

The numerous sick and wounded of the siege train have been attended to with a degree of skill and interest which I have never seen exceeded, and which has given me particular satisfaction. The state of comfort and order in which Surgeon Bent, who superintended the Medical Department of the right attack, and Surgeon Fogo, of the left, assisted by Assistant-Surgeon Taylor (who has served in the trenches through the whole siege, and whose gallantry was most conspicuous as well as his skill) have, by their judicious arrangements, kept their hospitals during the greatest pressure of casualties from the enemy's fire and epidemic cases, has frequently called for my thanks and approbation, and I beg to recommend these officers to your notice. The whole Medical Department has been, since his promotion, under the charge of Surgeon Elliott, who previously had charge of the left attack, and his efforts at all times to provide comforts and his attention to the sick and wounded were unremitting.

The Field Batteries have at all times rendered me important assistance in the conduct of the siege, in conveying guns and ammunition to the trenches, on many occasions under a heavy fire ; and officers and gunners supplied by this portion of the force, have frequently done good service

on emergencies, during the different bombardments.

I have this moment received two notes from General Officers—Windham and Straubenzie, mentioning the gallantry of Captain Williams, during the attack on the Redan, on the 8th instant, when he was acting as aide-de-camp to the latter ; it was equally conspicuous on the 18th of June, when he commanded the spiking party. I have great pleasure in bringing it to your notice.

I will merely add that to the whole of the very large proportion of the corps I have the honour to command, my best thanks, frequently expressed to them before, are again due, for the good, zealous and intelligent services which, conspicuous throughout this trying period, have contributed to the great result a share that will form a most memorable page in the annals of the Royal Artillery.

I have, &c.,

R. J. DACRES,

Major-General Commanding Royal
Artillery.

*To His Excellency General Simpson,
Commanding-in-Chief, &c., &c.*

Enclosure.

*Siege Train Office, Sevastopol,
September 12, 1855.*

SIR,

The sixth bombardment of Sevastopol, which commenced on the 5th instant, and lasted until the 8th, having successfully terminated in the occupation of the place by the Allies, it becomes my duty, at the close of this long and arduous siege, to lay before you the names of a few of the many who have distinguished themselves, during

the time I have had the honour to command the Siege Train of this army.

From Captain Campbell, commanding the Artillery of the right attack, who has served in the batteries through five bombardments, and exercised his present command in three of them, I have always received the greatest assistance ; and the admirable arrangements and indefatigable exertions of Lieutenant-Colonel Barker, C.B., commanding the left attack, entitle him to the highest commendation. He has represented to me the able and zealous aid he has received throughout from his Adjutant, Captain N. O. S. Turner.

Among those, whose gallant conduct has been perhaps most conspicuous, I beg leave to mention the names of Major Strange (who has served in the siege from the opening of the trenches to the last hour of the attack), of Captain Arbuthnot (who has been twice severely wounded), of Captain Philip Dickson (who has served throughout the siege), of Captains Broughton, Hastings, Clifford, and Williams ; and of Lieutenants Ward, Rideout, and C. O. Brown ; all of whom have displayed a coolness and a zeal which cannot be overlooked.

In a siege of so long duration, where every officer in his turn had frequent opportunities of distinguishing himself, which were never neglected, it is almost impossible to point out the most deserving.

I cannot speak too highly in praise of Captain Reilly, my Brigade-Major. Until the termination of the siege he continued the only Staff Officer of this large and responsible command ; and his able performance of his various and difficult duties has already, I know, received from you the warm approval it deserved.

I had the pleasure, on the 22nd of August, of

representing the gallant conduct of Captains Fitzroy, Hawkins, and W. J. Bolton, on a former occasion ; on which representation the Commander of the Forces made a minute that these officers should not be forgotten. I deeply regret to add that one of them, Captain Fitzroy, was mortally wounded in the batteries on the 8th instant, and died yesterday.

Captain G. Davies, with twenty men, volunteered to accompany the storming party, on the 8th instant, with spikes ; but, as the infantry did not enter the Redan en mass, his services were not required. He remained at the head of the advanced sap, where five of his party were wounded.

I have to thank Major Alexander, Royal Marine Artillery, who with his detachment joined the siege train in June, for his zealous assistance in the duties of the siege.

I have much pleasure in calling your notice to the untiring zeal and energy of Deputy Assistant-Commissaries Hayter and Yellon, in conducting the onerous duties of their branch of the service. The former officer, who was a most valuable public servant, was, I grieve to say, killed in the batteries on the 8th instant.

The Medical Department of the Siege Train, under the able and careful supervision of Surgeon Bent at the right attack, and Surgeon Fogo at the left, assisted by their juniors, of whom I would especially mention Assistant-Surgeon Taylor, has been such as to give me the greatest satisfaction. The air of comfort in their hospitals, and the happy appearance of their patients, are sufficient proof of their admirable arrangements and unceasing attention.

In conclusion, I have the greatest satisfaction in representing the manner in which every officer,

non-commissioned officer and gunner under my command have made themselves remarkable during the siege, for bravery, discipline, and endurance. The state of the enemies' works and the ruin of the city show the precision and the vigour with which the fire was maintained by them ; the effect of which has undoubtedly been to compel the evacuation by the enemy of a place no longer tenable.

I have, &c.,

F. ST. GEORGE,

Lt.-Colonel, R.A., Commanding Siege Train.

Major-General Sir R. Dacres, K.C.B.,

Commanding Royal Artillery, &c.

*Board of Trade, Whitehall,
October 31, 1855.*

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, through the Secretary of State for

Foreign Affairs, a copy of a Despatch from Her Majesty's Consul at San Domingo, transmitting copies of the laws on maritime commerce, and of the new tariff.

By the first of these the tonnage duty of 50 cents. Spanish (2s. 1d.), per ton, formerly levied on national vessels, or vessels belonging to a country having a treaty of reciprocity with the Dominican Republic, is raised to 1 Spanish dollar (4s. 2d.) per ton. Vessels belonging to a nation not in treaty with the Dominican Republic paying 1 dollar 50 cents. (6s. 3d.), per ton.

The coasting trade is reserved to national vessels. Foreign vessels are, however, permitted to load on the coast, on payment of the same charge (2s. 1d. per ton) hitherto made.

The anchorage rates have been altered from £1 5s. per vessel to 3d. per ton. The same alteration has taken place in the pilotage charges.

The entry charge, which was formerly 16s. 8d. per vessel, for all vessels of over 20 tons burden, is altered by the existing law to 3d. per ton.

The charge for stage has been altered to 8s. 4d. per day, in lieu of 16s. 8d. previously charged, for the whole time occupied in unloading the cargo. This charge is, however, only made in the event of the accommodation being required.

The wharfage duty, formerly levied at $\frac{1}{4}$ per cent. on the total duties payable by the vessel, has been raised to 1 per cent., rated in the same manner.

The interpreter's charge of 8s. 4d. per vessel, has been altered by the new law to 16s. 8d. for vessels of above 100 tons burden, vessels of less burden paying the same amount as formerly. Each vessel will also have to pay 8s. 4d. towards the maintenance of the telegraph. The Health Officer's fee remains unaltered.

Watering, formerly charged at the rate of 2d. per cask, has been raised to 4s. 2d. per cask.

All vessels of less than 20 tons burden, coming from abroad, are subject only to the tonnage duty, wharfage duty, and the duty for coast loading.

By the new tariff, the ad valorem duties payable on articles having a fixed value have been raised on the average 40 per cent.

The export duties, although nominally the same as previously to the promulgation of the present tariff have virtually been raised $12\frac{1}{2}$ per cent. in consequence of the deterioration of the Dominican paper currency, which is now reckoned at $62\frac{1}{2}$ pesos to the Spanish dollar, in lieu of the former rate of 50 pesos, its value being thus diminished $12\frac{1}{2}$ per cent., and the new tariff having established that such duties as are desired to be paid in paper must be settled at the market rate of this currency.

*Board of Trade, Whitehall,
October 31, 1855.*

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received a Despatch from Her Majesty's Consul at Rotterdam, enclosing the translation of a Notice to Mariners which has recently been published in the Netherland Staats Courant, relative to a new anchor-buoy shaped beacon, which has been placed at the mouth of the Maese, a copy of which is herewith subjoined :

(Copy.)

NOTICE TO MARINERS.

The Minister of Marine hereby gives notice, that, at the mouth of the Maese, an anchor-buoy

shaped beacon, painted with horizontal red and white borders, has been placed in the following landmarks and bearings:

The steeple of Brielle and Oostvoorne in one line; the steeple of Goedereede, a handspike's length to the east of the large wood; and in bearings—the steeple of Brielle S.E. $\frac{1}{3}$ E., and the steeple of Goedereede S.S.W., by unadjusted compass, in a depth of 57 palms, or 3 fathoms water, at ordinary low water.

The object of this beacon, which greatly differs from the other in shape and colour, is to give a true mark in entering this mouth, as also to be able to calculate the depth of water on the Maese shallows.

NOTICE TO MARINERS.

(No. 38.) *Portland Refuge Harbour.—Alteration of Breakwater Light.*

The Lords Commissioners of the Admiralty having directed that a Red Light be substituted for the Blue Light hitherto shown at the outer end of the works in course of construction at the New Breakwater at Portland, notice is hereby given, that on and after the first day of November next a Red Light will be exhibited at the extremity of the breakwater stage, at a height of 30 feet above the mean level of the sea, visible from all points of the compass, at a distance of 8 miles in clear weather.

The light will be moved outwards as the works advance ; and masters of vessels are cautioned to pass not less than a cable's length to the eastward of the light, to ensure clearing the stage.

(magnetic), clears the Shambles, passing to the eastward of the Shoal.

These proofs must be in accordance with the resolutions concerted between the Ministers of Finance, Commerce, Agriculture, and of public Works.

All infractions of the orders promulgated on this subject, will render liability to the penalties and prohibitions of Art. 2, of the Law of 5th July, 1836.

For the space of one year from the same date, the duties upon the importation of foreign ships will be as follows:—sea going vessels of all kinds, whether sailing or steam, nationalized on payment

of 10 per cent. on the value; the value to be determined by the Consulting Committee of Arts and Manufactures.

In the event of the cargo of timber for the above purpose not amounting to three-fourths of the tonnage of the ship, duty will be charged in proportion to the amount of cargo unemployed or devoted to other merchandize.

The duty will be calculated at the same rate in the case of ships which, having fulfilled the first condition, depart with less than one-half of the tonnage devoted to French or Algerian produce.

*Board of Trade, Whitehall,
November 2, 1855.*

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from Her Majesty's Consul at Rotterdam, enclosing the following translation of a Law passed by the States General, for re-adjusting the Tonnage Dues levied in the Ports of the Netherlands.

WE, William III, by the Grace of God,
King of the Netherlands, Prince of Orange,
Nassau, Grand Duke of Luxemburg,
&c., &c., &c.

All who shall see or hear these read, greeting; be it known.

Whereas we have taken into consideration that it is desirable to abolish the tonnage dues on sea-going vessels, and to enact regulations for the measurement of the same.

So We, having heard the Council of State, and in common concert with the States General, have approved and decreed, and We do hereby approve and decree—

ART. I.—The twenty-fifth chapter of the General Law, of the 26th of August, 1822 (Staatsblad, No. 38), and Art. 7 of the Law of the 8th of August, 1850 (Staatsblad, No. 47), are repealed.

ART. II.—All owners, masters, or commanders

of sea ships, now subject to the payment of light, tonnage, and beacon dues, are obliged to have their vessels measured, by the appointed officials, on the spot where the ships may be lying, whenever such is requested.

This measurement, is required to obtain a standard for levying light, tonnage, and beacon dues, described by Art. 2 of the law of the 13th of August, 1849 (Staatsblad, No. 40).

The tonnage of *loaded vessels putting into a harbour*, and recognized as such by the law on the import, export, and transit duties, when such vessels depart without breaking bulk, is to be rated by the government meters, allowing the owner, captain, or commander, the right, in case of dispute, to demand a measurement, the expense of which is to be borne by the party who shall be found in error.

ART. III.—Every ton of a sea ship is considered to equal one thousand Netherland pounds, or one and a half cubic ells.

Fractions, beneath a quarter of a Netherland cubic ell, are not calculated in the measurement, and those of or above a quarter of an ell are considered as half an ell.

ART. IV.—A duly signed certificate of measurement, in duplicate is to be given by the meter to the captain or commander, specifying, besides the flag which the vessel bears and any other particulars necessary to distinguish the same, her measured length, breadth, depth, and tonnage.

ART. V.—The owners, captains, or commanders of sea vessels can demand a remeasurement by two other officials, or competent impartial persons, at the cost of the party found to be in error, within three times twenty-four hours after the delivery of the certificate of measurement.

ART. VI.—Every officer appointed for measuring vessels is authorized to verify, either by re-measurement or otherwise, all measurements made by others, after the vessel shall be unloaded, free of expense to the masters, and, in case of variance, to note such on the certificate of measurement.

The right granted by Art. 5 to owners, captains, or commanders, admits likewise of such verification.

ART. VII.—No vessels will be allowed to depart, nor will be provided with a direct or indirect certificate of adjustment, until their certificate of measurement shall have been exhibited at the office of the port of discharging or loading, as a proof of which the same will have to be signed there.

ART. VIII.—The certificate of measurement when thus signed, must be kept on board of the ships clearing outwards, on a penalty of twenty-five florins, and must be exhibited to the searching officers at their request.

ART. IX.—In Art. 8 of the Law of the 8th of August, 1850 (Staatsblad, No. 47), in the sentence "*Either by subjecting those vessels to an increased tonnage due,*" the word "*increased*" is to be erased, and the words "*to be fixed by us,*" to be inserted in its stead.

This manner of levying the tonnage dues fixed by us will be regulated by the same Decree, which was passed according to Art. 8 of the Law of 8th August, 1850.

Art X.—This law comes into operation on the 1st of January, 1856.

We order and command that the present be inserted in the Staatsblad, and that all ministerial departments, authorities, colleges, and officials,

interested thereby, shall attend to the exact execution thereof.

FROM THE
SUPPLEMENT
TO THE
LONDON GAZETTE of NOVEMBER 6,
1855.

War-Department, November 7, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Sir James Simpson, G.C.B.

Sevastopol,

MY LORD,

October 23, 1855.

I have the honour to transmit the copy of a letter from Lieutenant-Colonel Ready of the 4th October, and its enclosure, giving an account of the proceedings of a detachment of the force which was sent to Taman, for the purpose of collecting firewood and building materials.

The service was satisfactorily performed. Unfortunately three soldiers of the 71st lost their lives, in consequence of their having strayed beyond the limits prescribed to them.

I transmit the nominal return of the non-commissioned Officers and men of the 10th Hussars, who were taken prisoners on the 21st September, in the affair with the Cossacks, reported by me in my letter of the 29th September.

I have reason to believe that the greater portion of the Turkish Contingent are now assembled at Kertch.

No further intelligence has been received from Kinburn.

The health of the army continues very good. A few cases of cholera have occurred during the past week, but it is confined entirely to the new comers.

I have, &c.,

JAMES SIMPSON,

General Commanding.

P.S.—Since I commenced writing this despatch, I have received the accompanying report from Brigadier-General the Hon. A. Spencer.

J. S.

The Lord Panmure, &c., &c., &c.

Enclosure 1.

Yenikale,

SIR, October 4, 1855.

I have the honour to inform you that the joint French and English Expedition to Taman returned from thence yesterday the 3rd instant, and that the three companies of the 71st Regiment under the command of Major Hunter, which formed the British part of the force have resumed their former quarters in Kertch.

Enclosed is the report of Major Hunter of his proceedings during his stay in Phanagoria. The arrangements he made for executing the duties entrusted to him, and providing against the desultory attacks to be expected from the enemy, gave me complete satisfaction. I regret, however, that I have, notwithstanding, to report the loss of three men who were surprized by the Cossacks, whilst straggling from their party, one of whom was killed and his body found, and the two others supposed to have been captured.

The French and English gunboats, having

been suddenly recalled, placed us under the necessity of abandoning a large quantity of timber, procured from the public buildings in Phanagoria. We, however, collected and transported to Yenikale a very fair supply ; the rest was burnt, and the enemy will find it difficult to provide shelter for any number of troops there during the winter.

I have, &c.

(Signed) C. READY,

Lieutenant-Colonel 71st Light Infantry.

*Lieutenant-General Sir R. Airey,
K.C.B., Quartermaster-General,
&c., &c., &c.*

Enclosure 2.

Kertch,

SIR,

October 4, 1855.

I have the honour to report the return to Kertch of the French and English troops under my command, from our joint expedition to Taman. It is with much pleasure that I recur to the assistance rendered by one to the other, but I have to regret the loss of three soldiers of the French Marine, and three soldiers of the 71st Highland Light Infantry ; each party having strayed beyond the limits prescribed to them, was surprised by the Cossacks. The bodies of the three French and the body of Corporal Mc Dougal alone were found murdered, each having received several wounds from ball and lance. The other two men of the 71st Regiment are still missing.

Having proceeded in quest of the missing men with both the French Chasseurs and the Hussars under my command, I was still unable to obtain any clue as to their fate.

During our stay in Phanagoria the Cossacks

frequently made attacks on our lines by night, having wounded one naval officer, French, and one naval officer, English, also one Private 71st Regiment who was slightly wounded in the hand. One Cossack alone, who succeeded in approaching within 4 (four) yards of my advanced sentry, was killed ; but, owing to the darkness of the night it was impossible to discern any object which was lower than our own level.

The assistance rendered by the naval officers, who accompanied the expedition, could not have been exceeded, particularly by Lieutenants Ainslie and Fitzroy ; and the despatch with which Mr. Williams invariably returned with the Minna, after landing her supply of wood at Yeni-Kaleh, was the admiration of all. The value of this boat on such an expedition is very great. The gunboats being suddenly recalled for some other active service, a large quantity of valuable wood was burnt.

The buildings at Taman and the large storehouses in Phanagoria are completely destroyed by fire and gunpowder, and I cannot conceive the possibility of any body of troops receiving shelter in that neighbourhood.

There being several squadrons of Cossacks constantly around us on the different heights I did not consider it prudent to make any movement towards the hills, considering the destruction of the fort and town, also the collection of wood, as being the objects of the expedition.

I have, &c.,

(Signed) R. F. HUNTER.

Major, 71st Highland Light Infantry.

manding Her Britannic Ma-
jesty's Forces, Yeni-Kaleh.*

Enclosure 5.

Kinburn,

SIR, *October 19th, 1855.*

I have the honour, for the information of the Commander-in-Chief, to forward a more correct state of the force under my command than my very hurried despatch of the 17th instant enabled me to do.

I am this day employed in moving my camp, now three miles from Kinburn, to the immediate neighbourhood of that fort; our position, although no time has been lost in making intrenchments, being too extensive, and the gunboats of the allied fleets, from the peculiarity of the ground could, in the event of an attack from the interior, be of little use to us.

The front of the new position will not exceed half a mile, and will be well covered by the gunboats on both flanks.

To-morrow General Bazain purposes to make a reconnaissance, in which nearly the whole of the English force will take part. We carry with us six days' provisions.

The fort of Kinburn, which has been very much damaged by the fire of the ships on the 17th, is about to undergo repair.

The fort and magazines at Ochakow were yesterday blown up by the enemy.

The weather is fine, and troops very healthy.

FROM
SECOND SUPPLEMENT

TO THE
LONDON GAZETTE of NOVEMBER 6,
1855.

War-Department, November 8, 1855.

LORD PANMURE has this day received a Despatch and its enclosures, of which the following are copies, addressed to his Lordship by General Sir James Simpson, G.C.B.

Sevastopol,

MY LORD, *October 27, 1855.*

I have the honour to transmit a copy of a letter I have received from Brigadier-General the Honourable A. Spencer, informing me of the return of the force under his command to Kinburn, after having made a short reconnaissance.

As it has been decided that the French will garrison the Fort, the English troops will return here, and I expect them about the 3rd November.

I have to report the arrival, on the 25th instant, of a detachment of prisoners to the number of 132, from Odessa, where the greatest part of them arrived on the 24th September.

Amongst them is Lieutenant James, of the Royal Engineers, who was taken on the night of the 2nd of July ; he has been kept at Reazan, and reports having been very well treated by the Russians.

The prisoners have been kept at Voranetz on the Don, and, when they left, there were only two

remaining, who were sick, and fifty-one deserters. I transmit the nominal list of the men.

The force from Eupatoria, under the command of General d'Allonville, made a reconnaissance on the 22nd instant. They fell in with a large force of the enemy and offered them battle. The Russians, however, retreated before them after an exchange of a few rounds with the Horse Artillery.

I beg to enclose a copy of the report of Brigadier-General Lord George Paget, in command of the English cavalry at that place.

I have the honour to report the departure of all the Turkish force that were here, for Asia, with the exception of some Artillery, which has been transferred to the Contingent.

The weather continues magnificent, and the health of the troops all that can be desired.

I have, &c.,

JAMES SIMPSON,
General Commanding.

The Lord Panmure, &c. &c. &c.

Enclosure 1.

Kinburn,

SIR,

October 24, 1855.

I have the honour to report, for the information of the Commander-in-Chief, that the troops under my command, as per margin,* returned yesterday evening from the reconnaissance they made in company with the French army.

The force left Kinburn on the 20th instant, bivouacked that night and the following at the village of Patowffka (8 miles), proceeded from

* Escort of Cavalry; 4 guns; 17th, 20th, 57th, 63rd Regiments; 2 battalions of the Royal Marines.

thence to the village of Schadoffka, which the Allies burnt. A good many farms, all deserted, and a great quantity of hay were also destroyed.

On our return yesterday about 250 of the enemy's cavalry menaced our rear.

The troops are very healthy.

At a conference held to-day, it has been determined that the Fort of Kinburn is to be occupied for the winter by French troops, and it is expected that the English troops will embark for the Crimea on the 1st of November.

I have, &c.

(Signed) A. SPENCER,
Brigadier-General.

Head Quarters, Crimea.*

Enclosure 3.

Eupatoria,

SIR,

October 25, 1855.

I have the honour to report that the Allied troops stationed here, under the command of General of Division D'Allonville, marched from Eupatoria, on Monday morning, the 22nd instant.

The force advanced in two columns, the details of which are in the margin,* the one taking a northerly direction, and skirting towards the east of the lake Susik Guiloie, until it arrived at the village of Karagurt; the other proceeding, by the strip of land between that lake and the sea, to the town of Sak.

The Light Cavalry Brigade and troop of Horse Artillery, under my command, formed part of the first-mentioned column, which was commanded by General D'Allonville himself.

* 1ST COLUMN.—6 Ottoman battalions, 8 French battalions (de Failly), $\frac{1}{2}$ the Bashi Bozouks, 4 Ottoman squadrons, 1 Ottoman battery (Montée), 2 French batteries (Montées); "Ambulance Active" for 80 wounded, under the orders of Mushir Achmet Pasha.

2ND COLUMN.—4 Ottoman battalions, 2 French battalions, $\frac{1}{2}$ the Bashi Bozouks, 12 Ottoman squadrons, 12 French squadrons, 10 British squadrons, 6 pieces of Horse Artillery of each nation; "Ambulance Active" for 80 wounded, under the orders of the General Commander-in-Chief (Supérieur).

We marched at day-break, and arrived at Karagurt (18 miles) about 4 p.m., when we bivouacked for the night, and which, before leaving, we destroyed.

When we had advanced within about 3 miles of this village, we came in presence of a force of about twenty squadrons of Russian cavalry, who retired before us, after some shots from the French Horse Artillery, which told with some effect.

On the evening of the 23rd we proceeded, at daybreak in a southerly direction, passing close to the village of Temesh, where we came in sight of a body of Russian cavalry, considerably superior in numbers to that we had seen the evening before, a strong force of guns, and, I believe, some battalions of infantry.

This body also retired before us at a considerable distance, while we continued our advance to the village of Tuzla, on a rising ground to the left of which village General D'Allonville took up a position and offered battle, Captain Thomas's troop of Horse Artillery firing several rounds with precision, which were answered by the enemy without effect.

After waiting here for two hours, and seeing that the enemy were effecting a further retreat, General D'Allonville formed a junction with the column, under Mushir Achmet Pasha, at the town of Sak, where we bivouacked, destroying the town and considerable Russian cantonments.

On the 24th instant, yesterday, we returned to Eupatoria by the sea coast road.

On the first day's march, the French cavalry were in front, the English cavalry in support; the Turkish cavalry on our left flank. On the second day, the cavalry under my command were in advance, supported by the French cavalry, the Turkish cavalry on our left flank.

I have great satisfaction in stating that General D'Allonville expressed to me his approval of the manner in which the cavalry I have the honour to command manœuvred in the field, as likewise of the good practice of our Horse Artillery ; and I may perhaps be permitted to express my acknowledgments of the courtesy evinced towards me, and the troops under my command, by the General during the time we were in the field, and since we landed at Eupatoria.

I beg to enclose a return of casualties,* caused by exhaustion from the want of water, of which there was a very great scarcity everywhere.

Captain Hamilton, Royal Navy, has requested me to inform you that the French brig of war, Allouette, and Her Majesty's ship Diamond, co-operated with the troops on this occasion ; but that he, finding a sailing vessel unhandy on this service, placed the guns and men of the Diamond on board the steam transport Oneida, from which he fired on the flanks, and on some advanced picquets of the enemy.

I have, &c.,

(Signed) GEO. PAGET,
Brigadier-General Commanding Light
Cavalry Brigade at Eupatoria.

LONDON GAZETTE of NOVEMBER 9,
1855.

Convention between Her Majesty and the King of Prussia, additional to the Convention concluded at Berlin, May 13, 1846, for the Establishment of International Copyright.

Signed at London, in the English and German Languages, June 14, 1855.

[*Ratifications exchanged at London, August 13, 1855.*]

HER Majesty the Queen of the United Kingdom of Great Britain and Ireland, on the one part, and His Majesty the King of Prussia, as well in his own name as in that of His Majesty the King of Saxony, His Royal Highness the Grand Duke of Saxe-Weimar, His Royal Highness the Duke of Saxe-Meiningen, His Royal Highness the Duke of Saxe-Altenburg, His Royal Highness the Duke of Saxe-Coburg-Gotha, His Royal Highness the Duke of Brunswick, His Royal Highness the Duke of Anhalt-Dessau-Cöthen, His Royal Highness the Duke of Anhalt-Bernburg, His Serene Highness the Prince of Schwarzburg-Rudolstadt, His Serene Highness the Prince of Schwarzburg-Sondershausen, His Serene Highness the Prince of Reuss (elder branch), and His Serene Highness the Prince of Reuss (younger branch), on the other part, being desirous of extending the scope of the Convention which was concluded between their said Majesties

at Berlin on the 13th of May, 1846, for the reciprocal protection of copyright, have resolved to conclude an Additional Convention for that purpose, and have named as their respective Plenipotentiaries ; that is to say :

Her Majesty the Queen of the United Kingdom of Great Britain and Ireland, the Right Honourable George William Frederick, Earl of Clarendon, Baron Hyde of Hindon, a Peer of the United Kingdom, a Member of Her Britannic Majesty's Most Honourable Privy Council, Knight of the Most Noble Order of the Garter, Knight Grand Cross of the Most Honourable Order of the Bath, Her Britannic Majesty's Principal Secretary of State for Foreign Affairs ; and the Right Honourable Edward John, Baron Stanley of Alderley, a Peer of the United Kingdom, a Member of Her Britannic Majesty's Most Honourable Privy Council, and President of the Committee of Privy Council for Affairs of Trade and Foreign Plantations ;

And His Majesty the King of Prussia, His Privy Councillor and Chamberlain, Albert Count of Bernstorff, Envoy Extraordinary and Minister Plenipotentiary to Her Britannic Majesty, Knight Grand Cross of the Order of the Red Eagle, and of the Orders for Civil Merit of the Bavarian Crown, of St. Januarius of the Two Sicilies, and of St. Stanislaus of Russia, Knight Commander of the Order of Christ of Portugal ;

Who, after having communicated to each other their respective full powers, found in good and due form, have agreed upon and concluded the following Articles :

ARTICLE I.

It is agreed that all books, prints, and drawings published within the dominions of any other State

that has concluded or may conclude, or which has acceded or may accede to, a Copyright Convention with Great Britain, shall, if exported from Prussia, Saxony, Saxe-Weimar, Saxe-Meiningen, Saxe-Altenburg, Saxe-Coburg-Gotha, Brunswick, Anhalt-Dessau-Cöthen, Anhalt-Bernburg, Schwarzburg-Rudolstadt, Schwarzburg-Sondershausen, or Reuss, be considered, for the purposes of this Convention, to have been exported from the country of their publication.

ARTICLE II.

The protection granted by the Convention which was concluded between the High Contracting Parties on the 13th of May, 1846, to original works, is extended to translations; it being, however, clearly understood that the intention of the present Article is simply to protect a translator in respect of his own translation, and that it is not intended to confer upon the first translator of any work the exclusive right of translating that work, except in the case and to the extent provided for in the following Article.

ARTICLE III.

The author of any work published in either of the two countries, who may choose to reserve the right of translating it, shall, until the expiration of five years from the date of the first publication of the translation thereof authorized by him, be, in the following cases, entitled to protection from the publication in the other country of any translation of such work not so authorized by him :

§ 1. If the original work shall have been registered and deposited in the one country within three months after its first publication in the other.

§ 2. If the author has notified on the title-page of his work his intention to reserve the right of translating it.

§ 3. Provided always, that at least a part of the authorized translation shall have appeared within a year after the registration and deposit of the original, and that the whole shall have been published within three years after the date of such deposits.

§ 4. And provided that the publication of the translation shall take place within one of the two countries, and that it shall be registered and deposited in conformity with the stipulations of Article II of the Convention of the 13th of May, 1846.

With regard to works which are published in parts, it will be sufficient if the declaration of the author that he reserves the right of translation shall appear in the first part. But with reference to the period of five years, limited by this Article for the exercise of the exclusive right of translation, each part shall be treated as a separate work, and each part shall be registered and deposited in the one country within three months after its first publication in the other.

ARTICLE IV.

The stipulations of the preceding Articles shall also be applicable to the representation of dramatic works, and to the performance of musical compositions, in so far as the laws of each of the two countries are or shall be applicable in this respect to dramatic and musical works first publicly represented or performed therein.

In order, however, to entitle the author to legal protection in regard to the translation of a dramatic work, such translation must appear within three months after the registration and deposit of the original.

It is understood that the protection stipulated by the present Article is not intended to prohibit fair

imitations, or adaptations of dramatic works to the stage in England and Prussia respectively, but is only meant to prevent piratical translations.

The question whether a work is an imitation or a piracy, shall in all cases be decided by the courts of justice of the respective countries, according to the laws in force in each.

ARTICLE V.

Notwithstanding the stipulations of Article I of the Convention of the 13th of May, 1846, and of Article II of the present additional Convention, Articles extracted from newspapers or periodicals published in either of the two countries, may be republished or translated in the newspapers or periodicals of the other country, provided the source from whence such articles are taken be acknowledged.

Nevertheless, this permission shall not be construed to authorize the republication or translation in one of the two countries, of articles from newspapers or periodicals published in the other country, the authors of which shall have notified in a conspicuous manner in the journal or periodical in which such articles have appeared, that they forbid the republication thereof.

This last stipulation shall not, however, apply to articles of political discussion.

ARTICLE VI.

The present additional Convention shall come into operation as soon as possible after the exchange of the ratifications thereof. Due notice shall be given beforehand in each country by the Government of that country, of the day which may be fixed upon for its so coming into operation, and its stipulations shall apply only to works published after that day.

ARTICLE VII.

The present additional Convention shall have the same duration as the Convention of the 13th of May, 1846. It shall be ratified, and the ratifications shall be exchanged at London as soon as may be within two months from the date of signature.

In witness whereof the respective Plenipotentiaries have signed the present Convention, and have affixed thereto the seal of their arms.

FROM THE

LONDON GAZETTE EXTRAORDINARY
of NOVEMBER 10, 1855.

Foreign-Office, November 10, 1855.

THE Earl of Clarendon has received a despatch from Major-General Williams, Her Majesty's Commissioner with the Turkish Army in Asia, of which the following is a copy :—

MY LORD, *Kars, October 3, 1855.*

I had the honour to announce to your Lordship, on the evening of the 29th ultimo, the glorious victory gained on the morning of that day by the Sultan's troops on the heights above Kars over the Russian army commanded by General Muravieff, and I now beg to furnish your Lordship with the principal incidents of that sanguinary battle.

Your Lordship will perhaps recollect, that in my despatch No. 123, of the 28th of June, I stated that the Russian General, after his second demonstration against the southern face of our entrenchments, which is flanked by Hafiz Pasha Tabia and Kanli Tabia, marched south, and established his camp at Bugah Tikmé, a village situated about four miles from Kars. Knowing that General Muravieff served in the army which took Kars in 1828, I conceived his last manœuvre to be preparatory either to a reconnaissance, or an attack upon the heights or Tahmasb, from whence the Russians successfully pushed their approaches in the year above cited.

Whilst, therefore, the enemy's columns were in march towards Bugah Tikmé, I visited those heights with Lieutenant-Colonel Lake, and after studying the ground decided upon the nature of the works to be thrown up ; these were planned and executed by Lieutenant-Colonel Lake with great skill and energy. I enclose for your Lordship's information a plan made by that officer of the town and its neighbouring heights, which are situated on the opposite side of the river of Kars Chai, over which three temporary bridges had been thrown to keep up our communications. As all verbal descriptions, or bird's-eye views of ground convey but an imperfect idea of any locality, I beg to enclose a sketch made by Mr. Churchill, which will, I trust, tend to elucidate my description.

Your Lordship will observe that whilst our camp and magazines in the town were rendered as safe as circumstances would allow, the hills above Kars commanded all, and were, therefore, the keys of our position.

The intrenchments of Tahmasb, being those nearest the enemy's camp, demanded the greatest vigilance from all entrusted in their defence ; General Kmety, a gallant Hungarian officer, commanded the division which occupied this eminence, he was assisted by Major-General Hussien Pacha and my aide-de-camp, Major Teesdale, who has acted as his Chief of the Staff.

Throughout the Investment, which has now lasted four months, the troops in all the redoubts and intrenchments have kept a vigilant lookout during the night, and, at their appointed stations, stood to their arms long before day dawn. In my despatch, No. 155, of the 29th ultimo, I informed your Lordship of the arrival of the news of the fall of Sebastopol, and of the landing of Omar Pacha at Batoom. I also acquainted

your Lordship with the fact that the Russian General was engaged in sending off immense trains of heavy baggage into Georgia, and showing every indication of a speedy retreat ; this is no wise threw us off our guard, and Lieutenant-Colonel Lake was directed to strengthen many points in our extensive and undermanned lines, and amongst other works the tabia bearing my name was constructed

At four o'clock on the eventful morning of the 29th the enemy's columns were reported to be advancing on the Tahmasb front. They were three in number, supported by 24 guns ; the first or right column being directed on Tahmasb Tabia, the second on Yukseh Tabia, and the third on the breastwork called Rennison Lines. As soon as the first gun announced the approach of the enemy the reserves were put under arms in a central position, from which succours could be despatched either to Tahmasb or the English lines

The mist and imperfect light of the dawning day induced the enemy to believe that he was about to surprise us, he advanced with his usual steadiness and intrepidity ; but on getting within range he was saluted with a crushing fire of artillery from all points of the line. This unexpected reception, however, only drew forth loud hurrahs from the Russian infantry as it rushed up the hill on the redoubts and breastworks. These works poured forth fire of musketry and rifles which told with fearful effects on the close columns of attack, more especially on the left one, which, being opposed by a battalion of 450 Chasseurs, armed with Minié rifles, was, after long and desperate fighting, completely broken, and sent headlong down the hill, leaving 850 dead on the field. besides those carried off by their comrades.

The central column precipitated itself on the redoubts of Tahmasb and Yukseh Tabias, where desperate fighting occurred and lasted for several hours, the enemy being repulsed in all his attempts to enter the closed redoubts, which mutually flanked each other with their artillery and musketry, and made terrible havoc in the ranks of the assailants; and it was here that Generals Kmety and Hussein Pacha, together with Major Teesdale, so conspicuously displayed their courage and conduct. Lieutenant-General Kereen Pasha also repaired to the scene of desperate strife to encourage the troops, and was wounded in the shoulder, and had two horses killed under him.

The right column of the Russian infantry, supported by a battery, eventually turned the left flank of the intrenched wing of the Tahmasb defences, and whilst the Russian battery opened in the rear of the closed redoubt at its salient angle, their infantry penetrated considerably behind our position.

Observing the commencement of this movement, and anticipating its consequences, Lieutenant-Colonel Lake, who had taken the direction of affairs in the English Tabias, was instructed to send a battalion from Fort Lake to the assistance of the defenders of Tahmasb, and at the same time two battalions of the reserves were moved across the flying bridge and upon the rocky height of Laz Jeppé Tabia. These three reinforcing columns met each other at that point, and being hidden from the enemy by the rocky nature of the ground, confronted him at a most opportune moment; they deployed, opened their fire, which stopped and soon drove back the enemy's reserves, which were then vigorously charged with the bayonet, at the same moment when General Kmety and Major Teesdale issued from the

redoubts at Tahmasb and charged the assailants. The whole of that portion of the enemy's infantry and artillery now broke and fled down the heights under a murderous fire of musketry ; this occurred at half past eleven, after a combat of seven hours.

In this part of the field the enemy had, including his reserves, 22 battalions of infantry, a large force of dragoons and cossacks, together with 32 guns.

Whilst this struggle, which I have attempted to describe, was occurring at Tahmasb, a most severe combat was going on at the eastern position of the line called the English Tabias.

About half-past five o'clock, A.M., a Russian column, consisting of 8 battalions of infantry, 3 regiments of cavalry, and 16 guns, advanced from the valley of Tehakmak, and assaulted those small redoubts which after as stout a resistance as their unavoidably feeble garrisons could oppose, fell into their hands, together with the connecting breastworks, defended by townsmen and mountaineers from Lazistan, whose clannish flags, according to their custom, were planted before them on the epaulments, and, consequently, fell into the enemy's hands ; but ere the firing had begun in this portion of the field, Captain Thompson had received orders to send a battalion of infantry from each of the heights of Karadagh and Arap Tabia to reinforce the English lines. This reinforcement descended the deep gully through which flows the Kars River, passed a bridge, recently thrown across it and ascended the opposite precipitous bank by a zigzag path which led into the line of works, named by the Turks, Ingliz Tabias (the English Batteries). Their arrival was as opportune as that of the reserves directed towards Tahmasb, which I have the honour to describe in the former part of this dispatch ; these battalions,

joined to those directed by Lieutenant-Colonel Lake, gallantly attacked and drove the Russians out of the redoubts at the point of the bayonet, after the artillery of the enemy had been driven from those lines by the cross fires directed from Fort Lake and from Arab Tabia and Karadagh, by Captain Thompson. This officer deserves my best thanks for having seized a favourable moment to remove a heavy gun from the eastern to the western extremity of Karadagh, and with it inflicted severe loss on the enemy.

After the Russian infantry was driven from the English redoubts, the whole of their attacking force of cavalry, artillery and infantry retreated with precipitation, plied with round shot from all the batteries bearing on their columns. During their temporary success, however, the enemy captured two of our light guns which the mortality amongst our horses from famine prevented our withdrawing from their advanced positions. He also carried off his wounded, and many of his dead ; yet he left 363 of the latter within and in front of these intrenchments ; and his retreat occurred at least an hour before the assailants of Tahmasb were put to flight.

During this combat, which lasted nearly seven hours, the Turkish Infantry, as well as artillery, fought with the most determined courage ; and when it is recollected that they had worked on their intrenchments, and guarded them by night throughout a period extending to nearly four months, I think your Lordship will admit that they have proved themselves worthy of the admiration of Europe, and established an undoubted claim to be placed amongst the most distinguished of its troops.

With regard to the enemy, as long as there was a chance of success he persevered with

undaunted courage, and the Russian officers displayed the greatest gallantry. Their loss was immense ; they left on the field more than 5,000 dead, which it took the Turkish infantry four days to bury. Their wounded and prisoners in our possession amount to 160, whilst those who were carried off are said to be upwards of 7,000.

As the garrison was afflicted with cholera, and I was apprehensive of a great increase of the malady, should this melancholy duty of the burial of the dead be not pushed forward with every possible vigour by our fatigued and jaded soldiers, I daily visited the scene of strife to encourage them in their almost endless task ; and I can assure your Lordship that the whole battle field presented a scene which is more easy to conceive than to describe, being literally covered with the enemy's dead and dying.

The Turkish dead and wounded were removed on the night of the battle. The dead numbered 362, the wounded 631. The town's people, who also fought with spirit, lost 101 men.

His Excellency the Mushir has reported to his Government those officers who particularly distinguished themselves ; a difficult task in an army which has shown such desperate valour throughout the unusual period of seven hours of uninterrupted combat.

I have, &c.,

TREASURY WARRANT.

Whereas by an Act, passed in the fourth year of the reign of Her present Majesty, intituled "An Act for the regulation of the duties of postage," power is given to the Commissioners of Her Majesty's Treasury, from time to time, by Warrant, under their hands, to alter and fix any of the rates of British postage, payable by law on the transmission by the post of foreign or colonial letters or newspapers, or of any other printed papers, and to subject the same to rates of postage according to the weight thereof, and a scale of weight to be contained in such Warrant.

And whereas another Act was passed in the eighteenth year of the reign of Her present Majesty, intituled "An Act to amend the laws relating to the stamp duties on newspapers, and to provide for the transmission by post of printed periodical publications."

And whereas, by a certain Warrant, under the hands of two of the Commissioners of Her Majesty's Treasury, bearing date the 19th day of September, 1855, certain rates of postage were fixed on letters transmitted direct by British packet-boats between any ports in the British colonies, or between any ports in the British colonies and any foreign port (not in any such cases passing through the United Kingdom). And whereas it is expedient that so much of the said recited Warrant as extends to or affects the postage on letters transmitted between any of Her Majesty's colonies and any port in Peru, or any other port on the western coast of South America should be repealed.

1. Now we, the Commissioners of Her Majesty's Treasury, in exercise of the powers reserved to us in and by the several before-mentioned Acts, or

either of them, and of all other powers enabling us in this behalf, do by this Warrant (under the hands of two of us, the said Commissioners, by the authority of the Statute in that case made and provided), order and direct, that so much of the said recited Warrant of the 19th day of September, 1855, as extends to or affects the postage on letters transmitted between any of Her Majesty's colonies and any port in Peru, or any other port on the western coast of South America, not passing through the United Kingdom (the conveyance thereof being by British packet-boat direct, or *viâ* Panama), shall be, and the same is hereby, annulled and repealed.

2. And we do further order and direct, that on every letter not exceeding half an ounce in weight, brought into the United Kingdom by packet-boat from the British squadron on or off the Western Coast of Africa, without passing through any post-office, or coming from any foreign port on that coast, there shall be charged and paid, in lieu of any rates of postage now payable thereon, a rate of postage of sixpence.

3. And we do further order and direct, that on every letter not exceeding half an ounce in weight, transmitted between any of Her Majesty's colonies and any port in Peru, or any other port on the Western Coast of South America, without passing through the United Kingdom (the conveyance being by British packet-boat direct or *viâ* Panama), there shall be charged and paid in lieu of any rates of postage now payable thereon (or which but for the repeal hereinbefore contained, would be hereafter payable thereon), a rate of one shilling and four pence.

4. And we do further order and direct, that on every letter transmitted as is hereinbefore respectively mentioned, exceeding half an ounce in

weight, there shall be charged and paid progressive and additional rates of postage, as follows ; (that is to say) :

On every letter exceeding half an ounce in weight, and not exceeding one ounce in weight, two rates of postage.

On every letter exceeding one ounce, and not exceeding two ounces in weight, four rates of postage.

On every letter exceeding two ounces, and not exceeding three ounces in weight, six rates of postage.

And on every letter exceeding three ounces, and not exceeding four ounces in weight, eight rates of postage.

And for every ounce in weight above the weight of four ounces, there shall be charged and taken two additional rates of postage, and every fraction of an ounce above the weight of four ounces shall be charged as one additional ounce, and each progressive and additional rate chargeable under this clause shall be estimated and charged at the sum which any such letter would be charged with under this Warrant, if not exceeding half an ounce in weight.

5. And we do further order and direct, that nothing hereinbefore contained, shall be construed in anywise to annul, prejudice, or affect any of the exemptions and privileges granted by or under the said recited Act, passed in the fourth year of the reign of Her present Majesty, and that all such exemptions and privileges shall remain in full force.

6. And we do further order and direct, that nothing herein before contained shall be construed to repeal, alter, or affect three certain Warrants, respectively under the hands of two of the Com-

missioners of Her Majesty's Treasury, bearing date respectively the 23rd day of November, 1852, the 15th day of March, 1854, and the 31st day of March, 1855, or any or either of them, or any of the rates of postage thereby respectively fixed and established.

7. And we do further order and direct, that on every letter not exceeding one-quarter of an ounce in weight, sent from or to any commissioned or non-commissioned officer, serjeant, corporal, drummer, trumpeter, fifer, or private soldier in Her Majesty's regular forces, artillery, or royal marines, or from or to any commissioned or warrant officer, midshipman, master's mate, or seaman in Her Majesty's navy or any of Her Majesty's ships, transmitted by the post between any of the British hospitals at or near Smyrna or the Dardanelles, and any ports or places in Turkey or the Black Sea (the sea conveyance being by French packet-boat), there shall be charged and taken, in lieu of any rates of postage now payable by law on such letters, a rate of two pence (which shall include any foreign packet postage that may be payable thereon).

8. And we do further order and direct, that on every letter transmitted, as is lastly hereinbefore mentioned, exceeding a quarter of an ounce in weight, there shall be charged, taken, and paid, in lieu of any rates of postage now payable by law on such letters, progressive and additional rates of postage as follows (that is to say):

On every letter exceeding a quarter of an ounce in weight, and not exceeding half an ounce in weight, two rates of postage.

On every letter exceeding half an ounce in weight, and not exceeding three-quarters of an ounce in weight, three rates of postage.

On every letter exceeding three-quarters of an

ounce in weight, and not exceeding one ounce in weight, four rates of postage.

And for every quarter of an ounce in weight above the weight of one ounce, there shall be charged and taken one additional rate of postage, and every fraction of a quarter of an ounce above the weight of one ounce, shall be charged as an additional quarter of an ounce, and each progressive and additional rate chargeable under this clause shall be estimated and charged at the sum of two pence.

9. And we do further order and direct, that the term "by the post" used in the said recited Warrant of the 19th day of September, 1855, shall, so far as respects the conveyance of letters sent between Malta, Gibraltar, or the Ionian Islands, and Her Majesty's colonies and possessions in the East Indies or the Chinese Sea without passing through the United Kingdom, include the conveyance through Egypt, but all letters sent between any of Her Majesty's colonies and any port or place in Egypt, or between Her Majesty's colonies and any foreign country through Egypt, without passing through the United Kingdom, shall be charged and chargeable with the same rates of postage as if the said Warrant of the 19th day of September, 1855, had not been signed.

10. And we do further order, direct, and consent that printed British newspapers and printed colonial and foreign newspapers, posted in any of Her Majesty's colonies mentioned in the schedule to this Warrant annexed, addressed to the United Kingdom, may be sent by the post to the United Kingdom at a rate of one penny each, in lieu of any rates of postage now payable thereon.

11. And we further order, direct, and consent that all such printed newspapers shall be sent by

the post in conformity with and under and subject to the several orders, regulations, conditions, and restrictions hereinafter contained ; that is to say :

1. Every such newspaper shall be sent without a cover or in a cover open at the sides.
2. There shall be no word or communication printed on any such newspaper after the publication thereof, or upon any cover thereof other than and except the name and address of the person to whom sent, but the name and address of the publisher, newsvender, or agent by whom the same is sent may be printed on the cover of any such newspaper.
3. There shall be no paper or thing enclosed in or with any such newspaper.
4. Every such newspaper shall be put into the post office at such hours in the day, and under all such regulations as the Postmaster-General may appoint, including therein the payment of postage when put into the post office, if the Postmaster-General shall so require.

12. And we do further order, direct, and consent that Her Majesty's Postmaster-General shall and may charge all or any newspapers sent by the post from the colonies mentioned in the said schedule to the United Kingdom, otherwise than in conformity with the terms, conditions, and regulations established by this present Warrant, with such rates or rate of postage not exceeding in amount such rates or rate as would be chargeable upon the same as letters or a letter, as to him shall seem fit.

13. And we do further order, direct, and consent, that nothing herein contained shall be construed to extend to any newspapers sent through France, or any other foreign country, to which a transit rate of postage would be payable thereon.

14. And we do further order and direct, that the term "by the post," used in the 10th, 11th, and 12th clauses of this Warrant, shall include the conveyance by any British, foreign, or colonial packet-boat, and also by private ship; and that the term "British Newspaper" shall mean newspapers printed in the United Kingdom, whether they bear a newspaper stamp or not; and that the several other terms and expressions used in this Warrant shall be construed to have the like meaning in all respects as they would have had, if inserted in the said Act passed in the fourth year of the reign of Her present Majesty, hereinbefore recited.

15. And we do further order and direct, that the Commissioners for the time being of Her Majesty's Treasury may, by Warrant under their hands duly made at any time hereafter, alter, repeal, or revoke any of the rates of postage hereby fixed, or any of the orders, regulations, conditions, and restrictions hereby made, and may make and establish any new or other rates, orders, regulations, conditions, and restrictions in lieu thereof, and from time to time appoint at what time the rates which may be payable are to be paid.

NOTICE TO MARINERS.

(No. 41.) *Norway.—South-east Coast.*

Fixed Light on Stang-Holm.

The Norwegian Government has given notice, that a Fixed Light has been established on Stang-holm, on the south-east coast of Norway, to light the southern passage to the harbour of Osterriisör, and that it would be first exhibited on the 27th of October instant.

The Light is a fixed *Red* channel light; it is placed on the eastern point of the island of Stang-holm, at an elevation of 34 English feet above the sea, and will be visible 10 miles in clear weather from N. $\frac{3}{4}$ E. round easterly to S. $\frac{1}{4}$ W.

The lighthouse stands in lat. $58^{\circ} 42' 40''$ N., and long. $9^{\circ} 15'$ east of Greenwich.

Vessels approaching from the south-west, by keeping this light in sight, will clear the rocks and shoals lying outside of Fisund.

To clear the shoals lying about two cables' length south of Little Stang-holm, on the east side of the passage, masters of vessels, when

within four cables' length of the entrance, must take care not to bring the light more westerly than N.W. by N.

After having passed the light in proceeding towards Osterriisör, the mariner will observe that the limits of the light in that direction do not fall more westerly than about half a cable's length clear of Tangen, the most southern part of the town of Osterriisör.

TREASURY WARRANT.

Whereas by an Act, passed in the fourth year of the reign of Her present Majesty intituled, "An Act for the regulation of the duties of postage," power is given to the Commissioners of Her Majesty's Treasury from time to time by Warrant under their hands, to alter and fix any of the rates of British or inland postage, payable by law on the transmission by the post of foreign or colonial letters, or newspapers, or any other printed papers, and to subject the same to rates of postage, according to the weight thereof and a scale of weights to be contained in such Warrant, and from time to time by Warrant as aforesaid, to alter or repeal any such altered rates and to make and establish any new or other rates in lieu thereof.

And whereas it is expedient, that regulations should be made for the transmission by the post of the letters hereinafter mentioned.

Now we the Commissioners of Her Majesty's Treasury, in exercise of the power or authority in us, for such purpose vested in and by the said Act, and of all other powers enabling us in this behalf, do by this Warrant (under the hands of two of us, the said Commissioners, by the authority of the statute in that case made and provided) order and direct, that on every letter not exceeding half an ounce in weight, transmitted by the post, between any place in the United Kingdom

and any port in the East Indies (direct or through any other Colony or through any foreign country), there shall be charged and taken in lieu of any rates of British postage, now payable by law on such letters, an uniform British rate of sixpence.

And we do further order and direct, that on every letter not exceeding half an ounce in weight, transmitted by the post between any port in the East Indies and any other of Her Majesty's colonies, or any foreign country through the United Kingdom (whether through any colony or foreign country, or not) there shall be charged and taken in lieu of any rates of British postage, now payable by law on such letters, the rates of British postage following ; that is to say :

For the conveyance of every such letter between the East Indies and any part of the United Kingdom, a rate of sixpence, and for the conveyance of every such letter between the port in the United Kingdom, of the departure or arrival of the packet or ship conveying the same, and the colony or foreign country to or from which the same shall be forwarded, such a further or additional rate of postage as shall from time to time be charged and payable for British postage on letters posted or delivered at the port in the United Kingdom, of the departure or arrival of the packet or ship conveying the same, and transmitted direct between such port and any such colony or foreign country.

And we do further order and direct, that on every letter transmitted, as is mentioned in this Warrant, exceeding half an ounce in weight, there shall be charged, taken, and paid progressive and additional rates of postage as follows ; that is to say :

On every such letter exceeding half an ounce in weight, and not exceeding one ounce in weight, two rates of postage.

On every such letter exceeding one ounce, and not exceeding two ounces in weight, four rates of postage.

On every such letter exceeding two ounces, and not exceeding three ounces in weight, six rates of postage.

And on every such letter exceeding three ounces, and not exceeding four ounces in weight, eight rates of postage.

And for every ounce in weight above the weight of four ounces, there shall be charged and taken two additional rates of postage, and every fraction of an ounce above the weight of four ounces, shall be charged as one additional ounce, and each progressive and additional rate chargeable under this clause, shall be estimated and charged at the sum which any such letter would be charged with under this Warrant if not exceeding half an ounce in weight.

And we direct that in all cases in which any letter in respect of which any rate of postage is chargeable by this Warrant, shall pass through a foreign country, any foreign postage payable thereon shall be charged and paid thereon in addition to the British postage.

And we do further order and direct that nothing in this Warrant contained shall in any wise prejudice or affect the privilege granted by the said recited Act in favour of petitions and addresses forwarded to Her Majesty by the post; nor the privilege granted by the same Act to members of each House of Parliament to receive by the post petitions and addresses to Her Majesty; and petitions addressed to either House of Parliament not exceeding thirty-two ounces in weight, exempt from postage; nor shall anything in this Warrant contained, in anywise prejudice or affect the pri-

vilege which seamen and soldiers employed in Her Majesty's service, and seamen and soldiers employed in the service of the East India Company, now by law enjoy, of sending and receiving by the post, letters not exceeding half an ounce in weight, subject to the regulations and restrictions in respect of the same.

And we do further order and direct that nothing in this Warrant contained shall be deemed or construed to extend to any letters or packets posted in or addressed to France, or any foreign country through France, and transmitted between France or foreign countries through France, and the East Indies, all which last-mentioned letters and packets shall be charged and chargeable with the same rates of postage as if this Warrant had not been signed.

And we do further order and direct that nothing herein contained shall be deemed or construed to repeal, alter, or affect any of the rates of postage fixed on books, publications, or works of art, by a certain Warant under the hands of two of the Commissioners of Her Majesty's Treasury, bearing date the 23rd day of January, 1855, which respective rates shall continue payable and in force as if this Warrant had not been signed.

And we do further order and direct that the term "by the post," used in this Warrant shall, as to the sea conveyance, include the conveyance by any British or Colonial or foreign packet boat, (packet boats belonging to, or employed by or under the Government or Post Office of the United States of America, and French Mediterranean packet boats excepted) and also the sea conveyance by any private ship; and that the term "East Indies" used in this Warrant, shall be construed to mean every port or place in Asia, within the limits of the charter of the East India

Company (China, the Mauritius, Java, Borneo and Australia excepted); and that the several other terms and expressions used in this Warrant shall be construed to have the like meaning in all respects as they would have had if inserted in the said recited Act.

And we further direct that this Warrant shall come into operation on the first day of February, 1856.

Provided lastly, and we hereby declare and direct, that it shall be lawful for the Commissioners for the time being of Her Majesty's Treasury, or any two of them, by Warrant under their hands, at any time hereafter to alter or repeal any of the rates hereby altered, or the regulations hereby made, and to make and establish any new or other rates or regulations in lieu thereof, and from time to time appoint at what time the rates that may be payable are to be paid.

FROM THE
SUPPLEMENT

TO THE

LONDON GAZETTE of NOVEMBER 20,
1855.

Admiralty, November 20, 1855.

DESPATCHES, of which the following are copies, have been received from Rear-Admiral Sir Edmund Lyons, Bart., G.C.B., Commander-in-Chief of Her Majesty's Ships and Vessels in the Mediterranean and Black Sea.

Royal Albert, off Sevastopol,

SIR, *November 6, 1855.*

The accompanying copy of a letter from Captain Sherard Osborn, of the *Vesuvius*, with

its several enclosures, will place the Lords Commissioners of the Admiralty in possession of a detailed account of the active and energetic proceedings of the squadron in the Sea of Azoff, under the command of that valuable officer.

The enterprize, which was undertaken and so successfully carried out by Commander J. E. Commerell, of the *Weser*, in crossing the Isthmus of Arabat, and in destroying a large quantity of forage on the Crimcan shore of the Sivash, reflects great credit on that officer, and adds still further proof of his having deserved that promotion which their Lordships have lately been pleased to confer upon him. The gallantry of William Rickard, Quartermaster of the *Weser*, deserves to be particularly mentioned; and I beg leave to recommend him to their Lordships' favourable consideration for the medal and gratuity for distinguished service.

Lieutenant Geo. F. Day, commanding the *Recruit*, has also displayed his usual activity and zeal in harassing the enemy on the north-east coast of the Sea of Azoff; and I regret to find that his foot has been severely injured by the recoil of a gun.

I am, &c.,

(Signed) EDMUND LYONS,
Rear-Admiral and Commander-in-Chief.

The Secretary of the Admiralty.

Her Majesty's ship Vesuvius,

SIR,

At Sea, October 25, 1855.

I am now returning westward towards Ghe-nitch, having been employed with Her Majesty's ships named in the margin,* since the 9th Octo-

* *Curlew, Recruit, Ardent.*

ber, 1855, along the north coast of this sea as far as Taganrog.

On Crooked Spit, as well as Bielosarai or White House Spit, the enemy had established a large force in the remains of the old fishing establishments, and constructed a series of rifle pits and breastworks, from which they opened fire upon any of our vessels taking shelter under those points; and as the enemy had a number of boats with them, with which they could easily board a vessel in distress, I thought it right to destroy the latter and dislodge the men.

The Recruit, Lieutenant Geo. F. Day, came in collision with them on the 15th instant, and although he could not dislodge the riflemen, he succeeded in destroying seven launches and five large fisheries, in spite of the enemy's cavalry and infantry.

Lieutenant Day, I am sorry to say, received a severe injury of the foot, by the accidental explosion of an 8-inch gun, but he speaks in high terms of the satisfactory manner in which Mr. Wm. Parker, Second Master of the Recruit, executed the service entrusted to him.

On the 20th October the Ardent, Lieutenant Hubert Campion, drove in a large force of cavalry which attempted to prevent him approaching Crooked or Krivaia Spit, and he likewise destroyed three boats.

On the 24th October, the weather was sufficiently favourable to enable me to get the Vesuvius close enough to force the enemy from their rifle-pits upon the Bielosarai Spit; at 1 P.M., the small-arm men and marines of this ship landed, under Lieutenant Chetham H. Strode, Mr. R. R. Armstrong, Mate, and Mr. H. D. R. Farquharson, Midshipman, supported by the ship and boats.

Directly the enemy saw their escaped threatened,

they beat a rapid retreat, though fully 150 in number, and effected their escape by a superior knowledge of the paths through the swamps.

Lieutenant Strode then destroyed their posts, which had been recently re-constructed; they were eight in number, and calculated to house 200 men; besides these, eleven fine boats and an extensive fishery were set fire to, near the town of Altı.

The Recruit, Lieutenant Day, at the same time destroyed, in the neighbourhood of Marianpol, two large fisheries and some fine launches, mounted on regular travelling land-carriages, and in the evening we were complete masters of the only portion of the coast the enemy have attempted to re-establish themselves upon; and as the frosts have already set in, I am in hopes that they will not be able to recover their ground before next spring.

The extraordinary efforts made by the enemy to prosecute their fisheries upon this coast, are the best proof of their importance.

They sometimes move down two or three hundred soldiers, who escort large launches placed upon carriages and arabas drawn by oxen laden with nets and gear, as well as fishermen to work them.

The fish directly they are caught are carted off into the interior; and when it is remembered that we have destroyed some hundred and odd launches upon one spit alone, some idea can be formed of the immense quantity of fish consumed on this coast; and in proof of its being a large item in the sustenance of Russian soldiers, I would remind you that hundreds of tons of salted and dried fish were found and destroyed by us in the first destruction of the military depôts at Ghenitch in May last.

This report is closed at Ghenitch, where I had

the satisfaction of learning, as the enclosed letter from Lieutenant Commerell will shew, that he had succeeded in destroying a large collection of forage and corn at the entrance of the Solgar or Kara-Su River.

The zeal and enterprize displayed by Lieutenant Commerell on this occasion, as well as whenever any service has to be performed, is most conspicuous ; and his judgment in seizing the only good opportunity that has occurred for some time to cross Arabat Spit, and traverse the Putrid Sea, deserves to be particularly called to your notice. The Quartermaster, William Rickard, praised so highly by Lieutenant Commerell, was one of my boat's crew. I fully concur in the high character given of him.

I have, &c.,

(Signed) SHERARD OSBORN,

Captain and Senior Officer in the Sea of Azoff.

Rear-Admiral Sir Edmund

Lyons, Bart., &c., &c., &c.,

G.C.B.

Her Majesty's steam gun-vessel Weser,
Genitchi, 12th October, 1855.

SIR,

I have the honour to inform you that on the evening of the 10th instant, I determined, in obedience to your discretionary orders, to launch a boat across the Spit of Arabat, and destroy large quantities of corn and forage, stored on the banks of Kara-Su and Salghir Rivers, on the Crimean shore of the Sivash ; the proximity of a guard house and signal station, also the distance the corn lay from the beach, rendering anything but a night surprise impracticable.

Having left the Weser in charge of Mr. Haswell, Second Master, and accompanied by Mr.

Lillingston, Mate, a Quartermaster, and two seamen, assisted by a party, we hauled a small prize boat across the spit, embarked in her, and at half-past four A.M., reached the opposite side.

Landing with the petty officer and one man, I forded the above-mentioned rivers, and at a distance of about two miles and a half from the boat, arrived at the corn and forage we were in search of, staked on the banks of the Salghir River, evidently for transmission by water, as the river was perfectly navigable for barges, the sides being cut, and towing paths on either bank.

In a short time the forage and corn, amounting to about 400 tons, was totally destroyed, not however without alarming the guard, and from 20 to 30 mounted cossacks, who were encamped in a village close at hand. On our retreating, we were so hard pressed by them, that, but for the circumstance of the last 200 yards being mud, and the cover of rifles from Mr. Lillingston, and a man who remained in the boat, we could hardly have escaped capture. Having re-crossed the Spit, we returned to the Weser by 8 A.M.

I must bring to your notice the excellent behaviour of the small party who accompanied me, more especially that of William Rickard, Quartermaster, who, though much fatigued himself, remained to assist the other seaman, who, from exhaustion, had fallen in the mud, and was unable to extricate himself, notwithstanding the enemy were keeping up a heavy fire on us, at the distance of 30 or 40 yards, as we crossed the mud.

Trusting my proceedings will meet with your approval,

I have, &c.,

Lieutenant Commanding.

Her Majesty's ship Recruit, off

SIR, *Berdiansk, October 18, 1855.*

I have the honour to forward you a report of my proceedings since leaving Her Majesty's ship *Curlew* at this place on the 15th. According to my orders, I steered for my cruising ground between the Dolga Bank and Whitehouse Spit. When off the latter place, observing a number of men and boats engaged in fishing, and also that many large fishing store-houses had been built since my last visit here on the 14th of last month, I hauled close in to the shore, anchoring the *Recruit* about 700 yards off, with the intention of landing with my boats and destroying all I could, as soon as I had driven back the troops, who were coming down in great numbers, both cavalry and infantry, to prevent us; the former we soon disposed of, but the latter, scattering themselves about in two or threes, threw themselves on the ground, creeping along so that we could not see them to stop their advance with our shells from the ship; I therefore resolved to land at once, in hopes, by the quickness of our movements, to get our work over before they could possibly close on us. Unfortunately for me, I regret to say, that whilst directing the pointing of an 8-inch gun to where I believed some of these riflemen to be (just as I was on the point of going into the boat to land), the gun, from some unaccountable cause, went off, and, in recoiling, the whole weight of both gun and carriage came down on my left foot, injuring it very severely and breaking several bones, which I fear will lay me up for some time.

I was thus rendered incapable of landing, so sent Mr. Parker, Second Master of this ship, on shore in charge of the boats and landing party,

1855.

9 I

who succeeded in carrying out my instructions as to the destruction of all the boats there (seven in number), many new fishing nets of great length, five large new fishing establishments, full of quantities of fishing tackle and other gear: this service he performed in a most gallant manner, and much to my satisfaction, as they were the whole time exposed to a very smart and annoying fire from the enemy's concealed infantry (at a very short distance), who, in spite of our fire from the ship, had managed to creep down close to them, favoured by the inequality of the ground and the long grass, so that our party had to make a long detour (covered by a hot fire of rifles from the Recruit) to prevent them being cut off, and to get to their boats. The Russians kept up a constant fire of rifles from the lighthouse, in which they had succeeded in lodging themselves, upon the boats, and then upon the ship, which we returned with rifles only, and I think to some purpose, until we weighed and shifted further out. Not a man was hit, though ship and boat were many times. As I did not wish to injure the lighthouse, I did not attempt to fire, so as to dislodge them, with shot or shell from the guns.

The 17th I stood along the spit to see if any more boats or nets could be found along the shore where I could destroy them, as also to drive away a number of troops I saw hidden beyond some banks, and at the same time to try and set fire with carcasses to a number of new stores, built on the broad part of the spit high up but too far off for me with my small force to attempt to land and destroy.

I could see no more boats, but their perseverance in thus rebuilding these houses, boats, and nets, with the fact of so many troops being

there to protect them, tells its own tale, that they must be much in want of provisions.

I have, &c.,

(Signed)

GEO. F. DAY,

Lieutenant-Commander.

Captain Osborn, Senior Officer.

In consideration of the services mentioned in the above Despatches—

 SUPPLEMENT
 TO THE
LONDON GAZETTE of NOVEMBER 27,
 1855.

War-Department, November 27, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by Sir Wm. Codrington.

Sevastopol, November 13, 1855.

MY LORD,

Having so lately assumed the command of the Army, I have not sufficient materials, nor do I consider it necessary to write a separate despatch.

The return of the troops from the expedition against Kinburn was announced to your Lordship by electric telegraph, on the 3rd instant.

I do myself the honour to transmit the copies of reports received from Brigadier-General Honourable A. Spencer, giving a more detailed account of the proceedings of the force under his command than he had hitherto been able to make, and two reports from Brigadier-General Lord George Paget, with an account of two reconnaissances that were made by the allied cavalry from Eupatoria.

I have, &c.,

W. CODRINGTON,

General Commanding.

The Lord Panmure, &c., &c., &c.

Enclosure 1.

Her Majesty's ship Royal Albert,

SIR, *off Sevastopol, November 4, 1855.*

In reporting the return of the Expeditionary Land Force under my command from Kinburn, I am now enabled to make, for the information of the Commander-in-Chief, a more ample report of their proceedings, than in my previously hurried despatch I was able to do.

The landing of the troops, three miles from Kinburn Fort, was effected without opposition on the 15th October. Owing to a heavy surf there was considerable difficulty in it, but the infantry were all on shore by 11 o'clock (it commenced at 8 A.M.), and from the activity of the Royal Navy employed, the cavalry and most of the artillery were landed in the course of the day, though the first portion of the commissariat was only landed, and with great difficulty, on the evening of the second day.

The whole force was very shortly in position. The orders I had received from the French General Bazaine were, to protect with the English troops the right flank from any attack the enemy might make, for the relief of the garrison, from Nicolaieff or Cherson; whilst the French line was to be in our rear but facing the fort.

The ground I occupied was about a mile in extent; the regiments were deployed into line, every advantage being taken of the nature of the ground, which was undulating.

The tents were pitched in rear of the battalions as they arrived from the landing-place. The regiments were employed immediately after landing in entrenching their own fronts, thus making our general line of field works from the sea on either side. A work was also thrown up in the

course of the following day, on the left flank of the line to be occupied by field pieces or by ship guns, should the fort not fall immediately. The nature of the ground rendered any assistance from the allied gun-boats impossible.

The French had hastily thrown up a place d'armes in rear of our right, from which a re-embarkation, if necessary, might have been satisfactorily accomplished.

The bombardment from the ships commenced on the afternoon of the 15th, but from the state of the weather it was discontinued; and on the 16th they were unable to resume it from the same cause.

By the morning of the 17th, the field works thrown up by the troops were, as far as circumstances would admit of, very defensible, although too extensive. The outlying pickets had also thrown up small entrenchments at their respective posts; that morning at daybreak I made a reconnaissance with the detachments of French and English cavalry and the 57th Regiment. The weather becoming thick the infantry returned after a march of four miles out. The cavalry proceeded to the village of Paksoffka, a few miles further, which they found deserted: at 10 A.M. the ships opened fire, and at three o'clock the forts surrendered, with about 1,400 prisoners; 17 officers, and 739 men were given over to me by General Bazaine, and were subsequently sent on board Her Majesty's ship *Vulcan*, to proceed to Constantinople. On the following morning the forts at Ochakoff were blown up by the enemy. French and English Commissioners were appointed for the taking over of the material found in the forts of Kinburn, and for the temporary division of the place. On the 19th, I moved the English camp to the immediate neighbourhood of the fort, and

occupied the southern shore; the ground is here nearly level with the sea, and so perfectly smooth that it is easily protected by ships on both flanks. On the 20th the English force, with the exception of the 21st Regiment, who were left to do the duties at Kinburn, joined the French in a reconnaissance under General Bazaine. The troops carried three days' provisions, and the Commissariat were able to carry three more. We halted and bivouacked that night at the village of Paksoffka, about eight miles' march of sandy soil. The French occupied a village at a short distance. We had no tents, but the weather was fine, and there was plenty of wood and hay, and a large supply of cabbages and other vegetables. The inhabitants had all left. On the 21st, halted. The following day, with the cavalry, artillery, and three battalions, I accompanied General Bazaine, with a part of the French force, to the village of Skadoffka, about five or six miles; country very open, with occasionally deep sand; always plenty of water in the villages. Having burnt the village, we returned that day to Paksoffka. The detachment of Carabineers, under Captain Wardlaw, had pushed on by my direction to a village about three miles further, where they found inhabitants, who told them that some Russian cavalry had left them that morning.

On the 23rd the whole force returned to Kinburn. On the march our rear was threatened by about 250 of the enemy's cavalry, who, however, soon retired. On the 27th the cavalry and artillery were embarked, and on the 30th the whole of the infantry returned to the Crimea, leaving French troops to garrison the fort.

I cannot speak too highly of the assistance I have received from the co-operation and counsel of Admiral Sir Edmund Lyons, and of the sup-

port afforded me by him and the Officers of the Royal Navy under his command,—to whose excellent arrangements, for the landing and re-embarkation of the troops, I have been much indebted.

I beg to assure the Commander-in-Chief of the great satisfaction I have felt in serving under the orders of General Bazaine in this expedition.

I have received every assistance from Colonel Hurdle, Royal Marines, who commanded a brigade (2 battalions Royal Marines and 63rd Regiment); 500 marines were added, through the consideration of Sir Edmund Lyons, to this force.

Also from Colonel Lord West, 21st Fusiliers, commanding a brigade (17th, 20th, 21st, and 57th Regiments); who mentions his Brigade-Major, Captain Earle, 57th Regiment, and his Aide-de-Camp, Captain Carleton, 21st Fusiliers. Colonel Hurdle mentions Captain Rodney, Royal Marines, and Captain Ellis, Royal Marines, his Brigade Major and Aide-de-Camp.

I was also ably supported by Brevet-Major Best, commanding Royal Engineers; Captain Johnson, commanding Royal Artillery; Captain Wardlaw, commanding detachment 6th Dragoon Guards; Brevet-Major Gordon, commanding 17th Regiment; Captain Gray, commanding 21st Fusiliers; Lieutenant-Colonel Evelegh, commanding 20th Regiment; Lieutenant-Colonel Warre, commanding 57th Regiment; Lieutenant-Colonel Lindesay, commanding 63rd Regiment; Lieutenant-Colonel Campbell, commanding battalion Royal Marines; Lieutenant-Colonel Holloway, commanding battalion Royal Marines; Brevet-Major Smith and Brevet-Major Hallewell, Assistant Adjutant and Quartermaster-Generals, were of great use to me; as also my personal

Staff, Captain Robinson and Captain Baillie, 44th Regiment; and Lieutenant St. Clair, 4th Regiment, acting as interpreter.

Dr. Gordon, Principal Medical Officer, Deputy Assistant-Commissary-General Power, Captain Clavell, Royal Marines, acting as Provost Marshal, and Lieutenant Young, Land Transport Corps, were all most zealous in their several departments.

I have, &c.,
(Signed) AUGS. SPENCER,
Brigadier-General.

To the Quartermaster-General,
 &c. &c. &c.

Enclosure 2.

SIR, *Eupatoria, October 30, 1855.*

I have the honour to report that the allied forces stationed here, disposed as per margin,* marched on the small town of Sak, on the morning of the 27th instant, under the command of General of Division D'Allonville.

* 1st Column, under the command of Mushir Achmed Pasha:—

Division of Turkish and Egyptian Infantry, each with a battery of Artillery.

1 brigade of Turkish Cavalry, with a troop of Horse Artillery.

2nd Column, under the command of General of Division de Failly:

A section of French Engineers.

9 battalions of French Infantry.

2 battalions of Artillery.

3rd Column, under the command of General of Division D'Allonville, Commander-in-Chief:—

A brigade of Turkish Cavalry (Ali Pasha)

Division of French Cavalry, with its troop of Horse Artillery (General Esterhazy).

Brigade of British Cavalry, with its troop of Horse Artillery (Brigadier-General Lord George Paget).

At the further extremity of the strand that divides the sea from the lake of Sazik Gualoie (by which route the column marched), the ground rises to the level of the steppe land that universally prevails, On reaching this point the allied cavalry and horse artillery made a rapid advance to the front, for about five miles, in an easterly direction, passing to the left of Sak.

We there found the enemy in much the same position in which we had left them on the 23rd instant, though they had, to a certain extent, entrenched themselves.

General D'Allonville from this point opened a fire with much effect, which continued for nearly an hour, and which was warmly responded to by the enemy.

Captain Thomas's troop of Horse Artillery being supported by the 12th Lancers ; the Carabineers, 4th and 13th Light Dragoons, being in second line in reserve.

The loss to the Allies on this occasion was 30 killed and wounded ; one English Artilleryman having been slightly wounded, two horses killed, and three wounded.

We then withdrew to the town of Sak, where we bivouacked for the night.

At daybreak, on the 28th instant, the cavalry and horse artillery made another advance in rather a more northerly direction (to the south of the village of Temesh), in the endeavour to turn the right of the enemy, or to draw him into action, which, however, he appeared to shew no disposition to respond to, and we consequently returned to our bivouack at Sak, in front of which the infantry had remained to secure our rear.

On this second night there was a total want of water, in consequence of the drain upon the wells the night before, and there was an absence of

water for a circumference of many miles to our front. The column therefore returned to Eupatoria yesterday, the 29th instant.

I beg to report that I have attached Captain the Honourable Charles Keith, 4th Light Dragoons, to General D'Allonville, during the time the troops are in the field, and that I sent Captain Clifton, 12th Lancers, on board Her Majesty's ship Diamond, to assist Captain Hamilton, R.N., in his operations.

I have, &c.,
 (Signed) GEO. PAGET,
 Brigadier-General, Commanding British
 Troops at Eupatoria.

*To his Excellency,
 The General Commanding-in-Chief.*

Enclosure 3.

*Eupatoria,
 November 3, 1855.*

SIR,

I have the honour to report that a portion of the allied troops stationed here, under the command of General of Brigade Ali Pasha, strength as per margin,* were sent yesterday to the village of Tchotai, fifteen miles to the north of Eupatoria, in consequence of information of some stores of hay, live stock, &c., having been collected there by the enemy.

The two squadrons of the 12th Lancers with this force, were commanded by Lieutenant-Colonel

* Under the orders of General of Brigade Aali Pasha:—
 Bashi Bazouks.

2 Regiments of Turkish Cavalry.

2 French squadrons (Hussars).

2 English squadrons (Lancers).

Tottenham of that regiment, whose report I have the honour to enclose, and by which it will be gratifying to observe, that this operation met with the most complete success.

The remainder of the allied forces here made at the same time a demonstration to the right of this village, for the purpose of drawing off the attention of the enemy; the English Brigade of Cavalry advancing as far as Yultschuk, the French on their right.

Colonel Pole, 12th Lancers, was in command, an attack of fever having for some days confined me to my bed, and he reports that no enemy made its appearance in any force.

I have, &c.,

Brigadier-General, Commanding British
Troops at Eupatoria.

*To his Excellency,
The General Commanding-in-Chief.*

Enclosure 4.

MY LORD, *Eupatoria, November 3, 1855.*

I have the honour to report that, agreeably to Brigade Orders of the 1st instant, I proceeded at 4 A.M. yesterday, in command of two squadrons of the 12th Royal Lancers, to join the force under Ali Pasha, ordered to assemble in front of the Turkish cavalry camp.

At daylight we marched through Alchir to Tchotai, a village about 15 miles from this. The Turkish cavalry were in advance, supported by the English and French squadrons. We arrived at Tchotai about half-past eleven, and captured 1 Russian Commissariat Officer (as it is supposed), 1 Cossack, about 40 arabas, and about

3000 head of horses, camels, oxen, and sheep ; 3 Russian carriages were also brought in, and a considerable number of the inhabitants of the village.

We started on our return at half-past one, having set fire to the villages and destroyed 30 large ricks of hay. We arrived in camp about 8½ P.M. ; no resistance was offered by the enemy.

I have, &c.,

(Signed) W. H. TOTTENHAM,
Lt.-Colonel, 12th Royal Lancers.

*Brigadier-General Lord George Paget,
Commanding the Light Brigade,
Eupatoria.*

FROM THE
SECOND SUPPLEMENT
TO THE
LONDON GAZETTE of NOVEMBER 27,
1855.

War-Department, November 29, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Sir William Codrington, K.C.B.

Sevastopol,

MY LORD,

November 17, 1855.

On the 15th instant, about 3 P.M., a terrific explosion shook the camp of the army and spread

heavy destruction in the immediate neighbourhood of its force; even here, at Head-Quarters, two and a half miles perhaps distant, it burst open and broke windows, all felt the power of it, and the high column of smoke, with shells bursting in the midst and around it, told too well the cause, and showed the danger of all within its reach.

It was not long before we were on the spot: to the sudden burst had succeeded a continued and dark drift of smoke, which told its tale of continued fire and of danger; constant bursting of shells was going on, and the ground was covered with bits of wood, musquet balls, and splinters of shells from the first heavy explosion, which had strewed the ground with destruction, and killed and hurt very many people.

100,000 pounds of powder had exploded in the French siege train, set fire to all the stores there, and to our neighbouring English park where all was fiercely burning, whilst the tendency of the light air at first threatened a second and as serious an accident from powder, not eighty yards off, for the roof of the building had been damaged and the door blown in by the shock.

Some General Officers had fallen in and marched part of their divisions down, others sent some in fatigue, some with stretchers for the wounded, all exerted themselves with the French with an energy and disregard of danger that was admirable; blankets were taken to the exposed store, placed and wetted on the roof by water being passed up in buckets; the doors were covered with wet blankets and sandbags, and in a short time it was reported and looked safe, though the closeness of the fire and frequent explosions could not allow the feeling of security. Many detached though small fires were burning, and the ground of both the French and English parks, a space of 150

yards across, was a mass of large fires, some of fuel, some of huts, some of gun-carriages, boxes, handspikes, and rope.

The fortunately light air had rather changed its direction, and by breaking up and dragging away things, a sort of lane was at last formed, the fires cut off, and gradually got under control, because confined to smaller though fierce fires, but manageable.

I saw every one working well, and I know that French and English took live shells from the neighbourhood of danger to a more distant spot, and at a later period parties threw what earth the rocky soil could give upon the fires, and helped much to subdue them ; all was safe about 7 P.M., and a strong guard and working party posted for the night.

The army was under arms the following morning before daylight, and everything being quiet, I ordered the divisions to turn in, and continue the working parties in the roads, which I had counter-ordered for that morning.

The exploded powder store was situated in the ruins of some walls which had advantageously been made use of for the purpose of shelter ; it had been the store of supply to the French attack on the Malakoff front, and it contained the powder which had been brought back from their batteries.

It is at the head of the ravine, which, as it gets towards Sevastopol, forms the steep and rocky valley of Ravin du Carénage.

The Light Division was on the ground which it first took up in October, 1854 ; the Rifles on the right, then the 7th, the 33rd, and 23rd ; on their left the 34th Regiment, which subsequently joined, was on the right front in advance ; and the vacating of a spot of ground by the Sappers' camp, enable me when commanding

the division to place the Artillery and Small-arm Brigade on the immediate right of the Rifles.

The French subsequently brought their main siege train and store to the position it has now for some time occupied.

Daylight showed the damage, of which I have given your Lordship an outline in another letter.

But the more important and sad part is the loss of life, and the wounded who have suffered.

One officer and 20 non-commissioned officers and men killed ; 4 officers and 112 non-commissioned officers and men, wounded ; with 7* missing, show the sudden and fatal power of the shock, which not only destroyed in its immediate neighbourhood, but wounded, by shell and splinters, some at a distance of three-quarters of a mile.

The loss of our Allies is distressingly heavy.

I have, &c.,

W. J. CODRINGTON,

General Commanding.

The Lord Panmure, &c. &c. &c.

FROM THE
LONDON GAZETTE of *NOVEMBER* 30,
 1855.

Foreign-Office, November 29, 1855.

IT is hereby notified, that the Right Honourable the Earl of Clarendon, K.G., Her Majesty's Principal Secretary of State for Foreign Affairs, has received from the Lords Commissioners of the Admiralty an official communication, addressed to them by Captain Baillie, R.N., late Senior Officer of Her Majesty's White Sea Squadron, announcing the raising, by the Allied Squadrons, on and from the 9th October last, of the Blockade of the Russian ports and places in the White Sea, the establishment of which Blockade was notified in the London Gazette of the 17th July last.

Foreign-Office, November 29, 1855.

The Earl of Clarendon has received a Despatch from Major Simmons, Her Majesty's Commissioner attached to the army of Omer Pasha in Asia, of which the following is a copy :

Camp, Shangwano,
 7th November, 1855.

MY LORD,

I have to inform your Lordship that Omer Pasha, having collected a depôt of provisions at Tchimshera, moved on by the sea-coast to the mouth of the River Ertiss-Tchal, where a standing bridge was immediately constructed for the passage of the troops. The advanced guard, consisting of 16 battalions of infantry and 3 battalions of chas-

seurs under Lieutenant-Colonel Ballard, the whole commanded by Ferhad Pasha (Baron Stein), moved on the 28th of October to the village of Ertiss-zkalsk.

From that day until the 1st November, his highness was occupied in sending up provisions to the advanced guard, in moving other troops to support it, and in establishing depôts at Godova, at the mouth of the Ertiss-Zchal, whence to provision his army for a forward movement.

On the first instant, the advanced guard moved about ten miles forward, having its advanced posts on the River Ingur, opposite an old ruined castle called Rooki, on the road to Sugdidi.

His highness joined the advanced guard himself on the 3rd instant, his total force consisting of 4 brigades (32 battalions) of infantry, 4 battalions of chasseurs, and 1,000 cavalry, with 27 field pieces and 10 mountain guns, or in all about 20,000 men; the remainder of his force, about 10,000 men, being employed to protect the depôts at Godova, Tchinshera, and Soukoum.

On the 4th instant, his highness commenced constructing batteries on the right bank of the Ingur, with the view of menacing the enemy by the ford at Ruki. These batteries were armed on the following night, and opened their fire on the morning of the 6th instant, about noon. On the same morning his highness moved 3 brigades of infantry (24 battalions) with 3 batteries, with an advanced guard of $3\frac{1}{2}$ battalions of chasseurs and four guns, under the command of Colonel Ballard, down the right bank of the river, a distance of about seven miles, where a branch of the river was forded to an island, which is some miles in length, and from a half to two miles wide.

After proceeding along this island for about two miles some Mingrelian militia were encoun-

tered near a ford, which crosses from the island to the left bank of the river ; they speedily retired, when the enemy opened a fire of artillery and a heavy fire of musketry from the intrenchments on the left bank, thrown up for the protection of the ford.

It very soon became evident, that to force a direct passage at this ford would be a very difficult undertaking.

His highness, therefore, while occupying the enemy at this ford, sent officers to the right and left, and fords were discovered in both directions ; one about three quarters of a mile above or to the left of the main ford, the other about one mile and a half below or to the right of the main ford.

Troops were immediately sent to pass these fords ; that to the left was unprotected. The passage was made by two battalions of infantry and three companies of chas3eurs by about 4 P.M. His highness having entrusted me with this command I moved them by a waggon track through the forest unperceived by the enemy, until within about 600 yards of the position at the main ford, which his troops were occupied in defending from a direct attack. The Turkish troops advanced readily to the attack, taking the enemy and his intrenchments in reverse.

The enemy immediately fell back, and attempted to break through the Turks in column, but being met by a heavy fire in their front and on both flanks, they broke and dispersed in the forest, leaving us masters of the field, with 3 pieces of their field artillery and 6 ammunition waggons in our possession. At the moment that the Russian columns attempted to break through our line, I grieve to say that my aide-de-camp, Captain Dymock, 95th Regiment, having first had his horse killed under him, was wounded close by my

side, encouraging the Turkish troops. He died soon afterwards. His death is to be deplored, as Her Majesty has lost in him the services of a most promising and brave young officer, for whom his highness Omer Pasha has frequently expressed to me his high esteem. This young officer had accompanied me from the commencement of the war in Turkey.

Whilst this operation was proceeding on the left, a brigade moved down to the right, under Osman Pasha, and forced a passage in front of a force believed to be of 4 battalions, but without artillery and not entrenched. This operation succeeded; and soon after dark the Turkish forces on the left bank were in communication from right to left, and complete masters of that side of the river throughout this length.

The loss on the side of the Turks has been 310 killed and wounded, of whom 68 are killed, and 4 missing.

His highness has been pleased to express himself in terms of the highest satisfaction of the conduct of the British officers who accompanied his force. Lieutenant-Colonel Ballard conducted the advanced guard, and sustained a very heavy fire from the enemy at the principal ford, about 100 yards wide, from noon until dark at 5 P.M., occupying the enemy until his position was turned by the Turkish left.

Captain Caddell also rendered good service, attached as Second Senior Artillery Officer to that branch of the service. His interpreter was killed.

The loss on the side of the enemy has not yet been ascertained, but up to the present time (noon) 347 have been buried, of whom eight officers, among which the prisoners report there are two colonels.

The prisoners report that there were eight battalions of infantry, besides a great number of Mingrelian militia opposite the main ford.

I am, &c.,

*Board of Trade, Whitehall,
December 3, 1855.*

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from Her Majesty's Consul-General at Leipzig, reporting the appearance of an Imperial Decree in the Gazette of Saint Petersburg; prohibiting the exportation of corn and grain from the whole European frontier of Russia, as well as from the Kingdom of Poland, wheat however being allowed to be exported from the Customs' stations of the latter country.

*Board of Trade, Whitehall,
December 3, 1855.*

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from Her Majesty's Consul-General at Hamburg, forwarding a translation of a further notification respecting the levying of a rate on ships, in consequence of the completion of the deepening of the Trave and its estuary of which the following is a copy :—

Whereas in the notification of the 29th of February, 1840, respecting the levying of a rate in consequence of the measures taken for deepening the Trave and its estuary, a proviso having been made for raising this rate after the completion of the works executed in conformity with the plan for the regulation of the river, and the Senate in accordance with the Commoners (Bürgerschaft) having decided that the said works being now completed, the rate in question shall be raised, the Senate, conformable to this joint decision, annulling at the same time the dispositions contained in the notification of the 29th of February, 1840, hereby decrees and publicly makes known as follows :

1. From this 1st of January, 1856, all sailing vessels and steamers of more than 30 lasts burden, arriving or leaving here, will have to pay the rate levied for deepening the Trave, according to the following tariff :—

- A. Laden, 6 schilling per last of 4120 lbs.*.
- B. Exceptionally when laden with timber,
4 schilling per last of 4120 lbs.

* 13 schilling currency = 1 shilling sterling.
1 Lübeck lb. = 1·07 lb. avoirdupois.

C. In ballast or empty, 2 schilling per last of 4120 lbs.

2. The rate will be collected by the Customs and Excise Department, according to the tonnage ascertained by Lübeck measurement, and the certificate of measurement granted thereon, conformable to the instructions annexed to the decree of the 30th of January, 1850, respecting the measurement of sea-going vessels, and has to be paid on entry and departure, and by sailing vessels at the same time as the tonnage dues.

3. Ships laden to not more than one-tenth part of their total capacity pay as empty ships, two schilling per last.

Ships which, besides timber, are also partly laden with other goods, pay, when such goods fill a space not exceeding one-tenth of the total capacity of the vessel, the rate of timber-laden ships, four schilling per last.

Whoever lays claim to one of the two exceptional cases above mentioned, has to certify the same to the Customs and Excise Department ; for which, as a rule, the bill of lading for inward, and a ship broker's certificate for outward bound vessels, will suffice ; the Customs and Excise Department retaining, however, the right of ordering a search to be made when expedient.

4. Mail packet-ships, and other vessels sailing under state flags, are, as *such*, not subjected to the rate levied for deepening the Trave ; but mail packet-ships, carrying passengers or goods, will have to pay the rate conformable to the above regulations.

And also the following translation of a Supplement to the above Notification :

The regulations contained in the Notification of

the 29th February, 1840, relative to the rate for the deepening of the Trave, together with the dispositions respecting the *Dredging* dues, taken from the said notification, and incorporated (under 7) in the Decree of the 30th of January, 1850, respecting the shipping dues for sea traffic and the passage on the Lower Trave, shall, upon and from the 1st of January, 1856, *cease to operate* (be repealed).

INVESTITURE of HIS MAJESTY, VICTOR
EMMANUEL, KING OF SARDINIA,
WITH THE ENSIGNS OF THE MOST NOBLE
ORDER OF THE GARTER.

At the Court at Windsor Castle, December 5,
1855.

A CHAPTER of the Most Noble Order of the Garter having been summoned for this day, the following Knights Companions, in their mantles and collars, assembled in the Guard Chamber; viz.: the Marquess of Exeter, the Duke of Richmond, the Marquess of Lansdowne, the Duke of Cleveland, Earl De Grey, the Marquess of Abercorn, the Marquess Camden, the Earl of Clarendon, Earl Spencer, Earl Fitzwilliam, the Duke of Northumberland, the Earl of Carlisle, the Earl of

Ellesmere, and the Earl of Aberdeen, attended by the undermentioned Officers of the Order, in their mantles, chains, and badges; viz.: the Bishop of Winchester, Prelate; the Bishop of Oxford, Chancellor; the Honourable and Reverend the Dean of Windsor, Register; Sir Charles George Young, Knight, Garter Principal King of Arms; and Sir Augustus William James Clifford, Baronet, Gentleman Usher of the Black Rod. At three o'clock the Knights Companions were severally called over by Garter, and proceeded into the Grand Reception Room, when the Sovereign, His Royal Highness the Prince Albert, and His Royal Highness the Duke of Cambridge, having passed to the Throne Room, the Knights Companions, with the Officers of the Order, proceeded into the presence of the Sovereign.

The Sovereign being seated in Her chair of State, the Knights Companions took their respective seats at the table, the Prelate standing on the right hand of the Sovereign, the Chancellor on the left hand, the Register, Garter, and Black Rod at the bottom of the table.

The Chancellor then, by command of the Sovereign, promulgated a new Statute, dispensing with the existing Statutes of the Order, in as far as required for the especial purpose therein mentioned, and ordaining and declaring His Majesty, Victor Emmanuel, King of Sardinia, a Knight of the Most Noble Order of the Garter, any statute, decree, rule, or usage to the contrary notwithstanding.

His Royal Highness Prince Albert and His Royal Highness the Duke of Cambridge, the two Senior Knights Companions present, thereupon retired from the Chapter, and conducted the King of Sardinia from His Majesty's Apartments to the Chapter Room, between their Royal Highnesses,

preceded by Garter (bearing the Ensigns of the Order upon a crimson velvet cushion) and by Black Rod.

On entering the Chapter Room, His Majesty was received by the Sovereign and the Knights Companions standing, and on approaching the Sovereign was seated in a Chair of State on the right hand of Her Majesty.

The Sovereign announced to the King of Sardinia that His Majesty had been declared a Knight of the Most Noble Order of the Garter.

Garter then kneeling, presented the Garter to the Sovereign, and Her Majesty, assisted by His Royal Highness Prince Albert and His Royal Highness the Duke of Cambridge, buckled it on the left leg of His Majesty, the Chancellor pronouncing the Admonition.

Garter next presented in like manner, the Ribband with the George, and the Sovereign, assisted as before, put the same over the left shoulder of His Majesty, the Chancellor pronouncing the Admonition.

The Sovereign thereupon gave the Accolade to the King of Sardinia and His Majesty then received the congratulations of each of the Knights Companions present, and resumed his seat.

The Chapter being ended, the Knights Companions were severally called over by Garter, and with the Officers of the Order, retired from the presence of the Sovereign with the usual reverences.

During the ceremony a Guard of the Honourable Corps of Gentlemen-at-Arms was in attendance at the door of the Chapter Room; and a special Guard of Honour of the Honourable Corps was on duty in attendance upon His Majesty the King of Sardinia. A Guard of Honour of the Grenadiers, with the Band of the Regiment,

was on duty in the Great Quadrangle of the Castle.

The Marquess D'Azeglio, Sardinian Minister, together with the following members of His Majesty's suite, viz.: Le Comte de Cavour, Le Duc Pasqua, Le Chevalier Maxime D'Azeglio, Le Chevalier Nigra, Major-Gen. Le Comte Morozzo de la Rocca, Major-Gen. Le Chevalier Luserna D'Angrogna, Major-Gen. Le Chevalier Carderina, Le Chevalier Riberi, Colonel Le Chevalier Cigala Capt. Le Comte De Persan, Capt. Le Comte De Barone, and Capt. Le Comte de Robilant, witnessed the august ceremony.

Their Royal Highnesses the Duchess of Kent, the Duchess of Cambridge, and the Princess Mary of Cambridge, several of the Great Officers of State and Cabinet Ministers, with the Officers of the Royal Household were also present.

At the conclusion of the Chapter, Her Majesty accompanied the King to his apartments, followed by His Royal Highness Prince Albert, and attended by the Ladies and Gentlemen of the respective Royal Suites. Her Majesty and the Prince then returned to their own rooms.

In the evening a State Banquet was given in St. George's Hall to His Majesty, at which were present the above-named Royal, Noble, and Distinguished Personages ; the Knights Companions and Officers of the Order.

During the Banquet Her Majesty drank to the health of Her Illustrious Visitor the King of Sardinia.

Despatches, with enclosures, of which the following are copies, have been received from Admiral Sir Edmund Lyons, Bart., G.C.B., Commander-in-Chief of Her Majesty's Ships and Vessels in the Mediterranean and Black Sea.

REPORTING DESTRUCTION OF CORN, &C., IN
GHEISK-LIMAN.

No. 951.

*Royal Albert, Kazatch Bay,
November 24, 1855.*

SIR,

Their Lordships are aware that when the small gun-boats were no longer required at Kin-

burn, I sent them back to Captain Osborn, to afford him the means of destroying, at the latest period of the season, the harvest of this year, which I understood to be collecting in the neighbourhood of Gheisk-Liman, for the purpose of being transported in the winter months, partly to the enemy's army in the Crimea over the frozen Gulf of Azof, and partly to his army in the Caucasus by the military road.

2. The enclosed copy of a letter from Captain Osborn will show their lordships that in this, as on many former occasions, he has fully justified the confidence I have placed in him. The skilfulness of the arrangements made by him, and the admirable manner in which they were executed by himself, by Commander Kennedy, of the Curlew, and by the officers and men under their orders, completely frustrated the efforts of the large force that was brought against them in defence of the stores, which the enemy appears to have considered safe from any naval attack, in consequence of the shallowness of the water.

3. The effects of this brilliant enterprize, in the destruction of so much corn and forage at the commencement of winter, cannot fail to be severely felt by the Russian armies both in the Crimea and the Caucasus.

4. Commander Kennedy, in reporting his large share in the proceedings of the day in the command of the Curlew, states to Captain Osborn that at one place alone the rows of stacks were six deep and extended two miles, and it appears that for economy in transport and storage the straw was cut near to the ears of the corn.

5. As the ice is now forming on the shores of the Sea of Azof, and the squadron is withdrawn, I feel it to be due to Captain Osborn to record that under circumstances of great difficulty, occasioned

by unusually tempestuous weather, he has most ably continued through the summer, and brought to a successful close in the autumn, operations novel in their nature and extremely detrimental to the enemy, which commenced auspiciously in the spring under the direction of the late Captain Lyons of the *Miranda*; nor is it too much to say, that both commanding officers were supported throughout, by as dashing and as intelligent a band of young officers, seamen, and marines as ever shone in the British Navy.

I am, &c.,

(Signed) EDMUND LYONS,

Rear-Admiral and Commander-in-Chief.

The Secretary of the Admiralty, London.

No. 41. *Her Majesty's steam-sloop Vesuvius,*
SIR, *off Gheisk, November 7, 1855.*

After dark on the evening of the 3rd instant, the squadron under my command was assembled and anchored in 16 feet water, off Gheisk-Liman, and I made arrangements for the morrow to operate against the extensive collection of corn, forage, and fuel, belonging to the enemy, stacked along its shores so as to distract the attention of the large force which, from previous observation I knew to be in the neighbourhood.

Under Lieutenant Ross, of the *Weser*, I placed the *Curlew* in the temporary charge of Lieutenant Miall, and the *Ardent* in charge of Mr. Tilly, Second Master, each vessel having sufficient men left in her to weigh an anchor, or fight a gun, and man a few boats, giving orders to Lieutenant Ross to close in on the northern face of Gheisk, and to be prepared to co-operate with me inside the Liman.

The Vesuvius I left in the offing, denuded of every available person ; embarking officers and men as in the annexed list, from the Vesuvius, Curlew, Weser, and Ardent, with their boats, we left at daylight, towed by Her Majesty's gun-boats,

Recruit, Lieutenant G. Day.

Boxer, Lieutenant S. P. Townsend.

Cracker, Lieutenant J. H. Marryat.

Clinker, Lieutenant J. S. Hudson.

By 6.30 A.M. the flotilla was off Vodina, three miles north of Glofira ; here long tiers of corn-stacks and much fuel was stored along the coast, with a Cossack guard for its protection ; I immediately detached Commander Kennedy with the boats, covering him with the gun-vessels, and in a short time all was in flames, and the party cleverly re-embarked at the moment that a large body of Cossacks rode up from Lazalnite.

The town of Glofira became the next point of attack ; it was greatly changed in appearance since visited by Captain Rowley Lambert in July last. Corn stacks for some miles in extent, might now be seen along its southern and eastern face, placed close to the water's edge ready for transport ; and between the rows of houses tier on tier were to be seen.

An entrenchment had been cut along the edge of the cliff commanding the spit ; large bodies of dismounted cavalry were seen lining it, and armed men shewed in the rear of every house.

To endeavour to flank the defences, as well as destroy the corn stacks stored on a high hill east of Glofira, I despatched Commander Kennedy, with the boats of Her Majesty's ship Curlew, a paddle-box boat and cutter of the Vesuvius, the whole towed by the Clinker, Lieutenant Hudson, with orders to turn the spit end, and then attack in that direction, after giving a certain time to

allow the enemy's attention to be divided by the other attack. The gun-boats Recruit, Grinder, Boxer and Cracker, opening fire on the entrenchments with Shrapnell shell, and on the corn ricks with carcasses.

As the enemy could only be dislodged from the extreme west, and the carcasses did not well answer, and moreover endangered the whole town, I despatched Lieutenants Day and Campion with the small force of marines available, a howitzer boat and two rocket boats, to aid more effectually in carrying out my object.

Lieutenant Campion, with Mr. Verey, gunner, charging at the head of the marines, supported by Lieutenant Day and the seamen, all being under a sharp fire of musketry, succeeded in driving the enemy, with considerable loss, out of their trench work, and captured a small brass piece, and then steadily forced them back, with loss, from store to store, until the whole of the vast quantity of corn, stacked ready for thrashing and transport, was in flames.

The gallant manner in which Lieutenant Campion led the marines deserves to be brought under your notice.

Seeing the enemy collecting a number of men, ready to charge our men if they advanced beyond a ravine on the east face of the town, I recalled my force, and had the satisfaction of seeing all embarked, with only one man wounded.

The vessels off Gheisk were now seen to be engaged, Lieutenant Ross, of the Weser, having placed them in capital positions; and, as the enemy moved down large bodies of troops, especially cavalry, to resist his landing, and opened fire on him, he very unwillingly had to fire on the town, to dislodge them.

The proceedings of Lieutenant Ross were ably

executed, and he fully succeeded in keeping in check a heavy body of cavalry, which might have much incommoded the small force under Commander Kennedy, who, by the most strenuous exertions, had reached his position, and finding the cliff too steep to scale in the face of a large number of troops, who were firing on him from its crest, he very judiciously executed the duty I had entrusted to him, with the gun and the carcase rockets of the ship's boats, setting every store in flames, except one large government building considerably in the rear.

Commander Kennedy speaks in the highest terms of his party, for the shallowness of the water obliged the crews of the boats to be rowing and wading through the water from noon until midnight, the season too being now very cold.

Throughout the night the stores were burning fiercely, a sheet of flames extending fully two miles, but the town of Glofira, *except where the troops had used the houses against us*, remained untouched.

At an early hour on the 6th November, we weighed and proceeded into the Liman, steering towards Gheisk; the valuable services of Mr. George Perry, Acting Master of the Vesuvius, and Mr. Parker, Second Master of the Recruit, came here into play; and, at an early period, I had the satisfaction of seeing all the gun-boats anchored just in their own draught of water, within long gun-shot of the east extreme of Gheisk and the neighbouring steppe, along the edge of which, for four miles, corn and hay was stacked in quantities far beyond what I had conceived to be possible, and at the base of the steppe, as well as that part of the spit commanded by the town, timber yards, fish stores, boats, &c., in numbers were accumulated.

To attack upon as many points as possible was, I thought, the only way to foil the troops that had now had 36 hours to prepare for us; the gun-boats *Grinder*, *Boxer*, *Cracker*, and *Clinker*, were left to cover the landing party. To Lieutenant Ross, of the *Weser*, I signalized to prepare to land, and divided the force in the Liman into three bodies; the left under Lieutenants Day and Townsend, consisted of boats and men of *Recruit* and *Boxer*; the centre I entrusted to Commander Kennedy, having under him Lieutenants Hamilton, Campion, Marryat, and Mayne, with all the boats of the *Curlew*, *Ardent*, *Grinder*, and *Cracker*, and port rocket and gun-boats of the *Vesuvius*, in charge of the officers named in the margin;* the right division under Lieutenant Chetham Strode, and Lieutenant Hudson, consisted of the starboard gun-boats of *Vesuvius*, and those of *Clinker*, together with some marines, Mr. R. Farquharson, Midshipman, in charge of the latter. Lieutenant Ross, on the west side of Gheisk Spit, had the boats and small-arm men of the *Weser*, with a small force from *Curlew* and *Ardent*, under Lieutenant Miall, and Mr. Tilly, Second Master, in readiness to co-operate.

The different parties pulled in and effected a landing at appointed places, fully a mile apart; the Russian troops, within light breastworks, attempted to prevent them, but failed, and in a few moments a screen of flames and smoke rolling from our men towards the enemy, prevented the latter seeing where or how to manœuvre in order to cut off any of our small detachments.

On the right and centre the enemy mustered strongest, and at one time observing a column of

* Mr. Armstrong, Mate; Mr. Scott, Gunner; Mr. Verey, Gunner.

some 1500 Cossacks moving rapidly off the left, I directed Commander Kennedy (who by that time had connected his fires with those of Lieutenant Day) to re-embark all but the marines, and with them to proceed to his right, and I reinforced him with the marines of the Recruit and Weser, under Lieutenant Campion. This answered perfectly; the enemy arrived too late to save anything on the left, whilst our men steadily worked towards the right division, under Lieutenants Strode and Ross, who, in spite of a heavy but badly directed fire from the houses on the heights, steadily held their ground, and effectually destroyed a great accumulation of materials for boats and ship building, fish stores, cavalry camp gear and granaries.

When everything but the town of Gheisk was destroyed, I ordered the embarkation to take place, and detached some boats to cover Lieutenant Ross, between whom and his boat the enemy were throwing a body of men, who, by their uniform, I believed to be regular infantry.

By 2 P.M., everything was finished, and all the parties safely re-embarked on board their respective gun-boats, the casualties amounting to only six men wounded in all, one of them dangerously and another severely.

Nothing further being left within our reach in Gheisk-Linnan, except the store of corn which escaped on the previous day at Glofira, I therefore, ordered Commander Kennedy with the moiety of the boats to return to their respective ships, and remained with the Recruit, Ardent, Boxer, and Cracker's boats to finish what had escaped east of Glofira.

On the 6th the weather, which had favoured us most providentially, changed; fogs and strong breezes came on, but directly I was able, the

rocket boats and carcasses were again employed upon Glofira until the fires extinguished yesterday were re-lighted, and another extensive accumulation of corn in flames; I then weighed and returned to the Vesuvius, reaching her the same afternoon.

I despair of being able to convey to you any idea of the extraordinary quantity of corn, rye, hay, wood, and other supplies, so necessary for the existence of Russian armies both in the Caucasus and the Crimea, which it has been our good fortune to destroy.

That these vast stores should have been collected here, so close to the sea, whilst we were still in the neighbourhood, is only to be accounted for by their supposing that they could not be reached by us, and judging by the position the squadron under the late Captain Edmund Lyons took up in May last, the Russians had established a camp and fortified their town only to meet a similar attack.

During these proceedings we never had more than 200 men engaged; the enemy had, from the concurrent testimony of Lieutenants Ross and Strode, and my own observation, from 3,000 to 4,000 men in Gheisk alone.

Where every officer exerted himself to the utmost, and did all and more than I expected of them it would be invidious for me to mention one more than another; it was their coolness, zeal, and example that rendered steady many of the younger men, who for the first time were under fire, and but for their general intelligence and zeal, the enemy would have easily frustrated our operations.

The zeal, good conduct, and gallantry of the meu was deserving of every praise.

Commander Kennedy, my second in command, 1855.

gave me the most valuable co-operation, and from him, as well as the reports of the other officers, I feel justified in placing before you the names of the following warrant officers and men, who, under fire, behaved remarkably well, viz.: Mr. Richard Verey, Acting Gunner of Her Majesty's ship *Ardent*; Thomas Kerr, Gunner, Royal Marine Artillery, Her Majesty's ship *Vesuvius*; Peter Hanlan, A.B., Her Majesty's ship *Curlew*; David Barry, A.B., Her Majesty's ship *Cracker*.

The enclosed plan, illustrative of our operations, by Mr. George Perry, Acting Master of the *Vesuvius*, will, I trust, be of use, and I beg you will allow me to call your attention to the unvarying zeal of that officer.

FROM THE
LONDON GAZETTE of DECEMBER 11,
 1855.

Foreign-Office, December 11, 1855.

THE Earl of Clarendon has received a Despatch from Major-General Williams, K.C.B., Her Majesty's Commissioner attached to the Turkish Army in Asia, of which the following is a copy :

MY LORD, *Kars, October 31, 1855.*

In my despatch of the 3rd instant, in which I had the honour to detail the movements of the battle on the heights of Kars, I omitted to state that the enemy in his retreat left a tumbril on the field.

I have now great pleasure in stating for your lordship's information that immediately after the battle, His Excellency the Mushir. in virtue of the authority with which he is invested by the Sultan, conferred the second class of the Imperial Order of the Medgidieh on Lieutenant-Colonel Lake for his distinguished services on that day. On Major Teesdale, Captain Thompson, Mr. Churchill, and Dr. Sandwith, His Excellency conferred the third class of that Order, to mark his sense of their conduct and gallantry ; and on Messrs. Zohrab and Rennison he bestowed the fourth class.

As these decorations were received in view of the position which their courage and conduct so materially assisted in defending, I trust that your lordship will obtain for these Officers and Gentle-

men Her Majesty's gracious permission to accept and wear them.

His Excellency the Mushir has also named Colonel Lake a General of Brigade in the Turkish army ; Major Teesdale a Lieutenant-Colonel ; and Captain Thompson a Major in that army ; and His Excellency assures me, that he has written for the confirmation of those ranks, so honourably won on the battle-field by the Officers in question.

And whereas, by an Order in Council of the twenty-first November last burials were directed to be discontinued in the parish churchyard, GAINSBOROUGH, from the first of September, one thousand eight hundred and fifty-six, and it seems fit that the said Order should be varied; Now, therefore, Her Majesty, by and with the advice of Her Privy Council, is pleased to order, and it is hereby ordered, that one body may be buried in the vault of the Lord of the Manor in that churchyard, provided the coffin be embedded in a layer of powdered charcoal four inches thick, and that the vault, when opened, be closed up with brick work properly cemented; also that in the vacant part of the burial-ground of the Lord of the Manor, six bodies may be buried, and in the

C. C. Greville.

At the Court at *Windsor*, the 7th day of
December, 1855.

The QUEEN's Most Excellent Majesty in Council was pleased to order that the representation of the Right Honourable Sir George Grey, one of Her Majesty's Principal Secretaries of State, that no new burial-ground should be opened in any of the undermentioned parishes without the previous approval of one of Her Majesty's Principal Secretaries of State, and that burials should be discontinued therein, with the following modifications :

Guildhall, December 4, 1855.

This day the Right Honourable the Lord Mayor and the Deputation of Aldermen and Common Councilmen of the city of London waited upon His Majesty the King of Sardinia with the following Address, which was read by the Right Honourable J. A. Stuart Wortley, M.P., the Recorder, and which His Majesty, was pleased to receive very graciously :

To His Majesty the KING of SARDINIA.

The Address of the Lord Mayor, Aldermen,
and Commons of the city of London, in
Common Council assembled.

May it please your Majesty,

We, the Lord Mayor, Aldermen, and Commons of the city of London, in Common Council assembled, desire to offer to your Majesty our heartfelt congratulations on your Majesty's arrival in

this country, as the honoured guest of our beloved and Most Gracious Queen ; and, on behalf of our fellow-citizens, and for ourselves, we humbly tender to your Majesty the warmest expressions of our gratitude for the welcome visit to our city with which you have deigned to honour us this day.

We hail the arrival of your Majesty as a happy proof of the extension of those friendly and intimate relations, which it is the wish of this people to cultivate with all nations, and which are daily drawn closer by the cordial intercourse of Sovereigns, the interchange of mutual courtesies, and the progress of unrestricted commerce.

We see in your Majesty the representative of a long line of illustrious Sovereigns, and rejoice to find their throne filled by one who, in the present momentous epoch, has joined his arms to those of France, Turkey, and England, and who has not only avowed his desire to participate in the triumph of the high principles for which the Allied Powers are now resolutely contending, but, animated by the generous sentiments of the Subalpine people, his subjects, and the traditions of the House of Savoy, has heroically thrown himself into the cause of justice and civilization, and with the resolution to persevere until a durable peace, guaranteeing to every nation its legitimate rights, shall be obtained.

It is with solemn gratitude to the Almighty Disposer of events, that we reflect upon the unbroken success which has proved the superior power and bravery of the allied armies and fleets, supported as they have been under almost incredible labours and privations by a lofty sense of the righteous cause in which they are engaged, in which the arms of Sardinia have borne so glorious a part.

Our Most Gracious Sovereign and Her illustrious Allies, undazzled by the splendour of repeated triumphs and the continued progress of victory, seek no more than to vindicate the rights of nations, and secure a lasting and honourable peace.

In the contest for this high purpose, our beloved Queen, acting in concert with Her Allies, may firmly rely on the strongest and most cheerful efforts of the loyal citizens of London, and of all Her people, united as they are in duty and affection to Her Majesty's person and government, and in determination to defend the cause of national independence and of civil and religious liberty.

With feelings of deep respect, it is our earnest prayer that life and health may, by the blessing of Divine Providence, be vouchsafed to your Majesty for many succeeding years in the government of a free, brave, and enlightened people.

Signed by order of the Court,

H. A. Merewether.

To which Address His Majesty was pleased to return the following most gracious Answer :

My Lord Mayor,

I offer my heartfelt thanks to you, to the Aldermen, and to the Commons of the city of London, for the cordial congratulations which you present to me, on the occasion of my visit to Her Majesty the Queen, and to the British Nation.

The reception that I meet with in this ancient land of constitutional liberty, of which your Address is a confirmation, is to me a proof of the sympathy inspired by the policy I have hitherto pursued, a policy in which it is my intention constantly to persevere.

The close alliance existing between the two

most powerful nations of the earth is honourable alike to the wisdom of the Sovereigns who govern them and to the character of their people. They have understood how preferable is a mutually advantageous friendship to ancient and ill-defined rivalry.

This alliance is a new fact in history, and is the triumph of civilization. Notwithstanding the misfortunes which have weighed upon my kingdom, I have entered into this alliance, because the House of Savoy ever deemed it to be its duty to draw the sword when the combat was for justice and for independence,

If the forces which I bring to the Allies are those of a state not vast, I bring with them, nevertheless, the influence of a loyalty never doubted, and supported by the valour of an army always faithful to the banners of its kings.

We cannot lay down our arms until an honourable, and therefore durable, peace has been secured. This we shall accomplish by seeking unanimously the triumph of true right and the just desires of each nation.

I thank you for the good wishes you this day express for my future happiness, and for that of my kingdom.

While you thus express yourselves with respect to the future, it gives me pleasure to speak of the present, and to congratulate you on the high position attained by Great Britain. This is to be attributed to the free and noble character of the nation, and also to the virtues of your Queen.

And we do further order and direct that the term "by the post" used in this Warrant, or in the schedule hereunto annexed, shall include the conveyance by any British, foreign, or colonial packet-boat, and also by private ship; and that the term "British newspapers," shall mean newspapers printed and published in the United Kingdom, whether they bear a newspaper stamp or not, and that the several other terms and expressions used in this Warrant, or in the schedule hereunto annexed, shall be construed to have the like meaning in all respects as they would have had if inserted in the said Act passed in the fourth year of the reign of Her present Majesty hereinbefore recited.

SIR,

I BEG to hand you the translation of a Notice to Mariners issued by the Netherland Minister of Marine, and published in the Netherland Staats Courant, of 4th December, 1855, No. 287, relative to a vessel sunk in the Goree Channel.

I have, &c.,

(Signed) JAS. H. TURING.

To the Secretary of the Board of Trade,
Marine Department, London.

(Copy.)

NOTICE TO MARINERS.

THE Minister of Marine hereby gives notice, that in the middle of the navigable channel of Goeree, at a cable's length distance to the south of the black buoy No. 6, a brig has sunk in a depth of $3\frac{1}{2}$ fathoms at ordinary low water, the masts of which are still visible, and that the needful measures have been taken should the masts come out of the ship, to indicate the spot of

danger by a wreck buoy, painted in black and white checks.

Its bearings and soundings are three times the thickness of the steeple of Goereede to the east of the foot of the high sandhill, or exactly between the third and fourth dykes, the third dwelling-house within the Dirkland Sas, in the Goeree Harbour,

In soundings, Goedereede, S.W. $\frac{1}{4}$ W., by unadjusted compass.

The Hague, the 3rd of December, 1855.

For the Minister aforesaid.

The Secretary-General,
MULLER.

LONDON GAZETTE of DECEMBER 18,
1855.

War-Department, December 18, 1855.

LORD PANMURE has this day received a Despatch and its Enclosures, of which the following are copies, addressed to his Lordship by General Sir William Codrington, K.C.B.

Sevastopol, December 4, 1855.

MY LORD,

The enemy continue to fire occasionally, and sometimes heavily, on parts of the town. They must have expended a considerable quantity of valuable ammunition without causing us any loss or inconvenience. The enclosed Casualty Return is the first of the sort I have had occasion to report to your Lordship.

It may seem unimportant to refer to the state of roads and weather here, but their condition affects the essential communications and well-being of the army. The winter broke upon us suddenly on the 26th and 27th with snow, and has varied with gales and rain; and a very deep state of the ground has damaged all communications.

Constant presence of labourers and constant attention are requisite, and are being given to the road, which, from a peculiarity of soil and condition, was worked into holes, but which is and will continue to be of the greatest service to the army and its supplies.

I have, &c.,

W. J. CODRINGTON,

General Commanding.

P.S.—I beg leave also to forward the weekly report of Dr. Hall, the principal Medical Officer, by which your Lordship will perceive that the general state of health of the army continues favourable.

W. J. CODRINGTON,

General Commanding.

Enclosure 3.

Head Quarters, Camp, Crimea,
December 4, 1855.

SIR,

I am glad to be able to point out a continuance of the favourable state of the health of the Army.

The weather has been boisterous, wet, cold, and changeable, which has occasioned an increase of catarrhal affections, and added some cases of catarrhal ophthalmia to our list; but the admissions under this head have decreased nearly one half during the present week, and it is to be hoped by care and removal of those labouring under the complaint to the monastery, that the disease will not extend.

There has been a decrease in the number of admissions from fever, but an increase of mortality, confined chiefly to the Land Transport Corps, as 14 out of the 19 deaths that occurred during the week took place in that branch of the service alone. This corps has a heavier sick list than any division of the Army, which is not to be wondered at, as many of the Europeans have recently arrived in the country, and are not yet acclimated, and the natives bear fatigue, and the vicissitudes of weather, like that which we now have, but ill.

The following show the ratios of sickness and mortality during the week :—

	per cent.
The admissions to strength have been	2·01
Deaths to strength - - -	0·07
Exclusive of Land Transport -	0·04
Sick to well - - - -	6·08
Exclusive of wounds and injuries	4·90

J. HALL,

Inspector-General of Hospitals.

General Sir William Codrington, K.C.B.,
Commanding-in-Chief.

Admiralty, December 14, 1855.

Despatches, of which the following are copies, have been received from Admiral Sir Edmund Lyons, Bart., G.C.B., Commander-in-Chief of Her Majesty's Ships and Vessels in the Mediterranean and Black Sea.

No. 962.

Royal Albert, Kazatch Bay,

SIR,

December 1, 1855.

I request that you will lay before the Lords Commissioners of the Admiralty the enclosed copy of a letter from Captain Sherard Osborn, of the *Vesuvius*, dated the 24th ultimo, informing me that as the formation of ice had commenced in the Sea of Azof, and as he had been informed by both M. Gopcevitich, the Austrian merchant, charged with the shipment of corn in Austrian vessels, and by the Russian authorities at Mariaupol, that all chance of neutral vessels obtaining cargoes this year was at an end, he had withdrawn to Kertch with the squadron under his orders, after assuring himself that no merchant vessels remained in that sea.

I have so frequently had occasion to bring the merits of Captain Osborn under their Lordships' notice, that it is perhaps unnecessary, on the present occasion, that I should say more than that he has maintained his high character up to the close of the service upon which he was employed for six months; and he brings under my favourable notice the gallant and zealous support he has received, from first to last from the officers and men under his orders.

I am, &c.,

(Signed)

EDMUND LYONS,

Rear-Admiral and Commander-in-Chief.

The Secretary of the Admiralty, London.

No. 42.

Vesuvius, off Kertch,

SIR,

November 24, 1855.

Being now, in accordance with your instructions, on my road to rejoin your flag, I have the honour to report the close of operations in the Sea of Azof, and the proceedings of the squadron in that sea, subsequent to my last letter, dated off Gheisk, 7th November, 1855. On the 7th, I received your instructions, with notices relative to neutrals quitting the Sea of Azof on the 20th November, 1855.

The weather became most severe, and I could only succeed in serving the notices upon the authorities on shore at Mariaupol.

But on the 8th November, 1855, the shipping anchored off Mariaupol were duly warned, and on the 9th those off Taganrog likewise.

A gale of extreme violence from the eastward blew continually from that date until the 18th November, I then immediately served a notice upon the neutral shipping in Berdiansk.

There, from Mr. Gopceovich, as well as previously at Taganrog and Mariaupol, we learnt that the Russian authorities had kept the neutrals in quarantine ever since their arrival, and that the likelihood of cargoes being procured was almost at an end.

A Russian officer at Mariaupol laughed at the idea of the neutrals believing they would get wheat this year, and told Commander Kennedy, whom I sent in there with a flag of truce, that the neutrals must stay the winter.

Under these circumstances, looking to your wishes and instructions upon the subject, it became a cause of great anxiety for me lest, by the sudden commencement of winter, or intentionally, the neutral vessels should fail to quit the sea on the 20th November, 1855.

I, therefore, as the ice had begun to make and the temperature to fall rapidly after the 13th, despatched all the squadron to Kertch, except the Ardent, Snake, and Clinker, and with them proceeded up the Gulf of Azof.

We arrived off Mariaupol on the 19th and found all the neutrals had sailed for Kertch, and on the 20th I sighted Taganrog and found the roads empty, all the vessels that were there having likewise left.

The ice already extended on either hand some miles from the shore, the Don appeared to be frozen, and every indication of winter having set in in that neighbourhood, was apparent.

At Mariaupol the river or harbour was frozen, and much ice lined the coast as far down as Biełosarai Lighthouse; the temperature at mid-day as low as 29° Fahrenheit.

From thence I separated the squadron so as to examine the whole coast from Ghenitch to Enikalé Lighthouse, most minutely, and not a single boat of the smallest description was to be seen.

In surrendering into your hands the prominent position in which you have been pleased to employ me for the last five months, that of Senior Officer of a detached squadron, allow me, Sir, to express, most respectfully, my deep sense of the honour you conferred upon me, and the grateful recollection of the unvarying kindness, confidence, and consideration I have experienced at your hands; without it I feel I never should, as I trust I have, succeeded in carrying out your views and instructions.

Next to that let me again remind you that my anxiety to execute your plans has ever been an easy task, supported as I have ever been by the gallant and zealous exertions of every officer and man serving in this squadron; I know not how

sufficiently to express my approbation of their conduct.

And it is not the less pleasing part of my duty to assure you of the kindly co-operation I have ever received from the officers of the French Navy serving in the Sea of Azof. Among those more especially known to me, I feel justified in mentioning Lieutenant Cloué, commanding the Brandon; Lieutenant La Juchette, Fulton; and Lieutenant Vidal, of the Caton.

I have, &c.,
(Signed) S. OSBORN.

War-Department, December 20, 1855.

Lord Panmure has received from the Field-Marshal Commanding-in-Chief the reports, of which the following are copies, addressed by Lieutenant-General Sir Harry D. Jones to General Sir James Simpson, K.C.B.

*Head-Quarters, Sevastopol,
September 9, 1855.*

SIR,

The long and eventful siege of Sevastopol having been brought to a successful termination, I beg leave to draw your Excellency's attention to the services of the Officers of Royal Engineers who have been employed in carrying on the siege works.

Many of these Officers have been continuously on duty since 8th October last, and have been in the trenches 76, 97, and 108 days and nights.

I beg leave to mention the name of Lieutenant-Colonel Chapman, C.B., who has been employed with the army since the arrival of the first detachment at Gallipoli; and since March last, when Colonel Gordon was wounded, and unable to perform the duties of the siege as Senior Officer of Engineers, he has had to make all the necessary arrangements for the daily carrying on of the duties: this has been performed by him in the most zealous and energetic manner, under great exposure to fire, to my entire satisfaction. Major Bent has been doing the duty of Director of the Left Attack since March last; the duties of that Officer are very onerous, and these he has performed in a most zealous and praiseworthy manner. During the above period Major Bent must have been under fire twice, if not thrice, in every twenty-four hours. Captain Brown, who was recently severely wounded, performed for some time the office of Director of the Right Attack, and so has also Captain Cooke.

Captain Ewart, the Adjutant to the Sappers and Miners, has carried on the duties of the parks which are extremely troublesome, and requiring great attention, in the most zealous and satisfactory manner.

I do not trouble your Excellency with the

names of the Subalterns of Engineers, as they are not eligible for promotion under the existing regulations.

Nothing could exceed the zealous and praiseworthy manner in which they have invariably performed their duties.

Several have been more than once wounded, and many have died from wounds, or from sickness caused by exposure to the great heat in the trenches.

I wish to bring promptly under your notice Major Bouchier, my Brigade Major, who has rendered me very great assistance throughout the whole siege, and Lieutenant Cowell, my Aide-de-Camp, who has, during the siege, proved himself most useful by his professional knowledge as an Officer of Royal Engineers, and by his general military acquirements. Of the Assistant Engineers, I cannot speak too highly in praise of the zeal and intelligence they have displayed, and I beg leave to enclose the names of those who, from their long service at this siege, I consider deserving of promotion.

I have, &c.;

(Signed) HARRY D. JONES,
Lieutenant-General, Commanding
Royal Engineers.

Extract from Lieutenant-General Sir Harry Jones,
K.C.B., report to General Simpson.

Head Quarters, Sevastopol,

SIR, *September 20, 1855.*

This long siege of 337 days having been brought to a successful termination, I am extremely desirous to bring under your Excellency's notice the services of a most gallant and zealous body of Officers. I allude to the Subalterns of the Royal Engineers, who, from the constitution of their corps, in which promotion goes by seniority, are never promoted into other branches of the service, which was the reason why I did not include in my recommendatory list the names of those individuals who have particularly distinguished themselves, trusting to the opportunity which would be afforded me of bringing their names forward specially.

During the recent siege, the duties of the trenches fell very severely on the Subalterns of Engineers; throughout the whole of the winter they were constantly on duty, and as their numbers were small, the tour of each individual returned at short intervals—nothing but great zeal and spirits carried them through the severe work they had to perform.

The following short statement will enable your Excellency to see how a Subaltern of Engineers was called upon to do duty in the trenches, several

more than once wounded and others contused; the following figures refer to some of the survivors :

	33 days or nights.	
108	”	”
32	”	”
46	”	”
97	”	”
62	”	”
65	”	”
78	”	”

It must be borne in mind that these tours of duty always brought the individual under fire, and in the winter months they were exposed to all the severities of the season.

Several of the Subalterns distinguished themselves on several occasions in the attacks upon rifle pits, quarries, &c. Such services, I trust, will not be allowed to pass without reward.

(Signed) HARRY D. JONES,
Lieutenant-General Commanding
Royal Engineers.

The following are the names of the Officers who particularly distinguished themselves :

General Simpson, &c., &c.,
Commander-in-Chief.

I can most conscientiously corroborate every word expressed by Sir Harry Jones in this letter. The arduous and always dangerous duties in which the Engineer Officers were continually employed, have all along, during this siege, been deserving of my praise and admiration. Their untiring perseverance and frequent acts of gallant conduct are beyond all praise; and I here desire to record my high approbation of these Officers named by Sir Harry D. Jones, and my strong recommendation of them to Viscount Harling's favour.

*Board of Trade, Whitehall,
December 24, 1855.*

The Right Honourable the Lords of the Committee of Privy Council for Trade and Plantations have received, through the Secretary of State for Foreign Affairs, a copy of a Despatch from Her Majesty's Consul at Jassy, reporting that the Imperial Government of the Sultan has permitted the export of timber and salt from Moldavia, by way of the Danube, subject to the regulations, of which the following is a translation, and which have been framed with a view to prevent the export of the articles in question to Russia.

ART. I.—Any person, desiring to export timber will be required, in the first instance, to make a declaration in writing at the Custom House (Périalabie), at Galatz, in which declaration it will be necessary to name the port of destination.

ART. II.—On receipt of this declaration, the Customs will, through the Captain of the Port, proceed to verify :

- 1st. The quantity of timber to be exported.
- 2nd. Its quality.
- 3rd. The name of the vessel employed for the purpose of transport, and that of the Captain.
- 4th. The flag of the vessel ; and
- 5th. The value of the timber to be exported.

ART. III.—These particulars being obtained by the Captain of the Port, it will be necessary for the exporter to deposit at the Custom House—

- 1st. A written security from a respectable merchant domiciliated at Galatz, to the effect that, in default of production at the Custom House at the expiration of five months, proof that the said timber has been landed at the

port indicated as its destination, the person so guaranteeing shall be held liable for the payment to the Custom House of a sum equivalent to double the value of the timber.

2ndly. A written declaration to the following effect :—

“For such quantity and such kind of timber which, according to my written demand, addressed to the Honourable Board of Customs (Périalabie), bearing date the _____, I have shipped on board the ship _____, under the _____ flag _____ Captain, to the port of _____ of such empire or kingdom, &c., &c., I, the undersigned, do hereby engage not to unload the said timber in any port other than the above mentioned, and under no circumstances in any port situate in the territory of Russia. To this effect, for the security of the Moldavian Government, I have this day deposited with the Honourable Board of Customs (Périalabie) the written guarantee of Mr. _____, in the manner prescribed.

Moreover, in proof of the entire fulfilment of my engagement above mentioned, I undertake to lay before the Honourable Board of Customs, before the expiration of five months from the present date, a certificate, from the Custom House of the port of destination of such timber, verifying that at such a date the said timber, in quantity and quality as before mentioned, has been truly discharged in the said port from the said ship _____ Captain _____. If at the above-named date I do not produce such certificate aforementioned in due form, such failure to produce such certificate shall be held as proof

that the said timber has been exported to a prohibited port, and in such case the person who shall have held himself security on my behalf shall be called upon to pay the amount named in the bond.

ART. IV.—Upon the delivery of such a declaration, which must be authenticated by the Board of Customs, the said Board shall deliver to the exporter a certificate in due form, in which shall be repeated the purport of the above-named declaration, after which the vessel shall be at liberty to depart.

As a guarantee against all infraction on the part of any vessel, proceedings will be adopted, as in the case of vessels ascending the Danube to their port of destination.

The above regulations shall also apply to the exportation of salt.
